Application

This unit describes the skills required to generate records for evidentiary purposes and to participate in judicial proceedings, including claiming exemptions from the provision of information.

This unit applies to those working as police officers involved in covert environments. Individuals may be tasked additional responsibilities by their jurisdiction.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to work health and safety (WHS).

Those undertaking this unit would work both autonomously and within teams as required. They would be required to apply critical thinking and analysis skills to effectively prepare and present evidence. They would show adaptability and demonstrate ethical and professional policing qualities while performing complex tasks in a broad range of contexts.

POLCOV044 Plan for intelligence activities

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package.

Application

This unit describes the skills required to plan for police intelligence activities, including establishing intelligence activity scope and managing the planning process. The planning process incorporates the assessment of risks that may influence the completion or outcomes of the intelligence activities.

This unit applies to those working as intelligence practitioners within the intelligence process in a policing environment.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to planning processes, approvals, and resource management.

Those undertaking this unit would demonstrate the ability to prioritise and evaluate information for planning purposes. They would be required to apply critical thinking and analytical skills to meet responsibilities and communicate plans to other staff. They would be expected to work both autonomously and within teams as required. They would perform complex tasks and demonstrate ethical and professional policing qualities, displaying adaptability across a broad range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1 Establish intelligence activity scope	**1.1** Identify intelligence requirements in line with jurisdictional priorities
	1.2 Identify clients and stakeholders to facilitate communication and establish ownership of the intelligence activity
	1.3 Identify client and stakeholder expectations to formulate intelligence objectives and priorities
	1.4 Negotiate timeframes and activity scope in accordance with client and stakeholder requirements
	1.5 Identify potential implications and constraints that may impact upon the activity
2 Develop an intelligence plan	**2.1** Identify intelligence objectives and key issues to direct and inform intelligence activities
	2.2 Select methodologies to complete activity objectives
	2.3 Identify resources required to achieve intelligence objectives
	2.4 Negotiate with clients and stakeholders for allocation of resources
	2.5 Consider potential risks to the delivery of the activity in order to identify and implement mitigation measures
	2.6 Generate intelligence plan for recording, approval and implementation purposes

Assessment Requirements for POLCOV044 Plan for intelligence activities

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- aligning identified activities with jurisdictional priorities
- applying critical thinking and analytical skills
- developing and recording intelligence plan, including aims, objectives and key issues
- establishing intelligence activity scope including:
  - implications and constraints
  - objectives and priorities
  - resources
  - timeframes and phases
- evaluating and responding to activity risks
- evaluating strategies, methodologies and information collation techniques to best achieve intelligence objectives
- identifying financial, human and physical resource requirements and limitations
- liaising and negotiating with clients and stakeholders.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- Commonwealth, state and territory legislation applicable to intelligence practice, including privacy, freedom of information, security classifications, and the collection of information
- communication and negotiation techniques
- critical thinking and analytical skills
- information security principles
- jurisdictional goals and organisational objectives
- jurisdictional information management systems, including intelligence databases
- jurisdictional policies, procedures and memoranda of understanding related to the sharing of information, planning processes, resource management, and information sourcing processes
- risk mitigation measures.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, such as in situations that can affect safety or occur only rarely, assessment can occur in simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals.

POLCOV049 Provide intelligence support to policing responses

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package.

Application

This unit describes the skills required to plan intelligence support, manage information and the intelligence process, and provide assistance and support to policing responses.

This unit applies to intelligence practitioners working in a policing environment required to support strategic, tactical and operational contexts by providing reliable advice to the policing decision makers.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to the management and classification of intelligence information, provision of support and review of intelligence responses.

Those undertaking this role would demonstrate high level analytical, problem solving, communication, planning, decision-making and information management skills. They may or may not have responsibility for directly supervising others, and would complete complex tasks independently in a broad range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

POLCOV051 Manage threat assessments and risk reporting in a policing environment

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package.

Application

This unit describes the skills required to manage threat assessments and risk reporting in a policing environment. It includes identifying threats, determining vulnerability, developing and documenting threat assessment strategies, and implementing and monitoring risk reporting strategies.

This unit would be implemented during threat assessments in support of all stages of the risk management cycle and models within a policing environment. These include responses to work health and safety (WHS) risks, risks to the organisation's reputation, and risks to the completion of intelligence projects.

