1	<p>This qualification was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages.</p> <p>Supersedes and is not equivalent to PUA50112 Diploma of Public Safety (Police Search & Rescue - Coordination).</p> <ul style="list-style-type: none"> • Core and elective units lists revised • Content of all units reviewed

Qualification Description

The public safety industry operates through discrete sectors. Policing qualifications have been developed to set agreed minimum standards for police personnel that should be contextualised within the specifics of each police jurisdiction/agency/organisation's policies and procedures.

This qualification allows for the attainment of general skills in police search and rescue coordination while also specialising in either marine or land search and rescue duties.

The marine specialisation covers skills that allow police staff to employ specialised knowledge and skilled practice in search and rescue coordination within a marine environment.

The land specialisation covers skills that allow police staff to employ specialised knowledge and skilled practice in search and rescue coordination within a land environment.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Additional qualification advice

The testamur can be titled: Diploma of Police Search and Rescue Coordination (field of study) i.e. Diploma of Police Search and Rescue Coordination (Marine).

Packaging Rules

5 units of competency are required for this qualification:

- 4 core units
