Application

This unit describes the skills required to intercept vehicles and assess driver compliance with legislative requirements. It includes checking and using equipment, intercepting vehicles, assessing driver compliance and acting on any non-compliances found. Knowledge of driver compliance requirements, chain of responsibility legislation and offences under all applicable legislation must be applied. This includes communicating with drivers, dealing with conflict and maintaining operational safety at all times.

This unit applies to those working in road transport regulatory roles who are authorised under enabling legislation to intercept vehicles and assess driver compliance with regulatory requirements.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, performing routine tasks in a range of familiar environments.

No licensing, legislative or certification requirements apply to unit at the time of publication.