This unit applies to police staff who identify and describe threats in consultation with stakeholders, analyse and evaluate such threats to identify appropriate risk reporting strategies and to provide progress reports to stakeholders.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those associated with threat assessment and risk management.

Those undertaking this unit would demonstrate strong autonomy in the course of performing complex tasks in a broad range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions may be found in the POL Police Training Package Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is not equivalent to POLCOV010 Manage threat and risk in a policing environment.

Assessment Requirements for POLCOV051 Manage threat assessments and risk reporting in a policing environment

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying analytical techniques to identify indicators of threat
- communicating effectively to inform relevant stakeholders
- defining threat assessment issues and limitations
- using research methods to inform threat assessment
- developing threat assessment
- documenting research and threat assessment process
- evaluating and prioritising threats to inform risk management strategies
- identifying potential problems with development of threat assessments
- identifying relevant stakeholders related to threat assessment
- identifying threats in policing contexts using multiple sources
- monitoring and responding to changes in circumstances and environment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- analytical methods for assessing threat indicators
- decision making and prioritisation techniques
- differences between threat assessments and risk assessments
- jurisdictional communication methodologies
- jurisdictional reporting and recording processes for tracking threat assessments
- jurisdictional strategic planning processes and techniques
- principles of good practice in threat assessments
- research methods for threat assessments
- risk management concepts, principles and strategies
- referral process for threat assessments.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, such as in situations that can affect safety or occur only rarely, assessment can occur in simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals.

POLFOR001 Apply specialised forensic science techniques

Modification History

Release	Comments
1	This unit was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PUAPOL806 Apply specialised forensic science techniques. • Content and formatting updated to comply with new standards • Unit recoded POL • New PC added to Element 2 and 3 • Three new PC added to Element 5 • PC 2.1, 2.5 and 3.3 revised • PC 2.2 and 2.3 merged • PC 6.4 and 6.5 merged • PC 4.4, 4.5, 4.6 and 4.7 removed

Application

This unit describes the skills required to apply specialised forensic techniques within crime scene investigations. This includes identifying, enhancing, recording and analysing evidence.

This unit applies to specialist police staff as part of the forensic investigation of crime or incident scenes.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to continuity of evidence, forensic information management, work health and safety (WHS) and quality management.

© Commonwealth of Australia, 2025 Public Skills Australia

Those undertaking this unit would be required to work autonomously and as part of a team. They would demonstrate the ability to critically analyse and evaluate crime scene related evidence to develop and test hypotheses. They would demonstrate knowledge of sciences as they apply to crime scene investigation. They would perform sophisticated tasks requiring strong adaptability across a broad range of unpredictable contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Assess biological and non-biological evidence	1.1 Identify physical characteristics of biological evidence materials to determine their evidentiary value. 1.2 Identify physical characteristics of non-biological evidence materials to determine their evidentiary value.
2. Apply presumptive/confirmatory testing and enhancement techniques	2.1 Select advanced forensic techniques for the examination of trace/gross biological and non-biological evidence material. 2.2 Identify presumptive and/or confirmatory tests to determine sequence of forensic processing. 2.3 Conduct field based presumptive and/or confirmatory tests to determine the evidentiary value. 2.4 Select enhancement techniques and their sequence to maximise evidentiary value. 2.5 Conduct enhancement techniques to assist in location, recording, collection and interpretation of physical evidence.
3. Perform comparative analyses of physical evidence	3.1 Identify options for comparative analysis technique/s to maximise evidentiary value. 3.2 Select comparative analysis technique/s to maximise evidentiary value. 3.3 Conduct comparative analysis examinations to establish an opinion on inclusion/exclusion or insufficiency. 3.4 Verify examination results to substantiate the opinion on individualisation, inclusion/exclusion or insufficiency. 3.5 Record examination and results to substantiate the opinion.

4. Record examinations using forensic photography	4.1 Assess crime/incident scene to select photographic technique/s. 4.2 Apply photographic techniques in a methodical and sequential manner to record scene/incident/evidence. 4.3 Apply light theory to determine techniques for photographic recording of evidence. 4.4 Manage continuity of photographic images used for specialist examinations.
5. Examine evidence found on/associated with a human body	5.1 Assess human body to locate evidence. 5.2 Select enhancement techniques and their sequence to locate, record and collect evidence. 5.3 Apply forensic techniques to record and collect evidence from human body. 5.4 Interpret the nature of wounds/injuries to inform the investigation. 5.5 Interpret characteristics of human body associated with death to inform the investigation. 5.6 Compare available information with examination of human body to verify or disprove information.
6. Evaluate results of scientific examinations	6.1 Review examination results for reliability and justification. 6.2 Evaluate significance of the evidence to form a conclusion or opinion within the context of the investigation. 6.3 Gather further information on evidence to validate conclusions/opinions. 6.4 Collate information related to the forensic investigation for reporting purposes.

