PPMPRM202 Perform lubrication

Release: 1

PPMPRM202 Perform lubrication

Modification History

Release	Comments
Release 1	This version released with PPM Pulp and Paper Manufacturing Training Package Version 3.0.

Application

This unit of competency describes the skills and knowledge required to lubricate equipment components and to maintain stocks of lubricants in a pulp and/or paper manufacturing facility.

The unit applies to production support operators, who undertake routine maintenance tasks for complex equipment used continuously in a pulp or paper manufacturing facility.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Preventative Maintenance (PRM)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for lubrication	1.1 Check lubrication schedules at start of shift and plan work activities according to workplace health and safety and environmental requirements and workplace procedures 1.2 Identify health and safety hazards and report safety concerns 1.3 Select required personal protective and other equipment and check for operational effectiveness 1.4 Obtain type and quantity of lubricants from storage location to fulfil schedule requirements

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.5 Communicate with equipment operator to obtain access
2. Lubricate equipment	2.1 Complete lubrication tasks according to schedule requirements 2.2 Use required lubricant type and quantity for specific equipment and components 2.3 Refill supplies throughout work activities as required 2.4 Identify any equipment issues during lubrication and advise operator or relevant personnel 2.5 Dispose of waste lubricant according workplace health and safety and environmental requirements
3. Maintain stock in lubrication store	3.1 Check stocks of required lubricant types regularly and reorder as required 3.2 Complete stocktake of lubricant stocks according to stocktake schedules and workplace requirements
4. Record and report on lubrication activities	4.1 Record lubrication activities, processes and outcomes according to workplace requirements 4.2 Raise work orders as required 4.3 Maintain records of lubricant inventory 4.4 Communicate required information to relevant personnel

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret information in maintenance schedules, workplace procedures and inventory reports
Writing	<ul style="list-style-type: none"> Complete accurate basic records in the required format
Oral communication	<ul style="list-style-type: none"> Provide clear, unambiguous information to operators about scheduling of lubrication activities and identified equipment issues
Numeracy	<ul style="list-style-type: none"> Record basic numerical data for inventory
