PPMDIK301 Perform de-inking operations

Release: 1

PPMDIK301 Perform de-inking operations

Modification History

Release	Comments
Release 1	This version released with PPM Pulp and Paper Manufacturing Training Package Version 3.0.

Application

This unit of competency describes the skills and knowledge required to prepare for, start up, stabilise and shut down systems for de-inking operations.

This unit applies to production operators who perform de-inking operations in a pulp and/or paper manufacturing facility and respond to contingencies that occur working with complex integrated equipment and continuous operations.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

De-inking Operations (DIK)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for de-inking operations	1.1 Identify production requirements and specifications to plan system operations and processes 1.2 Identify workplace health and safety hazards, assess risks and determine control measures 1.3 Identify process control points according to production specifications 1.4 Confirm availability of machine supplies

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	<p>1.5 Select, fit and use personal protective equipment according to job requirements and task to be undertaken</p> <p>1.6 Communicate production requirements and specifications, workplace health and safety and environmental requirements and operating procedures to relevant personnel</p>
2. Inspect and prepare systems for start-up	<p>2.1 Inspect de-inking and electronic control systems for warning signals or alarms</p> <p>2.2 Remove isolations according to operating procedures</p> <p>2.3 Set and confirm operational settings according to production requirements and specifications</p> <p>2.4 Complete pre-start check-ups and confirm operation of monitoring devices</p> <p>2.5 Identify and rectify common faults or refer complex faults to specialist technician</p>
3. Start up de-inking system	<p>3.1 Coordinate, communicate and implement start-up procedures for de-inking operations</p> <p>3.2 Confirm system functions by monitoring plant, equipment and control system and display monitors</p> <p>3.3 Monitor and adjust systems to rectify variations from specifications</p>
4. Implement and monitor system shutdown	<p>4.1 Coordinate and communicate planned shutdown of de-inking operations to relevant personnel</p> <p>4.2 Shut down plant or system according to productivity, workplace health and safety and environmental requirements and operating procedures</p> <p>4.3 Monitor functionality of equipment during shutdown</p> <p>4.4 Implement isolation requirements according to operating and housekeeping procedures</p>
5. Respond to unplanned shutdown	<p>5.1 Respond to unplanned faults and stoppages according to operating, emergency and workplace health and safety procedures</p> <p>5.2 Complete shutdown and isolation according to operating procedures</p> <p>5.3 Locate and rectify cause of unplanned shutdown within area of responsibility</p>

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	5.4 Communicate shutdown information to relevant personnel
6. Record and report production information	6.1 Record production and quality data and system operation information according to workplace requirements 6.2 Report problems or variations with production, quality and system to relevant personnel

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret information from workplace procedures and documentation
Writing	<ul style="list-style-type: none"> Complete records accurately and legibly using clear language and industry terminology
Oral communication	<ul style="list-style-type: none"> Provide information about start-up and shutdown operations, problems or variations with production, quality and system using clear language and industry terminology
Numeracy	<ul style="list-style-type: none"> Interpret numerical settings on instruments, gauges and data recording equipment Record numerical data for system and operational performance

Unit Mapping Information

Code and title current version	Code and title previous version	Comments	Equivalence status
PPMDIK301 Perform de-inking operations	Not applicable	The unit has been created to address a skill or task required by industry that is not covered by an existing unit	Newly created
