| 1       | These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.  
|         | • Assessment Requirements created drawing upon specified assessment information from superseded unit |

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

• gather and analyse organisational information to build procurement profile  
• review and apply legislative, regulatory and policy requirements  
• identifying and predicting trends  
• applying the content of complex documents  
• applying complex government policy and inter-governmental agreements  
• interrogating corporate systems to obtain data  
• applying complex cost models  
• analysing complex supply chains to identify risk, vulnerability and opportunity  
• interpreting market reaction  
• documenting procurement planning decisions and expected outcomes  
• managing and update procurement plans and sub-plans in line with strategic plans and budgets  
• applying complex strategies to development of strategic plans, including corporate, budget and procurement plans and sub plans  
• exploiting organisational Enterprise Resource Planning systems (ERPs)  
• develop and manage electronic commerce  
• exploit market opportunities and initiatives in commerce
Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Commonwealth, state and/or territory, or local government legislation, regulation, policies, practices, procedures and guidelines
- international treaties relevant to trade and procurement practices
- government and inter-governmental policy and agreements in relation to procurement practices
- principles and practices associated with Corporate Social Responsibility (CSR), sustainability and environmental issues as applicable to procurement and market behaviours
- research and analysis as applied to complex outcomes, trends and predictions of markets and procurement changes
- micro and macro-economic issues applicable to market behaviours and the impact of procurement
- legal issues and determinations impacting on procurement
- implications for the organisation and for the market (suppliers) of key procurement strategies and/or arrangements
- whole of life costing considerations and value for money
- financial, costing and accounting issues relevant to procurement and contracts

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
