PSPINV003 Finalise an investigation

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to complete, review and report on the results of an investigation. It includes finalising the investigation, handling complaints and appeals, preparing an investigation report and using investigation outcomes.

This unit applies to those working in a range of regulatory work environments comprising gathering, managing and interpreting documentary evidence to determine appropriate responses including reporting and acting on investigation outcomes.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to WHS and environment in the context of investigations.

Those undertaking this unit would work independently using support from a range of established resources to perform complex tasks in a range of contexts, including some that are unfamiliar and/or unpredictable.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Investigation

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Address investigation outcomes	1.1 Complete documentation if no breach has occurred or no action is to be taken, including reasons and justification. 1.2 Prepare and submit a record of the investigation and consequent recommendations for action. 1.3 Respond to complaints, appeals and the potential role of the ombudsman. 1.4 Advise relevant personnel on the outcome of the investigation. 1.5 Make recommendation for referral to another organisation as required and document for the organisation's information.
2. Report findings	2.1 Prepare finalisation report in relation to the findings and submission of evidence, with recommendations for subsequent action if relevant. 2.2 Prepare report and refer to relevant personnel for further action.
3. Finalise investigation	3.1 Undertake self-assessment of the conduct of the investigation and provide verbal and written briefings. 3.2 Inform relevant external organisations of outcomes and document this action. 3.3 Update organisational systems regularly, contributing investigation results for the development of statistics, trends and precedents.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

© Commonwealth of Australia, 2022 SkillsIQ

ACSF levels indicative of performance:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Learning					Reading					Writing					Oral communication					Numeracy NA					

Performance variables:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

No equivalent unit.

Assessment Requirements for PSPINV003 Finalise an investigation

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- undertaking analysis and problem-solving
- engaging in exchanges of sometimes complex oral information
- varying style and language during briefings to suit audience
- writing summaries, briefing papers and reports requiring clarity, accuracy and formality of structure and language
- applying analytical techniques, logic and reasoning to identify and select avenues of inquiry and substantiate these choices

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislation relating to the offences under investigation
- investigation principles and the range of investigation techniques available
- organisational guidelines for reporting and information management
- ethical standards
- principles of equal employment opportunity, equity and diversity
- operational safety
- legislation related to anti-discrimination and disability
- different types of criminal activity and their elements
- available resources which may need to be deployed to support the investigation
- security issues and classifications
- legal and ethical considerations in investigations which involve juveniles and indigenous people

© Commonwealth of Australia, 2022 SkillsIQ

- knowledge of case management systems and the range of contexts in which they can be applied
- court procedures and evidentiary in provision of briefs of evidence for use by the prosecution
- role and functions of other agencies who work with policing in the conduct of investigations
- methods and process for subject/suspect identification and profiling

Assessment Conditions

Valid assessment of this unit requires a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when initiating investigations.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPLEG001 Comply with legislation in the public sector

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPLEGN301B Comply with legislation in the public sector. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to identify and comply with legislative requirements and report non-compliance.

This unit applies to those working in generalist or specialist work activities where it is essential to identify, understand and comply with the legislative environment within which they work.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work under supervision while performing routine tasks in range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Legislation and compliance

Assessment Requirements for PSPLEG001 Comply with legislation in the public sector

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. The candidate must demonstrate evidence of performance of the following on at least one occasion.

- undertaking research, evaluation and self-assessment
- reading complex and formal documents to identify inappropriate conduct
- communicating with others involving exchanges of complex oral and written information
- using technology to access legislative requirements

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- full range of legislation relating to the public sector, including WHS, and the key requirements of each
- public sector ethics and codes of conduct
- principles of equal employment opportunity, equity and diversity
- organisational processes for responding to legislative issues

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

© Commonwealth of Australia, 2022 SkillsIQ

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify land	1.1 Obtain sufficient details to identify the map, plan or aerial photo containing the area of land. 1.2 Locate the area of land on the map, plan and aerial photo using the information gathered.
2. Read plans and/or maps	2.1 Establish the purpose of the plan and/or map. 2.2 Identify the type of information that can be obtained from the different types of plans and/or maps. 2.3 Obtain information from the plan and/or map to suit the intended purpose.
3. Search public land records	3.1 Establish the purpose for the investigation of tenure and/or land use history to determine the level of detail required. 3.2 Access and search electronic data sources. 3.3 Identify key repositories and access data sources and historic records to obtain information relating to the identified land. 3.4 Conduct consultations when necessary to identify and/or corroborate tenure and/or land use information. 3.5 Source and analyse all available land records related to the area and compile evidence in accordance with the purpose of the investigation.
4. Interpret information	4.1 Interpret legislation relevant to the jurisdiction. 4.2 Interpret information in tenure related and land use documentation. 4.3 Obtain expert assistance for interpretation as required. 4.4 Identify and analyse evidence of past and present tenure and/or land use.
5. Record investigation findings	5.1 Compile chronology of tenure and/or land use history with sufficient detail to meet the investigations purpose. 5.2 Record history to suit the intended purpose and audience. 5.3 Present findings.
6. Organise plans/diagrams	6.1 Establish the purpose of the plan or diagram. 6.2 Access and obtain the information and resources required to arrange for the diagram or plan. 6.3 Check the diagram or plan to see that it suits the intended purpose.

Assessment Requirements for PSPLND001 Investigate tenure and land use history

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- finding information in systems, databases and other sources
- researching data repositories, including libraries and archives
- interpreting legislation and instruments
- interpreting tenure documents, correspondence, maps, plans
- reading a gazette
- using microfiche
- producing accurate reports, setting out facts in logical sequence
- making assessments of facts where interpretation is required

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- the organisation's spatial and textual information systems, databases and archival storage/s
- land tenure legislation, tenure types and the effect of these
- maps, plans, title documents and related legal matter
- sources of historical information and how to access them
- public sector legislation, including work health and safety, environment, privacy and diversity

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPLND002 Compile and check survey plans

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPLAND308A Compile and check survey plans. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to prepare a compiled survey plan to industry standards. This includes checking the plan to ensure compliance with organisational requirements and industry standards.

This unit applies to those working as land surveyors.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, while performing routine tasks in a familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Public land administration

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- compiling and preparing survey plans
- interpreting survey plans
- checking survey plans
- calculating a survey close
- converting imperial dimensions to metric
- creating an easement or covenant

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- land titles office guidelines for plan preparation and lodgement
- distance calculations and geometry
- past and current survey techniques and practices
- easement or covenant creation
- public sector legislation, including work health and safety, environment, privacy and diversity in the context of compiling and checking survey plans

PSPLND003 Assess Crown land

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPLAND401A Assess Crown land. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to assess Crown or State land in order to deal with the public land. It includes inspecting the land, liaising with stakeholders, preparing a land assessment report and reviewing public submissions.

This unit applies to those working as land surveyors.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Inspect land	1.1 Identify the purpose of the assessment to determine land evaluation criteria. 1.2 Gather the information required to identify and locate the area to be inspected. 1.3 Issue notifications of inspections. 1.4 Determine location of the site in the field. 1.5 Inspect site and conduct assessment.
2. Liaise with stakeholders	2.1 Identify all stakeholders involved in the process. 2.2 Reference stakeholders where appropriate. 2.3 Identify issues associated with the land in consultation with expert advisers.
3. Prepare land assessment report	3.1 Gather and document existing published information and field information. 3.2 Use an inventory to assess the land's capability according to prescribed land evaluation criteria. 3.3 Identify the most suitable uses for the land and list the preferred use/s. 3.4 State recommendations based on the assessment, the policies relating to the land and the reason for the assessment in the report.
4. Review public submissions	4.1 Register all submissions received in relation to the assessment and evaluate their content. 4.2 Review assessment based on the information provided in the submissions. 4.3 Make changes to the assessment as required.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPLND003 Assess Crown land

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- interpreting legislation and policies
- investigating land ownership and tenure
- undertaking historical search
- interpreting a survey plan, map and aerial photos
- using a compass and/or geographic positioning system
- locating and identifying survey marks
- measuring distances
- estimating areas
- evaluating land capability and suitability
- communicating orally with a diverse range of stakeholders
- accessing and interpreting information from natural resource databases
- preparing a natural resource inventory

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

Look for evidence that confirms knowledge and understanding of:

- legislative and organisational work health and safety requirements for working in the field
- legislation, policies and procedures for land assessments
- geomorphology and geological processes
- land management practices and principles

© Commonwealth of Australia, 2022 SkillsIQ

- vegetation identification and classification
- mathematics relating to measurement
- animal identification
- stocking rates
- survey techniques
- soil classification
- land evaluation criteria
- heritage requirements of land assessments
- Aboriginal culture and Aboriginal cultural heritage requirements of land assessments
- sustainability and environmental requirements
- interpretation of planning documents
- organisational delegations

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPLND004 Undertake native title assessments

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPLAND402A Undertake native title assessments. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to undertake native title assessments under native title legislation. It includes gathering research information for assessment of public land, liaising with stakeholders, and recording and reporting assessment outcomes.

This unit applies to those working in administration roles in land management.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, performing complex tasks in a familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Gather research information for assessment of public land	1.1 Identify the purpose of the assessment to determine the type and range of data required. 1.2 Identify land and data sources and gather all available land records related to the area. 1.3 Obtain evidence from current records to establish the status of the land. 1.4 Investigate past use of the land from historical records and compile a land use history. 1.5 Investigate tenure history and compile a report. 1.6 Check information gathered for accuracy and relevance, corroborate if necessary and interpret to provide evidence for native title assessment report/s. 1.7 Liaise with stakeholders. 1.8 Obtain expert advice as required.
2. Liaise with stakeholders	2.1 Consult a wide range of stakeholders. 2.2 Obtain expert advice as required.
3. Undertake assessment	3.1 Undertake analysis of the degree to which native title rights and interests may have been affected by land use and tenure. 3.2 Analyse evidence to determine what extinguishment exists over the land. 3.3 Make decisions and recommendations in accordance with evidence.
4. Record and report assessment outcomes	4.1 Prepare a native title assessment report to facilitate future act proposals or to assist in native title claim management. 4.2 Record assessment outcomes. 4.3 Provide reasons for recommendations in the report. 4.4 Update information systems to reflect information necessary to allow for future informed decisions to be made.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPLND004 Undertake native title assessments

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- finding information in systems, databases and other sources
- researching data repositories including libraries, archives
- interpreting legislation, instruments and organisational procedures
- interpreting tenure documents, correspondence, maps, plans
- assessing issues and making reasoned judgments about facts
- writing reports requiring formality of language and structure, setting out facts in logical sequencing concise but with sufficient detail to meet assessment purpose
- consulting with Indigenous people and expert advisers

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislation, policies and procedures relating to Crown/State land and native title
- land tenure and land status
- land information systems
- cultural and heritage factors that might affect land use
- Aboriginal customs and culture related to native title assessment
- sources of historical records and ways to access them
- public sector legislation, including work health and safety and environment in the context of native title assessments

Assessment Requirements for PSPLND005 Prepare and lodge non-claimant native title applications

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- finding information in systems, databases and other sources
- searching historical records
- filing and retrieving organisational records
- retrieving spatial and textual information from electronic information systems
- obtaining a copy of a land title
- determining ownership and tenure
- consulting with Indigenous people and expert advisers
- generating documentation to organisational standards
- applying public sector legislation, including work health and safety, environment, anti-discrimination and diversity in the context of native title investigations and non-claimant applications

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislation, policies and procedures relating to Crown/State land and native title claims
- the different types of organisational records that need to be noted or updated and in what circumstances
- organisational delegations
- cultural and heritage factors that might affect land use

© Commonwealth of Australia, 2022 SkillsIQ

- Aboriginal customs and culture relevant to native title
- sources of historical records relating to land tenures and ways to access them
- public sector legislation, including work health and safety and environment in the context of native title investigations and non-claimant applications

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessment Requirements for PSPLND006 Investigate tenure applications

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- interpreting legislation relating to Crown and/or State land administration and land management
- interpreting documents including maps, plans, aerial photos
- preparing complex land tenure and ownership reports
- determining lease conditions and/or covenants
- determining rent
- advising staff and clients on tenure administration
- negotiating rent and/or conditions, covenants, disputes
- applying public sector legislation, including work health and safety, environment, anti-discrimination and diversity in the context of tenure application investigations

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislation, policies and procedures relating to Crown/State land administration and land management, including historical background
- the different types of organisational records that need to be noted or updated and in what circumstances
- regulations and policies relating to tenure administration
- land tenure and ownership

PSPMGT001 Manage resources

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPMNGT602B Manage resources. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to manage resources in accordance with planned business strategies. It includes analysing resource requirements, developing resource plans, allocating resources, reviewing and reporting on resource usage.

This unit applies to those involved in the management of organisation resources.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously with management responsibilities, performing complex tasks in a familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse resource requirements	1.1 Develop resource bids in line with outputs identified in business plans. 1.2 Consult key stakeholders in determining the nature and level of resources required. 1.3 Analyse resource requirements to identify proposed costs and benefits. 1.4 Identify opportunities to share resources across business units within the organisation.
2. Develop resource plans to support achievement of business unit objectives	2.1 Develop resource plans that detail the acquisition and allocation of resources, and the relationship to business strategies, contingencies, plans, programs and processes. 2.2 Identify internal resourcing capabilities and external resourcing requirements. 2.3 Identify procedures for the evaluation of resource allocation. 2.4 Include processes for managing changing government priorities. 2.5 Obtain approval from senior management.
3. Allocate resources	3.1 Manage resource allocation to enable achievement of business unit objectives. 3.2 Negotiate and obtain resources within required timeframe. 3.3 Develop and implement systems to enable accurate monitoring and review of resource usage. 3.4 Incorporate efficient use of technology into work practices.
4. Review and report on resource usage	4.1 Develop and implement procedures to review resource allocation against business unit objectives. 4.2 Monitor compliance with program and project budgets and recommend and apply corrective action where necessary. 4.3 Prepare reports that indicate the level of performance achieved and any action taken to adjust or rectify procedures in meeting service and product delivery standards.

Assessment Requirements for PSPMGT001 Manage resources

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- applying legislation, regulations, policies, procedures and guidelines relating to resource management in the public sector
- using effective consultation and negotiation with stakeholders
- writing reports requiring reasoning and precision of expression
- communicating using complex exchange of oral information
- applying budgeting and financial management

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- financial management and budgetary processes in the organisation
- business strategies
- risk management concepts
- organisational goals, policies and procedures
- jurisdictional legislation and guidelines applicable to resource management, including work health and safety and environment

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Management

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Undertake human resource planning	1.1 Determine or review human resource needs in accordance with the organisation's short and long term needs, the anticipated business unit needs and the allocated budget. 1.2 Compare existing competencies of staff with the needs of the business unit and develop plans to address shortfalls. 1.3 Develop alternatives to staffing levels which meet key provisions of the human resource plan. 1.4 Recruit, select and nominate staff in accordance with business needs. 1.5 Translate the organisational strategy into performance goals and objectives.
2. Manage performance of individuals	2.1 Link performance management criteria to business unit and identify strategic and operational goals in accordance with the performance management system and obtain agreement in consultation with staff. 2.2 Confirm performance requirements with staff and apply performance management processes in accordance with the performance management system. 2.3 Implement equitable performance management processes. 2.4 Conduct performance management meetings, interviews and discussions within the principles of industrial democracy and participative, consultative processes. 2.5 Identify and respond to outstanding performance and performance below agreed standards to maximise the effectiveness of workplace performance. 2.6 Motivate staff to improve their work performance through regular feedback, reflecting and acting on workplace experiences, coaching and mentoring arrangements, or through organisational reward and recognition strategies.
3. Manage learning and development	3.1 Develop performance improvement strategies that identify current learning needs and anticipate future requirements. 3.2 Address areas identified for improvement through selection and implementation of learning and development strategies to suit a

© Commonwealth of Australia, 2022 SkillsIQ

	diverse workforce. 3.3 Promote information about learning and development activities to staff.
4. Manage grievance procedures	4.1 Manage grievances and complaints in a manner which optimises the likelihood of a positive outcome. 4.2 Document and communicate individuals rights and obligations under industrial awards and/or agreements and legislation in a clear and concise manner. 4.3 Conduct meetings and interviews within the principles of industrial democracy and participative, consultative processes.
5. Counsel employees	5.1 Offer counselling to support employees in relation to work and/or personal difficulties, and career aspirations. 5.2 Choose techniques and counselling styles that are appropriate to the situation and cater for a diverse workforce base. 5.3 Use active listening skills to formulate responses to employees. 5.4 Make referrals to appropriate support professionals and agencies to facilitate employee performance and well-being 5.5 Document outcomes and maintain employee confidentiality.
6. Manage employee rehabilitation	6.1 Establish a return to work program for an injured employee in consultation with the employee and a rehabilitation specialist. 6.2 Establish a system to monitor the return to work program. 6.3 Engage with injured employee through all parts of the return to work program. 6.4 Maintain records of the work program.

Management

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Confirm that change is required	1.1 Consider factors impacting upon the business unit, the organisation or within the political environment. 1.2 Consult key stakeholders to establish that change is required and/or imminent and the nature of the change. 1.3 Conduct benchmarking with other similar organisations, functions, best practice standards to confirm the need for change. 1.4 Consult specialists and experts as required to assist in the identification of major change requirements or opportunities. 1.5 Identify and address the need for management support, expertise and advice to maximise the advantages of change management strategies.
2. Determine the likely impact of change	2.1 Analyse the proposed change in relation to organisational structure and function, and strategic objectives. 2.2 Identify the individuals, groups and others likely to be affected by change and their expectations and concerns. 2.3 Identify and explain the eventual impact of the proposed change on employees and employee relations in line with individuals' specific needs and their differing responses to change. 2.4 Discuss options and specific proposals for change and the consequences with staff and invite feedback to ensure that people are involved in the decisions that affect them. 2.5 Identify and plan for potential risks associated with change. 2.6 Communicate the requirements and planned outcomes for change.
3. Develop a change management strategy	3.1 Prepare change management strategy and related communication strategies with key stakeholders. 3.2 Structure the strategy to address the transition from present to future arrangements and identify tactics for dealing with ambiguity in roles, functions, organisational priorities or structures. 3.3 Discuss future trends and organisational needs and consider them in the process of developing strategies for dealing with change.

© Commonwealth of Australia, 2022 SkillsIQ

	3.4 Design change management activities to comply with the framework provided by relevant legislation and organisational policy. 3.5 Devise time schedules, performance standards and interim checkpoints for change management strategies. 3.6 Obtain approval to implement the chosen change management strategy from senior management.
4. Foster commitment to workplace change	4.1 Use a range of strategies to foster a positive attitude to change, especially from the individuals on whom the organisational change will have the most effect. 4.2 Provide advice to key stakeholders on strategies for effective change management and show sensitivity to people's individual responses to change. 4.3 Seek and use resources required to implement change within the business. 4.4 Use leadership and communication strategies to assist others to deal with ambiguity and adapt to change.
5. Implement a change management strategy	5.1 Alter and implement policies, practices and procedures as required to support the change management strategy. 5.2 Identify and address barriers to change in accordance with the organisation's risk management plan. 5.3 Identify, review and renegotiate priorities with key stakeholders in light of changing circumstances. 5.4 Activate strategies for embedding the change in accordance with the change management strategy. 5.5 Develop a process and performance indicators to monitor the impact of change. 5.6 Implement adjustments to the change management strategy as a result of performance monitoring, to ensure sustained positive outcomes.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Contribute to the development of a diversity strategy	1.1 Identify the organisational context and framework for the diversity strategy and establish key result areas. 1.2 Identify diversity issues and objectives to enhance business unit and organisational effectiveness. 1.3 Use the strategy to identify benefits and opportunities provided by a diverse workforce. 1.4 Link diversity objectives in the strategy with the demographic profile of the client base, the organisation's strategic goals and the core business of the business unit. 1.5 Consult with stakeholders, including people from key equity groups and the organisation's clients. 1.6 Design the strategy to provide a mechanism through which diversity issues can be integrated.
2. Promote and review diversity strategy	2.1 Communicate and promote the strategy within the business unit and the organisation in accordance with audience needs. 2.2 Identify the need for diversity support programs and establish such programs in accordance with the objectives of the diversity strategy. 2.3 Encourage individuals to align everyday work with the diversity strategy. 2.4 Monitor and report progress of diversity strategies within business plans. 2.5 Monitor and review the effectiveness of the strategy and identify and act upon recommendations for enhancements.
3. Facilitate the development of a workforce that promotes and values diversity	3.1 Identify and communicate benefits of a diverse workforce to those working within the business unit and the organisation. 3.2 Develop or adopt initiatives and resources to address barriers to equal employment opportunity within the organisation. 3.3 Employ a range of leadership styles to facilitate intercultural management and to manage diverse teams. 3.4 Identify and use the diversity factors associated with individuals within the workforce in the delivery of services to diverse clients. 3.5 Accept and encourage a range of working styles that are reflective of a diverse workforce, unified to the organisational context. 3.6 Use diversity training and awareness programs, to promote the

© Commonwealth of Australia, 2022 SkillsIQ

	benefits of a diverse workforce.
4. Facilitate communication within a diverse workforce	4.1 Identify and address language, literacy and numeracy issues to facilitate full participation of all members of the workforce and development activities. 4.2 Employ a range of communication strategies to meet the needs of a diverse workforce and client base. 4.3 Identify the target audience and tailor communications strategies accordingly. 4.4 Identify and use resources to facilitate effective communication within the workplace. 4.5 Identify and adjust ineffective and inappropriate communication strategies to meet the information needs of a diverse workforce and client base.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	**4**	5	1	2	3	**4**	5	1	2	3	4	**5**	1	2	3	4	**5**	1	2	3	4	5
Learning					Reading					Writing					Oral communication					Numeracy NA					

Performance variables:

1	2	3	4	**5**	1	2	3	**4**	5	1	2	3	**4**	5	1	2	3	4	**5**
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Assessment Requirements for PSPMGT004 Manage diversity

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- monitoring and reporting on the progress of diversity strategies
- using communication involving exchanges of complex oral information
- explaining complex ideas to diverse audiences
- interpreting and explaining complex, formal documents and assisting others to apply them in the workplace
- preparing written advice and reports requiring reasoning and precision of expression

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- the concept of diversity and its integration within and across all human resource and management functions and areas
- cultural diversity, including issues of racism, discrimination, harassment and victimisation
- the organisation's policies and strategic goals relating to diversity and the implications of these for current and future human resource management
- the relationship between management of diversity and organisational effectiveness
- equal employment opportunity, access and equity principles
- productive diversity principles including flexibility, multiplicity, devolution, negotiation and pluralism
- institutional racism and resulting indirect discrimination

© Commonwealth of Australia, 2022 SkillsIQ

- jurisdictional legislation, instructions, directions and standards that underpin or impact on workplace diversity
- public sector policies, practices and procedures related to diversity

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPMGT005 Manage quality client service

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPMNGT606B Manage quality client service. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to manage the promotion, delivery and review of client service within complex or changing circumstances in the public sector. It includes analysing client needs, delivering service which satisfies changing client requirements, gaining employee commitment to quality service delivery, and promoting and monitoring client service.

This unit applies to those working in management roles responsible for quality control.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously with management responsibilities, performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Assessment Requirements for PSPMGT005 Manage quality client service

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- marketing and promoting client services
- engaging in oral and written clarification of issues
- negotiating variations and changes with clients
- using appropriate language and style for written submissions
- explaining complex ideas to different audiences
- networking with clients, suppliers and stakeholders

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislative and regulatory frameworks influencing the provision of client services
- current developments in effective client services delivery
- the constraints on the provision of client service caused by the availability of resources and the likelihood that client needs have to be prioritised and rationed
- the relationships between effective management of diversity and satisfying client needs
- organisational goals and policies relating to client service delivery

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Establish the risk management context	1.1 Establish the nature and extent of business unit activity, its objectives and outcomes within the organisational context. 1.2 Identify the strategic and risk management context. 1.3 Identify and consult stakeholders to ensure their views, concerns and needs are taken into account in the risk management process. 1.4 Determine criteria for risk assessment. 1.5 Determine risk management criteria to provide guidance on balancing risk, costs, benefits and opportunities. 1.6 Monitor, review and adjust risk management criteria to ensure opportunities and current and emerging trends are reflected.
2. Plan for risk management	2.1 Investigate sources of risk and identify and consult upon potential, perceived and actual risks to ensure full coverage. 2.2 Analyse risks and document in consultation with stakeholders, and determine levels of risk as the basis for risk management planning. 2.3 Select risk management methods and modify as necessary to determine risks that are acceptable or unacceptable. 2.4 Identify risk treatment options for unacceptable risks and determine preferred risk treatment approaches. 2.5 Develop and communicate risk management plan to key stakeholders to ensure clarity and achievement of objectives throughout the activity's life cycle.
3. Manage risk	3.1 Manage activity in accordance with agreed risk management plan. 3.2 Review performance, analyse variance and initiate risk responses to achieve objectives with minimal disruption and conflict. 3.3 Monitor internal and external risks to outcomes and initiate remedial actions to achieve objectives.
4. Evaluate the risk management plan	4.1 Develop and implement an evaluation methodology. 4.2 Review and analyse outcomes to assess the effectiveness of current risk management strategies. 4.3 Monitor existing risks, identify new risks and identify any trouble spots. 4.4 Seek and use a variety of information, including the perspectives of key stakeholders. 4.5 Formulate and act upon recommendations on enhancements to

PSPMGT011 Develop partnering arrangements

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPMNGT613A Develop partnering arrangements. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to explore opportunities for government organisations to develop partnering arrangements with the private sector and to proceed to formal agreement based on evaluation to ensure the public interest is fully protected.

This unit applies to those working in the public sector working to arrange partnerships with the private sector.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Management

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Explore partnering opportunities	1.1 Undertake rigorous assessment to establish the potential for private sector involvement in the delivery services and/or infrastructure. 1.2 Determine need, affordability and priority for private sector partnering to ensure the public interest is fully protected. 1.3 Identify the service and/or infrastructure requirement to be provided through a partnering arrangement, confirm benefits to the community and identify potential partners.
2. Assess feasibility	2.1 Conduct a full feasibility study that includes environmental analysis, social impact and cost-benefit analysis to confirm the merits of partnering options for financing, delivery and value for money. 2.2 Conduct a full risk assessment, including the risks and costs the government would be prepared to retain. 2.3 Undertake a detailed assessment of costs and potential revenue streams and compare with the costs associated with public sector provision. 2.4 Consult community stakeholders to provide input in the feasibility and planning stages of any partnering arrangement.
3. Establish partnering arrangements	3.1 Determine detailed requirements for the partnering arrangement. 3.2 Investigate procurement options, including a full public tender process. 3.3 Arrange contracts that specify partnering duration, outputs, benefits and performance incentives. 3.4 Allocate risk to whichever party is best able to manage it and develop an accountability structure and approval process. 3.5 Obtain government approvals and enter into contractual arrangements.
4. Foster productive partnering relationships	4.1 Affirm reasons for the partnering arrangement, roles, limitations and expectations throughout the life of the relationship. 4.2 Use ongoing communication to confirm vision, agreed goals, outcomes, measures of performance, agreed accountabilities and

© Commonwealth of Australia, 2022 SkillsIQ

	the limits of the arrangement for both parties. 4.3 Maintain and explain ethical standards and public sector accountabilities. 4.4 Agree upon and use strategies for solving problems and dealing with conflict to build trust/mutual respect for the benefit of both parties.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPMNGT613A Develop partnering arrangements.

PSPMGT012 Facilitate knowledge management

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPMNGT614A Facilitate knowledge management. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to manage knowledge and information in the business unit to improve productivity and organisational efficiency, promote innovation and meet business unit goals. It includes establishing the organisational context for knowledge management, developing capability, facilitating knowledge management, and integrating aspects of knowledge management with records management.

This unit applies to those working to facilitate knowledge management within their organisation.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously, performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Management

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Establish the organisational context for knowledge management	1.1 Identify the organisation's history, culture, functions, strategic direction, performance and knowledge resources. 1.2 Identify organisational strategies and goals that may be assisted by the development of organisational capability in knowledge management. 1.3 Assess the current knowledge management position of the organisation and determine the strengths and weaknesses of its knowledge resources and activities. 1.4 Undertake consultation with stakeholders to raise and awareness of knowledge management and to establish goals for the business unit and/or the organisation. 1.5 Identify and explore the cultural aspects of knowledge and knowledge management in the context of the organisational environment.
2. Develop capability in knowledge management	2.1 Identify and promote the benefits of knowledge management. 2.2 Develop and align knowledge management initiatives with the overall organisational strategy. 2.3 Develop initiatives to build long-term capability in knowledge management and a culture of sharing knowledge and to create new knowledge in the organisation. 2.4 Build management and stakeholder support throughout knowledge management initiatives to ensure immediate successes are transformed into ongoing benefits.
3. Facilitate knowledge management	3.1 Facilitate methods for creating, discovering and acquiring knowledge in the business unit. 3.2 Promote methods and systems for capturing and storing knowledge. 3.3 Promote methods and systems for presenting, distributing and sharing knowledge. 3.4 Facilitate activities for revising and disposing of knowledge.
4. Integrate aspects of	4.1 Integrate processes for the management of explicit knowledge with the organisation's information management systems.