Assessment Requirements for POLFOR001 Apply specialised forensic science techniques

Modification History

Release	Comments
1	These Assessment Requirements were released in POL Police Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- assessing characteristics of biological and non-biological evidence
- identifying and applying advanced forensic techniques to examine evidence
- determining sequence of examinations
- identifying and applying enhancement techniques
- performing comparative analyses through the application of advanced forensic techniques
- recording information
- applying scientific methodology to support forensic analyses, logical thinking and problem solving within a crime/incident scene investigation
- demonstrating forensic photographic techniques to record results, including exposure, lighting, viewpoints and composition
- recording results in complex photographic situations, including macro, highly reflective or curved surfaces, low contrast and large scale low light circumstances, and multi-colour/multi contrast instances
- managing continuity of evidence
- using specialised forensic technology and equipment
- identifying, enhancing, recording, collecting and analysing evidence using various techniques
- gathering and collating information
- interpreting and evaluating information and opinions to inform the investigation

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- jurisdictional coronial and criminal legislation related to forensic investigation
- jurisdictional information management systems
- jurisdictional policies and procedures related to forensic investigations, including quality management systems, occupational/workplace health and safety, forensic photography and expert evidence
- fundamental principles of physics and how they are applied within a forensic environment (including mechanics and motion, forces, trajectory, electricity)
- fundamental principles of mathematics and how they are applied/calculated within a forensic environment (including trigonometry, triangulation)
- fundamental principles of chemistry (including behaviour of acids and bases, catalytic reactions)
- fundamental principles of biology (including molecular biology, cell structure function and replication, serology)
- human anatomy and physiology (including terminology, structural organisation, body systems, death processes and indicators)
- scientific methodology
- five stages of Disaster Victim Identification
- principles and definitions of comparative analysis (including pattern recognition, class and individual characteristics)
- advanced forensic techniques (including optical, physical and chemical enhancement)
- supporting scientific principles and operating principles of specialised forensic techniques
- limitations and sensitivity of presumptive/confirmatory tests
- illumination techniques (including visible, polarising, bright and dark field techniques)
- post-mortem medical process and procedures

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

This unit has been identified by industry as suitable for holistic assessment. Refer to advice in the Assessment Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Develop plan for complex crime/incident scene investigation	1.1 Establish type and nature of incident to determine the methodology and resource requirements. 1.2 Conduct an initial assessment of the incident to identify potential risks. 1.3 Assess the incident to determine what additional services may be required to progress the investigation. 1.4 Assess the forensic investigation plan continually to adjust to developments within the incident scene and/or new information. 1.5 Analyse information to develop a forensic investigation plan.
2. Manage complex crime/incident scene investigation	2.1 Conduct an initial assessment of scene/s to prioritise the order of examination and collection of evidence. 2.2 Perform a methodical search to identify and locate physical evidence. 2.3 Determine the sequencing of evidence collection and the use of resources to maximise evidentiary value. 2.4 Apply evidence collection techniques and sequencing to preserve evidence and prevent contamination. 2.5 Evaluate the evidence collection techniques to identify whether further evidence collection is required. 2.6 Interpret physical evidence and available information in order to develop a hypothesis. 2.7 Perform reconstructions and/or testing regimes to test hypothesis. 2.8 Negotiate stakeholder requirements throughout the forensic

