Assessment Requirements for PSPBDR007 Develop surveillance flight routes

Release: 1

Assessment Requirements for PSPBDR007 Develop surveillance flight routes

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- establishing, evaluating and changing flight routes in line with risk management principles
- planning and evaluating in the context of surveillance flight route development
- using technology and equipment
- communicating and liaising with diverse audiences

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- enabling and allied legislation
- policy, procedures, guidelines, protocols and standard operating procedures
- organisational and jurisdictional values/ethics and codes of conduct
- risk assessment
- flight route planning
- aircraft capability
- relevant technology and equipment
- client requirements
- workplace and industry environment
- public sector legislation including work health and safety and environment related to development of surveillance flight routes

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