© Commonwealth of Australia, 2022 SkillsIQ

knowledge management with information management	4.2 Record and store explicit knowledge. 4.3 Facilitate structuring, maintaining and linking of explicit knowledge to related organisational information. 4.4 Manage knowledge and information to improve their integration and use to meet business unit goals.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPMNGT614A Facilitate knowledge management.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse factors in the operating environment	1.1 Analyse the organisation's purpose and direction within the overall government strategy, and its integration with other government service providers, with a view to determining key factors and issues. 1.2 Analyse the organisation's culture, values and strategic priorities with a view to determining key factors and issues. 1.3 Monitor and analyse internal and external factors likely to impact upon the organisation. 1.4 Explore best practice models related to the nature of the organisation's core business. 1.5 Identify and analyse client needs and preferences. 1.6 Identify and analyse legislation and organisational policies and practices that may impact upon organisation's operations.
2. Develop and coordinate a strategy for determining strategic priorities	2.1 Consult with key stakeholders. 2.2 Find constructive solutions where stakeholders are in conflict. 2.3 Use analysis and evaluation of information gained from a variety of sources, to identify strategic options for prioritisation. 2.4 Undertake benchmarking with other organisations or best practice standards to inform development of strategic priorities. 2.5 Consider priorities of other government service providers to ensure duplication will be avoided and services integrated for the benefit of clients.
3. Formulate and communicate strategic priorities	3.1 Develop strategic priorities that support overall government strategy. 3.2 Develop strategic priorities that embody the organisation's values, beliefs and philosophy. 3.3 Use strategic priorities to draw together and reflect the suggestions and interests of stakeholders. 3.4 Develop strategic priorities that embody a shared vision for the future and set out objectives that encourage staff to be creative and innovative in their approach to attaining objectives. 3.5 Communicate strategic priorities to stakeholders.

© Commonwealth of Australia, 2022 SkillsIQ

	3.6 Monitor implementation to ensure strategic priorities are addressed through related business unit and individual objectives.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPMNGT701B Provide strategic direction.

Assessment Requirements for PSPMGT013 Provide strategic direction

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- delegating work to others
- counselling and resolving conflict in teams
- using team building strategies
- using facilitation, negotiation and consultation requiring exchanges of complex oral information
- using consensual decision making skills
- keeping check of emotions when challenges arise, maintaining composure, perceiving the emotional motivators that drive individuals and groups in the workplace and engaging those motivators, where appropriate, to optimise organisational performance
- explaining complex ideas to different audiences
- interpreting and explaining complex, formal documents and assisting others to apply them in the workplace

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- organisational goals, policies and procedures
- the relationship between effective human resource functions and the attainment of business unit objectives
- human resource policies and practices
- environmental and sustainability practices

© Commonwealth of Australia, 2022 SkillsIQ

- emotional intelligence principles and strategies
- group processes and facilitation techniques
- team building strategies
- the organisation's career and human resource development strategies, programs and plans
- conflict resolution strategies
- jurisdictional legislation applicable to management and human resource management functions

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPPCM002 Dispose of assets

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPROC405C Dispose of assets. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to dispose of assets and gain a return from sales. It includes identifying assets for disposal, developing and implementing an asset disposal strategy, and evaluating disposal.

This unit applies to those personnel whose duties include carrying out the disposal of assets.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit will be working independently, and as part of a team, while performing routine tasks in familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Procurement

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Develop a strategy for the disposal of assets	1.1 Identify assets for disposal. 1.2 Determine potential market value of assets. 1.3 Evaluate case for expending resources to add value to assets prior to sale. 1.4 Investigate options for disposal and determine method providing maximum return, in the context of policy, probity requirements and desired outcomes. 1.5 Consider disposal requirements for special categories of assets, including environmental and corporate social responsibility issues. 1.6 Consult stakeholders and incorporate feedback into strategy.
2. Implement a disposal strategy	2.1 Write off and dispose of goods according to approved disposal plan and requirements. 2.2 Maintain records for audit and evaluation purposes. 2.3 Evaluate asset disposal against expected outcomes, including forecast market value of assets and document.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPPROC405C Dispose of assets.

Assessment Requirements for PSPPCM002 Dispose of assets

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion:

- preparing documentation and audit trail for disposed assets
- communicating and networking with clients, suppliers, stakeholders and end users
- providing feedback
- reading and applying complex formal documents
- making judgements to provide maximum return from asset disposal
- managing financial and other resources in the context of asset disposal
- applying probity requirements in relation to the disposal of assets

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- commonwealth, state or territory, and local government procurement guidelines
- requirements of financial rules and regulations relating to asset disposal
- legal aspects of disposals
- disposal approval processes
- implications of particular contracting agreements for asset disposal
- implications of asset disposal for whole-of-life considerations
- options for government disposal
- risk management procedures for disposal of assets
- disposal requirements for special categories of assets
- probity principles and issues

© Commonwealth of Australia, 2022 SkillsIQ

- codes of conduct, codes of practice and standards of individual behaviour relating to disposal of assets
- legislation, policy and procedures relating to asset disposal, including WHS, environmental, sustainability and corporate social responsibility considerations

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPPCM003 Procure goods and services

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPROC406B Procure goods and services. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to manage the expenditure of public monies for simple procurement of low value/low risk goods and services using contractual arrangements that include simple tendering and requests for quotation. The unit requires analysis and decision making in the procurement process. It includes planning and undertaking procurement, managing contractors and completing contractual arrangements.

This unit applies to those who enter into contracts or go out to tender or manage the procurement but are not procurement professionals. Those undertaking this unit may be developing a request for tender but procurement is not a major part of their role.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work under minor supervision, while performing routine tasks in familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Procurement

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Plan for procurement of goods and services	1.1 Identify and select options for procuring goods and services using market assessment. 1.2 Identify commercial strategy to achieve the procurement outcome set out in the business plan, achieve value for money, and meet legal and probity requirements. 1.3 Conduct risk planning for the procurement activity. 1.4 Identify process and criteria for evaluation of offers from suppliers or service providers to meet public sector probity requirements, and record them in a tender evaluation plan. 1.5 Develop procurement plan to manage procurement process and contractual arrangements. 1.6 Consult stakeholders about the planned procurement and incorporate their feedback into the procurement process.
2. Undertake procurement	2.1 Choose method for requesting and receiving offers to suit the procurement activity and comply with organisational policy and procedures and probity requirements. 2.2 Evaluate offers using specialist expertise as required and select. 2.3 Undertake notification of successful and unsuccessful suppliers. 2.4 Ensure contractual arrangements are formalised before work commences and payment is made. 2.5 Negotiate, formalise and report contractual arrangements that are legally binding to all parties and suitable to the procurement activity.
3. Manage contractors	3.1 Establish communication strategies to build and maintain relationships with contractors. 3.2 Monitor performance against contract performance indicators for quality assurance of the goods or services and to ensure compliance with contract specifications. 3.3 Monitor and review contract performance indicators to ensure relevance. 3.4 Obtain approvals for contract variations. 3.5 Investigate, document and resolve or refer disputes or complaints.

© Commonwealth of Australia, 2022 SkillsIQ

	3.6 Ensure contractual obligations to contractors are met. 3.7 Maintain records to provide an audit trail and for other organisational purposes.
4. Complete contractual arrangements	4.1 Confirm goods and services received as meeting contractual specification and required outcome, and process accounts for payment. 4.2 Finalise, cancel or terminate contracts. 4.3 Evaluate and record contract performance, outcomes and management processes, to inform ongoing contract management practices.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPPROC406B Procure goods and services.

Assessment Requirements for PSPPCM003 Procure goods and services

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- writing procurement specifications in unambiguous terms
- consulting and negotiating with providers
- writing, reading and/or signing contractual agreements
- engaging in ongoing communication with contractors that may involve explaining or clarifying written and oral information, note-taking at meetings, active listening, and checking for understanding
- providing feedback
- evaluating procurement options and selecting the most suitable option
- assessing goods or services provided against specifications
- managing contractor performance against contract requirements
- making payments and managing financial arrangements
- learning skills to keep up-to-date with relevant procurement legislation, policies and procedures

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- organisational procurement policies, practices and approval processes
- organisation's code of conduct and code of ethics
- procurement options and methods

© Commonwealth of Australia, 2022 SkillsIQ

- probity and ethical issues
- codes of conduct, codes of practice and standards of individual behaviour relating to procuring goods and services, in particular identifying and managing conflict of interest, gifts and inappropriate relationships with providers
- procedures for receipt and payment of goods or services
- common use arrangements
- procurement approval procedures
- financial accountability requirements
- aspects of contract law, laws of tort, trade practices law, commercial law and other legislation relating to receipt and evaluation of offers, negotiation and award of contracts

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Interpret procurement requirements	1.1 Consult with stakeholders to determine whether viable alternatives to procurement exist that address identified business need, to define and clarify requirements, and to justify the procurement decision. 1.2 Conduct scoping of procurement requirements identifying outcomes, objectives and logistics or supply chain factors. 1.3 Conduct market analysis to identify factors that may impact on procurement decisions. 1.4 Confirm procurement approvals and appropriations for whole-of-life of the activity. 1.5 Access information on sources of supply to determine possible providers and identify and resolve any conflict of interest. 1.6 Specify planned provider contract arrangements. 1.7 Investigate issues and opportunities for integration into procurement activity.
2. Plan procurement activities	2.1 Outline procurement requirement from transition to close out. 2.2 Plan opportunities to obtain stakeholder input at all stages of the procurement process. 2.3 Confirm resource requirements and nominate responsible authorities. 2.4 Include strategies for briefing potential bidders when required, and ensure they are practical and meet probity requirements of fairness and impartiality, public sector standards and organisational protocols.
3. Manage procurement plans	3.1 Develop and approve procurement documentation and procurement plan which contains relevant detail about the procurement process and desired business outcomes. 3.2 Seek stakeholder input at all stages during the development of the procurement plan. 3.3 Consider probity risks in the procurement process. 3.4 Communicate approved procurement plan or strategy to stakeholders.

Assessment Requirements for PSPPCM004 Plan procurement

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- consulting with stakeholders
- writing a procurement requirement
- analysing issues relating to procurement need
- making comparisons, justifying a point of view and providing supporting evidence
- researching issues relating to procurement need
- planning issues relating to procurement need
- learning skills to keep up-to-date with relevant procurement legislation, policies and procedures

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Commonwealth, state or territory, and local government legislation, policies, practices and guidelines relating to contract management, including environmental purchasing and corporate social responsibility guidance
- organisational procurement policies, practices and approval processes
- probity principles and issues
- codes of conduct, codes of practice and standards of individual behaviour relating to procurement
- life cycle costs
- whole-of-life considerations
- technical knowledge or subject matter expertise in the goods or services being procured

© Commonwealth of Australia, 2022 SkillsIQ

- aspects of law of contract, laws of tort, trade practices law, commercial law and other legislation relating to receipt and evaluation of offers, negotiation and award of contracts

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Specify procurement requirement	1.1 Undertake scoping of requirement to identify outcomes, objectives and practical requirements. 1.2 Prepare statement of requirement. 1.3 Consider needs of clients, end users and other stakeholders and incorporate into statement of requirement. 1.4 Ensure procurement outcome is fair to, and achievable by, potential providers. 1.5 Specify planned provider contract arrangements, standards of performance and codes of practice, incentives, disincentives and performance measures.
2. Develop request for offers	2.1 Develop and clarify request for offers and contractual conditions suitable for procurement activity with clients, providers and/or experts as necessary. 2.2 Develop and clarify contractual conditions suitable for procurement activity with clients, providers and/or experts as necessary. 2.3 Obtain input on content of request for offer documents and proposed contractual conditions from market according to probity requirement of impartiality when possible and appropriate. 2.4 Obtain approvals to approach marketplace. 2.5 Maintain records relating to documenting request, and seeking, processing and closing offers.
3. Manage offer evaluation plan	3.1 Develop and document offer evaluation plan, including criteria for evaluation and approve prior to releasing formal request documentation to the market. 3.2 Arrange specialist expertise to evaluate offers and membership of evaluation panel if required. 3.3 Ensure offer evaluation plan complies with probity requirements, in particular impartiality and management of conflict of interest.
4. Manage distribution and receipt of offers	4.1 Disseminate request for offers. 4.2 Clarify information in the request for offer as required. 4.3 Disseminate requests for offers and closing offers in line with probity issues. 4.4 Deal with late offers and non-conforming bids.

Assessment Requirements for PSPPCM005 Develop and distribute requests for offers

Modification History

Not applicable.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- consulting with stakeholders, specialists and providers
- reading complex documents
- applying probity requirements in specifying and developing requests for offers, providing briefings and information, and receiving offers
- managing the release of documents to stakeholders
- learning skills to keep up-to-date with relevant procurement legislation, policies and procedures

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Commonwealth, state or territory, and local government legislation, policies, practices and guidelines: relating to requests for offers, including environmental purchasing and corporate social responsibility guidance
- organisational procurement policies, practices and approval processes
- probity principles and issues
- codes of conduct, codes of practice and standards of individual behaviour relating to developing and receiving requests for offers
- issues to be considered when developing requests for offers, including things like buying locally, and open or restricted opportunities to tender
- aspects of law of contract, laws of tort, trade practices law, commercial law and other legislation relating to requests for offers

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessment Requirements for PSPPCM006 Select providers and develop contracts

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- consulting and negotiating with contractors and stakeholders, involving complex oral and written exchanges of information
- networking within probity boundaries with diverse stakeholders and contractors
- applying probity requirements in evaluating offers, formalising contracts and debriefing stakeholders
- planning and organising skills to analyse and compare written information to ensure key elements from the specification and the procurement plan are captured in the written contract
- learning skills to keep up-to-date with relevant procurement legislation, policies and procedures

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Commonwealth, state or territory, and local government legislation, policies, practices and guidelines relating to award of contracts, including environmental purchasing and corporate social responsibility guidance
- organisational procurement policies, practices and approval processes
- probity principles and issues
- codes of conduct, codes of practice and standards of individual behaviour relating to receipt and selection of offers

© Commonwealth of Australia, 2022 SkillsIQ

- aspects of law of contract, laws of tort, trade practices law, commercial law and other legislation relating to receipt and evaluation of offers, negotiation and award of contracts
- equal employment opportunity

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPPCM007 Manage contracts

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPROC414A Manage contracts. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to manage contracts. It includes undertaking preparations, establishing and maintaining contract management arrangements, monitoring and maintaining contract performance, and completing and reviewing contracts.

This unit applies to those working as public sector employees with responsibilities relating to contract management.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously with management responsibilities while performing complex tasks in familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Procurement

Assessment Requirements for PSPPCM007 Manage contracts

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- consulting and negotiating with contractors and stakeholders, involving complex oral and written exchanges of information
- networking, within probity boundaries, with diverse stakeholders and contractors
- interpreting complex documents, including contracts, legislation and guidelines
- applying simple supply chain and supplier issues management techniques

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- commonwealth, state or territory, and local government legislation, policies, practices and guidelines relating to contract management, including environmental purchasing and corporate social responsibility guidance
- contract performance management
- privacy and confidentiality issues
- probity principles and issues
- financial and accounting issues relevant to the contract

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

© Commonwealth of Australia, 2022 SkillsIQ

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPPCM008 Manage contract performance

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPROC503B Manage contract performance. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to implement strategies that ensure effective contract performance. It includes managing the business relationship, performance of the contract, and contract issues; and implementing a communication strategy.

This unit applies to those working in roles involved in procurement contract maintenance.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently seeking advice as required, performing complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Assessment Requirements for PSPPCM010 Manage procurement risk

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- writing risk management plans using templates or a recognised risk management methodology
- interpreting complex, formal documents
- making verbal and written recommendations about the management of procurement and contracting risks
- analysing risks associated with procurement and contract
- managing and updating the risk management plan
- learning skills to keep up-to-date with relevant procurement legislation, policies and procedures

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Commonwealth, state or territory, and local government legislation, policies, practices and guidelines relating to contract risk management
- organisational procurement policies, practices and approval processes
- risk management procedures
- probity principles and issues, particularly as they relate to probity risks
- codes of conduct, codes of practice and standards of individual behaviour relating to the procurement process

© Commonwealth of Australia, 2022 SkillsIQ

- risks associated with financial and accounting issues relevant to procurement and contract management
- supplier issues and supply chain management in the context of procurement risk management
- aspects of law of contracts, trade practices law and commercial law relevant to risk management relating to complex procurement
- equal employment opportunity relevant to procurement and contract management
- environmental, sustainability and corporate social responsibility principles relevant to procurement and contract management

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Confirm contract requirements	1.1 Identify legislation, public sector standards and organisational requirements relating to probity, financial management, approvals and other considerations for inclusion in the contract management plan. 1.2 Re-confirm contract requirements with all parties. 1.3 Determine obligations to the contractor, limits of authority and delegations according to contractual arrangements. 1.4 Confirm start-up or transition arrangements.
2. Prepare contract management plan	2.1 Identify contract risks and develop a risk management plan. 2.2 Determine procedures to identify, receive and address contract variations. 2.3 Determine procedures to investigate, resolve or refer disputes or complaints. 2.4 Develop and negotiate key performance indicators and identify and approve administrative processes for the life of the contract. 2.5 Document, obtain approval on and maintain a contract management plan that addresses key elements. 2.6 Apply expected standards of behaviour, probity and privacy principles to all elements of contract management plan. 2.7 Apply environmental, sustainability and corporate social responsibility principles to all elements of contract management plan.
3. Develop stakeholder relationships	3.1 Identify stakeholder networks and relationships. 3.2 Use networking strategies to establish, develop and maintain working relationships to promote benefits to the contract requirements. 3.3 Develop and maintain confidence of stakeholders through high standards of behaviour and ethical conduct. 3.4 Use negotiation strategies to achieve positive outcomes when difficult situations arise. 3.5 Identify and confirm communication requirements in line with contractual obligations and stakeholder needs.
4. Implement contract strategies	4.1 Identify requirements of confidentiality and freedom of information for the contract. 4.2 Develop communication and/or information strategy that matches needs of the organisation, the contract and the contractor's

© Commonwealth of Australia, 2022 SkillsIQ

	business environment. 4.3 Establish contract review requirements with stakeholders. 4.4 Develop contract review strategy to review management of the contract, contractor performance and user satisfaction.
5. Implement contractual arrangements	5.1 Establish and manage business relationship with contractor. 5.2 Implement start-up or transition arrangements. 5.3 Establish financial, administrative and information management processes. 5.4 Implement contractual arrangements according to contract management plan. 5.5 Maintain appropriate records for the life of the contract.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPPROC506A Plan to manage a contract.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Establish, apply and manage procurement governance arrangements	1.1 Make contributions to forward procurement planning. 1.2 Apply organisational, financial and budgetary framework effectively to procurement. 1.3 Research and apply organisational objectives, policies and goals. 1.4 Identify and apply relevant interacting legislative, policy and probity requirements to the proposed procurement activity. 1.5 Develop and/or assess procurement needs, aligned to organisational objectives, business plan and appropriate justification of estimated procurement expenditure. 1.6 Propose alternatives to procurement action where appropriate. 1.7 Apply and manage probity principles when planning procurement activities.
2. Identify, consult with and manage procurement stakeholders	2.1 Identify internal and external stakeholders for procurement activities. 2.2 Develop strategies to effectively gather information from and distribute information to procurement stakeholders throughout the procurement process. 2.3 Inform and educate stakeholders on the concept of value for money. 2.4 Develop strategies for the ongoing consideration and management of key stakeholders.
3. Conduct market research and develop appropriate strategies to approach the market	3.1 Conduct market research and analysis. 3.2 Identify strengths and weaknesses of the market. 3.3 Determine appropriate procurement options and procurement methods for approaching the market, taking into account relevant jurisdictional and organisational policy requirements.
4. Identify, source and manage resources to conduct procurement processes	4.1 Identify, seek and manage financial and budgetary resources required to effectively conduct procurement processes. 4.2 Identify, seek and manage technical and procurement expertise required to effectively conduct procurement processes, including the establishment of tender evaluation panel or working group. 4.3 Determine and apply appropriate structures and processes to the conduct of the procurement, including operation of the tender evaluation panel or working group.

© Commonwealth of Australia, 2022 SkillsIQ

	4.4 Plan and communicate appropriate lead times for conducting procurement processes to stakeholders.
5. Define procurement specifications and requirements	5.1 Align procurement requirements with organisational objectives and business plans that are realistic in terms of the capacity of the market to supply. 5.2 Develop and/or critically assess statements of requirements and specifications that meet business needs of the organisation. 5.3 Review previous procurements and consult stakeholders to inform and define the specifications. 5.4 Explore the viability of specifications to ensure risks and whole-of-life costs and benefits are identified and to support value for money.
6. Undertake detailed procurement planning	6.1 Assist stakeholders to make meaningful contributions to procurement plans. 6.2 Conduct procurement risk assessments and determine appropriate risk management strategies. 6.3 Address jurisdictional, organisational, legislative, policy and probity requirements. 6.4 Design a procurement process that achieves a value for money outcome, including consideration of whole-of-life costs and benefits. 6.5 Document detailed procurement plans and sub-plans for the various activities that will be conducted throughout the procurement process, including evaluation and reporting requirements. 6.6 Plan prompt execution of financial delegations and other approvals. 6.7 Undertake procurement activity in line with jurisdictional, organisational and best practice requirements for accountability and transparency, including record keeping and reporting regimes.

Assessment Requirements for PSPPCM012 Plan for procurement outcomes

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- networking, consulting and negotiating with contractors and stakeholders
- writing a business case
- reading and applying complex documents, including contracts, legislation and guidelines
- providing feedback
- modelling effective team management approaches
- referring issues to the correct person
- resolving complicated procurement issues
- developing options for inclusion in a business case
- undertaking research and business analysis
- planning procurement processes in alignment with business and organisational goals
- documenting procurement planning decisions and expected outcomes
- managing and updating the procurement plan and sub-plans
- maintaining currency in best practice examples in procurement practice and relevant procurement legislation, policies and procedures
- using electronic procurement templates

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Comply with legal and policy obligations implicit in making procurement decisions	1.1 Identify and apply legislative and policy requirements and organisational objectives and goals to inform procurement decisions. 1.2 Apply and manage probity principles of fairness and impartiality when making procurement decisions at all stages of the process.
2. Establish context for the procurement activity	2.1 Identify and consider factors that may influence procurement decisions in the context of legislation, policy and organisational/business requirements to support effective decision making. 2.2 Consult with stakeholders to determine likely impact of key factors at all stages of procurement process. 2.3 Reflect determined key factors in procurement decisions affecting the procurement. 2.4 Document factors affecting procurement decisions.
3. Select and approve procurement methods	3.1 Select procurement methods based on jurisdictional, legislative and policy requirements and suitability for the procurement requirements. 3.2 Consider factors and risks in selecting procurement method. 3.3 Record justification for selected procurement method. 3.4 Exercise approvals for the selection of procurement methods and record.
4. Select and approve contractual arrangements	4.1 Select contractual arrangements, based on jurisdictional and policy requirements and suitability for the procurement requirements. 4.2 Consider factors and risks in selecting contractual arrangements. 4.3 Record justification for selected contractual arrangements. 4.4 Exercise approvals for the selection of contractual arrangements and record.
5. Identify and consider factors affecting supplier choice	5.1 Research and assess supplier capability as part of offer evaluation. 5.2 Research and apply supplier supply chain management considerations in the context of policy requirements when making procurement decisions. 5.3 Apply broader value for money considerations to support and

© Commonwealth of Australia, 2022 SkillsIQ

	inform decisions.
6. Conduct tender evaluation	6.1 Form a tender evaluation panel or similar when required by policy or to meet probity requirements. 6.2 Provide advice, support and guidance on procurement processes and probity requirements to members of the tender evaluation panel. 6.3 Resolve any issues that arise during tender evaluation using negotiation and communication skills and procurement knowledge. 6.4 Document tender decision-making processes and decisions reached in a format suited to the procurement being undertaken. 6.5 Make written procurement recommendations to the approval delegate after considering advice of panel.
7. Maintain effective accountability and transparency in procurement decision making	7.1 Maintain records, including plans and sub-plans, to provide an effective audit trail of decisions taken throughout the procurement process. 7.2 Maintain compliance with jurisdictional and organisational procurement reporting requirements. 7.3 Maintain records to provide aggregate procurement reporting requirements internal and external to the organisation.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

PSPPCM014 Participate in budget and procurement review processes

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPROC509A Participate in budget and procurement review processes. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to participate in government budget and review processes to ensure that procurement and contract management activities occur within established procedures and financial obligations are fulfilled.

This unit applies to those working in roles involving budgets and reviews for procurement.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently seeking advice as required, performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Comply with the budget cycle	1.1 Identify and incorporate requirements of legislation, policy and guidelines relevant to the budget cycle into criteria for decision making. 1.2 Produce calendar of budget cycle, including identification of approval stages and deadlines. 1.3 Document and explain organisation's internal budget processes to staff. 1.4 Develop compliance strategies to ensure budget process obligations are met, including security requirements. 1.5 Identify consequences of non-compliance with obligations and produce strategies to mitigate non-compliance.
2. Meet cabinet and other approval process	2.1 Identify and apply appropriate cabinet and/or other approval processes. 2.2 Use relevant cabinet documentation templates to prepare cabinet papers and submissions. 2.3 Adhere to security requirements applicable to cabinet papers and other submissions. 2.4 Meet policy requirements of the organisation applicable to cabinet papers and other submissions. 2.5 Comply with internal organisational processes for cabinet submissions.
3. Prepare a simple business case	3.1 Identify outcomes expected of the business case. 3.2 Prepare work plans in consultation with management and other stakeholders to ensure that business case satisfies guidelines and supports expected outcomes. 3.3 Seek information to support the business case from inside and outside the organisation and confirm its authenticity and reliability. 3.4 Organise information gathered into concise, logical arguments to support required outcomes. 3.5 Arrange appropriate reviewers for the business case and incorporate their comments into the final submission.
4. Comply with government procurement	4.1 Identify and analyse requirements of legislation, and policy and probity guidelines for procurement reviews for relevance to the procurement activity.

© Commonwealth of Australia, 2022 SkillsIQ

review processes	4.2 Build applicable procurement review processes into activity plan. 4.3 Prepare plans to ensure procurement reviews undertaken by internal or external bodies are provided with assistance required to achieve the review. 4.4 Prepare records and information to enable procurement review to be completed in a prompt and efficient way.
5. Implement procurement review recommendations	5.1 Assess recommendations from procurement review processes against organisational policies and procedures. 5.2 Address organisation-wide implications of recommendations through communication with areas of the organisation affected by the recommendations. 5.3 Develop and initiate processes for continuous improvement reflecting the recommendations. 5.4 Evaluate the implementation of recommendations at appropriate intervals to ensure continuous improvement.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

PSPPCM015 Conduct and manage coordinated procurement

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPROC510A Conduct and manage coordinated procurement. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to identify and use existing coordinated procurement contracts (CPC) and cooperative procurement arrangements (CPA) to establish new CPAs across agencies and to arrange for organisations to procure under these contracts and arrangements.

This unit applies to those working in the public sector with responsibility for arranging the procurement of goods and services.

The skills and knowledge described in this unit must be applied within the legislative, and regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, whilst performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Procurement

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify applicable existing CPCs, CPAs and opportunities	1.1 Investigate availability and opportunities of CPCs and CPAs. 1.2 Identify and evaluate existing contracts at whole-of-government level and cross-agency arrangements. 1.3 Identify contract terms and assess conditions relating to contracts to determine whether the contract is relevant to the agency concerned. 1.4 Document criteria to identify applicable contracts and compliance with requirements for use.
2. Arrange for organisation to procure under CPCs and CPAs	2.1 Provide information and education about the contract and the requirement for its use to relevant staff. 2.2 Establish procedures to ensure that procurements are made under a CPC or CPA wherever possible, and place orders according to contract terms and conditions. 2.3 Record contractual dealings and report according to contract requirements including expenditure and realised savings.
3. Lead cooperative procurements	3.1 Obtain agreement of management for procurement where no CPAs exist, which would benefit multiple agencies 3.2 Develop a procurement strategy, procurement plan involving other agencies and procurement documents. 3.3 Undertake procurement process, evaluate responses and negotiate contract via cross-agency team. 3.4 Document new CPA and distribute to other agencies

PSPPCM016 Plan and implement strategic sourcing

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPROC511 Plan and implement strategic sourcing. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to plan and implement strategic sourcing for goods or services essential or critical to an organisation's ability to conduct its core business. It includes developing a procurement profile of the buying organisation, conducting strategic assessment of the supply market, developing strategies to source goods or services from the market and securing, monitoring and reviewing strategic market sources.

This unit applies to those working in roles involving procurement of goods or services essential to the operation of their organisation.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously consulting others as required, performing sophisticated tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Procurement

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Develop a procurement profile of the buying organisation	1.1 Gather and analyse long term data about the strategic implications related to the buying organisation's level of spend on various types of goods and services, including how, where and from whom the goods or services are procured. 1.2 Profile the organisation's existing suppliers, with particular emphasis on each supplier's capability and capacity, vulnerability, and adherence to Corporate Social Responsibility (CSR) principles, WHS, legislative compliance, market position and ownership structure. 1.3 Identify and engage relevant communication strategies to engage internal, external and market stakeholders. 1.4 Assess the buying organisation's market position (how the market views the organisation as a potential customer). 1.5 Identify and consider opportunities and risks associated with developing a stronger market position as a buyer.
2. Conduct strategic assessment of the supply market	2.1 Gather and analyse market information to determine capacity, competition, legislative and regulatory compliance, vulnerabilities and risk within the supply market. 2.2 Monitor and analyse market trends and emerging changes to the current supply market place. 2.3 Analyse and assess the supply market's ability to meet the buying organisation's needs, including supply chain management issues. 2.4 Identify and assess innovative and/or creative opportunities within the market. 2.5 Assess local and international supply market factors that may influence the ability to supply goods and services.
3. Develop strategies to source goods or services from the market	3.1 Assess the suitability of current and emerging commercial trends within the market to the needs of the buying organisation. 3.2 Identify and consider the application of commercial best practice models to strategic sourcing activities across the procurement life cycle. 3.3 Identify and test possible benchmarks of better strategic sourcing

© Commonwealth of Australia, 2022 SkillsIQ

	practice. 3.4 Assess the suitability of alternative market sources of supply. 3.5 Develop strategic supply market plans which reflect analysis of both the buying organisation and the supply market. 3.6 Devise tendering strategies and type of contracting arrangement appropriate to the goods or services being procured and the nature of the supply market which will supply them, taking contract management strategies into consideration. 3.7 Review the application of existing legislation, regulations, policies, practices and procedures to strategic sourcing activities and recommend changes to these where this would yield better results for the buying organisation or at the whole of government level.
4. Secure, monitor and review strategic market sources	4.1 Conduct procurement processes which consider strategic sourcing issues and are appropriate to the goods and services being sought. 4.2 Negotiate with potential suppliers to secure the best supply arrangements. 4.3 Develop and implement transition plans from current to new market sources as needed to ensure a smooth transition and the continuous provision of strategic goods and services to the buying organisation. 4.4 Implement contract management strategies to ensure that goods and services are delivered as contracted. 4.5 Monitor and review new strategic sourcing arrangements for continuous improvement opportunities.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPPROC511 Plan and implement strategic sourcing.