	investigation. 2.9 Assess the incident continually to identify and manage potential risks.
3. Apply specialist forensic techniques	3.1 Assess evidence to determine whether specialist forensic techniques and evidence enhancement methods are required. 3.2 Select recording methods to maximise evidentiary value. 3.3 Record characteristics of evidence for further specialist analysis. 3.4 Select collection and preservation techniques to protect evidence and prevent loss or cross contamination. 3.5 Apply evidence enhancement methods to maximise evidentiary value. 3.6 Facilitate the analysis of evidence by specialists for interpretation/identification purposes.
4. Review examination critically	4.1 Summarise information gathered during the forensic investigation to develop initial interpretations. 4.2 Assess the outcomes of the forensic investigation to reach a conclusion for recording and reporting purposes. 4.3 Analyse the outcomes of the examination to inform the current investigation. 4.4 Review forensic investigation and outcomes of examination to determine whether investigative needs have been met. 4.5 Liaise with stakeholders to determine whether further forensic investigation is required.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- analysing information to establish type of incident, resources required, and risks
- locating and identifying evidence, using evidence collection techniques
- interpreting, developing and testing hypotheses
- liaising with internal and external agencies, services and specialists
- identifying the need for, and facilitating, specialist forensic analysis of evidence
- recording, collecting and preserving evidence
- applying specialised forensic technology when investigating complex scene/incidents, including reconstructions, enhancement techniques and testing
- applying scientific principles to interpret information
- communicating with diverse stakeholders and interpreting complex concepts for diverse audiences
- applying scientific methodology to support forensic analyses, logical thinking and problem solving within a crime/incident scene investigation
- evaluating and reviewing examinations and their results

Knowledge Evidence

Application

This unit describes the skills required to coordinate complex forensic investigations involving forensic personnel from multiple disciplines. This will include planning for multi-discipline forensic investigations, coordinating resources and personnel, and reviewing the forensic investigations. These disciplines may include internal and external agencies, external analytical laboratories and national/international organisations.

This unit applies to specialist police staff as part of the forensic investigation of complex investigations which necessitate the involvement of multiple disciplines.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- assessing information to scope multi-discipline investigation and develop an investigation plan
- conducting risk assessments which include considerations of evidence, people, work health and safety, the integrity of the investigation, and the environment
- undertaking planning activities to achieve forensic investigative outcomes
- acquiring, monitoring and deploying resources
- recording information using jurisdictional information management systems
- leading a team and managing personnel in a multi-discipline investigation
- communicating with stakeholders
- applying time management principles and prioritising examination process and workloads
- managing the safety, security, correct use and storage of resources (including equipment from other agencies)
- solving complex problems related to resource availability and competing priorities
- recording critical decisions
- evaluating information for the forensic investigation

POLFOR004 Develop forensic crime scene expertise

Modification History

Release	Comments
1	This unit was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PUAPOL809 Develop forensic crime scene expertise. • Content and formatting updated to comply with new standards • Unit recoded POL • New Element added • PC in Elements 1 and 2 reordered • New PC added to Element 1 • PC 1.10 revised • PC 2.9 removed

Application

This unit describes the skills required to develop expertise in forensic crime scene investigation. This will include conducting applied research, presenting expert evidence, conducting peer reviews, and maintaining discipline expertise.

This unit applies to specialist police staff as part of their involvement in the forensic crime scene investigation discipline.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to quality management, case management systems, forensic investigations and work health and safety (WHS).

© Commonwealth of Australia, 2025 Public Skills Australia

Those undertaking this unit would be required to work autonomously and as part of a team. They would demonstrate the ability to manage a research project, conduct peer reviews, and provide expert evidence. They would demonstrate knowledge of sciences as they apply to crime scene investigation while performing sophisticated tasks across a broad range of unpredictable contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Conduct applied research	1.1 Develop hypothesis to guide research proposal. 1.2 Conduct a literature review using various search techniques. 1.3 Justify the research proposal in relation to the forensic discipline supported by the jurisdiction. 1.4 Analyse research methodology in terms of suitability and potential limitations. 1.5 Evaluate advantages and disadvantages of data/information collection techniques. 1.6 Identify factors that may impact on reliability and validity of the results to protect the integrity of the research project. 1.7 Identify resources for the research taking into consideration cost, availability and access. 1.8 Identify alternative resources or methodologies to ensure that the scope of the research project is met. 1.9 Evaluate hypothesis against the analysis findings and legal and ethical considerations. 1.10 Review data and research findings for accuracy and compliance with legal requirements. 1.11 Report research findings to inform broader forensic community.
2. Form an expert opinion	2.1 Evaluate information relevant to the investigation critically to form an expert opinion. 2.2 Develop alternative hypotheses to test the expert opinion. 2.3 Test hypotheses against information using scientific

