PMASS00022 Incident response team member

Release 1

PMASS00022 Incident response team member

Modification History

Release 1. Supersedes and is equivalent to PMASS00007 Incident response team member.
Units updated.

Description

Incidents are controlled by an incident response team.

This skills set covers the competencies required by persons working in an incident response team. This would not normally be their full time job, but a role they assume as required by the situation.

Competency is required to be achieved prior to undertaking this role – see units for details.

This is an industry defined skill set.

Pathways Information

These units of competency can provide credit towards Certificates II and III in PMA Chemical, Hydrocarbons and Refining Training Package.

Licensing/Regulatory Information

Licensing is not required at the time of writing, although these competencies may be required under a risk management plan.

Skill Set Requirements

MSMWHS205	Control minor incidents
MSMWHS210	Undertake first response to non-fire incidents
MSMWHS212	Undertake first response to fire incidents
MSMWHS216	Operate breathing apparatus
MSMWHS217	Gas test atmospheres
HLTAID003	Provide First Aid
MSMPER200	Work in accordance with an issued permit
MSMPER205	Enter confined space
PMAWHS213	Undertake fire control and emergency rescue
PMAOMIR301	Undertake initial rescue

Target Group

Individuals who, as part of their role, are part of an incident response team when the situation requires it.

Suggested words for Statement of Attainment

These competencies from PMA Chemical, Hydrocarbons and Refining Training Package meet the minimum requirements for an incident team member.