Assessment Requirements for PSPPCM016 Plan and implement strategic sourcing

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- networking, consulting and negotiating with the supply market, existing contractors and stakeholders
- writing a business case
- conducting market analysis and buying organisation analysis
- gathering and analysing organisational information to build procurement profile, market information and stakeholder requirements, and information on restricted products appropriate to the industry
- identifying, analysing and predicting trends
- applying complex government policy and inter-governmental agreements
- interrogating corporate systems, including Financial Management Information System (FMIS) or asset management system to obtain data
- analysing complex supply chains to identify risk, vulnerability and opportunity
- anticipating and interpreting market reaction
- planning procurement processes in alignment with business and organisational goals
- documenting procurement planning decisions and expected outcomes
- managing and updating procurement plans and sub-plans in line with strategic plans and budgets
- applying complex strategies to development of strategic plans, including corporate, budget and procurement plans and sub plans
- contributing to strategic and risk planning
- developing and managing electronic commerce
- exploiting market opportunities and initiatives in electronic commerce

© Commonwealth of Australia, 2022 SkillsIQ

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Commonwealth, state and/or territory, or local government legislation, regulation, policies, practices, procedures and guidelines in relation to procurement, financial management, public sector obligations, consumer law, WHS, social policy and other relevant topics
- international treaties relevant to trade and procurement practices
- government and inter-governmental policy and agreements in relation to procurement practices
- principles and practices associated with Corporate Social Responsibility (CSR) principles, sustainability and environmental issues as applicable to procurement and market behaviours
- research and analysis as applied to complex outcomes, trends and predictions of markets and procurement changes
- codes of conduct, codes of practice and standards of individual behaviour relating to procurement decisions
- micro and macro-economic issues applicable to market behaviours and the impact of procurement
- implications for the organisation and market (suppliers) of key procurement strategies and arrangements
- whole of life costing considerations and value for money
- financial, costing and accounting issues relevant to procurement and contracts
- cultural issues relevant to strategic procurement and industry development in specific markets or market sectors

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPPCM017 Plan and implement procurement category management

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPROC512 Plan and implement procurement category management. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to plan and implement procurement category management processes for an organisation.

This unit applies to those working in roles involving procurement of goods or services essential to the operation of their organisation.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously consulting others as required, performing sophisticated tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Procurement

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Plan for category management	1.1 Identify and assess organisational structures and business requirements from corporate planning documents in the context of suitability to adopt category management approaches for procurement and contract management. 1.2 Develop and use effective communication strategies to engage with internal, external and market stakeholders about category management approaches, product and/or services to be category managed and market and supply chain conditions. 1.3 Develop a category management plan based on category management principles for each category to be managed that includes outcome based, transparent and manageable performance metrics for category managed items and services. 1.4 Obtain senior management approval for the category management plan. 1.5 Develop outcome based processes and guidelines to support category management. 1.6 Identify staff skills and training and development opportunities related to category management and incorporate these into professional development plans. 1.7 Identify and interrogate organisational Enterprise Resource Planning (ERP) and document management systems in order to gather and analyse data pertaining to the level of spend on various procurement types.
2. Define categories	2.1 Identify and analyse current procurement options adopted by the organisation and other procurement options that are available in the marketplace. 2.2 Identify market, procurement and contract management trends, opportunities and risks relevant to categories. 2.3 Identify and engage relevant internal stakeholders to assist in defining categories. 2.4 Define procurement categories using a recognised basis. 2.5 Identify and implement appropriate systems to support category and contract managers.

© Commonwealth of Australia, 2022 SkillsIQ

3. Implement category management	3.1 Develop market strategies for categories and act on them as appropriate to the organisation. 3.2 Implement the category management plan. 3.3 Implement strategies to manage and maintain productive relationships with identified suppliers. 3.4 Resolve operational issues raised by contract users and suppliers. 3.5 Capture and analyse data from a range of sources about the category performance against the performance metrics on a regular basis and report category performance to appropriate corporate systems. 3.6 Regularly review buying organisation, industry and market category positions to identify trends, opportunities and risks and adjust direction as indicated by the results of the review.
4. Review category management	4.1 Review and monitor performance metrics on a regular basis to ensure efficiency and effectiveness is achieved and maintained in category management processes. 4.2 Consult appropriately with stakeholders, provide performance feedback and recommend corrective or improvement actions as necessary. 4.3 Monitor buying organisation, industry and market performance and ensure organisational strategies are modified where appropriate. 4.4 Monitor staff skills and provide appropriate skilling upgrades.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPPROC512 Plan and implement procurement category management.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Collect and analyse demand and procurement spend data	1.1 Identify and analyse demand patterns (organisational consumption), using a range of data sources and using appropriate breakdowns such as by category, region or time period. 1.2 Identify and analyse procurement spend data, using a range of data sources and using appropriate breakdowns, including by category, region or time period. 1.3 Establish and analyse the relationship between demand, consumption and procurement spend and assess business complexity of the buying organisation based on this analysis. 1.4 Develop product usage profiles and organisational spend profiles. 1.5 Establish causal links for demand and spend patterns through engagement with internal stakeholders and analysis of data. 1.6 Map and analyse processes involved across the whole procurement life cycle to identify potential for efficiencies and improved data gathering. 1.7 Review organisational policies and processes for procurement, asset management and budget, assess the impact of these on demand and/or spend and make recommendations to improve management of demand.
2. Develop and implement demand/spend management strategy	2.1 Develop and implement effective communication strategies to engage internal stakeholders, external and market stakeholders. 2.2 Develop and implement outcome based demand and/or spend management processes across the procurement life cycle. 2.3 Identify and use appropriate systems to support procurement and financial processes. 2.4 Develop and implement processes to control and manage the demand for particular goods and services according to influencing factors. 2.5 Identify staff skills and training and development opportunities related to demand and/or procurement spend management and incorporate these into professional development plans. 2.6 Develop outcome based, transparent and manageable performance metrics to ensure best practice is achieved, whilst satisfying organisational needs.
3. Manage demand/spend	3.1 Review and analyse the market profile, including opportunities to influence or develop the market.

© Commonwealth of Australia, 2022 SkillsIQ

risks and opportunities	3.2 Identify and assess market dynamics including market cycles, product life cycles and growth and/or decline. 3.3 Assess realistically the desirability and practicality of ongoing market development and undertake market development activities where these are appropriate. 3.4 Identify and consider opportunities and risks associated with managing demand and procurement spend.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPPROC513 Conduct demand and procurement spend analysis.

PSPPCM019 Divest strategic assets

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPROC603C Divest strategic assets. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to dispose of high risk and high value government assets, including government businesses, property, strategic infrastructure, intellectual property and other high value items. It includes identifying strategic assets for disposal, developing a disposal plan for divesting strategic assets, divesting the assets and evaluating the divestment activity.

This unit applies to those working in roles involving assessment of strategic assets.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit will be working independently, and as part of a team, while performing routine tasks in familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify strategic assets for divestment	1.1 Identify and examine disposal plans developed at the time of purchase. 1.2 Determine and substantiate potential market value of assets.
2. Develop a disposal plan for divesting strategic assets	2.1 Develop a business case to commence the divestment strategy, which includes examination of options for disposal and explanation of the recommended strategy. 2.2 Identify and develop strategies to address continuing government or organisational obligations post-divestment. 2.3 Develop disposal plan. 2.4 Evaluate and modify disposal plan prior to approval, if required. 2.5 Obtain required approvals.
3. Implement disposal plan	3.1 Action approved disposal plan. 3.2 Develop the business case, based on prices offered and according to disposal plan. 3.3 Conduct and finalise negotiations according to the plan.
4. Evaluate divestment activity	4.1 Evaluate disposal plan, immediate outcome of divestment, and long-term outcomes for service provision and government. 4.2 Make recommendations for future divestment.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPPROC603C Divest strategic assets.

Assessment Requirements for PSPPCM019 Divest strategic assets

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- consulting and negotiating with stakeholders
- networking, within probity boundaries
- building and managing effective working relationships
- writing business cases, disposal plans, reports, submissions and other complex documents
- demonstrating problem-solving skills to apply decision-making processes or methodologies
- identifying and assess divestment options for strategic assets
- planning and organising skills to manage financial and other resources

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Commonwealth, state or territory, and local government legislation, policies, practices and guidelines.
- financial rules and regulations relating to divestment of strategic assets
- legal requirements of government strategic asset disposal
- implications of divestment of service provision
- whole of life considerations
- disposal approval processes
- probity principles and issues

© Commonwealth of Australia, 2022 SkillsIQ

- codes of practice, codes of conduct and standards of individual behaviour relating to asset divestment
- law of contract relating to strategic asset disposal
- trade practices law relating to strategic asset disposal
- commercial law relating to divesting strategic assets

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPPCM020 Plan for strategic procurement

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPROC604B Plan for strategic procurement. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to plan for highly complex, innovative, sophisticated and often long-term strategic procurement within established guidelines, policies and procedures. This may involve high-level capability development for government.

Strategic procurement is high risk, often involving political elements. This includes conducting a procurement business analysis, defining procurement requirements, and justifying procurement expenditure.

This unit applies to those working in roles involving procurement planning.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently seeking advice as required, performing complex tasks in a range of familiar contexts

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Procurement

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Conduct procurement business analysis	1.1 Analyse organisation's corporate procurement plan, procurement-related expenditure, associated levels of risk and supply markets. 1.2 Prepare a procurement profile that identifies past and projected procurement expenditure and associated levels of risk. 1.3 Undertake supply positioning and categorise goods and services by their relative expenditure and difficulty of securing supply to assist in the development of procurement objectives. 1.4 Use supplier preferences to identify how suppliers view the organisation as a client. 1.5 Identify and document other factors likely to affect strategic procurement according to organisational requirements. 1.6 Practice due diligence to investigate existing relationships with suppliers, notably coordinated procurement contracts (CPCs) or coordinated procurement opportunities.
2. Define procurement requirements	2.1 Determine procurement requirements through consultation and negotiation with stakeholders and experts and define to reflect organisational needs. 2.2 Identify and incorporate accountability measures into procurement plans. 2.3 Obtain appropriations to fund strategic procurement. 2.4 Obtain approvals to address procurement requirements.
3. Justify procurement expenditure	3.1 Develop business case with stakeholders to determine viability of proposed procurement expenditure. 3.2 Establish reasons for procurement requirement, timeframes and expected whole-of-life costs and benefits in the business case. 3.3 Develop output specification with stakeholders to assist in achieving procurement outcomes.

Assessment Requirements for PSPPCM020 Plan for strategic procurement

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- reading and writing complex documents
- applying understanding of supplier issues and supply chain management in the context of strategic procurement
- identifying and assessing strategic procurement options and alternatives
- undertaking research and business analysis
- managing financial and other resources
- exercising best practice in strategic procurement and procurement legislation.

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Commonwealth, state or territory, and local government legislation, policies, practices and guidelines relating to strategic procurement
- organisational procurement policies, practices and approval processes
- aspects of law of contract, trade practices law, and commercial law relating to strategic procurement
- probity principles and issues
- codes of conduct, codes of practice and standards of individual behaviour relating to procurement decisions
- government procurement environment

© Commonwealth of Australia, 2022 SkillsIQ

- legal requirements of government procurement
- implications of particular procurement arrangements
- whole of life considerations
- cultural issues relating to strategic procurement and industry development in certain industry sectors
- relationship management at all personnel levels
- environmental, sustainability and corporate social responsibility principles relevant to strategic procurement

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPPCM021 Coordinate strategic procurement

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPROC605B Coordinate strategic procurement. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to analyse, influence and develop markets and implement activities for highly complex, innovative and often long-term strategic procurement within established guidelines, policies and procedures.

Strategic procurement is high risk, often involving political elements. The unit includes undertaking market analysis, influencing and developing markets, and implementing strategic procurement activities.

This unit applies to those working in roles involving procurement of goods or services essential to the operation of their organisation.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously with management responsibilities, while performing complex tasks in familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Procurement

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Undertake market analysis	1.1 Identify organisation's strategic procurement requirements and commercial and policy factors impacting procurement. 1.2 Research the extent to which a competitive market exists to meet the organisation's needs. 1.3 Identify the number of suppliers, their market share and the degree and type of competition between suppliers. 1.4 Analyse the nature, quality and maturity of the supply chain. 1.5 Identify and analyse environmental, sustainability and corporate social responsibility factors affecting the supply market. 1.6 Engage expert assistance, as necessary, to assist with market analysis.
2. Influence and develop markets	2.1 Identify and analyse supply markets and strategic industries to ascertain emerging and predicted trends. 2.2 Analyse supply markets and strategic industries, including capabilities, limitations, financial standing and past performance of existing and potential suppliers. 2.3 Use market development strategies to develop and influence market capability, within probity boundaries. 2.4 Identify implications of procurement threats and opportunities imposed by supply markets and communicate to stakeholders.
3. Implement strategic procurement activities	3.1 Determine procurement methodologies according to organisation's strategic procurement plan. 3.2 Design requirements to deliver business outcomes and provide value for money, including whole-of-life considerations. 3.3 Effect methodologies by constraints, complexity and importance of procurement requirement and the marketplace. 3.4 Determine procurement activities and form teams to manage strategic procurement activities. 3.5 Determine performance measures to suit the range of procurement activities.

© Commonwealth of Australia, 2022 SkillsIQ

	3.6 Analyse performance against measures, and implement methods that continuously improve procurement performance.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPPROC605B Coordinate strategic procurement.

Assessment Requirements for PSPPCM021 Coordinate strategic procurement

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- networking, within probity boundaries, with stakeholders
- writing complex documents
- managing teams of experts in functions, including finance, legal, technical and engineering
- modelling effective management and leadership approaches
- applying decision-making processes or methodologies
- identifying and resolving strategic procurement issues
- identifying and assessing opportunities for development of strategic markets/industries
- undertaking research and business analysis
- managing financial and procurement projects
- operating organisational IT systems and electronic procurement templates

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Commonwealth, state or territory, and local government legislation, policies, practices and guidelines relating to strategic procurement.
- organisational procurement policies, practices and approval processes
- aspects of contract law, trade practices law, and commercial law relating to contract management in the context of strategic procurement

© Commonwealth of Australia, 2022 SkillsIQ

- probity principles and issues
- codes of conduct, codes of practice and standards of individual behaviour relating to procurement
- competition policy theory, including competitive neutrality
- supply chain management
- legal requirements of government procurement
- financial rules and regulations
- implications of particular market arrangements
- whole-of-life considerations
- supplier issues and supply chain management in the context of strategic procurement
- procurement management processes
- cultural issues relating to strategic procurement and industry development
- relationship management at all personnel levels
- environmental, sustainability and corporate social responsibility principles relevant to strategic procurement

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPPCM022 Negotiate strategic procurement

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPROC606B Negotiate strategic procurement. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to negotiate strategic procurement agreements within established guidelines, policies and procedures. It includes planning and preparing for negotiation, and undertaking and finalising the negotiation process for strategic procurement.

This unit applies to those working in a role that requires negotiation of strategic procurement.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit will be working independently aided by consultation in a team environment, while performing complex tasks in familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Plan and prepare for strategic procurement negotiations	1.1 Seek input and advice from key stakeholders and identify the procurement and negotiating context. 1.2 Gather information on suppliers and develop a best alternative to negotiating an agreement. 1.3 Determine objectives, targets and bottom line position for negotiations. 1.4 Determine composition of negotiating team and limits on negotiators' authority. 1.5 Determine negotiation process, timeframes and strategies to suit complexity of procurement and supplier characteristics. 1.6 Develop a negotiation plan or directive that identifies negotiation roles of team members, lead negotiator, negotiating styles, tactics and limits of authority to suit the procurement activity. 1.7 Seek authorisation of negotiation plan.
2. Undertake strategic procurement negotiations	2.1 Open negotiations, identify supplier tactics, and identify mutually compatible interests. 2.2 Negotiate concessions to terms and conditions on minor and major issues to improve overall value for money of the procurement. 2.3 Implement concessions such that agreements remain consistent with original intentions and with procurement, organisational objectives and probity requirements. 2.4 Use appropriate tactics to break negotiation deadlocks and continue negotiations according to negotiation plan. 2.5 Conduct negotiations and make an offer.
3. Finalise strategic procurement negotiations	3.1 Finalise negotiations and agreements according to procurement guidelines. 3.2 Keep communication channels open and seek additional support, arguments and supporting evidence where agreement is not possible immediately. 3.3 Terminate negotiations and pursue the best alternative, where agreement is not possible in a way that preserves the relationship with the supplier for possible future business and deters the possibility of legal liability. 3.4 Consider where agreements may have wider implications for procurement and the organisation, and carry out necessary

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Manage contract establishment	1.1 Discuss and agree upon requirements of contracts and strategic initiatives with all parties. 1.2 Assign responsibilities for establishing and carrying out procedures to achieve contract outcomes. 1.3 Establish and implement effective communication strategies and processes to assist ongoing communication between internal and external stakeholders and contractors. 1.4 Perform relationship management with all levels of personnel involved in procurement and contract management, within probity boundaries. 1.5 Establish strategic relationships within probity boundaries to improve procurement capability and performance. 1.6 Update risk management plans.
2. Manage contract performance	2.1 Monitor progress of contracts against set targets and performance measures to ensure success of procurement activities. 2.2 Take action to rectify performance where set targets, performance measures and probity requirements are not being met. 2.3 Provide advice and support to solve problems, make improvements and maintain progress. 2.4 Manage disputes promptly according to contractual conditions to achieve resolution and maintain contract performance and progress. 2.5 Seek and negotiate opportunities to continuously improve procurement outcomes with contractors. 2.6 Provide or gain approvals for contract variations that are negotiated and agreed between the parties. 2.7 Provide opportunities for stakeholders and contractors to have input into and receive feedback on progress during the performance of the contract. 2.8 Engage internal and external stakeholders as necessary throughout the life of the contract to maintain progress.
3. Manage contract evaluation	3.1 Evaluate contract performance relative to planned performance measures and in consultation with stakeholders and contractors. 3.2 Undertake dispute resolution where stakeholders and contractors do not agree. 3.3 Detail conclusions against agreed criteria to provide a complete

© Commonwealth of Australia, 2022 SkillsIQ

	picture of performance of contractors, organisation's procurement processes and value for money. 3.4 Measure performance of strategic initiatives relative to planned outcomes in consultation with industry and other stakeholders. 3.5 Document lessons learnt from evaluations of contracts and strategic initiatives and use to continuously improve future procurement activities. 3.6 Advise contractors and stakeholders of evaluation outcomes.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPPCM024 Manage fundamental aspects of supply chain

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- gather and analyse organisational information to build procurement profile
- review and apply legislative, regulatory and policy requirements
- identifying and predicting trends
- applying the content of complex documents
- applying complex government policy and inter-governmental agreements
- interrogating corporate systems to obtain data
- applying complex cost models
- analysing complex supply chains to identify risk, vulnerability and opportunity
- interpreting market reaction
- documenting procurement planning decisions and expected outcomes
- managing and update procurement plans and sub-plans in line with strategic plans and budgets
- applying complex strategies to development of strategic plans, including corporate, budget and procurement plans and sub plans
- exploiting organisational Enterprise Resource Planning systems (ERPs)
- develop and manage electronic commerce
- exploit market opportunities and initiatives in commerce

© Commonwealth of Australia, 2022 SkillsIQ

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Commonwealth, state and/or territory, or local government legislation, regulation, policies, practices, procedures and guidelines
- international treaties relevant to trade and procurement practices
- government and inter-governmental policy and agreements in relation to procurement practices
- principles and practices associated with Corporate Social Responsibility (CSR), sustainability and environmental issues as applicable to procurement and market behaviours
- research and analysis as applied to complex outcomes, trends and predictions of markets and procurement changes
- micro and macro-economic issues applicable to market behaviours and the impact of procurement
- legal issues and determinations impacting on procurement
- implications for the organisation and for the market (suppliers) of key procurement strategies and/or arrangements
- whole of life costing considerations and value for money
- financial, costing and accounting issues relevant to procurement and contracts

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment Requirements for PSPPCM025 Influence and define strategic procurement direction

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- consulting and negotiating with stakeholders at the highest levels of organisations and the community
- engaging in strategic networking and influencing, within probity boundaries, with key stakeholders and decision makers
- conveying complex ideas to a wide range of audiences
- reading, writing and approving business cases, plans, reports, submissions and other high level complex documents
- managing teams of expert negotiators in different functions
- undertaking research and business analysis relating to strategic procurement and high level business issues
- managing financial and other resources

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Commonwealth, state or territory, and local government legislation, policies, practices and guidelines relating to strategic procurement, including environmental purchasing guidance
- organisational procurement policies, practices and approval processes
- government procurement environment
- probity principles and issues

© Commonwealth of Australia, 2022 SkillsIQ

- codes of conduct, codes of practice and standards of individual behaviour relating to strategic procurement
- financial rules and regulations relating to strategic procurement
- competition theory as it relates to strategic procurement
- strategic procurement planning processes
- procurement best practice standards
- environmental, sustainability and corporate social responsibility principles relevant to strategic procurement

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPPCM026 Establish the strategic procurement context

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPROC705A Establish the strategic procurement context. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to establish the broad context in which strategic procurement takes place. It includes undertaking environmental analysis; analysing, developing and monitoring procurement capability; influencing and developing strategic industries; and establishing and managing risk exposure. It also includes understanding the government and political context for strategic procurement.

This unit applies to those working in roles involved in procurement.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously consulting others as required, performing sophisticated tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Procurement

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse the procurement environment	1.1 Apply knowledge of the legal, political and financial environment to establish strategic context. 1.2 Define the relationship between the organisation and its procurement environment. 1.3 Identify existing and potential stakeholders and their strengths and weaknesses. 1.4 Identify strengths, weaknesses, opportunities and threats using information that is up to date, reflects emerging and predicted trends, and takes account of the possible future procurement interests and activities of the organisation and government directions. 1.5 Adjust the organisation's procurement strategies and plans with respect to information gathered, and identify comparative targets. 1.6 Support any case for possible collaboration with other organisations with evidence, analysed for risks, and consistent with organisational plans and future directions.
2. Analyse procurement capability	2.1 Consider organisation's strengths, weaknesses, opportunities and threats in light of internal and/or external factors and organisation's strategic procurement goals. 2.2 Analyse organisational capability taking into account possible future procurement interests and activities of the organisation, its strategic industries, collaborators, requirements of government and other organisations. 2.3 Make suggestions for improvements to existing organisational structures and procurement systems that are realistic and achievable and will aid achievement of the procurement mission statement and strategies drawn from both internal and external stakeholders. 2.4 Consult on proposed improvements with those affected, in time for their views to be taken into account. 2.5 Justify proposed improvements on the basis of known internal and external factors, and take into account stakeholder needs and expectations.

© Commonwealth of Australia, 2022 SkillsIQ

3. Develop and monitor procurement capability	3.1 Implement improvements to develop procurement capability to meet new circumstances. 3.2 Define practical requirements for implementing improvements. 3.3 Identify difficulties associated with implementing improvements as early as possible in order to minimise their effect. 3.4 Monitor, review and modify implemented improvements to organisational structures and procurement systems as required to assist achievement of procurement outcomes.
4. Influence and develop strategic industries	4.1 Monitor strategic industries and take opportunities to influence key opinion formers and decision makers to change, encourage and nurture industry capability. 4.2 Identify problems, limitations and new opportunities in strategic industries in response to internal and external factors, based on quantitative and qualitative data. 4.3 Influence strategic industries remaining sensitive to procurement policies and the values and practices of key opinion formers and decision makers.
5. Establish and manage risk exposure	5.1 Define and monitor total organisational risk to minimise loss and maximise opportunity. 5.2 Establish and implement a risk management system. 5.3 Monitor performance of risk management system, and modify to reflect procurement opportunities and current and emerging trends.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Determine evaluation measures and criteria	1.1 Determine measures for evaluation to provide value for money. 1.2 Determine evaluation measures and criteria according to Government policy and objectives, nature, values and character of the organisation. 1.3 Add information about progress towards objectives, strategic goals and implementation of procurement policies.
2. Evaluate organisational achievement	2.1 Evaluate against strategic procurement goals, policies, plans and codes/standards of behaviour, considering evidence from procurement activities. 2.2 Compare conclusions from evaluation and the agreed criteria, supported by evidence and reported with respect to strategic goals. 2.3 Identify performance failures and discuss reasons with stakeholders. 2.4 Consult stakeholders prior to publication of any report on performance that may affect the interests of stakeholders. 2.5 Provide reports.
3. Evaluate procurement plans and their implementation	3.1 Identify and present causes of success and failure, supported by evidence. 3.2 Report and justify alternative explanations 3.3 Provide explanations to counter possible objections where there is no obvious solution to a situation. 3.4 Provide advice learnt from previous success or failure and use it in the future planning of procurement. 3.5 Provide feedback to those whose performance is examined.
4. Evaluate strategic procurement goals, policies and performance	4.1 Identify strengths and weaknesses in strategic procurement goals, policies and performance. 4.2 Formulate recommendations for building on strengths and addressing weaknesses.

© Commonwealth of Australia, 2022 SkillsIQ

5. Implement continuous improvement in procurement performance	5.1 Implement recommendations. 5.2 Incorporate review and reformulation of strategic procurement goals and policies into the cycle of continuous improvement of strategic procurement. 5.3 Monitor, measure and manage procurement performance for continuous improvement.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Assist with policy development planning	1.1 Conduct research to identify related policies for context and identify other policies likely to be impacted. 1.2 Identify key internal and external stakeholders ensuring their engagement as early as possible and throughout the policy development process. 1.3 Provide research assistance to determine the content of key aspects to be included in the policy development plan.
2. Research information for policy development	2.1 Identify, evaluate and collate information required to support the policy development process. 2.2 Identify and record gaps, ambiguity and conflicting views, conduct additional research to clarify if necessary and refer to the principal policy developer if required.
3. Contribute to the development of policy options	3.1 Formulate and analyse possible policy options under guidance, to identify strengths and weaknesses. 3.2 Research and prioritise possible criteria for choosing preferred policy options.
4. Assist in drafting policy	4.1 Produce initial drafts or selected sections of the policy. 4.2 Capture written and oral feedback from stakeholders and include in draft as required. 4.3 Monitor the progress of policy development against the timeframe and milestones.
5. Assist with policy dissemination	5.1 Identify recipients for approved policy documents, particularly those responsible for implementing the new or revised policy, and inform them of outcomes. 5.2 Deal with routine enquiries on the release and content of the policy, or refer accordingly.

PSPPCY004 Support policy implementation

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPOL404A Support policy implementation. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to identify, implement and monitor relevant policy and report on implementation.

This unit applies to public sector staff and other stakeholders working in a role where they are required to support policy implementation.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently. They would perform routine tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify relevant policy	1.1 Identify work situations that are shaped by government or organisation policy. 1.2 Identify and locate policy relating to particular work situations.
2. Implement policy	2.1 Interpret policy to be implemented to identify and plan for change in work practices. 2.2 Identify the implications of policy for individual work practices, confirm and adjust practices to reflect policy requirements. 2.3 Support others affected by policy requirements to accommodate those requirements.
3. Monitor and report on policy implementation	3.1 Gather, record and report information that will assist with the evaluation of the effectiveness of policy implementation. 3.2 Gather, record and report information that will assist with evaluation of policy impact on organisational outcomes.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPPOL404A Support policy implementation.

Assessment Requirements for PSPPCY004 Support policy implementation

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion:

- reading complex and formal documents and providing information on their application
- preparing accurate written reports with language and structures suited to the intended audience
- working with legislation drafters and legal advisers
- consulting on and preparing policy guidelines
- adjusting communication to suit different audiences
- gathering and analysing policy feedback

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- practices and procedures for developing policy guidelines
- policy feedback mechanisms
- current organisation policies
- government policies and international policy obligations that impact on organisation policy
- organisation and government procedures and protocols
- public sector codes of ethics and code/s of conduct

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPPCY005 Implement e-correspondence policies

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPOL405A Implement e-correspondence policies. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to send and receive email correspondence (e-correspondence). It also covers setting up and maintaining electronic software; maintaining and managing individual electronic mail (email) mailing lists and address books; implementing email policy; and adhering to organisational protocols and practices for email.

This unit applies to those working as public sector staff.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work under supervision, while performing routine tasks in familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

PSPPCY006 Develop organisation policy

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPOL501A Develop organisation policy. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to develop or review internal policy in an organisation, formulated to facilitate the implementation of government or board directives. It includes anticipating and confirming the need for policy development or review; planning the policy development process; gathering and analysing information; determining policy direction; and drafting, releasing and promoting policy.