	methodology. 2.4 Identify the most likely hypothesis to form a basis for the opinion. 2.5 Acknowledge limitations of the information/evidence when providing an expert opinion. 2.6 Identify assumptions and factual premises on which evidence is based to support the expert opinion. 2.7 Assess the expert opinion to determine whether it withstands scrutiny. 2.8 Justify opinions by explaining the process of reasoning.
3. Present expert opinion	3.1 Validate expert opinion using peer review. 3.2 Report expert opinion to inform investigation. 3.3 Prepare demonstrative tools to assist provision of expert evidence. 3.4 Deliver expert opinion to aid judicial enquiry process. 3.5 Review expert opinion and delivery to identify future improvements.
4. Undertake peer case work review	4.1 Review case work within a quality management system to validate results. 4.2 Review information in a case file to determine quality, accuracy and completeness. 4.3 Form an independent opinion from reviewed information in isolation from the case file opinion. 4.4 Compare the independent opinion with the case findings for verification purposes. 4.5 Communicate feedback to the original author of the case file.
5. Evaluate scientific literature and research findings critically	5.1 Identify sources of contemporary information that may be relevant to forensic investigations. 5.2 Evaluate contemporary information to determine potential applicability and suitability within forensic investigations. 5.3 Develop recommendations on better practice based on contemporary research and literature.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

POLFOR023 Maintain a safe forensic working environment

Modification History

Release	Comments
1	This unit was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PUAPOLFC002B Maintain a safe forensic working environment. • Content and formatting updated to comply with new standards • Unit recoded POL • Element 6 removed • Elements 3 and 5 reworded • Two new PC added to Elements 1 and 5 • PC 1.4, 3.1, 4.3 and 5.2 revised • PC 5.1 and 5.6 removed

Application

This unit describes the skills required to maintain a safe working environment while working in a forensic role. This includes the assessment of situational risks and hazards, the safe use of equipment and consumables, and the development of risk mitigation strategies. It may be applied in the field at incident/crime scenes or in a laboratory.

This unit applies to those working as police staff involved in forensic examination.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to work health and safety (WHS).

Those undertaking this role would work independently while remaining responsible for reporting to senior staff. They would demonstrate adaptability across a broad range of contexts. while performing a range of complex tasks.

Assessment Requirements for POLFOR023 Maintain a safe forensic working environment

Modification History

Release	Comments
1	These Assessment Requirements were released in POL Police Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- identifying safety risks to develop and implement risk mitigation strategies
- communicating safety issues and concerns to stakeholders
- identifying specialist/external agency requirements to maintain a safe working environment
- selecting, using and maintaining personal protective equipment to minimise exposure to hazards
- collecting and packaging items using safe work practices
- identifying and documenting hazards relating to substances and equipment
- using, storing, maintaining and disposing of substances and equipment
- decontaminating workspaces and equipment

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- jurisdictional legislation, policies and procedures relating to forensic examination, workplace health and safety and equipment maintenance regimes
- risk mitigation strategies
- general duty of care responsibilities
- potential risks associated with field and laboratory activities
- hazardous chemicals and the associated risks

POLFOR024 Detect, record and collect forensic evidence

Modification History

Release	Comments
1	This unit was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PUAPOLFC003B Detect, record and collect physical evidence. • Content and formatting updated to comply with new standards • Unit recoded POL • Title updated • Elements 1 and 2 all PC revised • PC 3.1 and 3.2 revised

Application

This unit describes the skills required to detect, record and collect forensic evidence in order to maximise the potential evidentiary value of exhibits. This may be applied in the field at incident/crime scenes or in a laboratory.

This unit applies to those working as police staff involved in forensic examination.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to work health and safety (WHS).

