## Qualification Description

This qualification allows for the attainment of competencies required by senior staff in a trade measurement environment. These staff may provide information and advice of a complex nature, supervise and support front line staff and conduct investigation into potential trade measurement breaches.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

## Packaging Rules

11 units of competency are required for this qualification:

- 7 core units
- 4 elective units

Choose a minimum of 2 electives from the list below.

Choose the remaining electives from the list below or from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

All elective units selected from outside this qualification must reflect the occupational learning outcomes of this AQF qualification level. Seek further advice on selecting imported units of competency in the PSP Implementation Guide.

**Elective units selected must not duplicate content already covered by other units in this qualification.**