This unit applies to public sector staff working in policy development.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, while performing complex tasks in familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Policy

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Assess the need for policy development and/or review	1.1 Identify internal and external factors, issues, events, directions or government and/or board policies likely to cause changes to organisation policy. 1.2 Identify the likely implications and impact of factors on policy development in consultation with stakeholders. 1.3 Conduct a critical analysis of the need for new or revised policy including a scan of the wider internal and external environment. 1.4 Recommend priority areas for policy development and/or review. 1.5 Detail confirmation of the need for policy development and/or review with supporting evidence.
2. Plan the policy development process	2.1 Confirm the approving authority and relevant organisational procedures and protocols. 2.2 Identify and analyse issues likely to impact on the policy development process and address risks in planning. 2.3 Outline policy requirements in a policy development plan.
3. Gather and analyse information for policy development	3.1 Identify and engage with stakeholders through the establishment and maintenance of a representative and relevant policy network. 3.2 Identify, gather, analyse and interpret information required to support the policy development process. 3.3 Determine and apply an analytical framework for the development of the policy.
4. Determine policy direction	4.1 Develop a range of policy options and criteria for choice and communicate them to those responsible for selecting the policy direction. 4.2 Promote specific policy options to executives within the organisation. 4.3 Recommend preferred policy option. 4.4 Determine risk treatments in accordance with the policy development plan. 4.5 Obtain approvals.
5. Draft policy	5.1 Implement a cyclical process of consultation, feedback,

© Commonwealth of Australia, 2022 SkillsIQ

	identification of changes and re drafting. 5.2 Implement risk management processes in accordance with the policy development plan to ensure progress against the timeframe and milestones. 5.3 Add an implementation plan in the policy that details responsibilities for implementation and strategies for transition, change management, initial and ongoing training and maintenance of the policy. 5.4 Add mechanisms within the policy for monitoring compliance, quality assurance, and evaluation of the policy.
6. Finalise development of policy	6.1 Clear policy through organisational channels, and gain agreement of critical stakeholders. 6.2 Ensure all stakeholders, particularly those who will be responsible for implementing the new or revised policy, are informed of the outcomes, and manage fallout from dissenting stakeholders. 6.3 Release and promote policy.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPPOL501A Develop organisation policy.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Develop policy guidelines for the organisation	1.1 Confirm policy intent and identify and review existing procedures impacted by the policy for consistency with the policy. 1.2 Determine intended audience for policy guidelines as well as structure, language style and format. 1.3 Develop guidelines in consultation with policy developer, end users and organisation approval personnel. 1.4 Submit guidelines and obtain approval.
2. Interpret and advise on organisation policy	2.1 Analyse policy and interpret and confirm the intent and implications. 2.2 Provide information and advice on the relevant acts, regulations, procedures, codes of practice, standards and guidelines. 2.3 Ensure provided documentation supports the information and advice given and reflects consideration of intended use and consequences.
3. Monitor the implementation of organisation policy	3.1 Gather, analyse and report policy feedback on implementation issues. 3.2 Evaluate implementation of policy against initial criteria in implementation plan and report outcomes. 3.3 Implement quality assurance mechanisms to monitor policy implementation. 3.4 Identify and report any unforeseen practices and action. 3.5 Monitor the environment for policy implications, and identify potential or impending organisation policy changes.
4. Advise on policy implementation	4.1 Gather, analyse and report information relating to the intended and actual outcomes of organisation policy during and following policy implementation. 4.2 Prepare suggestions for improvement, discontinuance or replacement of organisation policy.

PSPPCY008 Develop public policy

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPOL601A Develop public policy. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to develop or review public policy, to enable the implementation of government objectives. For the purposes of this unit, public policy includes government policy affecting all Australians and public sector policy that is not restricted to a particular organisational structure or individual organisation. The unit includes anticipating and confirming the need for public policy development or review and planning the policy development process; gathering and analysing information; determining policy direction; drafting, gaining agreement for, and disseminating public policy.

This unit applies to those working as public sector staff required to develop policy.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, while performing complex tasks in familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Assess the need for public policy development or review	1.1 Identify events, issues or government policies likely to lead to changes to public policy. 1.2 Identify and prioritise the likely implications and impact of factors that might require public policy development in consultation with stakeholders. 1.3 Conduct a critical analysis of the need for new or revised public policy that includes a scan of both internal and external environments, checks related policies for context and identifies other public policy likely to be impacted. 1.4 Recommend priority areas for public policy development or review. 1.5 Confirm the need for public policy development or review and detail supporting evidence.
2. Plan public policy development process	2.1 Confirm the approving authority. 2.2 Identify and analyse issues likely to impact on the policy development process and address them in policy development planning. 2.3 Develop a policy development plan outlining public policy requirements.
3. Gather and analyse information for public policy development	3.1 Identify and engage stakeholders through the establishment and maintenance of a public policy network. 3.2 Gather, analyse and interpret information required. 3.3 Determine and apply an analytical framework.
4. Determine public policy direction	4.1 Obtain strategic input from high-level staff. 4.2 Develop a range of policy options and criteria for choice and communicate to those responsible for selecting the policy direction. 4.3 Determine risk treatments and identify a preferred public policy option. 4.4 Obtain approvals and endorsements.
5. Draft public	5.1 Draft public policy using a cyclical process of consultation,

© Commonwealth of Australia, 2022 SkillsIQ

policy	feedback, identification of changes and redrafting. 5.2 Implement risk management processes to ensure progress against the timeframe and milestones. 5.3 Develop an implementation plan that details responsibilities for implementation and strategies for transition, change management, and initial and ongoing training and maintenance of the policy. 5.4 Develop mechanisms for monitoring compliance with the policy, quality assurance of the policy, and for evaluation of the policy. 5.5 Develop the policy.
6. Release and promote public policy	6.1 Obtain agreement and clearance for public policy through required channels, and with critical stakeholders. 6.2 Ensure all stakeholders, particularly those who will be responsible for implementing the new or revised policy, are informed of the outcomes, and manage issues from dissenting stakeholders. 6.3 Release and promote the policy. 6.4 Provide advice to those affected by policy changes.

Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Interpret and advise on public policy	1.1 Analyse policy and provide interpretations on its intent and implications. 1.2 Provide interpretive advice on the relevant acts, regulations, procedures, codes of practice, standards and guidelines related to policy. 1.3 Provide written interpretations supported by defensible evidence and reflect consideration of their intended use and consequences. 1.4 Communicate policy advice. 1.5 Resolve policy questions referred by policy staff or use consultative mechanisms to gain additional clarification.
2. Provide input to policy evaluation and review	2.1 Capture and analyse policy feedback data to identify strengths, weaknesses, and any implementation issues. 2.2 Analyse both planned and unintentional outcomes of policy implementation and provide feedback against the evaluation criteria in the policy implementation plan. 2.3 Prepare and provide a comparison of the intended versus actual outcomes of policy implementation. 2.4 Monitor internal and external environments for policy implications, and prepare strategies to respond to potential or impending policy changes. 2.5 Prepare recommendations for continuous improvement, termination or succession of policies.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPPOL602A Provide policy advice.

Assessment Requirements for PSPPCY009 Provide policy advice

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- reading and evaluating complex and formal documents, including policy and legislation
- researching, analysing and presenting information
- preparing written reports
- dealing with different points of view and dissenting stakeholders
- providing policy advice on 3 or more occasions or in 3 or more contexts

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- policy development processes and practices in the public sector
- current policies underpinning the work area
- government procedures and protocols
- public sector code/s of ethics and code/s of conduct
- principles of community engagement in policy development

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPPCY010 Manage policy implementation

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPOL603A Manage policy implementation. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to interpret policy and manage policy implementation process. It includes interpreting and communicating the requirements of policy, and policy implementation.

This unit applies to those working as public sector staff required to manage policy implementation.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, with staff supervision responsibilities, while performing complex tasks in familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Policy

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Interpret and communicate requirements of policy	1.1 Identify the expected outcomes of policy implementation and communicate to staff. 1.2 Interpret policy relative to workplace responsibilities and accountabilities. 1.3 Communicate the impact on work activities of policy implementation to staff and other stakeholders. 1.4 Assist staff with the interpretation of policy and its application to their work.
2. Implement policy	2.1 Identify potential or impending policy changes and prepare strategies to accommodate and communicate those changes. 2.2 Prepare work plans consultation with staff and management to ensure that policy is implemented as intended. 2.3 Monitor staff performance to ensure that it complies with policy. 2.4 Assist staff in adjusting to changes.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPPOL603A Manage policy implementation.

PSPPCY011 Influence strategic policy

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPPOL701A Influence strategic policy. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to provide strategic leadership in the policy field. It includes monitoring and influencing policy environments, setting strategic policy directions and providing policy advice to government.

This unit applies to those working as public sector staff required to provide leadership regarding policy,

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously, with management responsibilities, while performing sophisticated tasks in familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Monitor and influence environments where policy applies	1.1 Identify problems, limitations and new opportunities in policy environments in response to internal and external factors and government priorities. 1.2 Monitor environments and take opportunities to influence key opinion formers and decision makers to increase their ability to respond to government priorities.
2. Set strategic policy direction	2.1 Conduct local, national and international monitoring of policies and trends pertinent to the medium to long-term priorities of government. 2.2 Implement strategies to develop and apply data capture mechanisms that will provide longitudinal information and trend analysis. 2.3 Set strategic policy directions in line with medium to-long term government priorities and communicate to stakeholders to attract their support. 2.4 Identify creative and innovative policy responses to complex social and economic issues in anticipation of expected policy development initiatives. 2.5 Establish and maintain productive relationships with key consultation partners to enable policy response to emerging issues.
3. Provide policy advice to government	3.1 Determine the context, purpose and audience for the policy advice and provide advice to government. 3.2 Provide, analyse and present policy advice. 3.3 Respond to requests from government for policy advice or provide information on what steps are being taken to address the request.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

PSPRAD001 Work safely in a radiation environment

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPRAD201Work safely in a radiation environment. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to apply radiation protection and work safety measures when working in an environment where sources of ionising radiation are present. This involves recognising the hazards and risks associated with working near sources of ionising radiation, interpreting and following site safety information, using specified radiation protection and safety measures, applying required operational safety measures, and responding appropriately to actual or potential emergencies.

This unit applies to those to personnel who directly handle, or come in direct contact with, radioactive materials in the mining and mineral processing industry sector and who may receive occupational exposures of greater than 1 millisievert per annum.

These personnel include drillers, miners, loader operators, plant operators, and samplers/testers, laboratory workers, operating theatre staff, contractors, sales and service engineers, who may:

- undertake exploration surveys of radioactive ore bodies
- extract, mill, process or pack radioactive ores, concentrates or mineral products
- manage radioactive by-products, contaminants and/or waste
- rehabilitate mine sites
- undertake laboratory testing
- undertake cabinet x-rays

© Commonwealth of Australia, 2022 SkillsIQ

- service ionising radiation equipment
- work in a nuclear facility

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work under direct supervision performing routine tasks, in a familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Radiation Safety

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Complete site safety induction	1.1 Participate in required radiation protection and site safety training. 1.2 Confirm contact details for personnel who can provide emergency and radiation protection and safety information.
2. Recognise site radiation hazards and degree of risk	2.1 Apply information about the nature and magnitude of radiation hazards and degree of risk associated with work activities at the site. 2.2 Apply information about exposure pathways and health effects of radiation exposure. 2.3 Apply information about occupational dose limits. 2.4 Recognise possible sources of personal contamination and implement recommended decontamination procedures. 2.5 Identify hazards and risks in work area prior to starting work, at regular intervals during work, and in response to changes in working conditions. 2.6 Recognise and report non-routine hazards, unusual situations, and potential or actual emergency incidents.
3. Follow	3.1 Implement instructions based on radiation protection principles

© Commonwealth of Australia, 2022 SkillsIQ

procedures for controlling radiation hazards	during assigned work. 3.2 Apply specified safe working rules, and use required personal protective equipment (PPE) and personal monitoring during assigned work tasks. 3.3 Comply with all site safety signs. 3.4 Observe required standards of personal hygiene and behaviour while on site. 3.5 Seek advice or instructions to deal with any situation beyond own technical competence. 3.6 Apply specified procedures to decontaminate work surfaces and/or personnel as necessary. 3.7 Implement instructions for managing contaminated waste produced during assigned tasks. 3.8 Advise employer of previous employment involving occupational exposure to radiation and cooperate in obtaining records of previous exposure. 3.9 Complete required records and reporting.
4. Follow workplace emergency response procedures	4.1 Review information about workplace emergency response procedures and personal responsibilities in the event of a radiation incident. 4.2 Recognise emergency alarms, move to the designated muster point, and follow instructions.
5. Report problems	5.1 Recognise and report defects in plant equipment and procedures that may compromise radiation protection and safety or radiation protection safety standards, codes and guidelines.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPRAD201Work safely in a radiation environment.

Assessment Requirements for PSPRAD001 Work safely in a radiation environment

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- following required radiation protection and safety procedures
- following radiation safety signs
- regularly assessing and reassessing risks and hazards and applying required control measures
- recognising dose limits
- using and caring for PPE and personal monitoring equipment that has been issued for assigned work tasks
- responding correctly when encountering contaminated work surfaces and personnel

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- responsibilities of employers and employees under:
  - relevant Commonwealth guidelines, including RPS No.1
  - state or territory legislation and local regulations and by-laws
  - duty of care obligations
- radioactive decay, radioactive material, ionising radiation, shielding, safe distance, contamination, contamination controls, decontamination
- types and properties of ionising radiation

© Commonwealth of Australia, 2022 SkillsIQ

- relevant occupational dose limits
- sources of hazardous radiation around the site and degree of risk of exposure or contamination
- internal and external exposure pathways and protective measures
- radiation health effects
- location of controlled or supervised areas within the site
- layers of protection:
  - avoiding exposure, where practicable
  - isolating sources of radiation where practicable through shielding, containment and remote handling techniques
  - engineering controls
  - adopting safe work practices, including work methods which make appropriate use of time, distance and shielding to minimise exposure
  - using approved PPE where other means of controlling exposure are not practicable
- personal hygiene requirements, and effects and implications of risky behaviours
- safe working rules and safe operating procedures for equipment
- safety signs relevant to assigned tasks
- use and care of PPE and personal monitors for assigned tasks

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPRAD002 Work safely with radioactive ores and minerals

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPRAD202 Work safely with radioactive ores and minerals. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to recognise the hazards and risks of working with uranium and/or thorium ores, mineral sands and any other naturally occurring material and to use appropriate radiation protection and safety measures. This involves recognising the hazards and risks associated with assigned work activities, using the required radiation protection and safety measures, responding appropriately to actual or potential emergencies, and contributing to improved radiation safety.

This unit applies to those who directly handle, or come in direct contact with, radioactive materials in the mining and mineral processing industry sector and who may receive occupational exposures of greater than 1 millisievert per annum.

These personnel include drillers, miners, loader operators, plant operators, and samplers/testers who may:

- undertake exploration surveys of radioactive ore bodies
- extract, mill, process or pack radioactive ores, concentrates or mineral products
- manage radioactive by-products, contaminants and/or waste
- rehabilitate mine sites
- undertake laboratory testing.

© Commonwealth of Australia, 2022 SkillsIQ

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work under direct supervision, performing routine tasks, in a familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Radiation Safety

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify hazards and associated risks with the site and assigned tasks	1.1 Interpret and apply information about hazards, where necessary requesting further information on radiation protection safety standards, codes and guidelines. 1.2 Implement instructions about site radiation control measures, monitoring, safe working rules and personal protective equipment (PPE) specified for the location and work activities. 1.3 Recognise hazards and risks in work area prior to starting work, at regular intervals during work, and in response to changes in working conditions and seek advice if necessary. 1.4 Recognise and report non-routine hazards and seek advice to deal with any situation beyond own technical competence.
2. Apply required radiation protection and safety measures	2.1 Use recommended hazard and risk control measures and follow safe working rules. 2.2 Comply with all site safety signs. 2.3 Follow required tag-out and lock-out procedures. 2.4 Use plant and equipment supplied for radiation protection or for the monitoring and assessment of radiation exposure. 2.5 Maintain required standards of personal hygiene.
3. Respond to potential or actual radiation	3.1 Recognise any unsafe situation, hazard or incident associated with assigned tasks. 3.2 Inform relevant personnel about the situation, hazard or incident

© Commonwealth of Australia, 2022 SkillsIQ

incidents	and seek their advice. 3.3 Provide appropriate workplace first response in accordance with instructions and organisation's workplace emergency response procedures.
4. Contribute to radiation safety	4.1 Recognise and report defects in plant, equipment or procedures that may compromise radiation protection and safety or the management of radioactive waste. 4.2 Participate in required radiation safety training and participative and/or consultative activities within the scope of own responsibilities. 4.3 Advise of previous employment involving occupational exposure to radiation and cooperate in obtaining records of previous exposure. 4.4 Complete required records and reporting.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPRAD202 Work safely with radioactive ores and minerals.

Assessment Requirements for PSPRAD002 Work safely with radioactive ores and minerals

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- following the organisation's information about radiation protection and safety
- regularly assessing and reassessing risks and hazards and applying appropriate control measures
- applying standard operating procedures and specified safe working rules for assigned tasks
- seeking advice and further directions when faced with unexpected situations that may require decisions or response actions beyond own technical competence
- using and caring for PPE and personal monitoring equipment required in job role

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- responsibilities of employers, subcontractors and employees under:
  - Commonwealth guidelines, including RPS No.9 Code of Practice and Safety Guide for Radiation Protection and Radioactive Waste Management in Mining and Mineral Processing (2005)
  - state or territory legislation and local regulations and by-laws
  - duty of care obligations
- radioactivity, radioactive material, naturally occurring radioactive material (NORM), ionising radiation, contamination, contamination controls, shielding, half-life, and safe distance

© Commonwealth of Australia, 2022 SkillsIQ

- types and properties of ionising radiation, particularly radiation associated with uranium, thorium and decay products
- relevant dose limits
- sources of hazardous radiation and
- changes in risk of exposure and/or contamination due to factors including weather, time of day
- location of controlled or supervised areas within site and working rules for each
- internal and external exposure pathways and protective measures
- signs and symptoms of radiation exposure, radiation health effects
- techniques for assessing radiation hazards likely to be encountered in job role
- application of the hierarchy of control measures, including:
  - avoiding exposure, where practicable
  - isolating sources of radiation where practicable through shielding, containment and remote handling techniques
  - engineering controls
  - adopting safe work practices, including work methods which make appropriate use of time, distance and shielding to minimise exposure
  - using approved PPE where other means of controlling exposure are not practicable
- personal hygiene, and effects and implications of risky behaviours
- health, safety and workplace emergency response procedures
- safe working rules and safe operating procedures for equipment
- safety signs relevant to job role
- use and care of PPE and monitoring equipment for job role and assigned tasks
- potential adverse health and performance effects of wearing PPE while working in potentially hazardous environments
- principles and techniques for decontamination of personnel and equipment
- procedures for the disposal of contaminated waste

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPRAD003 Perform basic radiation measurements

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPRAD301 Perform basic radiation measurements. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to directly measure radiation using instruments calibrated by others. Basic radiation measurements will be straightforward involving one or two steps, take a short time and produce results that can be easily compared with specified limits. Measurements that are part of this unit would be performed under the authorisation and supervision, or delegated supervision, of a responsible person.

The activities may take place:

- at a mine or plant that processes radioactive ore and minerals
- with instruments that emit ionising radiation at geotechnical, construction, mining and manufacturing sites, or analytical and research facilities
- in a laboratory or licensed facility that handles radioactive materials or has radiation-emitting apparatus
- in a nuclear facility.

This unit applies to those undertaking radiation-related work activities, including:

- extracting, milling, processing and packing radioactive ores
- operating, installing, servicing and calibrating fixed radiation gauges, bore hole logging or industrial radiography equipment, and moisture/density gauges
- decontaminating and servicing equipment that has been in contact with radioactive material
- XRF and XRD analysis

© Commonwealth of Australia, 2022 SkillsIQ

- collecting, preparing and testing samples containing radioactive materials.
- using radionuclides in a laboratory

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work under supervision, or be authorised by the responsible person, to perform routine tasks in familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Radiation Safety

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare for radiation measurements	1.1 Confirm purpose, priority and nature of required ionising radiation measurements and any site access arrangements with supervisor. 1.2 Use organisation's radiation management plan to obtain information about the hazards associated with performing the measurements, measuring instruments and safe working rules to be used and refer to radiation protection safety standards, codes and guidelines as necessary. 1.3 Perform and record pre-use checks of measuring instruments and tag or replace faulty items as necessary. 1.4 Check that personal protective equipment (PPE) and other task-related equipment is fit for purpose. 1.5 Stow measuring instruments and task-related equipment to ensure safe transport to the site and within the boundaries of the site.
2. Obtain reliable radiation data	2.1 Operate measuring instruments in accordance with radiation management plan and manufacturer specifications and applying safe working rules to minimise personal radiation exposure. 2.2 Perform measurements at specified locations and times.

© Commonwealth of Australia, 2022 SkillsIQ

	2.3 Seek advice if required measurements cannot be made or if specified procedures require modification. 2.4 Conduct regular instrument checks and minor maintenance if required. 2.5 Take sufficient measurements to ensure reliable data. 2.6 Recognise obvious errors and atypical data, and take appropriate corrective actions. 2.7 Record data with the required precision, accuracy and units. 2.8 Record environmental/site conditions or observations that may impact on data quality.
3. Finalise radiation measurements	3.1 Check for contamination and, if necessary, perform personal decontamination. 3.2 Re-stow measuring instruments and task-related equipment to ensure safe transport from the site and within the boundaries of the site. 3.3 Record use of PPE and measuring instruments according to radiation management plan. 3.4 Check condition of measuring instruments, PPE and task-related equipment before storing them.
4. Report results	4.1 Record results. 4.2 Compare results with relevant radiation limits and identify/record significant differences or atypical results. 4.3 Maintain required records that are complete, accurate, legible and secure.
5. Respond to potential or actual radiation incidents	5.1 Recognise unusual situations, unexpected hazards, and potential or actual emergency radiation incidents. 5.2 Inform relevant personnel about the situation, hazard or incident and seek their advice. 5.3 Initiate appropriate workplace emergency first response.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPRAD301 Perform basic radiation measurements.

Assessment Requirements for PSPRAD003 Perform basic radiation measurements

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- applying manufacturer's recommended procedures for using and caring for radiation measuring instruments
- applying safe working rules and those parts of the organisation's radiation management plan relevant to job role
- conducting pre-use checks and simple maintenance for radiation measuring instruments and task-related equipment used in job role
- reading scales and displays accurately for a wide range of values
- regularly assessing and reassessing hazards and taking appropriate protective measures
- seeking advice and further directions when faced with unforeseen circumstances or situations that may require decisions or response actions beyond technical competence
- using and caring for PPE used in job role

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- ionising radiation, radioactivity, radioactive material, activity, dose, contamination, contamination controls, shielding, half-life, radionuclide, and safe distance
- types and properties of ionising radiation, sources and shielding methods
- radiation measuring instruments used in job role, including at least one of:
  - air proportional

© Commonwealth of Australia, 2022 SkillsIQ

  - gas proportional
  - gas ionisation
  - Geiger-Muller (GM)
  - compensated GM
  - scintillation
  - neutron monitors
  - solid state
  - personal dosimeters (badge and electronic)
- definitions of radiation quantities
- international system (SI) of units for radiation quantities, multiples and sub-multiples, and significant figures
- function of key components and operating principles of radiation measuring instruments used in job role
- effects on results of modifying instrument settings and variables
- basic instrument troubleshooting and maintenance procedures
- guidelines and safety procedures for working with radiation sources, based on principles:
  - reducing exposure time
  - maintaining greatest distance
  - using as much shielding as possible
- techniques for assessing radiation hazards likely to be encountered in job role
- health, safety and workplace emergency response procedures relevant to job role

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPRAD004 Consign radioactive material

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPRAD302 Consign radioactive material. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to prepare an item containing radioactive material for shipment, and arrange for its transport and/or interim storage. This involves packaging, labelling, certifying and documenting an item in order to ensure its safe carriage and prompt delivery. These tasks may be performed with the authorisation of the competent authority in the Australian state or territory in which the transport originates.

This unit applies to personnel who prepare material, articles, instruments and/or containers that emit ionising radiation for transport by road, rail, waterways, sea or air within Australia or overseas.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, performing routine tasks in a familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Radiation Safety

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare shipping documentation	1.1 Define the item to be consigned using relevant code or organisation's radiation protection and safety procedures. 1.2 Determine consignment type, applicable schedule and carriage provisions that apply to the item. 1.3 Prepare required transport documents.
2. Prepare item for shipment	2.1 Determine appropriate package design. 2.2 Use organisation's radiation protection and safety procedures and equipment if personally packing the item. 2.3 Confirm that packaging used for the item meets requirements of relevant code, radiation protection and safety procedures and, if required, that package approval certificate is current and valid for intended use. 2.4 Ensure that packaging is in good condition and that any seals are intact. 2.5 Ensure that external contamination does not exceed the specified limit. 2.6 Ensure that radiation above any surface does not exceed the specified limit. 2.7 Ensure that required labelling information is accurate, complete and attached in specified positions on the package. 2.8 Arrange for safe and secure interim storage of item. 2.9 Seek advice to deal with any atypical situation.
3. Confirm transport arrangements with the carriers	3.1 Confirm that carrier meets requirements for transporting the item. 3.2 Confirm that relevant competent authorities have been notified prior to shipment. 3.3 Specify requirements for loading, segregation, stowage, carriage, handling and unloading of the package, overpack or freight container. 3.4 Specify any necessary route instructions and restrictions on the mode of transport and conveyance. 3.5 Specify relevant emergency arrangements for consignment.

© Commonwealth of Australia, 2022 SkillsIQ

	3.6 Provide required transport documents, including any approval certificates from the relevant competent authority. 3.7 Ensure that size, weight, contents, packaging and label information for consigned items match consignor's declaration before shipment. 3.8 Ensure consigned items are stowed and secured and that vehicle is placarded if necessary.
4. Respond to potential or actual radiation incidents	4.1 Recognise unusual situations, unexpected hazards, and potential or actual emergency radiation incidents. 4.2 Inform relevant personnel about the situation, hazard or incident and seek their advice. 4.3 Initiate workplace emergency first response.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

Assessment Requirements for PSPRAD004 Consign radioactive material

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using relevant information sources to locate and interpret information about the safe transport of radioactive materials
- interpreting radiation labels, placards and safety signs
- completing documentation accurately with close attention to detail
- seeking advice or further directions when faced with unexpected situations that may require decisions or actions beyond own technical competence
- using monitoring equipment to measure radiation
- using and caring for personal monitoring equipment

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- guidelines for consignors, carriers and consignees defined in local regulations and relevant codes
- radioactivity, radioactive material, ionising radiation, contamination, contamination controls, shielding, half-life, transport index, and safe distance
- types and properties of ionising radiation
- relevant dose limits
- information on radiation labels, placards, emergency information sheets and safety signs and in transport documents relevant to job role
- internal and external exposure pathways and protective measures

© Commonwealth of Australia, 2022 SkillsIQ

- radiation health effects
- layers of protection, including:
  - avoiding exposure, where practicable
  - isolating sources of radiation where practicable through shielding, containment and remote handling techniques
  - engineering controls
  - adopting safe work practices, including work methods which make appropriate use of time, distance and shielding
  - where other means of controlling exposure are not practicable, using approved personal protective equipment
- health, safety and workplace emergency response procedures, safe working rules, personal hygiene requirements and safe operating procedures for equipment relevant to job role

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPRAD005 Handle and transport radioactive material

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPRAD303 Handle and transport radioactive material. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to safely pick up and deliver an item containing radioactive material. This involves checking the item and paperwork before transport; loading, segregating and unloading; safely and securely transporting; and handing the material over to the user or consignee. These tasks may be performed with the authorisation of the competent authority in the Australian states or territories in which the transport occurs.

This unit applies to personnel who handle and transport materials, articles, instruments and/or containers that emit ionising radiation within Australia by road, rail, waterways, sea or air.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, performing routine tasks in a familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Radiation Safety

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare for pick-up of items	1.1 Ensure compliance with licence, permit and vehicle requirements that apply to carrier of consigned items. 1.2 Confirm pick-up arrangements and specific requirements for loading, segregation, stowage, carriage, handling and unloading of the items. 1.3 Check that vehicle and communication devices are in good working order. 1.4 Ensure that required emergency response information is in vehicle cabin.
2. Check items prior to transport	2.1 Check that each item is intact. 2.2 Quarantine any item not safe for transport or with inconsistent paperwork, and promptly advise relevant personnel. 2.3 Check that size, weight, contents, packaging and label information for each item matches accompanying consignor's declaration. 2.4 Check that carrier copies of required transport documents are present, accurate and complete. 2.5 Confirm that non-fixed external contamination of items does not exceed specified limit. 2.6 Confirm that maximum radiation level from any surface of items does not exceed specified limit.
3. Safely stow and transport items	3.1 Use radiation protection and safety procedures and manual safe-handling procedures when handling items. 3.2 Ensure that each item is securely stowed and segregated. 3.3 Record receipt of items. 3.4 Ensure that required dangerous goods signs/placards are attached to vehicle in correct positions. 3.5 Deliver items using agreed routes and schedules. 3.6 Ensure security of items when vehicle is unattended. 3.7 Arrange for safe, secure storage of items in accordance with the relevant code during extended stops or breaks in transit, during

© Commonwealth of Australia, 2022 SkillsIQ

	trans-shipment and if delivery cannot be completed.
4. Complete delivery of items	4.1 Check that each item is intact and matches consignor's declaration before handover to user or consignee. 4.2 Quarantine any item that has visible damage or inconsistent paperwork and promptly advise relevant personnel. 4.3 Advise user or consignee of any specified requirements for the safe and secure interim storage of items. 4.4 Complete and file relevant transport documents.
5. Respond to potential or actual emergency incidents	5.1 Recognise unusual situations, unexpected hazards, and potential or actual emergency incidents. 5.2 Inform relevant personnel about the situation, hazard or incident and seek their advice. 5.3 Initiate appropriate workplace emergency first response.