Those undertaking this role would work autonomously while remaining responsible for reporting to senior staff. They would demonstrate adaptability across a broad range of contexts while performing a range of complex tasks.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Detect physical evidence	1.1 Apply search methods, observation techniques and technical methods to detect forensic evidence. 1.2 Apply screening techniques to assist in locating forensic evidence. 1.3 Assess forensic evidence to identify potential contamination or loss. 1.4 Preserve forensic evidence to maximise evidentiary value. 1.5 Assess evidence to determine suitability for recording and collection.
2. Record physical evidence	2.1 Identify recording methods to document forensic evidence and scene. 2.2 Apply enhancement techniques to assist in recording forensic evidence. 2.3 Document details of scene and evidence using note-taking techniques. 2.4 Sketch scene and physical evidence for recording purposes. 2.5 Photograph details of scene and evidence for recording purposes. 2.6 Select markers and scales to accurately represent characteristics and information of the scene.
3. Collect physical evidence	3.1 Apply swab, lifting and hand picking techniques to gather evidence and reference samples. 3.2 Gather impression evidence using photography, casting and lifting techniques. 3.3 Gather exhibits for further forensic examination.
4. Package forensic evidence	4.1 Select packaging technique to prevent degradation or contamination. 4.2 Label items to ensure easy identification. 4.3 Seal items to maintain integrity and prevent contamination. 4.4 Assess items to determine if aeration is required. 4.5 Store items to maintain integrity and continuity and to prevent degradation.

POLGEN001 Develop high performing teams within policing

Modification History

Release 2. Modifications have been made to:

- Elements and Performance Criteria
- Performance and Knowledge Evidence

Release 1. This unit was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to develop, supervise and lead high performing teams within a policing environment. This includes the support and management of individuals and teams. This unit acknowledges the unique context in which policing teams operate.

This unit applies to police supervisors.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to human resources, grievances, and equity and diversity.

Those undertaking this unit would demonstrate strong autonomy, making independent decisions and accessing support from a broad range of services. They would be responsible for supervising individuals and teams, providing guidance and assistance, and displaying leadership as part of routine command duties. They would perform complex tasks within familiar and/or unpredictable contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

POLGEN004 Conduct risk management activities in a policing environment

Modification History

Release 2. Modifications have been made to:

- Performance Criteria
- Performance and Knowledge Evidence

Release 1. This unit was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to mitigate risk in a policing environment, including completing risk assessments, developing and implementing risk management plans, and reviewing risk management activities.

This unit applies to those working as a police supervisor with responsibilities to manage risk in response to both planned and unplanned events, and more generally within the workplace. It outlines the primary responsibilities of policing in mitigating risks that could impact upon policing services and public safety.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to risk assessment and reporting obligations.

Those undertaking this unit would demonstrate strong autonomy, making independent decisions and accessing support from a broad range of services. They would be responsible for supervising small teams, providing guidance and assistance, and displaying leadership as part of routine command duties. They would perform complex tasks within familiar and/or unpredictable contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

POLGEN010 Demonstrate high level management capabilities within a policing context

Modification History

Release	Comments
1	This unit was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to demonstrate management skills in a wide range of contexts including management of projects, budgets and resources. This includes the planning, implementation, monitoring and review of project milestones, financial and procurement related activities and oversight of both human and physical resources.

This unit applies to police managers as part of their responsibilities in the organisational management within a policing environment.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to project management, financial activities and work health and safety (WHS).

Those undertaking this role would demonstrate strong autonomy while performing complex tasks including making strategic decisions and providing leadership to the jurisdiction across a broad range of unpredictable contexts. They would provide advice and influence executive decision making internally and externally.

No licensing, legislative or certification requirements apply to unit at the time of publication.

This unit describes the skills required to engage with media to assist in achieving policing outcomes, including developing and implementing media strategies. It integrates an understanding of the full spectrum of media organisations and sources, including social media, print media, and other public information sources.

This unit applies to police officers with a responsibility to manage media involvement in a range of policing activities, from public awareness campaigns to investigations.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to information security, media liaison, authorisation processes, and codes of conduct.

Those undertaking this unit would demonstrate strong autonomy, making independent decisions and accessing support from a broad range of services. They would be required to apply liaison, communication and interpersonal skills to perform complex tasks requiring strong adaptability across a broad range of unpredictable contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

POLGEN036 Work collaboratively in a team environment

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package.

Application

This unit describes the skills required for working collaboratively in team environments in order to achieve organisational objectives. It includes contributing to performance and capability within policing teams, including participating in team activities, exchanging knowledge and skills, and providing support to fellow team members.

This unit applies to those working as police staff as part of the routine team collaboration that occurs in the policing environment.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to human resource practices.

