Application

This unit describes the skills required to access and advise on security incidents and plan an incident response within the limits of role and responsibility.

This unit applies to those working in a security role where they are expected to identify, manage, finalise and recommend actions if required.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would generally work independently and/or as part of a team, using support resources as required. They would perform routine tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.