PSPRAD006 Work safely with radiation-sealed source equipment

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPRAD304 Work safely with radiation-sealed source equipment. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to work safely when operating sealed source equipment that emits ionising radiation. This involves assessing risks before conducting the assigned work tasks, using recommended controls, applying safe working rules and emergency response procedures, monitoring radiation levels and completing required documentation.

This unit applies to authorised personnel who work at geotechnical, construction, mining and manufacturing, or analytical and research sites with any of the following sealed sources or equipment:

- industrial radiography equipment or gamma sources
- portable density and moisture gauges
- fixed source gauges (level, density, thickness and proximity)
- bore hole logging
- portable XRD and XRF instruments.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work under supervision, or be authorised by the responsible person, to perform routine tasks in familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Radiation Safety

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare for assigned tasks	1.1 Apply organisation's radiation management plans concerning hazards, monitoring equipment and safe working rules. 1.2 Liaise with site management to arrange access and confirm the nature and likely duration of assigned tasks. 1.3 Check that equipment required for assigned tasks is present and fit for purpose. 1.4 Record movement of source equipment. 1.5 Stow source equipment and monitoring equipment to prevent damage and to ensure safe, secure transport to the site and within the boundaries of the site. 1.6 Check that transport vehicle is fit for purpose and has the required signage.
2. Perform assigned tasks safely	2.1 Assess hazards at the site or prior to commencing assigned tasks, and seek advice if necessary. 2.2 Establish, or activate existing, boundaries and signage to control access to work area. 2.3 Perform pre-use and safety checks of source equipment and monitoring equipment. 2.4 Apply safe working rules and any other site control measures to minimise exposure to personnel and/or members of the public during assigned tasks. 2.5 Perform assigned tasks in the minimum safe time. 2.6 Verify that radiation measurements are below specified levels throughout assigned tasks. 2.7 Seek advice to deal with any situation beyond own technical competence. 2.8 Record required data and note any atypical site conditions or problems encountered and the actions taken.

© Commonwealth of Australia, 2022 SkillsIQ

3. Complete assigned tasks	3.1 Confirm that source has been returned to the fully shielded position within its container. 3.2 Check for contamination and if necessary perform personal decontamination in accordance with radiation management plan. 3.3 Re-stow source equipment and monitoring equipment to prevent damage and to ensure safe, secure transport from the site and within the boundaries of the site. 3.4 Record use of radiation source equipment and monitoring equipment. 3.5 Check the condition of all equipment before storing it. 3.6 Manage waste. 3.7 Survey the work area prior to leaving the site.
4. Report findings and outcomes	4.1 Record monitoring data. 4.2 Compare monitoring results with relevant radiation limits and note any significant differences or atypical results. 4.3 Identify potential or actual radiation protection or safety issues revealed during monitoring of assigned tasks. 4.4 Identify potential improvements that could be made to monitoring or work practices at the site. 4.5 Report findings and outcomes of assigned tasks. 4.6 Maintain required records that are complete, accurate, legible and secure.
5. Respond to potential or actual radiation incidents	5.1 Recognise unusual situations, unexpected hazards, and potential or actual emergency radiation incidents. 5.2 Inform relevant personnel about the situation, hazard or incident and seek their advice. 5.3 Initiate appropriate workplace emergency first response.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPRAD006 Work safely with radiation-sealed source equipment

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using relevant information sources to locate and interpret information about radiation source equipment
- conducting pre-use checks, for source equipment and monitoring equipment used in task
- interpreting manuals for source equipment and monitoring equipment used in job role
- assessing and reassessing risks and hazards and taking appropriate protective measures regularly
- operating source equipment and monitoring equipment used in task to obtain reliable data
- seeking advice and further directions when faced with unexpected situations that may require decisions or response actions beyond technical competence
- using and caring for personal protective equipment (PPE) and personal monitoring equipment required in job role

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- ionising radiation, radioactivity, radioactive material, contamination, contamination controls, concentration, shielding, half-life, radionuclide, and safe distance
- types and properties of ionising radiation, sources and shielding methods
- definitions of radiation quantities, including exposure, dose, effective dose, dose rate, dose equivalent, and dose limits
- exposure pathways and protective measures

© Commonwealth of Australia, 2022 SkillsIQ

- signs and symptoms of radiation exposure, radiation health effects, and deterministic and stochastic effects
- international system (SI) of units for radiation quantities
- function of key components, set-up checks and operating principles of source equipment and monitoring equipment used in task
- guidelines and safety procedures for working with radiation sources, based on principles of time, distance and shielding
- principles of optimising work practices to minimise exposure
- health, safety and workplace emergency response procedures, safe working rules, personal hygiene requirements and safe operating procedures for equipment relevant to job role
- PPE and monitoring equipment relevant to job role and task
- principles and techniques for decontamination of personnel in the field
- techniques for assessing radiation hazards likely to be encountered in task
- techniques for conducting monitoring relevant to task
- techniques for control, containment and/or confinement of radiation sources/equipment consistent with capabilities and required in task

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPRAD007 Monitor radiation

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPRAD401 Monitor radiation. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to safely monitor radiation and the exposure of people and environment during radiation-related work activities. This involves identifying information about the work activities to be monitored, using the specified monitoring equipment, and applying safe working rules and monitoring procedures to obtain reliable results.

This unit applies to those working in radiation-related work activities, including:

- extracting, milling, processing and packing radioactive ores
- operating, installing, servicing and calibrating fixed radiation gauges, bore hole logging or industrial radiography equipment, and moisture and density gauges
- decontaminating and servicing equipment that has been in contact with radioactive material
- XRF and XRD analysis
- collecting, preparing and testing samples containing radioactive materials
- using radionuclides in a laboratory

The activities may take place:

- at a mine or plant that processes radioactive ore and minerals
- with instruments that emit ionising radiation at geotechnical, construction, mining and manufacturing sites, or analytical and research facilities
- in a laboratory or licensed facility that handles radioactive materials
- in a nuclear facility.

© Commonwealth of Australia, 2022 SkillsIQ

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would be authorised by the responsible person to perform routine tasks in familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Radiation Safety

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare for assigned monitoring tasks	1.1 Apply radiation management plans concerning hazards, monitoring equipment and safe working rules. 1.2 Liaise with relevant site personnel to arrange access and confirm the nature and likely duration of assigned monitoring tasks. 1.3 Perform and record pre-use checks of radiation instruments and tag or replace faulty items as necessary. 1.4 Check that personal protective equipment (PPE) and other task-related equipment is fit for purpose. 1.5 Stow all radiation instruments and monitoring equipment to ensure safe transport to the site and within the site.
2. Obtain reliable monitoring data or samples	2.1 Apply safe working rules to minimise personal ionising radiation exposure. 2.2 Conduct regular instrument checks and minor maintenance if required. 2.3 Conduct repeat measurements for quality control purposes and identify and report atypical equipment response. 2.4 Collect and label environmental samples using specified equipment and procedures to preserve their integrity. 2.5 Record atypical radiation conditions. 2.6 Seek advice to deal with any situation beyond own technical

© Commonwealth of Australia, 2022 SkillsIQ

	competence.
3. Complete assigned monitoring tasks	3.1 Check for contamination of equipment. 3.2 Re-stow all radiation instruments and monitoring equipment to ensure safe transport from the site and within the site. 3.3 Record use of PPE and radiation instruments in accordance with radiation management plans. 3.4 Check condition of PPE, radiation instruments and monitoring equipment before storing. 3.5 Store any samples to preserve their integrity, security and traceability in accordance with sampling procedures. 3.6 Manage waste.
4. Analyse monitoring data and report results	4.1 Record results. 4.2 Check that recorded outcomes are consistent with expectations. 4.3 Compare results with relevant radiation limits and identify and record any significant differences or atypical results. 4.4 Identify potential or actual radiation protection issues revealed by the site monitoring tasks. 4.5 Identify potential improvements that could be made to monitoring at site. 4.6 Maintain required records that are complete, accurate, legible and secure. 4.7 Provide site and personal radiation data to authorised personnel.
5. Respond to potential or actual radiation incidents	5.1 Recognise unusual situations, unexpected hazards, and potential or actual emergency radiation incidents. 5.2 Inform the responsible person or delegate about the situation, hazard or incident and seek their advice. 5.3 Initiate appropriate workplace emergency first response.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPRAD401 Monitor radiation.

Assessment Requirements for PSPRAD007 Monitor radiation

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- recognising different types of monitoring equipment and their limitations, restrictions and applicability, including at least one of:
  - air proportional
  - gas proportional
  - gas ionisation
  - Geiger-Muller
  - Scintillation
  - neutron monitors
  - solid state
  - personal dosimeters (badge and electronic)
- using relevant information sources to locate and interpret information about radiation sources and equipment encountered in job role or duties
- conducting pre-use checks for radiation instruments and monitoring equipment used in job role or duties
- interpreting manuals for radiation monitoring equipment used in job role or duties
- collecting, labelling and preserving occupational and environmental processing and analysing radiation monitoring data
- assessing and reassessing risks and hazards regularly and taking appropriate protective measures
- safely operating radiation instruments and monitoring equipment to obtain reliable data
- seeking advice and further directions when faced with unforeseen circumstances or situations that may require decisions or response actions beyond technical competence
- using and caring for PPE

© Commonwealth of Australia, 2022 SkillsIQ

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- ionising radiation, radioactivity, radioactive material, activity, dose, contamination, contamination controls, shielding, half-life, and radionuclide
- types and properties of ionising radiation, sources and shielding methods
- definitions of radiation quantities, including exposure, dose, effective dose, dose rate, dose equivalent, and dose limits
- international system (SI) of units for radiation quantities, multiples and sub-multiples
- function of key components and operating principles of radiation instruments and monitoring equipment used in job role
- guidelines and safety procedures for working with radiation sources, based on principles of:
  - reducing exposure time
  - maintaining greatest distance
  - using as much shielding as possible
- health, safety and workplace emergency response procedures relevant to job role or duties
- techniques and procedures for collecting potentially radioactive samples
- techniques for assessing radiation hazards likely to be encountered in job role or duties
- techniques for conducting monitoring surveys used in job role or duties

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPRAD008 Coordinate radiation safety

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPRAD708A Coordinate radiation safety. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to coordinate an organisation's ongoing safety management of radiation-related work activities for the purpose of protecting workers, the public and the environment from radiation hazards. This involves assessing local radiation protection and safety requirements and assessing implementation of systems and controls that are employed to ensure the organisation/licensee's compliance with relevant radiation protection and safety legislation, standards, licences or codes of practice.

This unit applies to those working as a local radiation safety coordinator. They may assist a radiation safety officer:

- at a mine or processing plant that produces radioactive ore or minerals
- with instruments that emit ionising radiation at geotechnical, construction, mining and manufacturing sites, or analytical and research facilities
- in a laboratory or licensed facility that handles radioactive materials
- in a nuclear facility

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, performing routine tasks in familiar contexts.

© Commonwealth of Australia, 2022 SkillsIQ

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Radiation Safety

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Assess radiation protection and safety requirements	1.1 Confirm radiation protection and safety requirements for site by reviewing relevant radiation protection and safety legislation, standards, codes and guidelines. 1.2 Review relevant available records and information about hazards due to radioactive materials, equipment and work activities conducted at the site. 1.3 Identify known and potential hazards associated with current and future radiation-related work activities. 1.4 Identify appropriate radiation instruments, monitoring equipment and measuring/survey procedures to quantify hazards. 1.5 Quantify ionising radiation hazards and anticipated exposure/dose, and compare results with relevant limits. 1.6 Review available information about relevant radiation control measures, safety procedures, radiation monitoring programs and personal protective equipment (PPE). 1.7 Determine if specific work areas need to be controlled more effectively. 1.8 Undertake risk analysis for local site specific to radiation related activity.
2. Develop or revise local radiation management plans	2.1 Review the local procedures for developing or revising radiation protection policy, procedures and plans. 2.2 Identify local compliance against radiation safety requirements. 2.3 Design or amend local radiation management plans to control and monitor all radiation-related work activities to comply with regulator requirements. 2.4 Identify possible impacts of new or revised local radiation management plans on relevant organisational policies, procedures and systems, and advise relevant personnel. 2.5 Forward draft local radiation management plans for feedback and

© Commonwealth of Australia, 2022 SkillsIQ

	approval. 2.6 Distribute authorised local radiation management plans to relevant personnel and confirm they understand their roles and responsibilities. 2.7 Design key performance indicators for radiation safety performance measurement. 2.8 Negotiate targets for radiation safety key performance indicators in line with organisational plan. 2.9 Develop and implement quantitative risk management and risk assessment tools for radiation.
3. Ensure local radiation protection and monitoring systems are implemented effectively	3.1 Design a strategy for implementing the new or revised local radiation management plans that identifies key people, recommended approaches and available resources. 3.2 Provide information about radiation protection and monitoring equipment and procedures to relevant personnel and confirm they understand their responsibilities. 3.3 Confirm that prescribed radiation signs and safety communication systems, including noticeboards, are maintained in good condition and are readily visible. 3.4 Design appropriate audit tools and audit plans. 3.5 Conduct audits of radiation protection and monitoring systems, equipment and safety performance in accordance with agreed audit plans. 3.6 Analyse audit information to identify non-conformances and opportunities for improvements. 3.7 Produce audit reports that clearly define actions required to correct non-conformances. 3.8 Record findings, actions and outcomes.
4. Investigate and rectify local safety, quality and non-compliance issues	4.1 Investigate atypical dose results with reference to radiation safety key performance indicators. 4.2 Examine defects or changes in work practices and equipment, and hazards that could increase exposure of personnel or present an environmental risk at local level, and determine appropriate controls. 4.3 Analyse instances of potential or actual non-compliance and re-design work practices and procedures to prevent recurrence. 4.4 Identify opportunities and strategies to further improve the organisation's radiation protection and monitoring systems. 4.5 Implement authorised corrective and preventative actions. 4.6 Record recommendations, actions and outcomes.
5. Inform radiation safety officer	5.1 Provide regular status reports, including details of instances of potential or actual non-compliance, or incidents/accidents and the actions taken.

© Commonwealth of Australia, 2022 SkillsIQ

management or licensee about radiation protection and safety	5.2 Provide regular information about the adequacy of radiation management plans and protection and monitoring systems, and recommend improvements. 5.3 Obtain authorisation for significant equipment purchases. 5.4 Obtain authorisation for corrective and preventative actions. 5.5 Advise the organisation when input from external radiation specialists is required.
6. Promote a radiation safety culture	6.1 Assess the competency of personnel to safely undertake specific radiation-related work activities and make appropriate recommendations to the responsible person. 6.2 Access or develop learning and development programs that meet organisational and regulator requirements. 6.3 Deliver, or arrange for the delivery of, training that meets the identified needs of personnel. 6.4 Communicate effectively the need to make doses as low as reasonably achievable.
7. Manage information about radiation protection and safety	7.1 Specify all information that must be recorded and secured and advise relevant personnel. 7.2 Control access to records. 7.3 Provide reports. 7.4 Maintain and secure records, and provide advice on improvements to record management.
8. Respond to potential or actual radiation incidents or accidents	8.1 Recognise unusual situations, unexpected hazards, and potential or actual emergency radiation incidents. 8.2 Inform relevant personnel about the situation, hazard or incident and seek their advice as necessary. 8.3 Assist emergency response personnel to control the situation.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPRAD008 Coordinate radiation safety

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- locating and interpreting information about radiation protection and safety legislation, standards, codes and guidelines
- assessing and reassessing risks and hazards and designing appropriate controls
- developing plans, organisational policy and procedures and safe work practices
- initiating audits and inspections of radiation protection and safety systems
- choosing and using appropriate available radiation source equipment and radiation instruments
- interpreting manuals for radiation sources/equipment and radiation instruments used in organisation
- designing, planning and conducting monitoring surveys under direction
- analysing radiation data, and verifying and reporting results
- seeking advice in situations that may require decisions or response actions beyond technical competence
- explaining radiation protection and safety issues, safe working rules and recommended procedures to other personnel

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

PSPRAD009 Select, commission and maintain radiation measuring instruments

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPRAD709A Select, commission and maintain radiation measuring instruments. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to provide sufficient, fully functioning radiation measuring instruments to implement an organisation's radiation management plan and monitoring programs. This involves identifying the need for specific kinds of instruments, determining the suitability of available instruments, procuring and commissioning instruments, checking their serviceability and calibration, performing routine maintenance, training staff to operate instruments correctly, and maintaining relevant records.

This unit applies to those working in a radiation safety coordination role. They may work as, or assist, a radiation safety officer working:

- at a mine or plant that processes radioactive ore and minerals
- with instruments that emit ionising radiation at geotechnical, construction, mining and manufacturing sites, or analytical and research facilities
- in a laboratory or licensed facility that handles radioactive materials or has radiation-emitting apparatus
- in a nuclear facility.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

© Commonwealth of Australia, 2022 SkillsIQ

Those undertaking this unit would work under supervision, or be authorised by the responsible person, to perform routine tasks in familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Radiation Safety

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Procure suitable instruments	1.1 Determine types of ionising radiation measuring instruments required by the organisation to monitor hazards associated with current or future radiation-related work activities. 1.2 Research information about specifications and features of instruments that may be suitable and their suppliers. 1.3 Liaise with suppliers and/or conduct tests to compare the stated performance of available instruments against the organisation's specifications. 1.4 Seek advice and assistance with evaluating instruments if beyond own technical competence. 1.5 Select the most suitable instruments and arrange for their procurement.
2. Commission new instruments	2.1 Use manufacturer's documentation to develop a thorough understanding of instrument operation, functional test procedures, routine instrument checks and maintenance requirements. 2.2 Ensure that the instrument has been calibrated appropriately for its intended use. 2.3 Conduct component checks and test measurements to confirm instrument performance for intended use. 2.4 Enter required information about the new instrument into the organisation's information management system. 2.5 Develop and document clear procedures for operating, caring for and maintaining the instrument.
3. Train instrument operators	3.1 Identify the skills and knowledge required to operate the instrument safely and reliably in the workplace and interpret the radiation quantities measured.

© Commonwealth of Australia, 2022 SkillsIQ

	3.2 Develop appropriate training program for instrument operators using established adult learning principles. 3.3 Ensure that each operator can use the instrument competently for the required measurement applications. 3.4 Record training outcomes in accordance with regulator requirements and organisational procedures. 3.5 Audit operators' use of instruments at regular intervals to ensure their ongoing competence.
4. Maintain instruments fit for purpose	4.1 Conduct regular instrument checks and minor maintenance in accordance with organisation's radiation management plan. 4.2 Check instrument calibration using specified standards and procedures, and record relevant information. 4.3 Troubleshoot basic faults and determine whether local repair or maintenance is technically possible and economical. 4.4 Arrange for repair or servicing from an accredited agent or other appropriate personnel. 4.5 Check instrument's performance after repair or service before approving it for use. 4.6 Maintain required records that are complete, accurate, legible and secure.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPRAD709A Select, commission and maintain radiation measuring instruments.

Assessment Requirements for PSPRAD009 Select, commission and maintain radiation measuring instruments

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- Recognising types of measuring instruments and the advantages and limitations of their use, including at least one of:
  - air proportional
  - gas proportional
  - gas ionisation
  - Geiger-Muller (GM)
  - compensated GM
  - scintillation
  - neutron monitors
  - solid state
  - personal dosimeters (badge and electronic)
- locating, interpreting and comparing information about measuring instruments used by organisation
- selecting suitable instruments by analysing factors, including at least one of:
  - intended use (fixed/portable, laboratory/field)
  - range of radiation types
  - intensities and energies
  - accuracy
  - sensitivity
  - response time
  - robustness

© Commonwealth of Australia, 2022 SkillsIQ

  - serviceability
  - limitations
- conducting pre-use and calibration checks, troubleshooting common faults, conducting basic repairs of and maintaining radiation measuring instruments
- safely operating radiation measuring instruments to obtain reliable data
- processing and analysing radiation measurement data and applying established corrections
- interpreting manuals and writing operating instructions for radiation measuring instruments

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- ionising radiation, radioactivity, radioactive material, activity, dose, contamination, contamination controls, shielding, half-life, and radionuclide
- operating voltage, accuracy, response time, sensitivity, detection limit, linearity, source-detector geometry and distance corrections, compensation
- types, energies and properties of ionising radiation, sources and shielding methods
- radiation quantities, including exposure, dose, tissue weighting factor, effective dose, dose rate, radiation weighting factor, dose equivalent, and dose limits
- international system (SI) of units for radiation quantities, multiples and sub-multiples
- techniques for conducting measurements and monitoring surveys
- characteristics, capabilities, limitations, function of key components and operating principles of radiation measuring instruments
- role and importance of regular calibration and pre-use checks and maintenance
- common instrument faults, troubleshooting, and recommended remedial actions and repairs
- common instrument operator errors
- techniques for assessing radiation hazards likely to be encountered in job role
- guidelines and safety procedures for working with radiation sources, based on principles of:
  - reducing exposure time
  - maintaining greatest distance
  - using as much shielding as possible
- health, safety and workplace emergency response procedures relevant to job role

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

© Commonwealth of Australia, 2022 SkillsIQ

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPRAD010 Apply radiation safety knowledge to develop and implement ionising radiation management plans

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPRAD710A Apply radiation safety knowledge to develop and implement ionising radiation management plans. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to develop and implement a radiation management plan to ensure the protection of workers, public and the environment, including emergency response. It includes ensuring adequate provision of training for all personnel and developing and sustaining a radiation safety culture to ensure that legislative and organisational requirements are met.

This unit applies to personnel primarily responsible for organisation-wide radiation safety within their organisation. They may work as the radiation safety officer.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously, performing sophisticated tasks in familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Radiation Safety

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse the requirements for a radiation management plan	1.1 Confirm radiation protection and safety requirements detailed in radiation management plan by reviewing relevant radiation protection and safety legislation, standards, codes and guidelines. 1.2 Review relevant, available records and information about hazards due to radioactive materials, equipment and work activities of the organisation. 1.3 Identify known and potential hazards associated with current or future radiation-related work activities. 1.4 Procure radiation instruments and monitoring equipment and locate measuring or survey procedures to quantify hazards. 1.5 Quantify radiation hazards and anticipated exposure/dose, and compare results with relevant limits. 1.6 Source information and make recommendations about relevant radiation control measures, safety procedures, radiation monitoring programs and personal protective equipment (PPE). 1.7 Undertake organisational risk assessment in relation to ionising radiation safety.
2. Develop and/or revise organisational radiation protection program	2.1 Identify organisational compliance against radiation safety requirements, including organisational policy and approach, and review organisation's procedures for developing or revising radiation protection policy, procedures and plans. 2.2 Identify critical groups potentially affected by radiation practices conducted by whole of organisation, including workers, the public and the environment. 2.3 Undertake critical group analysis and cost-benefit analysis component of radiation management plan to identify key performance indicators. 2.4 Design or amend radiation management plans to control and monitor radiation-related work activities conducted by the organisation and comply with regulator requirements. 2.5 Submit radiation management plans to the responsible person for approval. 2.6 Design a strategy for implementing the new/revised

© Commonwealth of Australia, 2022 SkillsIQ

	organisational radiation management plans that identifies key people, recommended approaches and resources available. 2.7 Distribute plans to relevant personnel and confirm they understand their roles and responsibilities. 2.8 Identify organisational key performance indicators for radiation safety performance measurement and negotiate targets for these indicators. 2.9 Develop and implement quantitative risk management/risk assessment tools for radiation.
3. Ensure organisational radiation protection and monitoring systems are implemented effectively	3.1 Ensure all personnel understand their roles and responsibilities under the new or revised authorised radiation management plans. 3.2 Ensure information about radiation protection and monitoring equipment and procedures is provided to relevant personnel. 3.3 Ensure that prescribed radiation signs and safety communication systems, including noticeboards, are maintained in good condition and are readily visible. 3.4 Approve appropriate audit plans and audit tools. 3.5 Ensure audits of radiation protection and monitoring systems, equipment and safety performance are conducted in accordance with agreed audit plans. 3.6 Analyse audit information to identify non-conformances and opportunities for improvements and provide recommendations to the licensee or responsible person on non-compliance and opportunities for improvement. 3.7 Ensure all findings, actions and outcomes are documented in accordance with regulator requirements and organisational procedures.
4. Investigate and rectify organisational safety, quality and non-compliance issues	4.1 Review atypical dose results with reference to radiation safety key performance indicators. 4.2 Examine any defect or changes in work practice, equipment or hazards that could increase exposure of personnel or present an environmental risk at organisational or systemic level and determine appropriate controls. 4.3 Analyse instances of potential or actual non-compliance and redesign work practices or procedures to prevent recurrence. 4.4 Approve and implement changes in work practices to further improve the organisation's radiation protection and monitoring systems. 4.5 Maintain records of all actions and outcomes.
5. Inform the licensee about radiation protection and safety	5.1 Review status reports, including details of instances of potential or actual non-compliance or incidents or accidents and actions taken. 5.2 Review information about the adequacy of radiation management plans and protection and monitoring systems, and recommend

© Commonwealth of Australia, 2022 SkillsIQ

	improvements. 5.3 Procure significant equipment purchases. 5.4 Authorise corrective and preventative actions in accordance with organisational procedures and regulator requirements. 5.5 Engage external radiation specialists.
6. Promote a radiation safety culture	6.1 Implement mechanisms to ensure the competency of personnel to safely undertake specific radiation-related work activities, and make recommendations to the responsible person. 6.2 Review organisation's learning and development strategies and needs regularly to ensure they meet organisational and regulator requirements. 6.3 Actively promote the need to make doses as low as reasonably achievable consistent with legislation, and organisational policy and procedures.
7. Establish information management systems about radiation protection and safety	7.1 Specify all information that must be recorded and secured, and advise relevant personnel. 7.2 Maintain required records that are complete, accurate and legible. 7.3 Control access to records in accordance with organisational procedures. 7.4 Provide reports in accordance with regulator requirements and organisational procedures. 7.5 Maintain and secure records, and resolve problems in record management promptly. 7.6 Regularly review the organisation's training requirements in radiation protection/safety, workplace emergency response and environmental protection, taking into account the needs of stakeholders.
8. Respond to potential or actual radiation incidents or accidents	8.1 Respond to potential radiation incidents, which may include unusual situations, unexpected hazards, or potential or actual emergency incidents. 8.2 Inform relevant personnel about the situation, hazard or incident. 8.3 Assist emergency response personnel to control the situation.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPRAD010 Apply radiation safety knowledge to develop and implement ionising radiation management plans

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- sourcing and analysing new and existing information regarding radiation protection, legislation, standards, codes and guidelines
- reviewing and implementing appropriate controls for organisation-wide radiation hazards
- reviewing and implementing controls to minimise the risks of radiation hazards for practices within the control of the responsible person
- ensuring that the legislative responsibilities of the licensee are fulfilled
- implementing radiation safety and related policies, procedures and practices
- ensuring that audits are consistent with organisational policies and procedures
- identifying and procuring radiation sources and equipment
- reviewing and making recommendations in relation to monitoring surveys and data analysis
- providing advice, authorising reports and making decisions within scope of authority
- explaining radiation protection and safety issues, safe working rules and recommended procedures to other personnel
- reviewing training needs in radiation protection and safety, workplace emergency response and environmental protection

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

© Commonwealth of Australia, 2022
SkillsIQ

- ionising radiation, radioactivity, radioactive material, NORM, contamination, contamination controls, concentration, shielding, half-life, radionuclide, transport index, safe distance, and weighting factor
- types and properties of ionising radiation sources and shielding methods
- radiation quantities, including exposure, dose, effective dose, dose rate, dose equivalent, and dose limits
- exposure pathways and protective measures
- signs and symptoms of radiation exposure, radiation health effects, and deterministic and stochastic effects
- international system (SI) of units for radiation quantities
- function of key components, set-up and calibration checks, and operating principles of radiation instruments, dosimeters and equipment
- detailed requirements of relevant legislation, codes, guidelines and safety procedures for working with radiation sources/equipment
- health and safety and workplace emergency response procedures for radiation-related work activities in organisation
- types of PPE for personnel working in ionising radiation environments and the recommended selection process
- potential adverse health and performance effects of wearing PPE while working in potentially hazardous environments
- principles and techniques for decontamination of personnel and equipment
- techniques and procedures for collecting potentially radioactive samples
- techniques for assessing radiation hazards likely to be encountered in organisation
- techniques for conducting contamination surveys
- techniques for control, containment and confinement of radiation sources/equipment encountered by organisation
- environment, health and safety policy and procedures of the organisation, particularly how different parts of occupational hygiene system are interdependent, including ventilation, noise, radiation and chemicals
- working knowledge of the business activities and operations conducted at the organisation's sites and the associated radiation risks
- critical group analysis, cost-benefit analysis and assessment processes to develop cost effective radiation protection programs
- sources of industry information and information from relevant professional bodies to maintain currency

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPRAD011 Work safely with radiation-unsealed source equipment

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to work safely with unsealed radioactive source and radioactive substance that emit ionising radiation. This involves assessing risks before conducting the assigned work tasks, using recommended controls, applying safe working rules and emergency response procedures, monitoring radiation levels and completing required documentation.

