Assessment Requirements for PSPGEN133

Identify and treat risks

Release: 1

Assessment Requirements for PSPGEN133 Identify and treat risks

Modification History

Supersedes and is equivalent to PSPGEN038 Identify and treat risks.

Performance Evidence

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the job role, and on at least one occasion:

- apply legislation, standards, regulations and policies relating to risk management
- research and analyse the wider context affecting the organisation
- communicate and consult with stakeholders at each stage of the risk management cycle
- estimate and arrange resources needed for implementation of risk treatments.

Knowledge Evidence

Demonstrated knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- legislation, regulations, policies, procedures and guidelines relating to risk management
- international and Australian and New Zealand standards and guidelines on risk management.
- organisational risk management framework
- the relationship of risk to context and how context may define the risks
- the importance of consultation and communication at every stage of the risk management cycle
- risk management as a core activity of everyday work in the public sector
- the diversity of risks in the public sector.

Assessment Conditions

Skills must be demonstrated in the workplace or in a simulated environment that reflects workplace conditions.

Assessment must ensure access to:

- legislation, regulations, policies, procedures and guidelines relating to risk management
- international, Australian and New Zealand Standards and regulations in relation to risk management
- resources and equipment of the working environment.

Assessors must satisfy the Standards for Registered Training Organisations' requirements for assessors.