Those undertaking this unit would be expected to both contribute to and work within a team. They would be required to communicate and transmit knowledge and skills to other team members. They would demonstrate ethical and professional policing qualities, and show adaptability while performing complex tasks across a broad range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

POLINV010 Confiscate assets

Modification History

Release	Comments
1	This unit was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PUAPOL031B Confiscate assets. • Content and formatting updated to comply with new standards • Unit recoded POL • Element 1 all PC revised and reordered • Elements 2 and 3 merged and all PC revised and reordered • One new Element added

Application

This unit describes the skills required for the planning and implementation of asset confiscation operations, and includes the identification, seizure and disposal of property and assets involved in criminal activity. This includes having to refer the investigation or assets appropriation to other law enforcement agencies when required.

This unit applies to those working as police officers, generally in a designated investigation role, responsible for confiscating assets. This unit is discrete and separate from other aspects of asset and evidence handling in the investigation process.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to information security, information management systems, and codes of conduct.

Those undertaking this unit would demonstrate strong autonomy, making independent decisions and accessing support from a broad range of policing services. They would be required to possess strong decision making and problem solving skills, leadership abilities and advanced communication skills. They would perform complex tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

POLINV012 Coordinate multi-agency investigations

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package.

Application

This unit describes the skills required to coordinate multi-agency investigations including the strategic planning and coordination of multi-agency investigations budgets and other resources. It also includes identifying and providing operational security of an investigation, and post-investigation evaluation of the outcomes of a collaborative investigative exercise.

This unit applies to those working as a police officer in a designated investigation role, in a complex police operating environment where multi-agency cooperation is essential to performing a criminal investigation. The working environment would be highly sensitive to multiple risks to operations, participants and assets deployed in the investigation.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to case management, work health and safety (WHS), information management, collaborative relationships, inter-agency contractual arrangements, operational security, financial and people resource management, authority delegations and communications and presentations.

Those undertaking this unit would work autonomously in the management of complex investigations, while collaborating with others in an investigation team. They would be required to possess strong decision making and problem solving skills, leadership abilities and robust communicative competence. They would perform sophisticated tasks in a range of highly sensitive contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

POLINV014 Conduct jurisdictional review of policing practices

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package.

Application

This unit describes the skills required to perform and conduct reviews of policing practices in jurisdictions including initiating, conducting and finalising reviews. Conducting reviews within a policing environment would usually involve planning and guiding the work of jurisdictional team members.

This unit applies to those working as a police officer in a designated investigation role.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to policing practices as specified in procedures and other documents.

Those undertaking this unit would work autonomously in the management of complex investigations, while collaborating with others in an investigation team. They would be required to possess strong decision making and problem solving skills, leadership abilities and robust communicative competence. They would be expected to display high level quality assurance abilities when reviewing policing practices, while performing sophisticated tasks in a wide range of policing contexts, in both familiar and unfamiliar circumstances.

No licensing, legislative or certification requirements apply to unit at the time of publication.

POLINV015 Manage complex investigations

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package.

Application

This unit describes the skills required to manage complex policing investigations. It includes determining investigative priorities, managing investigative resources, overseeing investigations, performing quality assurance activities and conducting post-investigation reviews for continuous improvement purposes.

Complex investigations include those which involve serious offences, are high profile or sensitive. The management of investigations would usually involve planning and guiding the work of other members of an investigation team.

This unit applies to those working as a police officer in a designated investigation.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to complex investigative procedures, work health and safety (WHS), privacy and confidentiality, risk management, resource management, information management and community engagement.

Those undertaking this unit would work autonomously in the management of complex investigations, while collaborating with others in an investigation team. They would be required to possess strong decision making and problem solving skills, leadership abilities and robust communicative competence. They would perform sophisticated tasks in a wide range of policing contexts that could be both familiar and unfamiliar.

No licensing, legislative or certification requirements apply to unit at the time of publication.

1	This unit was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to plan for and manage police search and rescue (SAR) requirements, including communication with stakeholders, analysis of resources and evaluation of activities.

This unit applies to police staff involved in police search and rescue operations.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to human resource management and reporting requirements.

Those undertaking this role may work autonomously and supervising teams while remaining responsible for reporting to senior staff. They would demonstrate adaptability across a broad range of contexts while performing complex tasks.

No licensing, legislative or certification requirements apply to unit at the time of publication.

