## **Develop and present crash findings**

**Release: 1**

# Assessment Requirements for POLINV022 Develop and present crash findings

## Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package.

## Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- developing, reviewing and appraising crash investigation reports and presentations
- evaluating evidence to inform reports
- presenting and evaluating crash investigation findings
- presenting crash evidence and findings in court.

## Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- causal factors of crashes including:
  - environmental
  - human
  - vehicle
- communication and presentation techniques
- continuous improvement procedures
- environmental factors that may contribute to crash incidents including:
  - weather conditions
  - sun positions
  - lighting
  - roadside furniture
  - road design
- evidence analysis and evaluation methods
- format and structure of crash investigation reports
- human and vehicle factors that may impact on a crash investigation
- information systems and recording methodologies for items and evidence
- jurisdictional policies and procedures relating to the presentation of evidence
- relevant information sources for crash investigations
- organisational policies and procedures related to work, health and safety (WHS)

- sources of evidence for pedestrians
- sources of evidence for specialist vehicles including:
  - bicycles
  - heavy vehicles
  - motorbikes.

## Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, such as in situations that can affect safety or occur only rarely, assessment can occur in simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals.
