PPMPUL202 Store and distribute pulped product

Release: 1

PPMPUL202 Store and distribute pulped product

Modification History

Release	Comments
Release 1	This version released with PPM Pulp and Paper Manufacturing Training Package Version 3.0.

Application

This unit of competency describes the skills and knowledge required to load, unload, transport and store pulped product in a pulp and/or paper manufacturing facility.

The unit applies to production support operators who undertake routine handling and transporting tasks in a pulp manufacturing facility.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Pulping Operations (PUL)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for handling operations	1.1 Identify and confirm handling operation requirements and availability of required materials with relevant personnel 1.2 Inspect type and quantity of material for relocation and check work area for potential hazards, obstructions and spillage 1.3 Report hazards and safety concerns to relevant personnel 1.4 Select appropriate personal protective and load shifting equipment, and complete pre-operational checks to ensure operational effectiveness

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
2. Load and unload product	<p>2.1 Operate load shifting equipment according to workplace health and safety and environmental requirements and manufacturer instructions</p> <p>2.2 Use communication signals to notify nearby personnel of impending operation</p> <p>2.3 Estimate material dimensions and weight and ensure load and equipment are stable</p> <p>2.4 Load or unload product direct from the production line, maintaining situational awareness</p>
3. Transport and store product	<p>3.1 Transport product to appropriate storage location</p> <p>3.2 Identify, isolate and report non-conformant product</p> <p>3.3 Store product in approved configurations in relevant stock locations</p>
4. Document and report product information	<p>4.1 Identify products with appropriate labels as required</p> <p>4.2 Compile and verify inventory records according to workplace requirements</p> <p>4.3 Communicate problems or variations with process, product or equipment to relevant personnel</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret information in workplace procedures and documentation
Writing	<ul style="list-style-type: none"> Complete accurate basic records for inventory control, process product and equipment faults in the required format
Oral communication	<ul style="list-style-type: none"> Ask questions and actively listen to clarify handling requirements Provide clear, unambiguous verbal and non-verbal communication signals
•	<ul style="list-style-type: none"> Identify quantities and weight of material to be moved from work

Skill	Description
Numeracy	schedules <ul style="list-style-type: none"> Complete routine calculations to determine material dimensions and weights for loading and transfer