This unit applies to authorised personnel who work at university, hospital, medical, veterinary, mining, analytical and research sites and are required to undertake tasks using an unsealed radioactive source and/or radioactive substance.

The tasks may take place:

- at a mine or plant that processes radioactive ore and minerals
- with instruments that emit ionising radiation at geotechnical , construction, mining and manufacturing sites
- in a laboratory, analytical or research facility or licensed facility that handles radioactive materials or has radiation-emitting apparatus
- in a nuclear facility

This unit applies to those undertaking radiation-related work activities, including:

- extracting, milling, processing and packing radioactive ores
- decontaminating and servicing equipment that has been in contact with radioactive materials
- collecting, preparing and testing samples containing radioactive materials
- using radionuclides in a laboratory

© Commonwealth of Australia, 2022 SkillsIQ

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work under the authorisation of a responsible person and with the advice of a radiation safety professional, such as a radiation safety officer.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Radiation Safety

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare for assigned tasks	1.1 Apply radiation management plans concerning hazards, monitoring equipment and safe working rules. 1.2 Liaise with site management to arrange access and confirm the nature and likely duration of assigned tasks. 1.3 Check that equipment required for assigned tasks is present and fit for purpose. 1.4 Record movement of unsealed radioactive source and radioactive substance. 1.5 Stow unsealed radioactive source and radioactive substance, and monitoring equipment to prevent damage and to ensure safe, secure transport to the site and within the boundaries of the site. 1.6 Check that transport vehicle is fit for purpose and has the required signage.
2. Perform assigned tasks safely	2.1 Assess hazards at the site or prior to commencing assigned tasks, and seek advice if necessary. 2.2 Establish, or activate existing, boundaries and signage to control access to work area. 2.3 Perform pre-use and safety checks of unsealed radioactive source and radioactive substance, and monitoring equipment. 2.4 Apply safe working rules and any other site control measures to minimise exposure to personnel and/or members of the public during assigned tasks.

© Commonwealth of Australia, 2022 SkillsIQ

	2.5 Perform assigned tasks in the minimum safe time. 2.6 Verify that radiation measurements are below specified levels throughout assigned tasks. 2.7 Seek advice to deal with any situation beyond own technical competence. 2.8 Record required data and note any atypical site conditions or problems encountered and the actions taken.
3. Complete assigned tasks	3.1 Confirm that all ionizing radiation has been returned to the fully shielded position within its container. 3.2 Check for contamination and if necessary perform personal decontamination in accordance with radiation management plan. 3.3 Re-stow unsealed radioactive source and radioactive substance, and monitoring equipment to prevent damage and to ensure safe, secure transport from the site and within the boundaries of the site. 3.4 Record use of unsealed radioactive source and radioactive substance, and monitoring equipment in accordance with radiation management plans. 3.5 Check the condition of all equipment before storing it. 3.6 Manage waste. 3.7 Survey the work area prior to leaving the site.
4. Report findings and outcomes	4.1 Record monitoring data in accordance with requirements. 4.2 Compare monitoring results with relevant radiation limits and note any significant differences or atypical results. 4.3 Identify potential or actual radiation protection or safety issues revealed during monitoring of assigned tasks. 4.4 Identify potential improvements that could be made to monitoring or work practices at the site. 4.5 Report findings and outcomes of assigned tasks. 4.6 Maintain required records that are complete, accurate, legible and secure.
5. Respond to potential or actual radiation incidents	5.1 Recognise unusual situations, unexpected hazards, and potential or actual emergency radiation incidents. 5.2 Inform relevant personnel about the situation, hazard or incident and seek their advice. 5.3 Initiate appropriate workplace emergency first response.

Assessment Requirements for PSPRAD011 Work safely with radiation-unsealed source equipment

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using relevant information sources to locate and interpret information about unsealed radioactive source and radioactive substance
- conducting pre-use checks, for radiation instruments and monitoring equipment used in task
- interpreting manuals for unsealed radioactive source and radioactive substance and monitoring equipment used in job role
- processing data and verifying results
- regularly assessing and reassessing risks and hazards and taking appropriate protective measures
- handling unsealed radiation sources/substances and monitoring equipment used in task to obtain reliable data
- using and caring for personal protective equipment (PPE) and personal monitoring equipment required in job role

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- ionising radiation, radioactivity, radioactive material, contamination, contamination controls, concentration, shielding, half-life, radionuclide, and safe distance
- types and properties of ionising radiation, sources and shielding methods
- definitions of radiation quantities, including exposure, dose, effective dose, dose rate, dose equivalent, and dose limits
- exposure pathways and protective measures

© Commonwealth of Australia, 2022 SkillsIQ

- signs and symptoms of radiation exposure, radiation health effects, and deterministic and stochastic effects
- international system (SI) of units for radiation quantities
- function of key components, set-up checks and operating principles of monitoring equipment used in task
- guidelines and safety procedures for working with radiation sources, based on principles of time, distance and shielding
- principles of optimising work practices to minimise exposure
- health, safety and workplace emergency response procedures, safe working rules, personal hygiene requirements and safe operating procedures for equipment relevant to job role
- PPE and monitoring equipment relevant to job role and task
- principles and techniques for decontamination of personnel in the field
- techniques for assessing radiation hazards likely to be encountered in task
- techniques for conducting monitoring relevant to task
- techniques for control, containment and/or confinement of unsealed radiation sources/substances consistent with capabilities and required in task

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPREG001 Carry out inspections and monitoring under guidance

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPREG201A Carry out inspections and monitoring under guidance. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to carry out inspections and monitoring activities in accordance with relevant legislation and regulations, working under guidance. It includes confirming and preparing for inspections and monitoring activities, carrying out inspections and monitoring activities, acting on routine non compliance and providing reports.

This unit applies to those working in public sector roles conducting regulatory activities.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work in a team under guidance, performing routine tasks in a range of mostly familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Confirm and prepare for inspections and monitoring activities	1.1 Clarify and confirm tasks with other staff members. 1.2 Confirm procedures, timeframes, resources and equipment requirements. 1.3 Confirm legislative requirements, risk management practices and workplace health and safety requirements with senior staff. 1.4 Identify communication strategies and development opportunities to make clients aware of their obligations under relevant legislation with assistance from other staff members. 1.5 Obtain and prepare resources and/or equipment.
2. Carry out inspections and monitoring activities	2.1 Implement risk management strategies as required in accordance with set procedures and timelines. 2.2 Use and maintain resources and/or equipment.
3. Act on routine non compliance	3.1 Provide information and/or education to achieve client compliance in line with the seriousness of the possible breach. 3.2 Take further action as a result of failure to achieve compliance in line with the seriousness of the possible breach. 3.3 Seek guidance to interpret legislation and regulations, and report contraventions accompanied by recommended action. 3.4 Refer serious or complex situations for advice or resolution. 3.5 Seek assistance to determine the elements of offences to be prosecuted under relevant legislation, and collect and provide information and evidence. 3.6 Fulfil court attendance and conduct requirements as required.
4. Provide reports	4.1 Maintain records. 4.2 Provide reports promptly that meet organisational requirements for format and content.

PSPREG002 Undertake routine inspections and monitoring

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPREG301A Undertake routine inspections and monitoring. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to conduct generally routine inspections and monitoring in accordance with relevant Acts and regulations. Typically work will be under routine guidance with responsibility for assigned duties. It includes organising inspections and monitoring activities, undertaking routine inspections and monitoring activities, acting on non-compliance and providing reports and information.

This unit applies to those working in public sector roles conducting regulatory activities.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work under supervision, performing routine tasks in a range of mostly familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Establish regulatory powers	1.1 Access and use current information relating to enabling legislation and regulations to maintain up-to-date knowledge of requirements. 1.2 Confirm powers provided under the legislation and the boundaries of those powers. 1.3 Identify and confirm compliance requirements of the legislation, related regulations, standards, codes of practice and policy. 1.4 Identify and confirm acts and omissions that comprise non-compliance or offences under the legislation.
2. Apply enabling legislation	2.1 Identify and analyse circumstances where regulatory powers will be exercised to determine response or measures to apply. 2.2 Identify circumstances requiring the exercise of regulatory powers that are outside own limits and refer to others. 2.3 Identify risks associated with the exercise of regulatory powers and strategies to manage risks. 2.4 Apply enabling legislation consistent with the boundaries and powers contained therein.
3. Utilise other legislation and standards	3.1 Identify other legislation and standards which impact on powers and confirm their requirements. 3.2 Resolve or refer apparently conflicting legislative directions.
4. Work with other organisations	4.1 Identify organisations that have jurisdictions which may overlap and establish and maintain relationships. 4.2 Identify organisations available to provide assistance and advice or take referrals and establish relationships for mutual benefit. 4.3 Follow organisational protocols and procedures when working with other organisations. 4.4 Refer compliance matters to other organisations for action when required. 4.5 Follow lead agency protocols and/or lines of authority during operations involving more than one organisation.

Assessment Requirements for PSPREG003 Apply regulatory powers

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- undertaking research and analysis
- using information technology to access relevant legislation and procedures
- reading complex written materials and applying them to work practices
- using scanning techniques
- engaging in discussion involving exchanges of often complex oral information
- choosing regulatory responses and/or measures to fit the circumstances and justifying those responses against legislation, guidelines, policy and regulations

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- full range of regulatory powers and the limits to those powers
- enabling legislation
- offences under the legislation
- aspects of criminal law, administrative law, industrial law, contract law
- statutory time limits
- terminology used in legislation and procedures
- organisational policies, guidelines and regulations
- public sector legislation including, health and safety and environment relating to the exercise of regulatory powers

Assessment Requirements for PSPREG006 Produce formal record of interview

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using interviewing techniques and varying style and language structure to suit situation and interviewee(s)
- using techniques to defuse potentially dangerous situations
- engaging in exchanges of sometimes complex oral information
- using diverse communication techniques
- engaging in questioning that meets legal requirements for admissibility
- undertaking research, analysis and problem solving
- using judgment, to test the veracity of information and vary questions and interviewing techniques to suit
- preparing interview documentation requiring accuracy of expression and formality in structure and format
- operating technical and electronic equipment

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- organisational policies and guidelines relating to formal interviews
- interview techniques and points of proof
- rules of evidence and admissibility
- use of caution

© Commonwealth of Australia, 2022 SkillsIQ

- legal and ethical considerations for conducting interviews involving juveniles, Aboriginal and Torres Strait Islander peoples and disciplinary matters
- diversity issues in the context of interviewing suspects, witnesses and others
- procedures for using interpreters
- legal and organisational requirements for documentation
- legal requirements relating to electronic recording equipment
- public sector legislation relating to producing a formal record of interview

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare for search and/or seizure	1.1 Identify the purpose of the search and confirm powers under legislation, policies and procedures relating to the search. 1.2 Make assessments of where evidence might be obtained. 1.3 Verify or obtain authority to search and/or seize and advise of intention to search. 1.4 Carry out operational planning to address the range of requirements for a search and/or seizure. 1.5 Perform risk assessment to ensure the search/seizure can be conducted safely. 1.6 Identify the need for assistance with the search and/or seizure and organise.
2. Implement search	2.1 Conduct search according to standard operating procedures to ensure thorough and systematic process is used. 2.2 Use equipment and/or technology and other resources. 2.3 Undertake search in accordance with lead agency requirements, where assistance is obtained. 2.4 Make records of the search process, items and/or evidence uncovered in the search, and subsequent action.
3. Conduct seizure	3.1 Consider alternatives to seizure and record and justify subsequent action. 3.2 Seize or deal with evidence and any related information in accordance with legal requirements and standard operating procedures. 3.3 Appraise, seize record and receipt evidence in accordance with the rules of evidence. 3.4 Remove, secure and dispose of if required, evidence, in accordance with the rules of evidence. 3.5 Protect the safety of self and others. 3.6 Conduct seizure process and complying with the rules of evidence.
4. Complete post search activities	4.1 Record and disseminate outcomes of search and seizure activities to required personnel. 4.2 Identify, record and act upon follow up actions as required. 4.3 Deal with third party claims to title of seized items and/or property where required.

© Commonwealth of Australia, 2022 SkillsIQ

	4.4 Deal with damage to property during the search.
5. Debrief search and seizure	5.1 Seek feedback on own role in search and/or seizure regularly for continuous improvement. 5.2 Evaluate search and seizure outcomes, processes and procedures and recommend and action improvements. 5.3 Assess the value of assistance and/or joint operation relationships and teamwork and recommend and action improvements.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPREG408C Conduct search and seizure.

Assessment Requirements for PSPREG009 Conduct search and seizure

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- undertaking analysis and observation
- completing records using formality of language and structure
- exchanging often complex oral information in a form to suit diverse audiences
- applying public sector legislation, including work health and safety and environmental procedures, in the context of search and seizure

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- enabling legislation, regulations and guidelines
- search procedures
- organisational procedures, including those dealing with physical evidence or obtaining a warrant, where relevant
- roles of expert and/or other personnel
- procedures for dealing with physical evidence
- rules of evidence
- use of equipment and resources
- public sector legislation and standards

PSPREG010 Prepare a brief of evidence

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPREG409B Prepare a brief of evidence. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to prepare a brief of evidence. It includes analysing evidence, preparing and reviewing admissible evidence, developing a brief of evidence and coordinating witnesses.

This unit applies to those working in public sector roles conducting regulatory activities.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently as part of a team, performing complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse evidence	1.1 Consider all related information, whether likely to be admissible as evidence, or not. 1.2 Cross-check information to confirm origin, authenticity and reliability, and to anticipate challenge/s that may occur. 1.3 Identify and assess gaps and inadequacies to allow further collection of evidence. 1.4 Handle and store information appropriately.
2. Prepare and review admissible evidence	2.1 Prepare witness and expert statements. 2.2 Include all evidence in the brief that is likely to be admissible by the court. 2.3 Separate and retain non-admissible evidence. 2.4 Identify and review similar proofs to confirm that evidence is sufficient to proceed to prosecution. 2.5 Maintain security, recording and continuity of evidence.
3. Develop a brief of evidence	3.1 Plan and prepare brief of evidence according to standards required by the prosecution. 3.2 Include all required information in the brief and meet all legal requirements. 3.3 Provide brief to prosecution and other parties as required by law and organisational requirements. 3.4 Brief counsel on the case when required, and advise any circumstances that may affect the progress and outcomes.
4. Coordinate witnesses	4.1 Identify and use expert witnesses when required and familiarise them with the evidence. 4.2 Organise witness summonses when required. 4.3 Maintain contact with witnesses to ensure cooperation, communication and attendance at proceedings.

Assessment Requirements for PSPREG012 Gather information through interviews

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using interviewing techniques and varying style and language structure to suit situation and interviewee(s)
- engaging in exchanges of sometimes complex oral information
- using techniques to deal with difficult interview situations
- using communication techniques, including establishing rapport, listening, probing, reflecting, negotiation, conflict resolution
- using critical analysis, evaluation and deductive reasoning
- using problem solving and decision making related to interviewing
- using judgment, to test the veracity of information and vary questions and interviewing techniques to suit
- preparing interview documentation requiring accuracy of expression and formality in structure and format
- operating technical and electronic equipment, where necessary

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- application of legislation to interviewing including, privacy, ethics, confidentiality and freedom of information

© Commonwealth of Australia, 2022 SkillsIQ

- organisational policies and guidelines relating to interviews
- questioning techniques
- legal and ethical considerations for conducting interviews
- cultural awareness in the context of interviewing
- procedures for using interpreters
- legal and organisational requirements for documentation
- legal requirements relating to recording of information
- public sector legislation

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPREG013 Undertake inspections and monitoring

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPREG413A Undertake inspections and monitoring. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to undertake both routine and non-routine inspections and monitoring of a more complex or detailed nature, with discretion to determine appropriate action in accordance with relevant Acts and regulations. It includes planning and organising inspection and monitoring activities, undertaking inspections, acting on non-compliance and providing reports, information and training.

This unit applies to those working in public sector roles conducting regulatory activities.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently as part of a team, performing complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Plan surveillance	1.1 Establish the purpose and outcomes of surveillance in consultation with stakeholders, and obtain authority to conduct surveillance. 1.2 Determine locations and timeframes in accordance with the purpose and required outcomes. 1.3 Determine resource requirements and arrange in accordance with surveillance plan and budgetary constraints. 1.4 Determine requirements for technical specialists. 1.5 Prepare surveillance plans detailing key activities, roles, responsibilities, risk management and contingency planning, and take into account the overt or covert nature of the operations and security requirements for those involved.
2. Carry out surveillance	2.1 Confirm identities of surveillance subject and conduct surveillance operations in accordance with surveillance plans. 2.2 Identify factors affecting achievement of surveillance outcomes promptly and authorise variations to surveillance plans to cater for the unexpected. 2.3 Implement alternative plans in cases where operational integrity is threatened or compromised and provide a report on the reasons and justification for the decision. 2.4 Conduct surveillance operations. 2.5 Maintain personal conduct and manner in accordance with code of conduct.
3. Complete surveillance operations	3.1 Obtain and document surveillance information in accordance with organisational or client requirements and the surveillance plan. 3.2 Secure and maintain information and other materials. 3.3 Store equipment, images and audio in accordance with technical requirements and security procedures. 3.4 Present outcomes in the required medium, format, style and structure suitable for review and interpretation to meet organisational requirements. 3.5 Document and report operational inadequacies in the surveillance process to inform future practice.

PSPREG015 Receive and validate data

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPREG415A Receive and validate data. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to handle data received from a variety of sources which may then be acted upon or referred for further action. It includes receiving and recording data, verifying its authenticity and recommending and/or taking action as a result.

This unit applies to those working in public sector roles conducting regulatory activities.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently as part of a team, performing complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Receive information	1.1 Identify, request and/or receive required information. 1.2 Check incoming information for gaps, anomalies, deficiencies or discrepancies, and compare with pre-existing information, where relevant. 1.3 Access additional data sources and seek information to fill gaps and compare with information received. 1.4 Receipt incoming information if required.
2. Record information	2.1 Carry out accurate recording of information, confirming relevant details of source. 2.2 Maintain records as accurate, complete and up-to-date and present in the required format. 2.3 Comply with legislative requirements for recording and storage of information. 2.4 Adhere to procedures for storage and management of confidential and sensitive information.
3. Verify authenticity of information	3.1 Complete initial selection of information using preliminary cull to eliminate unreliable data. 3.2 Corroborate and assess information for its integrity, validity and reliability. 3.3 Carry out validation or corroboration with existing information as well as information from outside organisations and other sources where relevant. 3.4 Extract, interpret and organise useful and useable information in a form that is accessible to users. 3.5 Conduct analysis in accordance with agreed indicators and assessment and is accurate, relevant and complete.
4. Recommend or take action as a result of information received	4.1 Record and report outcomes. 4.2 Recommend or take action as a result of the outcomes. 4.3 Document decision showing reasons for proceeding or not proceeding or taking other action, after discussion with management, where required. 4.4 Identify and inform areas or other organisations that may be affected by information received or outcomes, to optimise usefulness of information.

Assessment Requirements for PSPREG015 Receive and validate data

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- undertaking research and critical analysis
- using deductive reasoning and evaluation techniques related to information analysis and corroboration
- communicating with diverse clients and staff
- using problem solving and decision making
- using information technology for managing records and files

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- public sector legislation
- organisational policy, procedures and guidelines
- international treaties and protocols where these apply
- indicators for analysis of data
- profiles and trends related to activities within the organisation
- management of secure information

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse data	1.1 Undertake analysis dependent upon the nature of the data and intended purpose of the analysis. 1.2 Select methods of analysis in accordance with any relevant industry standards, precedents and techniques. 1.3 Identify trends and draw inferences in light of environmental and cultural factors relevant to the particular situation. 1.4 Make the chain of reasoning in formulating inferences clear to ensure transparency to users of the data. 1.5 Take a proactive approach to identify and assess the need for new or changed systems and processes for analysing data to more effectively meet objectives.
2. Document outcomes of analysis	2.1 Recommend actions based upon analysis of data in the context of the purpose of the analysis and the objectives and priorities of the organisation's strategies and plans. 2.2 Make links between the outcomes proposed as a result of the data analysis and the organisation's strategies clear to the intended audience. 2.3 Complete relevant reports promptly and disseminate to appropriate staff and management. 2.4 Incorporate results of data analysis into ongoing review of organisational strategies and plans. 2.5 Prepare documentation that is clear, concise and accessible to all relevant staff.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPREG020 Conduct prosecutions

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- making presentations including participating in complex oral exchanges in briefing sessions and in court
- reading complex, lengthy documents to ascertain key elements
- undertaking research to identify precedents

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- court prosecution process, procedures and protocols
- court conduct
- enabling legislation and offences
- sections of the Evidence Act
- types of evidence
- rules of evidence
- possible defences
- burden of proof
- role of expert witnesses
- hearsay
- public sector legislation, including WHS and environment in the context of conducting prosecutions

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPREG021 Coordinate investigation processes

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPREG502A Coordinate investigation processes. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to effectively coordinate investigative processes, conducted internally, with or by an outside organisation. It includes planning and preparing for investigations, leading or supporting investigation teams, monitoring the progress of investigations, finalising and reporting on investigation and conducting debriefings.

This unit applies to those working in public sector roles conducting regulatory activities.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously, performing complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Plan investigation	1.1 Identify, document and communicate objectives and desired outcomes of the investigation to investigation team. 1.2 Review relevant legislation and consult stakeholders to ensure sound preparation for the investigation. 1.3 Identify and authorise resource requirements after considering other organisational needs. 1.4 Establish communications strategy in consultation with team. 1.5 Put in place continuous review mechanisms to monitor the progress of the investigation. 1.6 Use investigation management system to develop investigation plan, allocate resources and provide for systematic recording of investigation decisions.
2. Prepare for investigation	2.1 Develop an evidence matrix and update as required. 2.2 Make assessment of possible avenues of enquiry. 2.3 Determine elements and/or proofs of the offence and identify witnesses. 2.4 Conduct consultation with other organisations when investigation impacts on their organisation. 2.5 Assess potential for action and liaise with appropriate authorities to determine when action should begin and what is involved.
3. Lead and support investigation team	3.1 Allocate personnel to the investigation based upon their skills, knowledge and abilities in relation to the requirements of the investigation. 3.2 Locate specialist resources internally and externally to facilitate successful outcome. 3.3 Organise administrative support from commencement of investigation. 3.4 Provide ongoing advice and support to the team in accordance with the requirements of the investigation. 3.5 Revise investigation plan as required in response to contingencies in consultation with investigative team, and incorporate suggestions where practicable.
4. Monitor progress of investigation	4.1 Monitor investigation against the requirements of the continuously updated investigation plan. 4.2 Monitor evidence collection and handling of witnesses and/or alleged offenders to ensure conduct is in accordance with rules of

© Commonwealth of Australia, 2022 SkillsIQ

	evidence and procedural fairness considerations. 4.3 Consult team members regularly on progress of the investigation in both informal situations and scheduled reviews. 4.4 Discuss obstacles encountered during the investigation and find solutions. 4.5 Monitor key tasks, deadlines and timelines, anticipate risks and authorise extra resources and/or external expertise as required. 4.6 Monitor requirement for specialists to ensure their cost-effective use.
5. Finalise and report on investigation	5.1 Supervise final stage of investigation to ensure conclusion in court or other body if appropriate. 5.2 Finalise investigation within (revised) budget and record time restrictions and results. 5.3 Initiate administrative actions where appropriate. 5.4 Provide witnesses, alleged offenders and other persons and/or organisations affected by the investigation with sufficient information about the outcome. 5.5 Plan follow-up actions to progress to next stage if planned outcome is not achieved, or to take no further action. 5.6 Make reports to management on outcomes relevant to future compliance activities particularly on how the investigation management system and organisational procedures assisted or impeded investigation.
6. Conduct debriefing	6.1 Review activities against objectives and outcomes of the investigation. 6.2 Highlight strengths and weaknesses in investigation process for future investigations. 6.3 Note precedents and problems for future investigations. 6.4 Acknowledge achievements through formal and informal means. 6.5 Prepare debriefing report.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Plan and coordinate inspection and monitoring programs	1.1 Identify outputs and performance indicators for defined area of responsibility and assign inspection and monitoring activities and responsibilities. 1.2 Determine procedures, timeframes, resources and equipment requirements for defined area of responsibility. 1.3 Make required resources and/or equipment available and supervise the access and/or preparation of these. 1.4 Interpret legislation and regulations and provide input into technical protocols and operational procedures as required. 1.5 Interpret and explain risk management practices, workplace health and safety and environmental requirements to staff as required.
2. Supervise and carry out complex inspections and monitoring	2.1 Provide leadership to deliver agreed outputs. 2.2 Plan and supervise inspections and monitoring activities and monitor program performance, resources and expenditure. 2.3 Plan, implement and coordinate compliance programs as required in accordance with set procedures and timelines. 2.4 Conduct assessments and performance management of inspection and monitoring staff. 2.5 Carry out complex inspections and monitoring under general direction and deal with contingencies. 2.6 Apply legislative requirements, risk management practices, workplace health and safety and environmental requirements.
3. Act on non-compliance relating to complex inspections and monitoring	3.1 Provide advice on serious or complex matters referred by others, or resolve situations. 3.2 Provide information and/or education to achieve client compliance in line with the seriousness of the possible breach. 3.3 Take further action as a result of the failure to achieve compliance in line with the seriousness of the possible breach. 3.4 Report contraventions of relevant legislation and make recommendations for prosecutions. 3.5 Fulfil court attendance and conduct requirements when required.
4. Provide reports, information and training	4.1 Maintain records and prepare correspondence, submissions and reports. 4.2 Interpret legislation and regulations and provide information and advice on policies, procedures, guidelines, technical and

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Assess and control plant movement health risk	1.1 Verify the health and certification of plants and plant products moving into the country, state or territory as meeting all commonwealth, state or territory requirements. 1.2 Certify the health of plants and plant products for international, interstate and/or intrastate movement in accordance with certification requirements. 1.3 Inspect plants and plant products for pest and disease infestation and recommend necessary treatments and monitor. 1.4 Provide clients prompt and accurate information and training on requirements in relation to the movement of plants and plant products. 1.5 Enter into compliance, accreditation, or interstate certification agreements where appropriate and audit.
2. Identify potential risks associated with the movement of plants and plant products	2.1 Identify common risks associated with the interaction of production location, crop and plant pests and diseases. 2.2 Analyse the implications of pre harvest and post-harvest preventative and disinfestation methods for plant and plant product health, human health and the environment. 2.3 Analyse the implications of packaging types and technologies, storage conditions and production techniques for plant and plant product health.
3. Participate in the development of strategies to manage plant movement health risk	3.1 Access and use statistical information on plants and plant products in the development of risk management strategies. 3.2 Identify and apply plant and plant product sector quality standards and principles. 3.3 Review and update existing strategies in response to industry developments and needs. 3.4 Develop new strategies where necessary.
4. Implement strategies to manage plant movement health risk	4.1 Implement strategies in consultation with relevant industry and government bodies. 4.2 Provide information to facilitate compliance with risk management strategies to clients in accordance with their needs in terms of its range, depth and form of presentation.
5. Monitor the outcomes of strategies to	5.1 Develop processes to monitor the required outcomes of strategies. 5.2 Monitor the outcomes of strategies and make recommendations for continuous improvement.

PSPREG024 Conduct measurement licensee audit

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPREG505A Conduct measurement licensee audit. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to undertake quality and performance audits of organisations and individuals operating under the scope of a licence for performing measuring activities.

This unit applies to those working as public officers appointed under legislation to complete quality management system and performance audits of organisations and individuals licensed under legislation to perform measurement activities.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work under supervision, while performing complex tasks in a familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the range of conditions section.
1. Prepare for audit	1.1 Establish audit scope. 1.2 Identify and access activity specialists to support audit as required. 1.3 Access and review licensee history. 1.4 Access and interpret information and legislation appropriate to the audit. 1.5 Make arrangements which outline the scope and process of the audit with the licensee. 1.6 Identify and access necessary test equipment, documentation and audit report forms. 1.7 Ensure test equipment is fit for purpose. 1.8 Plan activities to meet audit objectives and minimise disruption to business operations.
2. Conduct a quality audit	2.1 Confirm audit scope and process with appropriate personnel. 2.2 Collect and evaluate relevant objective evidence using audit methods and techniques. 2.3 Review documentation and procedures relating to the licence and associated activities for compliance. 2.4 Identify and report patterns, trends and areas of risk. 2.5 Ensure audit is within the boundaries of legislated powers, whilst maintaining respect for the licensee and their rights.
3. Conduct a performance audit	3.1 Identify the scope of the activity being audited and the expected outcomes. 3.2 Identify local workplace, health and safety issues and implement control strategies. 3.3 Evaluate the adequacy of the training and assessment process used by the licensee to determine the competency of the authorised person(s) completing the licensed activity. 3.4 Assess the suitability of the equipment, documentation and environs used for the licensed activity. 3.5 Review completed documentation relating to the licensed activity

© Commonwealth of Australia, 2022 SkillsIQ

	for compliance. 3.6 Use questioning to establish the methodology used by the authorised person(s) in completing the licensed activity.
4. Analyse and report audit results	4.1 Examine information, test results and observations against audit objectives and prescribed performance criteria. 4.2 Analyse audit data for isolated and systemic quality and performance issues. 4.3 Identify and report areas of non-compliance including any required corrective action and include any general recommendations for improvement. 4.4 Communicate inspection results to the appropriate personnel.
5. Act on non-compliance	5.1 Select remedial or enforcement action for the non-compliance. 5.2 Inform licensee of non-compliance and consequences of failing to have it corrected. 5.3 Implement enforcement action.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPREG505A Conduct measurement licensee audit.