1. Plan SAR operations	1.1 Review information relating to search and rescue incident to plan operation. 1.2 Assess required resources to complete SAR operations based on available information. 1.3 Evaluate plan to determine feasibility and likelihood of success.
2. Manage SAR teams	2.1 Communicate nature of SAR incident to stakeholders. 2.2 Brief SAR teams on roles, responsibilities and activities. 2.3 Allocate tasks to team members to facilitate SAR operations. 2.4 Monitor performance of teams to adjust plan as required and identify any welfare considerations. 2.5 Relay feedback received from team to stakeholders to inform SAR operations.
3. Liaise with internal and external authorities and agencies/organisations	3.1 Provide briefings to agencies/organisations to ensure consistency of information. 3.2 Monitor resources to determine changing circumstances. 3.3 Negotiate with agencies/organisations to acquire resources for SAR operations. 3.4 Provide guidance and support to authorities and agencies/organisations to improve SAR effectiveness.
4. Manage search and rescue reporting requirements	4.1 Collate information from internal and external sources to maintain comprehensive records. 4.2 Evaluate information to determine relevance. 4.3 Identify trends from analysis of available information. 4.4 Develop recommendations for continuous improvement purposes.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- evaluating SAR incidents to determine responses
- communicating, liaising and negotiating with stakeholders
- allocating and monitoring resources
- gathering and evaluating information to identify trends
- developing and communicating recommendations for continuous improvement purposes

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- management techniques
- WHS requirements
- equipment and resources relevant to search and rescue operations
- jurisdictional SAR system
- roles and responsibilities of agencies involved in SAR
- capabilities of external agencies
- jurisdictional quality management systems
- jurisdictional policies and procedures relating to reporting requirements and media engagement management techniques
- risk management techniques and processes

POLSAR005 Undertake marine search and rescue duties

Modification History

Release	Comments
1	This unit was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to prepare marine search and rescue (SAR) responses, determine current location and destination, plan safe routes/courses, and plan marine search and rescue operations.

This unit applies to those working as police staff involved in police marine search and rescue operations. It may be applied in the field and within office environment.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to work health and safety (WHS) within a marine environment.

Those undertaking this role will work within multi-agency teams and often liaise with stakeholders, while completing complex tasks in a broad range of contexts. They will have to make decisions independently while giving consideration to financial and human resource management requirements.

No licensing, legislative or certification requirements apply to unit at the time of publication.

1. Prepare for marine search and rescue response	1.1 Establish rescue coordination centre to facilitate coordination of marine search and rescue operations. 1.2 Establish communications to facilitate flow of information. 1.3 Access jurisdictional information management systems to gather information in relation to target and vessel. 1.4 Assess characteristics of target and vessel to inform search and rescue response.
2. Determine current location, destination and resources	2.1 Gather information relating to the location and details of incident to inform marine search and rescue operation. 2.2 Identify charts, electronic navigation aids and navigation equipment to source information. 2.3 Interpret information from charts for planning purposes. 2.4 Evaluate sea state, currents and tidal patterns to identify impacts on marine search and rescue operations. 2.5 Plot current location and estimated destination of vessel in distress on a chart using marine navigation techniques.
3. Determine and plan a safe route/course	3.1 Compile operational plan, including initial search areas chart work. 3.2 Record all plots/search areas on chart using overlays and allowing for variables and prevailing conditions. 3.3 Estimate rescue asset's speeds, search time, investigation time and endurance within prevailing conditions to provide an estimated search time. 3.4 Identify potential obstacles and hazards to determine safe route/course.
4. Perform marine search and rescue response	4.1 Determine datum of target using wind and currents. 4.2 Utilise marine search strategies to inform marine search and rescue operations. 4.3 Select marine search patterns in accordance with prevailing conditions. 4.4 Identify specialist marine resources to facilitate marine search and rescue operations. 4.5 Allocate taskings for resources to facilitate marine search and rescue operations. 4.6 Modify marine search strategies using on scene intelligence.

POLSAR009 Coordinate police search and rescue operation

Modification History

Release	Comments
1	This unit was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to plan and implement search and rescue operations, as well as coordinate search and rescue (SAR) resources and employ media strategies.

This unit applies to police staff undertaking police search and rescue coordination duties.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to resource procurement, stakeholder and family liaison and work health and safety (WHS).

Those undertaking this unit would work within multi-agency teams and often liaise with stakeholders. They will have to make decisions independently while remaining accountable, as well as demonstrate the ability to display adaptability and situational awareness. They would perform complex tasks in a range of contexts, either in the field or within police station/office environment.

No licensing, legislative or certification requirements apply to unit at the time of publication.