Assessment Requirements for PSPREG024 Conduct measurement licensee audit

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least one occasion.

- reading, analysing and interpreting:
  - complex and formal documents
  - technical data and test results
  - regulatory requirements
  - organisational policies and procedures
- communicating the outcome of the audit and recommended corrective action
- scheduling and organising audits to allow for licensee's operational requirements and to maximise effective use of auditor's time and travel needs
- ensuring corrective actions are completed
- identifying, and applying legislation, test procedures, policies and procedures
- preparing for audit
- identifying, analysing and mitigating risks within the audit environment
- gathering objective data and information by a variety of methods
- analysing information gathered to identify compliance issues
- identifying and acting on non-compliance
- maintaining the security and confidentiality of data
- reporting results in the required formats and within expected timeframe
- recording the results of audits and maintaining records
- carrying out appropriate follow-up actions

© Commonwealth of Australia, 2022 SkillsIQ

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- auditing systems
- risk management principles
- hazards that may exist when conducting an audit and ways of controlling risks involved
- national measurement legislation
- powers of inspectors
- use of audit/assessment tools
- industry practices and procedures relating to measurement processes and verification of measuring instruments
- organisational reporting procedures relating to audits
- legal issues and terminology relating to audits
- audit methods and techniques
- codes of practice, regulations and standards
- product and service knowledge relating to measurement process and verification of measuring instruments
- quality principles and techniques relating to measurement process and verification of measuring instruments
- current audit practices

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPREG025 Manage investigations

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPREG507 Manage investigations. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to plan, document and allocate resources to manage and review investigations effectively, in accordance with commonwealth and/or jurisdictional law policy and procedures. It includes planning investigations, preparing documentation to support the investigation, identifying, using and coordinating resources and reviewing investigations.

This unit applies to those working in regulatory roles within the public sector involving investigations.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously, performing complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Plan investigations	1.1 Prepare a plan that reflects analysis of all available factors to set directions for the investigation. 1.2 Define an investigation's aims and objectives to provide operational focus. 1.3 Conduct risk assessments to identify investigational opportunities and limitations. 1.4 Formulate a security plan to address the investigation's security requirements. 1.5 Prioritise investigatory phases and tasks to inform the sequence of activities and provide for future review of the investigation process. 1.6 Select and authorise methods to achieve the investigation's aims and objectives. 1.7 Establish communication channels with appropriate personnel to facilitate contact in the conduct of the operation. 1.8 Initiate a case management system to facilitate the planning, resolution and review of the investigation. 1.9 Develop plans that are sufficiently flexible and adaptable to accommodate any unforeseen contingencies and/or issues that may arise.
2. Prepare documentation to support the investigation	2.1 Record all relevant information in a chronological and accurate manner. 2.2 Compile operational documentation to provide an ongoing reference for operatives and a formal record for evidentiary purposes. 2.3 Ensure recording procedures comply with security and evidentiary requirements.
3. Identify, use and coordinate resources	3.1 Identify and access available resource requirements to support the operation. 3.2 Identify contingency responses that address any resource limitations. 3.3 Manage resource usage to achieve the desired aim.

© Commonwealth of Australia, 2022 SkillsIQ

	3.4 Monitor and control operational costs.
4. Review investigations	4.1 Review investigation outcomes against the aims and objectives specified in the investigation plan. 4.2 Review procedures for adherence to organisational policy and guidelines. 4.3 Complete post investigation procedures to finalise the investigation. 4.4 Disseminate review outcomes and use to inform future practice.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPREG507 Manage investigations.

Assessment Requirements for PSPREG025 Manage investigations

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- writing to prepare documents including investigation plans, tactical plans and resource bids
- managing resources including budgetary, human and physical resources and allocation/access
- investigating skills

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- government and policy environments
- different types of criminal activity and their elements
- available resources which may need to be deployed to support the investigation
- security issues and classifications
- all applicable laws, policy and procedures pertaining to the conduct of investigations within the officer's organisational environment
- investigation principles and case management systems and contexts in which these can be applied
- court procedures and evidentiary requirements

PSPREG026 Review and evaluate investigations

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPREG508 Review and evaluate investigations. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to review and evaluate investigations, in accordance with commonwealth and/or jurisdictional law policy and procedures. It includes monitoring investigation progress, assessing, recording and reporting on investigation status and evaluating and documenting recommendations.

This unit applies to those working in regulatory roles within the public sector involved in a designated investigation role.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Assessment Requirements for PSPREG026 Review and evaluate investigations

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- writing and preparing investigation plans, tactical plans, resource bids
- managing the organisation's computer and/or manual information management system
- conducting investigations
- organising and planning skills, in particular the skills to coordinate crucial and diverse clients, law enforcement providers and stakeholders
- managing resources including budgetary, human and physical resources and allocation/access
- reasoning and logical analysis, problem-solving and decision-making

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- the broad law enforcement context and the criminal justice system
- organisation's corporate goals and objectives
- legislation relevant to the jurisdiction/s involved in the investigation
- jurisdictional and organisational requirements of agencies, clients, and stakeholder
- organisation's operational priorities
- macro environmental impact upon investigations of serious crime, including government, policy, political, and community interests

© Commonwealth of Australia, 2022 SkillsIQ

- access and deployment mechanisms to ensure optimal economy and efficiency in the use of human, physical and financial resources
- opportunities, risks and constraint assessment which may hamper the investigation
- decision making processes and organisational chain of command
- evaluation and auditing processes

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPREG030 Manage investigations program

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPREG701A Manage investigations program. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to manage an organisation's investigations program where investigations may be conducted internally, externally or referred to other law enforcement agencies. It includes articulating and authorising an investigations strategy, evaluating investigation processes and the outcomes of investigations, handling complaints, authorising investigations, changing the strategic direction of investigations, and building links at policy level with other organisations and policy makers.

This unit applies to those working in regulatory roles within the public sector involving investigations.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, performing complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Regulatory

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Articulate and authorise investigations strategy	1.1 Link investigations strategy to objectives of the organisation's overall compliance strategy. 1.2 Use strategy to communicate the roles of staff in investigations including their functions, responsibilities and rights. 1.3 Develop policy and procedures to enable staff to conduct successful investigations and meet organisational objectives. 1.4 Develop guidelines to assist decision making on whether particular investigations should be conducted in house or through other avenues. 1.5 Include documented organisational procedures for handling investigations in guidelines. 1.6 Address staff training and maintenance of standards in the development of the guidelines.
2. Evaluate process of investigations	2.1 Establish scheduled times for evaluation and review. 2.2 Develop and communicate consultation, review and development processes. 2.3 Establish quality assurance review programs to ensure the integrity of policy and procedures is maintained or enhanced. 2.4 Use data from performance measures to validate investigation processes against best practice, noting areas where improvements are needed as part of quality implementation. 2.5 Compare recommendations to improve organisational guidelines with legislative and judicial standards, to improve consistency with external benchmarks. 2.6 Manage statutory reporting obligations.
3. Evaluate outcomes of investigations	3.1 Report on resolution rate of investigations, reasons for lack of resolution and time taken to complete investigations and analyse for improvement. 3.2 Amend strategic directions where necessary to improve the rate of investigation resolution and the time taken for investigations to be completed.
4. Handle	4.1 Establish strategies to handle a range of situations that may

© Commonwealth of Australia, 2022 SkillsIQ

complaints	impact on the reputation of the organisation. 4.2 Implement policy and procedures to facilitate the reporting to senior management of potentially serious situations.
5. Authorise investigations	5.1 Determine authority levels to reflect structure and reporting lines within the organisation, jurisdictional and legislative requirements. 5.2 Base decisions regarding the allocation of investigative tasks to internal or external investigation personnel on organisational guidelines. 5.3 Accompany any request for authorisation by senior management with sufficient information to facilitate effective and timely decision making.
6. Change strategic direction of investigations	6.1 Balance broader policy directives with needs and demands within the organisation. 6.2 Authorise any exemptions to established policy after full consideration of impact on the organisation, legal ramifications and reasons for exemption.
7. Build links at policy level with other organisations and policy makers	7.1 Use opportunities for liaison with other investigations managers to extend knowledge and improve links within the profession. 7.2 Encourage staff to build relationships with peers in other organisations. 7.3 Take opportunities to promote the organisation and the investigations profession with policy makers and the public. 7.4 Establish and maintain relationships with other key law enforcement agencies and standards setting organisations. 7.5 Establish and maintain relationships with other relevant stakeholders.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPREG701A Manage investigations program.

Assessment Requirements for PSPREG030 Manage investigations program

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- managing projects
- managing systems and processes for effective investigation processes and outcomes
- liaising and managing investigations when conducted with outside agencies, either jointly, or referred to a police service or contracted to an outside body
- undertaking analysis and problem-solving, especially when dealing with complaints
- using communication styles to suit different audiences and purposes

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- agency investigation/compliance strategy
- agency structure and core business
- investigation techniques
- an understanding of the relationship of the investigation strategy to the agency's overall strategy and jurisdictional policy and legislative requirements
- relevant legislation and policy covering the conduct of investigations, as well as the procedural and offence provisions of specific legislation
- legislative reporting requirements to standards setting organisations
- public sector legislation relating to investigations management, including anti-discrimination and diversity legislation, WHS and environment

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPREV001 Identify and apply statute law

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPREV401A Identify and apply statute law. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to identify statute law and how it applies to a range of situations affecting customers.

This unit applies to those working in public sector roles involving revenue and statute laws.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, performing complex tasks in a familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Revenue administration

PSPREV006 Evaluate returns-based taxes

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPREV406A Evaluate returns-based taxes. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to evaluate returns-based taxes. It includes confirming key features of returns-based taxes, processing enquiries relating to returns-based taxes, assessing returns and dealing with complaints.

This unit applies to those working to evaluate returns-based taxes.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, performing complex tasks in familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Confirm key features of returns-based taxes	1.1 Access and use current and comprehensive information to maintain knowledge and expertise in returns-based taxation matters and to ensure consistency of application. 1.2 Clarify purpose and scope of returns-based taxes. 1.3 Confirm registration, cancellation and maintenance of customer data.
2. Process enquiries relating to returns-based taxes	2.1 Explain taxable items, liability, exemptions and rebates or relief, tailoring communication to suit diverse customer needs. 2.2 Identify and communicate taxable thresholds and current rates of taxation to customers. 2.3 Explain requirements for lodgement of returns and payment of taxes. 2.4 Defer complex enquiries if necessary until information can be clarified, confirmed or referred to senior and specialist staff. 2.5 Provide clear information to customers to enable them to understand their tax obligations.
3. Assess returns	3.1 Confirm returns and payment as correct, and deal with returns. 3.2 Identify problems with payments, check returns for clerical or other errors and confirm or remit associated penalties. 3.3 Obtain and complete formal records for returns requiring further investigation, and refer for further action. 3.4 Process refunds where over-payments are received.
4. Deal with complaints	4.1 Deal with complaints by taxpayers and record and notify of decisions. 4.2 Explain to taxpayers their rights to have the decision reviewed if they are dissatisfied with the decision. 4.3 Deal with complaints relating to deficiencies in operational systems.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPREV006 Evaluate returns-based taxes

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- navigating complex and formal documents and applying them to the assessment of returns-based taxes
- researching and maintaining information related to returns-based taxes
- identifying clerical, numerical and other errors
- communicating with others involving exchanges of complex information relating to returns-based taxes
- providing clear information to customers about their obligations and tax liabilities
- using technology to conduct research, make enquiries, review available data, access legislative requirements and record outcomes
- applying environmental and work health and safety procedures to administrative work and when dealing with customers

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislation, regulations, rulings and Commissioner's practices relating to returns-based taxes
- taxable items and/or elements, liability, deductions or exemptions under the legislation
- taxable thresholds for returns-based tax and the application of sliding scales
- legislative decision-making process

© Commonwealth of Australia, 2022 SkillsIQ

- confidentiality provisions

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

Look for evidence that confirms skills in:

- working with mathematical data
- observing and reporting
- using communication styles to suit different audiences and purposes
- reading formal documents including legislation and workplace instructions and applying them in the workplace
- operating machinery and experimental equipment

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

Look for evidence that confirms knowledge and understanding of:

- work health and safety, environmental protection and other public sector legislation, regulations, policies, procedures and guidelines relating to the provision of scientific technical support
- basic experimental procedures and scientific methods
- organisational code of practice
- standard operating procedures and/or work instructions

Assessment Requirements for PSPSCI002 Assist with scientific technical support

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- analysing mathematical data
- using communication styles to suit different audiences and purposes
- reading formal documents including legislation and instructions and applying them in the workplace
- operating machinery and experimental equipment

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- work health and safety, environmental protection, and other public sector legislation, regulations, policies, procedures and guidelines relating to the provision of scientific technical support
- basic experimental procedures and scientific methods
- basic analytical techniques
- simple statistical analysis
- public sector standards and organisational code of practice as they relate to work in a scientific research/technical environment
- standard operating procedures and/or work instructions
- working with others in a scientific and/or technical environment
- technical support work relevant to specialist area

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

PSPSCI003 Support innovation and change through extension

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSCI302A Support innovation and change through extension. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to perform extension activities. It includes confirming extension objectives and methodologies, preparing for extension activities, providing information to clients to support change and monitoring and evaluating extension outcomes.

This unit applies to those working to support innovation and change.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work under supervision, while performing routine tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Government Science and Technology

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Confirm extension objectives and methodologies	1.1 Clarify and confirm extension objectives with other staff members. 1.2 Identify client target groups and select extension methodology in accordance with objectives, information to be disseminated and client needs and/or preferences. 1.3 Identify and handle issues relating to intellectual property.
2. Prepare for extension activities	2.1 Access industry knowledge to assist in client decision making and to support the implementation of improved practices. 2.2 Confirm and apply risk management strategies in consultation with other staff members. 2.3 Confirm resources, prepare materials and organise extension activities in accordance with project responsibilities.
3. Provide information to support change	3.1 Provide information and advice to clients. 3.2 Maintain presentation standards ensuring information is tailored to client needs in terms of concepts, language and format. 3.3 Assist clients in planning the introduction of change and respond to client resistance. 3.4 Obtain feedback from clients, clarify issues and provide further information.
4. Monitor and evaluate extension outcomes	4.1 Monitor change processes and handle contingencies. 4.2 Monitor and evaluate outcomes against extension objectives, and revise processes and materials to address identified problems. 4.3 Create and implement modifications for continuous improvement.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPSCI302A Support innovation and change through extension.

Assessment Requirements for PSPSCI003 Support innovation and change through extension

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using facilitation and presentation strategies and/or methods
- using communication styles to suit different audiences and purposes
- reading and interpreting scientific research information, and designing materials using different media for different audiences
- applying information management in the context of extension activities
- using technology for materials preparation and monitoring outcomes

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- work health and safety, environmental protection and other public sector legislation, regulations, policies, procedures and guidelines relating to the workplace
- basic extension methodology
- principles of change management
- participatory processes in the context of extension activities
- group dynamics and group processes
- community development principles
- research principles and methodology
- evaluation processes relating to extension outcomes
- the scientific and/or technological area

© Commonwealth of Australia, 2022 SkillsIQ

- specialist area of expertise
- public sector standards and organisational code of practice as they relate to work in a scientific research/technological environment

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSCI004 Undertake scientific/technological research

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSCI303A Undertake scientific/technological research. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to perform scientific or technological research. It includes confirming the research issue, employing a selected research methodology, carrying out the research and delivering the results.

This unit applies to those working in scientific or technological research.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to..

Those undertaking this unit would work under supervision, while performing complex tasks in familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Government Science and Technology

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Confirm research issue	1.1 Confirm and clarify issue to be researched with other researchers. 1.2 Identify and handle issues relating to intellectual property. 1.3 Locate and analyse current and published information relevant to the research issue.
2. Employ selected research methodology	2.1 Select research method/s and objectives in consultation with other researchers and in accordance with resource requirements. 2.2 Establish a hypothesis and confirm it with other researcher/s as plausible, relevant and of benefit. 2.3 Confirm tasks, risk management strategies and analytical techniques in consultation with other researcher/s. 2.4 Record research methodology.
3. Carry out research	3.1 Source resources to conduct the research. 3.2 Schedule and carry out tasks under general guidance in accordance with research methodology. 3.3 Monitor research and collect and analyse data in accordance with research plan. 3.4 Discuss and document research results with other researcher/s. 3.5 Prepare research report/s within specified timeframes. 3.6 Write reports.
4. Deliver research results	4.1 Provide research results to the organisation, to the scientific community and/or to the industry. 4.2 Protect intellectual property.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPSCI303A Undertake scientific/technological research.

PSPSCI005 Provide scientific technical support

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSCI401A Provide scientific technical support. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to provide technical support in a scientific and/or research environment. It includes planning and organising technical duties, collecting and recording information, and compiling and reporting data.

This unit applies to those working in technical support in a scientific and research environment.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work under supervision, while performing routine tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

PSPSCI006 Promote innovation and change through extension

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSCI402A Promote innovation and change through extension. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to provide extension activities at an experienced level where independent judgment is used to determine the means of achieving specified objectives within generally directed programs. It includes identifying extension objectives and methodologies, preparing for extension work, promoting change through information and advice, and monitoring and evaluating the adoption of change.

This unit applies to those working to promote innovation and change through extension.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, while performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify extension objectives and methodologies	1.1 Identify required extension outcomes. 1.2 Identify extension objectives to meet organisational outcomes and client needs. 1.3 Identify client target groups and analyse research information to determine how it may best be used to facilitate change in the target groups. 1.4 Determine dissemination methodology, techniques and strategies in accordance with type of research information and client needs and/or preferences. 1.5 Identify and handle issues relating to intellectual property.
2. Prepare for extension work	2.1 Develop industry knowledge to facilitate client decision making and the implementation of improved practices. 2.2 Identify and apply risk management strategies. 2.3 Obtain and manage resources, and develop extension materials and activities.
3. Promote change through information and advice	3.1 Provide information and advice in a form and medium that clients can apply. 3.2 Maintain presentation standards and provide information and advice. 3.3 Assist clients to implement change and handle resistance to change. 3.4 Use feedback from clients to identify problems and new issues and provide further information and/or advice.
4. Monitor and evaluate adoption of change	4.1 Monitor the implementation of change and manage contingencies. 4.2 Evaluate and report outcomes against extension objectives and project outputs, and modify extension processes to address identified problems in response to client feedback. 4.3 Implement and monitor changes to extension programs to ensure continuous improvement. 4.4 Identify outcomes with implications for organisational policy

Assessment Requirements for PSPSCI006 Promote innovation and change through extension

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- determining dissemination strategies
- obtaining and managing extension resources
- identifying the implications for organisational policy development of changes to extension programs
- using facilitation and presentation strategies
- using communication styles to suit different audiences and purposes
- using problem solving to overcome resistance and develop professional relationships of trust
- reading and interpreting scientific research information, and designing materials using different media for different audiences
- applying information management in the context of extension activities
- using technology for materials preparation and monitoring outcomes
- applying work health and safety and environmental requirements related to working in a scientific/technological research environment

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- extension methodology
- principles of change management

© Commonwealth of Australia, 2022 SkillsIQ

- participatory processes in the context of extension activities
- group dynamics and group processes
- community development principles
- research principles and methodology
- evaluation processes relating to extension outcomes
- the scientific and/or technological area
- specialist knowledge relating to area of expertise
- work health and safety, environmental protection and other public sector legislation, public sector standards and organisational code of practice as they relate to work in a scientific research and/or technological environment

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify research issues	1.1 Identify possible research issues through industry analysis and consultation. 1.2 Confirm research issues is relevant to the industry and to the organisation's objectives. 1.3 Identify and handle issues relating to intellectual property. 1.4 Identify and analyse current and published information relevant to the research issues.
2. Identify research methodology	2.1 Establish objectives in consultation with other researcher/s and in accordance with resource requirements. 2.2 Choose appropriate research methodology and analytical techniques 2.3 Determine a hypothesis that is plausible, relevant and of benefit. 2.4 Determine risk management strategies, activities and tasks. 2.5 Record hypothesis and methodology.
3. Organise and carry out research	3.1 Acquire resources to conduct the research. 3.2 Schedule and carry out tasks. 3.3 Monitor research, collect and analyse data and deal with contingencies. 3.4 Document research results and prepare report/s within specified timeframes. 3.5 Write reports.
4. Communicate research results	4.1 Communicate research results to the organisation, to the scientific community and/or the industry via publications and presentations. 4.2 Protect intellectual property.

Assessment Requirements for PSPSCI007 Organise and undertake scientific/technological research

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using problem-solving in the context of scientific and/or technological research
- using technology for data input, analysis and preparation of reports
- interpreting and preparing reports containing scientific and/or technological research information using communication styles to suit different audiences and purposes
- presenting research results tailored to different audiences

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- research methodologies
- scientific process
- statistics
- specialist area of expertise
- reporting requirements for scientific research, requiring precision of expression and using communication styles to suit different audiences and purposes
- public sector legislation, including environmental and work health and safety requirements, public sector standards and organisational code of practice as they relate to work in a scientific research and/or technological environment

PSPSCI008 Provide high-level scientific technical support

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSCI501A Provide high-level scientific technical support. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to provide high-level technical support with responsibility in a defined technical area for experimental, survey, sampling and/or analytical functions. It includes determining and organising high-level technical duties, obtaining and recording information, and assessing and reporting data.

This unit applies to those working as high-level technical support in a defined technical area.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously, with supervisory responsiblities, while performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Government Science and Technology

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Determine and organise high-level technical duties	1.1 Confirm outputs for defined technical area and determine technical duties and responsibilities. 1.2 Determine processes, resources, timelines and equipment requirements and organise technical duties. 1.3 Determine risk management strategies, work health and safety, environmental and other legislative requirements and explain to junior staff as necessary. 1.4 Organise resources and equipment and supervise their preparation.
2. Obtain and record information	2.1 Carry out technical and supervisory duties. 2.2 Provide technical leadership and influence individuals to meet required outputs. 2.3 Carry out and/or supervise the collection and recording of information in accordance with planned processes and timelines. 2.4 Monitor information and deal with contingencies. 2.5 Use and maintain resources and equipment.
3. Assess and report data	3.1 Monitor data input and records maintenance. 3.2 Manipulate data, assess results and deal with irregularities. 3.3 Prepare and present reports.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPSCI501A Provide high-level scientific technical support.

Assessment Requirements for PSPSCI008 Provide high-level scientific technical support

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using technical leadership to influence others to meet required outputs
- using communication styles to suit different audiences and purposes
- reading formal documents including legislation and instructions and applying them in the workplace
- analysing mathematical data and problem solving
- writing technical reports requiring precision of expression
- operating machinery and experimental equipment

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- experimental procedures and scientific methods
- analytical techniques
- statistical analysis
- broad understanding of the scientific area
- work health and safety, environmental protection and other public sector legislation, public sector standards and organisational code of practice as they relate to work in a scientific research/technical environment
- standard operating procedures and/or work instructions
- leadership of others in a scientific and/or technical environment

© Commonwealth of Australia, 2022 SkillsIQ

- technical support work relevant to specialist area

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSCI009 Facilitate innovation and change through extension

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSCI502A Facilitate innovation and change through extension. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to perform extension work at a broadly recognised level requiring considerable initiative and independent judgment within generally directed strategic programs. It includes determining extension objectives and methodologies, preparing for extension work, facilitating innovation and change, and monitoring and evaluating the adoption of innovation and change.

This unit applies to those working to facilitate innovation and change through extension.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously with supervisory responsibilities, while performing sophistocated tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Determine extension objectives and methodologies	1.1 Identify required program outcomes. 1.2 Determine extension objectives to meet organisational outcomes and client needs. 1.3 Provide leadership to extension colleagues to influence and motivate their work. 1.4 Generate and interpret research data, identify client target groups and tailor information for different target groups. 1.5 Evaluate and modify dissemination methodology, techniques and strategies in accordance with type of research information and client needs and/or preferences. 1.6 Identify and manage issues relating to intellectual property.
2. Prepare for extension work	2.1 Foster and use industry networks to maintain and apply industry knowledge to encourage client decision making and the implementation of improved practices. 2.2 Develop change management approaches to assist clients to find their own solutions and to implement change. 2.3 Identify risks and determine and apply risk management strategies. 2.4 Acquire and manage resources and develop an extension strategy.
3. Facilitate innovation and change	3.1 Implement information strategy and recommend improvements to clients. 3.2 Use feedback from clients to identify problems and new issues, and provide further information and/or advice in response to client needs. 3.3 Implement change management strategies, and negotiate solutions to problems. 3.4 Modify strategies to address resistance.
4. Monitor and evaluate adoption of innovation and change	4.1 Monitor change management strategies, analyse results and manage contingencies. 4.2 Evaluate outcomes and report against extension objectives and required program outcomes, and make recommendations for

© Commonwealth of Australia, 2022 SkillsIQ

	modification of future strategies. 4.3 Implement and evaluate revised strategies to ensure continuous improvement. 4.4 Identify outcomes with implications for organisational policy and influence policy development.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

s unit supersedes and is equivalent to PSPSCI502A Facilitate innovation and change through extension.

Assessment Requirements for PSPSCI009 Facilitate innovation and change through extension

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using facilitation and presentation strategies and/or methods
- using communication styles to suit different audiences and purposes
- using problem solving to overcome resistance and develop professional relationships of trust
- reading and interpreting scientific research information, and designing materials using different media for different audiences
- applying information management strategies
- using technology for materials preparation and monitoring outcomes

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- well-developed knowledge of the industry
- advanced extension methodology
- principles of change management
- participatory processes in the context of extension activities
- group dynamics and group processes
- community development principles
- research principles and methodology
- evaluation processes relating to extension outcomes

© Commonwealth of Australia, 2022 SkillsIQ

- broad understanding of the scientific area
- specialist area of expertise
- work health and safety, environmental protection and other public sector legislation, public sector standards and organisational code of practice as they relate to work in a scientific research/technological environment

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSCI010 Develop and undertake scientific/technological research

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSCI503A Develop and undertake scientific/technological research. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to conduct scientific and/or technological research at a broadly recognised level where considerable initiative and independent judgment are used within generally directed strategic programs. It includes framing the research question, developing the research methodology, undertaking and managing the research and disseminating the results.

This unit applies to those working in scientific/technological research.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously with supervisory responsibilities, while performing sophisticated tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Frame research question	1.1 Identify viable research questions through industry experience, industry analysis and consultation. 1.2 Consult with possible funding bodies to identify issues which may attract external funding. 1.3 Frame a research question to capture key issue/s with supporting information. 1.4 Demonstrate the benefit of the research question to the industry and its relevance to the organisation's objectives and timeframes. 1.5 Identify and manage issues relating to intellectual property. 1.6 Identify current information relevant to the research question by accessing research and professional networks and analysing published and unpublished materials.
2. Develop research methodology	2.1 Determine objectives that represent logical and effective aspects of the question to be researched and meet organisational and funding requirements. 2.2 Select research methodology and analytical techniques to meet objectives and funding requirements. 2.3 Formulate a hypothesis that is plausible, relevant and of benefit. 2.4 Determine risk management strategies and lay out activities. 2.5 Record the hypothesis, methodology, supporting information and activities.
3. Undertake and manage research	3.1 Seek resources to conduct the research. 3.2 Schedule, assign and carry out tasks. 3.3 Monitor research performance, analyse and interpret data and deal with contingencies. 3.4 Determine and document research results. 3.5 Prepare research report/s within specified timeframes in accordance with or funding body requirements.
4. Disseminate research results	4.1 Disseminate research results within the organisation, to any external funding body, the scientific community and/or the industry via publications and presentations.

© Commonwealth of Australia, 2022 SkillsIQ

	4.2 Protect intellectual property.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using problem-solving techniques
- working in and facilitating teams
- using technology for data input, analysis and preparation of reports
- interpreting and preparing reports containing scientific research information using communication styles to suit different audiences and purposes
- presenting research results tailored to different audiences

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- research methodologies
- scientific process
- statistics
- the use of sophisticated statistical models
- specialist area of expertise
- possible sources of external funding
- reporting requirements for scientific research, requiring precision of expression and using communication styles to suit different audiences and purposes

© Commonwealth of Australia, 2022 SkillsIQ

- work health and safety, environmental protection and other public sector legislation, public sector standards and organisational code of practice as they relate to work in a scientific research and/or technological environment

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

PSPSCI011 Manage the provision of high-level scientific technical support

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSCI601A Manage the provision of high-level scientific technical support. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to provide high-level technical support within a broad area of expertise at an experienced, self-directed level with responsibility for experimental, survey, sampling and/or analytical functions. It includes determining and managing high-level technical duties, managing the collection and recording of information, and analysing and reporting data.

This unit applies to those working in high-level technical support in a broad technical area.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously with supervisory responsibilities, while performing sophisticated tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Investigate extension issues and methodologies	1.1 Investigate extension issues in relation to required program outcomes. 1.2 Develop extension objectives to further organisational outcomes and client needs. 1.3 Provide leadership to extension colleagues, influence decisions and monitor and change directions in accordance with emerging requirements. 1.4 Identify the characteristics of client target groups and adapt the interpretation of research information for different target groups. 1.5 Develop and use dissemination methodology, techniques and strategies in accordance with the type of research information and client needs. 1.6 Identify and exploit issues relating to intellectual property.
2. Prepare for innovation and change management	2.1 Build and use strategic industry alliances and networks to develop and apply industry knowledge to influence client decision making and practices. 2.2 Analyse the industry sector in relation to size, economic impact, and political importance in order to determine risks, and manage resistance to change and other contingencies. 2.3 Develop change management strategies. 2.4 Determine risks and develop and apply risk management strategies. 2.5 Attract and manage resources, and develop a communication and/or marketing strategy in accordance with program responsibilities and extension objectives.
3. Influence innovation and change	3.1 Influence clients to seek innovative solutions and to manage change. 3.2 Analyse and manage resistance to change. 3.3 Design and implement local and regional extension services, and set extension methods to meet the needs of clients. 3.4 Implement communication and/or marketing strategy and monitor information ensure it is relevant, accurate and tailored to

© Commonwealth of Australia, 2022 SkillsIQ

	client needs in terms of concepts, language and format. 3.5 Resolve client problems, and identify and document new issues for further research.
4. Monitor and evaluate adoption of innovation and change	4.1 Evaluate and report outcomes against extension objectives and required organisational outcomes. 4.2 Implement and evaluate revised strategies, and manage contingencies to ensure continuous improvement. 4.3 Identify outcomes with political and/or policy implications and make contributions to policy development.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPSCI012 Influence innovation and change through extension

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- investigating extension issues
- exploiting intellectual property rights
- building strategic alliances
- attracting resources and designing extension activities at local and regional level.
- using facilitation and presentation strategies and methods
- using communication styles to suit different audiences and purposes
- using problem-solving to overcome resistance and develop professional relationships of trust
- reading and interpreting scientific research information, and designing materials using different media for different audiences
- applying information management in the context of extension activities
- using technology for materials preparation and monitoring outcomes

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- advanced extension methodology
- principles of change management
- participatory processes in the context of extension activities
- group dynamics and group processes

© Commonwealth of Australia, 2022 SkillsIQ

- community development principles
- research principles and methodology
- evaluation processes relating to extension outcomes
- specialist area of expertise
- work health and safety, environmental protection and other public sector legislation, public sector standards and organisational code of practice as they relate to work in a scientific research/technological environment

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSCI013 Initiate and conduct scientific/technological research

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSCI603A Initiate and conduct scientific/technological research. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to conduct scientific and/or technological research at a level meriting national recognition where superior initiative and judgment are used within strategically important areas. It includes formulating the research question, devising the research methodology, conducting and managing the research, and publishing and presenting the research results.

This unit applies to those working in scientific and/or technological research at a high level.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously with supervisory responsibilities, while performing sophisticated tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Government Science and Technology

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Formulate research question	1.1 Identify issues for investigation through ongoing professional development and networking with industry, external funding bodies and professional networks. 1.2 Formulate innovate research questions using industry experience and analysis. 1.3 Formulate a research question that dissects key elements of the issue to be investigated. 1.4 Demonstrate how the research question will be of strategic importance to the industry and to the organisation's objectives and timeframes. 1.5 Identify and exploit issues relating to intellectual property. 1.6 Contribute to and use research and professional networks to access current information relevant to the research question, and assess both current and published information and extract relevant information.
2. Devise research methodology	2.1 Monitor innovations in research methods, and adjust objectives and/or the formulation of a hypothesis to enhance the conduct of the research. 2.2 Determine a hypothesis that is testable, relevant and of benefit, and develop research methods appropriate to the hypothesis. 2.3 Identify and specify risk management strategies and resource needs. 2.4 Prepare and submit funding applications as required. 2.5 Complete documentation.
3. Conduct and manage research	3.1 Seek and manage external funding. 3.2 Provide leadership and manage the research team to meet research objectives. 3.3 Monitor performance and outputs and instigate change/s in direction. 3.4 Facilitate collaboration across locations and organisations to meet research objectives and timeframes. 3.5 Analyse, document and report research results.

© Commonwealth of Australia, 2022 SkillsIQ

	3.6 Adapt communication style to write for both scientific and lay audiences and to translate results to applied situations.
4. Publish and present research results	4.1 Publish research papers and disseminate results widely both internally and externally to the organisation. 4.2 Present research at seminars and scientific conferences, nationally or internationally. 4.3 Protect intellectual property. 4.4 Build national reputation through publication and presentation of research papers and networking nationally or internationally.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPSCI603A Initiate and conduct scientific/technological research.

Assessment Requirements for PSPSCI013 Initiate and conduct scientific/technological research

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using problem solving techniques
- using communication styles to suit different audiences and purposes
- using technology for data input, analysis and preparation of reports
- interpreting and preparing reports containing scientific research information using communication styles to suit different audiences and purposes
- presenting research results tailored to different audiences

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- research methodologies
- scientific process
- statistics
- the use of sophisticated statistical models
- specialist area of expertise
- national networks
- external funding sources
- reporting requirements for scientific research, requiring precision of expression

© Commonwealth of Australia, 2022 SkillsIQ

- work health and safety, environmental protection and other public sector legislation, public sector standards and organisational code of practice as they relate to work in a scientific research/technological environment

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSEC001 Secure government assets

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC301A Secure government assets. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice • All PC merged and revised in Element 1 and 2 • PC 3.3 removed. PC 4.1 and 4.2 merged

Application

This unit describes the skills required to protect assets and minimise security risks, by implementing asset restrictions and advising third parties of security requirements.

This unit applies to those working in a role where security of human and physical assets is a requirement.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would generally work independently and/or as part of a team, using support resources as required. They would perform routine tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Security

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Protect assets from security threats	1.1 Secure assets, control, monitor and check access to ensure security. 1.2 Investigate suspicious activity and seek expert advice as required.
2. Implement access restrictions	2.1 Restrict access to authorised personnel and identify potential threats. 2.2 Identify breaches, take action to deal with the breach and report to appropriate personnel.
3. Advise third parties of security requirements	3.1 Confirm needs, expectations, attitudes, and current level of knowledge of third parties and advise them of organisation's security requirements. 3.2 Identify and manage risks related to possible confrontations. 3.3 Provide current and prompt advice that meets the needs of the parties. 3.4 Obtain feedback to determine the party's level of understanding and clarify requirements if needed.
4. Minimise security risk	4.1 Identify changes in circumstances, report to appropriate personnel and complete documentation. 4.2 Take action to reduce the likelihood of breaches reoccurring.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

Assessment Requirements for PSPSEC001 Secure government assets

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying legislation, regulations and policies relating to government security management
- applying analysis and problem solving
- tailoring communication to the needs of a diverse range of people inside and outside the organisation
- completing documentation and writing reports

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislation, regulations, policies, procedures and guidelines relating to government security management
- standards for management of classified information and assets
- available sources of expert advice
- international protocols and treaties impacting on government security management

Assessment Conditions

Assessment of this unit requires a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when securing government assets.

© Commonwealth of Australia, 2022 SkillsIQ

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSEC002 Respond to government security incidents

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC302A Respond to government security incidents. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice • PC 1.1 and 1.2, PC 2.1 and 2.2 merged

Application

This unit describes the skills required to access and advise on security incidents and plan an incident response within the limits of role and responsibility.

This unit applies to those working in a security role where they are expected to identify, manage, finalise and recommend actions if required.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would generally work independently and/or as part of a team, using support resources as required. They would perform routine tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Assess and advise on security incidents	1.1 Identify security incident and respond, according to seriousness of the incident. 1.2 Conduct preliminary assessment that considers the nature of the breach, level of risk and likely consequences. 1.3 Determine limitations of own expertise and refer to more specialised personnel as required. 1.4 Maintain records relating to the incident.
2. Plan incident response	2.1 Identify, collect and assess evidence to determine risk factor. 2.2 Recommend action appropriate to the level of seriousness of the incident. 2.3 Identify and document changes required in security policy as a result of the incident. 2.4 Advise relevant agencies of the incident. 2.5 Prepare a final report incorporating background to the incident, action taken, interview statements, outcomes, summary of findings and recommended actions.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

Assessment Requirements for PSPSEC002 Respond to government security incidents

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying legislation, regulations and policies relating to government security management
- undertaking research, analysis, including trend analysis, and problem-solving
- using communication techniques including interviewing, tailored to diverse stakeholder groups
- planning, carrying out and guiding an investigation
- recording evidence
- writing reports and recommendations
- maintaining expedited, complete and accurate records

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislation, regulations, policies, procedures and guidelines relating to government security management
- organisation's security plan
- Crimes Act 1914 and Criminal Code 1985
- powers inferred to investigate security incidents, including limitations
- referral procedures and appropriate agencies
- intelligence and analytical processes
- conduct of administrative, security or criminal investigations

PSPSEC003 Conduct security awareness sessions

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC303A Conduct security awareness sessions. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice • PC 1.1 revised • 1 new PC added to Element1

Application

This unit describes the skills required to present information and/or awareness sessions on government security management. It includes preparation and delivery of presentations and reviewing outcomes.

This unit applies to those working in a security environment or other generalist or specialist public sector workplaces in which they are required to conduct presentations on security awareness.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to the conducting of presentations, including WHS.

Those undertaking this unit would generally work independently and as part of a team, using support resources as required and with occasional supervisory responsibilities. They would perform complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Security

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare for security awareness presentation	1.1 Determine outcomes of the presentation reflecting the identified needs of participants. 1.2 Select and document presentation methods to suit identified outcomes, participants' needs, equipment and resources. 1.3 Make provision for participant contribution to the session, based on their experience. 1.4 Validate the content of materials prior to use. 1.5 Include examples of instances and results of non-compliance in presentation materials. 1.6 Prepare information and resources to suit specified objectives, needs of the participants, group size and venue. 1.7 Link the presentation to other elements of the organisations security awareness campaign.
2. Deliver session on security awareness	2.1 Facilitate opportunities for discussion of broad conceptual, ethical and legal issues surrounding government security management. 2.2 Explain information, activities and other aspects to participants according to their level of understanding and experience. 2.3 Use materials and techniques adapted to the participants. 2.4 Generate a positive perspective of the organisation's security management and elicit feedback. 2.5 Use case studies to address urgency and levels of risk in security management. 2.6 Highlight models of excellence in government security management.
3. Review security awareness session outcomes	3.1 Encourage participant feedback on all aspects of the security awareness sessions. 3.2 Review suitability of approach, content and outcomes for further activities. 3.3 Review own performance against objectives and in response to

© Commonwealth of Australia, 2022 SkillsIQ

	participants' feedback and comments. 3.4 Give advice on possible future activities or amendments to security awareness strategy and programs, including high risk areas for security management.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	**4**	5	1	2	3	**4**	5	1	2	3	**4**	5	1	2	3	**4**	5	1	2	3	4	5
Learning					Reading					Writing					Oral communication					Numeracy NA					

Performance variables:

1	2	3	**4**	5	1	2	3	**4**	5	1	2	3	**4**	5	1	2	3	**4**	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

This unit supersedes and is equivalent to PSPSEC303A Conduct security awareness sessions.

Assessment Requirements for PSPSEC003 Conduct security awareness sessions

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- explaining complex concepts and formal documents, including legislation, standards and codes of conduct
- using communication styles to suit different audiences and purposes
- mentoring culturally and linguistically diverse staff to maximise security awareness
- designing and having input into awareness sessions delivered by specialists

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislation, policies, guidelines and processes relating to government security management
- international treaties and protocols
- cross-jurisdictional protocols
- organisational structure and core business
- organisational strategic objectives related to security management
- national strategic objectives relating to government security management
- adult learning principles and audience requirements
- security constraints
- public sector values and codes of conduct
- anti-discrimination and diversity legislation

© Commonwealth of Australia, 2022 SkillsIQ

- legislation, policies and procedures relating to presentations including WHS and environment

Assessment Conditions

Assessment of this unit requires a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when conducting security awareness sessions.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSEC004 Undertake information technology security audits

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC304A Undertake information technology security audits. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice • PC 1.1 and 1.2. PC 1.5 and 1.6, PC 2.4 and 2.5, PC 3.1 and 3.2 merged

Application

This unit describes the skills required to plan and conduct an information technology security audit and report on security findings.

This unit applies to those working in a role where they have responsibilities under the organisation's security plan.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would generally work independently and as part of a team using support resources as required. They would perform complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Plan security audit	1.1 Identify the scope and objectives of the audit and prepare an audit plan to meet the objectives. 1.2 Identify the organisation's information systems to be included in the audit plan. 1.3 Advise appropriate personnel of the audit plan and its requirements. 1.4 Identify and prioritise possible sources of security risk and prepare an audit checklist.
2. Conduct security audit	2.1 Identify and analyse systems, procedures, records and documents. 2.2 Conduct audit in accordance with the audit plan. 2.3 Record audit activities. 2.4 Identify situations requiring specialist input or referral to other areas and act on referral.
3. Report on security findings	3.1 Maintain audit records and prepare audit reports. 3.2 Produce report including background, scope, outcomes and recommendations. 3.3 Use language and style to suit the audience and in line with organisational requirements for accuracy and timeliness. 3.4 Support recommendations with evidence and highlight actions identifying person/s responsible for implementation.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

Assessment Requirements for PSPSEC004 Undertake information technology security audits

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying legislation, regulations and policies relating to information technology security audits and government security management
- gathering, analysing and recording data
- using computer applications to undertake security audits
- managing risk in the context of government security management
- engaging in discussion involving exchanges of complex information
- responding to diversity

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislation, regulations, policies, procedures and guidelines relating to information technology security audits
- operational knowledge of policies and procedures in regard to use of information technology systems
- organisation's security plan
- information technology systems and architecture
- use and maintenance of hardware and software systems
- Australian Audit Standards

© Commonwealth of Australia, 2022 SkillsIQ

- aspects of criminal law and administrative law relating to the outcomes of compliance audits
- protocols for reporting fraud, corruption, maladministration and security breaches
- fundamental ethical principles in the handling of documents and information, natural justice, procedural fairness, respect for persons and responsible care

Assessment Conditions

Assessment of this unit requires a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when undertaking IT security audits.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSEC005 Undertake government security risk analysis

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC401A Undertake government security risk analysis. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice • PC 1.1 and 1.2, PC 2.2 and 2.3, PC 3.3 and 3.4 merged

Application

This unit describes the skills required to analyse risk against an organisation's operational environment. It includes establishing the security risk context and compiling a security risk register by identifying, analysing and evaluating risk against a security plan.

This unit applies to those working at an operational level, in specialist or generalist roles across all areas within an organisation.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to the security plan.

Those undertaking this unit would generally work independently and as part of a team using support resources as required. They would perform complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Security

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Establish security risk context	1.1 Confirm strategic and organisational contexts and identify stakeholders and their expectations. 1.2 Identify current and relevant security risk criteria from the security plan. 1.3 Obtain information and resources to conduct the risk analysis.
2. Identify security risk	2.1 Identify and record potential sources of security risk from the perspective of all stakeholders. 2.2 Use specified methodology and tools to identify risks. 2.3 Consult stakeholders during the risk identification process to finalise a list of risks.
3. Analyse security risk	3.1 Identify threat assessments, current exposure and current security arrangements to estimate the likelihood of each risk event occurring. 3.2 Determine potential consequences of each risk including critical lead time for recovery. 3.3 Determine, document and communicate risk ratings and include a rationale for each.
4. Evaluate security risk	4.1 Assess risks against the organisation's security risk criteria. 4.2 Prioritise risks for treatment. 4.3 Monitor risks until treatment measures have been implemented.
5. Compile security risk register	5.1 Develop a security risk register that records identified risks, their nature and source. 5.2 Identify the consequences and likelihood of risks, and the adequacy of existing controls in the register. 5.3 Record risk ratings for identified risks in register. 5.4 Compile and maintain the security risk register to reflect changes in circumstances. 5.5 Refer risk register to management for decisions on action and treatment of risks.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Learning NA					Reading					Writing					Oral communication					Numeracy					

Performance variables:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

This unit supersedes and is equivalent to PSPSEC401A Undertake government security risk analysis.

Assessment Requirements for PSPSEC005 Undertake government security risk analysis

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying legislation, regulations and policies relating to government security management
- analysing the organisation's security plan
- researching and critically analysing the operational environment and drawing conclusions
- using effective communication with diverse stakeholders involving listening, questioning, paraphrasing, clarifying, summarising
- writing formal and highly complex reports
- representing mathematical information in diverse formats

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislation, regulations, policies, procedures and guidelines relating to government security management including WHS
- Crimes Act 1914 and Criminal Code 1985
- Freedom of Information Act 1982
- Privacy Act 1988
- fraud control and protective security policies
- Australian Government Information Security Manual (ISM)
- Protective Security Policy Framework
- risk analysis terminology and techniques

© Commonwealth of Australia, 2022 SkillsIQ

- the organisation's security plan
- the organisation's assets and security environment
- risk management: principles and guidelines
- AS/NZS ISO 31000:2009

Assessment Conditions

Assessment of this unit requires a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when undertaking security risk analysis.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSEC006 Implement security risk treatments

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC402A Implement security risk treatments. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice • PC 2.1 and 2.2, PC 3.3 and 3.4, PC 4.1 and 4.2 merged

Application

This unit describes the skills required to confirm risk decisions, identify risk treatments, implement countermeasures and monitor and review the security risk management process.

This unit applies to those working in a security role where they will be required to confirm, identify, implement and review risk.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to the security plan.

Those undertaking this unit would generally work independently and as part of a team using support resources as required. They would perform complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Confirm risk decisions	1.1 Confirm management decisions determining acceptable and unacceptable levels of risks. 1.2 Note and monitor low level risks accepted by the organisation, to detect changed circumstances. 1.3 Refer unacceptable high-level risks for development of formal management plans. 1.4 Note for treatment all major or significant risks determined as unacceptable.
2. Identify risk treatments	2.1 Ensure treatments are consistent with the security plan, are cost effective and address levels and types of risk and the importance of the function or resource at risk. 2.2 Select treatments to reduce the likelihood and/or consequences of the risk. 2.3 Include continuity plans in treatments where appropriate. 2.4 Document treatments and submit for approval.
3. Implement countermeasures	3.1 Develop and implement a treatment plan. 3.2 Apply countermeasures in accordance with the implementation strategy detailed in the security plan. 3.3 Implement countermeasures in accordance with timeframe, budgetary requirements and legal requirements.
4. Monitor and review security risk management process	4.1 Implement strategies to monitor risk environment. 4.2 Evaluate risk treatments against the objectives of the security plan. 4.3 Obtain feedback from stakeholders on the adequacy and need for current security measures affecting their work/area. 4.4 Convey recommendations for re-examination of security risk or improved risk treatments to the appropriate personnel.

PSPSEC007 Develop and advise on government security procedures

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC403A Develop and advise on government security procedures. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice • PC 2.1 and 2.2 merged, PC 4.2 removed

Application

This unit describes the skills required to interpret security policy and legislation, analyse security related data, develop procedures and provide advice on government security matters.

This unit applies to those working in the policy development division of the organisation.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to policy development and implementation.

Those undertaking this unit would generally work independently and as part of a team using support resources as required. They would perform complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Interpret security policy and legislation	1.1 Identify and analyse legislation impacting on security policy and procedures. 1.2 Analyse the organisation's security policy in relation to risk identification, security management and security incidents. 1.3 Confirm policy intent and identify and review existing procedures for consistency.
2. Analyse security related data	2.1 Collect and analyse data and confirm its integrity. 2.2 Identify outcomes and trends that need to be addressed through security procedures. 2.3 Determine any changes in organisational circumstances and identify related security procedures.
3. Develop procedures	3.1 Identify intended audience/s for procedures and determine language style, structure and format accordingly. 3.2 Develop security procedures to reflect changes in circumstances. 3.3 Develop procedures in consultation with security plan developer/s, end users and approval personnel. 3.4 Submit and gain approval for procedures.
4. Provide advice on government security matters	4.1 Provide information and advice on security procedures and related legislation, regulations, standards and guidelines. 4.2 Consider intended use and consequences of advice and communicate in a manner that addresses the requirements of stakeholders. 4.3 Check documentation provided to ensure it supports the information and advice given.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Collect, analyse and evaluate personal information	1.1 Collect information from the subject to be assessed in accordance with the purpose of the security assessment. 1.2 Obtain additional information where gaps, anomalies, deficiencies or discrepancies exist in the information provided. 1.3 Corroborate information and assess validity and reliability. 1.4 Conduct analysis in accordance with general suitability indicators and security standards. 1.5 Extract and interpret data and record outcomes. 1.6 Conduct assessment process with care and sensitivity to assist subjects to deal with its invasive nature.
2. Make recommendations on security assessment outcomes	2.1 Formulate recommendations that are consistent with the information obtained. 2.2 Convey recommendations. 2.3 Confirm with the requester of the security assessment and the subject, where appropriate, the right to seek a review if recommendations are negative. 2.4 Recommend improvements to procedures.
3. Record and report on personnel security assessments	3.1 Maintain complete and up to date records. 3.2 Prepare reports that are clear, fair and objective and use language suited to the purpose. 3.3 Address urgency and levels of risk in reports. 3.4 Adhere to procedures for storing and managing confidential and sensitive information.

Foundation Skills

Assessment Requirements for PSPSEC008 Conduct personnel security assessments

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying legislation, regulations and policies relating to personnel security assessments
- undertaking critical analysis, evaluation and deductive reasoning
- applying problem solving and decision making

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- public service Acts
- Crimes Act 1914 and Criminal Code 1985
- Freedom of Information Act 1982
- Privacy Act 1988
- fraud control policy
- protective security policy
- Protective Security Policy Framework
- general suitability indicators
- international treaties and protocols
- formats for different types of reports
- risk assessment
- management of secure information

PSPSEC009 Handle sensitive information

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC405A Handle security classified information. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice • Unit title changed to better reflect unit outcomes • PC 3.1 and 3.2 merged

Application

This unit describes the skills required to receive, deal with, maintain and dispose of sensitive information.

This unit applies to those working in a security role where they would receive, deal with and maintain sensitive information.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would generally work independently, as part of a team and with occasional supervisory responsibilities. They would perform complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Assessment Requirements for PSPSEC009 Handle sensitive information

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying legislation, regulations and policies relating to government security management
- applying security classification systems
- using analysis and problem solving
- tailoring communication to the needs of a diverse range of people inside and outside the organisation who classify, transmit or advise on sensitive information

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislation, regulations, policies, procedures and guidelines relating to government security management
- standards for management of sensitive information
- classification system for national security and non-national security information
- procedures for confirming initial security classifications
- international protocols and treaties impacting on government security management
- available sources of expert advice
- procedures relating to WHS and environment in the context of government security management
- equity and diversity principles

PSPSEC010 Provide government security briefings

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC406A Provide government security briefings. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice • PC 1.3 and 1.4 merged

Application

This unit describes the skills required to organise and conduct security briefings which may be delivered face to face, via telecommunication means or briefing papers.

This unit applies to those working in the security sector with some responsibility for determining the need for, and the provision of security briefings.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit will be working as part of a team or independently where support is available for more complex situations. They will perform complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Security

Elements and Performance Criteria

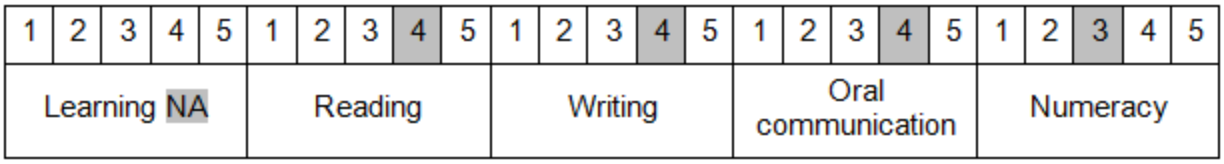
ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Organise security briefing	1.1 Determine the need for a security briefing and select relevant methodology. 1.2 Determine briefing purpose, level, structure and content. 1.3 Prepare a plan for the briefing including participants to be involved and materials required.
2. Conduct security briefing	2.1 Outline the purpose and structure of the briefing to participants according to the briefing plan. 2.2 Encourage active oral or written participation. 2.3 Convey organisational and legislated government security requirements using language and examples adapted to levels of understanding and diverse needs. 2.4 Check understanding of security requirements and the consequences of non-compliance and provide further information as required. 2.5 Conduct briefing. 2.6 Record outcomes and complete a report of the briefing where required.

Foundation Skills

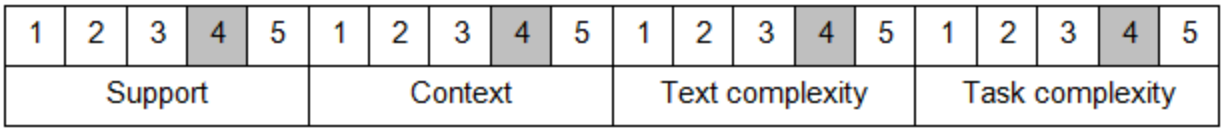
The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

© Commonwealth of Australia, 2022 SkillsIQ

ACSF levels indicative of performance:



Performance variables:



Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

This unit supersedes and is equivalent to PSPSEC406A Provide government security briefings.

Assessment Requirements for PSPSEC010 Provide government security briefings

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying legislation, regulations and policies relating to government security management
- preparing briefing plans
- communicating one-on-one and in a group with a diverse range of participants
- providing feedback and encouraging contributions/active participation from participants

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislation, regulations, policies, procedures and guidelines relating to government security management
- organisational guidelines and procedures for briefings and debriefings
- requirements of incident-related briefings/debriefings

Assessment Conditions

Assessment of this unit requires a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when providing security briefings.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSEC011 Assess security risks

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC501A Assess security risks. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice • PC 2.3 and 2.4; PC 3.2 and 3.3; PC 4.2, 4.3 and 4.4; PC 5.4 and 5.5 merged

Application

This unit describes the skills required to assess government security risks. It includes establishing the risk context, gathering and analysing information and identifying, analysing, assessing and prioritising risks.

This unit applies to those working to develop a security plan or implementing or following an existing plan.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to assessing security risks.

Those undertaking this unit would work independently, initiating support from a range of established and new resources while performing complex tasks in a range of unfamiliar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Security

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Establish security risk context	1.1 Identify the scope and strategic and organisational contexts of the risk assessment. 1.2 Identify and comply with legislation, policies, procedures and guidelines related to security risk management. 1.3 Identify stakeholders and their expectations and obtain their input. 1.4 Identify security risk criteria. 1.5 Develop and obtain endorsement for a risk assessment plan according to organisational priorities.
2. Gather and analyse information	2.1 Identify sources and gather information. 2.2 Review relevant internal and historical information. 2.3 Aggregate and contextualise new information from internal and external sources. 2.4 Identify and address information gaps.
3. Identify security risks	3.1 Determine sources of threat to the organisation's resources and functions. 3.2 Conduct threat assessment against organisational policies, procedures and guidelines and determine risk exposure. 3.3 Use risk assessment techniques which suit the type and level of risk. 3.4 Determine and document risk potential.
4. Analyse security risks	4.1 Analyse potential consequences of risks or threats in light of potential damage to agency, including critical lead time for recovery. 4.2 Assess intent, capability and opportunity for each risk or threat to occur, using all available information. 4.3 Analyse current security countermeasures and treatment options to determine areas of vulnerability. 4.4 Determine and document risk ratings in agreed format.
5. Assess and prioritise	5.1 Consult stakeholders regarding acceptable and unacceptable risk levels.

© Commonwealth of Australia, 2022 SkillsIQ

security risks	5.2 Document acceptable and unacceptable levels of risk. 5.3 Compare identified risks with security risk criteria to determine whether they are acceptable or unacceptable. 5.4 Prioritise and document identified risks in accordance with security criteria. 5.5 Document determined residual risks.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Learning					Reading					Writing					Oral communication					Numeracy					

Performance variables:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

This unit supersedes and is equivalent to PSPSEC501A Assess security risks.

Assessment Requirements for PSPSEC011 Assess security risks

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying legislation, regulations and policies relating to security risk management
- undertaking risk assessment
- reading and analysing the complex information in standards and security plans
- researching and analysing the operational environment and drawing accurate conclusions
- applying critical analysis, evaluation and deductive reasoning
- using problem solving and creative thinking in decision making
- communicating with diverse stakeholders: interviewing, listening, questioning, paraphrasing, clarifying, summarising
- writing reports requiring formal language and structure
- using computer technology and modelling to gather and analyse information and prepare reports
- representing numerical, graphical and statistical information in diverse formats

Knowledge Evidence

- Operational knowledge of:
  - public service Acts
  - Crimes Act 1914 and Criminal Code 1985
  - Freedom of Information Act 1982
  - Privacy Act 1988
  - fraud control policy
  - protective security policy
  - Australian Government Information Security Manual (ISM)

© Commonwealth of Australia, 2022 SkillsIQ

- Protective Security Policy Framework
- Australian standards, quality assurance and certification requirements

- Complex knowledge of:
  - risk assessment techniques/processes
  - information handling
  - qualitative and quantitative analysis techniques
  - incident reports and statistics
  - asset holdings and recording mechanisms
  - international treaties and protocols
  - cross-jurisdictional protocols
  - organisation's strategic objectives
  - national strategic objectives
  - requirements of user groups

Assessment Conditions

Assessment of this unit requires evidence gathered over time in a workplace environment or one that closely resembles normal work practice and replicates the diverse conditions likely to be encountered when assessing security risks

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSEC012 Develop security risk management plans

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC502A Develop security risk management plans. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice • PC 2.1 and 2.2 merged

Application

This unit describes the skills required to treat security risks through the development of a security risk management plan. It includes identifying security countermeasures and developing a plan with schedule for implementing, monitoring and evaluating security strategies.

This unit applies to those working in a security role with some responsibility for addressing organisational risk.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to developing risk management plans.

Those undertaking this unit would work autonomously occasionally accessing and evaluating support from a broad range of sources. They would perform complex tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify counter-measures	1.1 Review documented risks and threats and validate management decisions on acceptable and unacceptable risks. 1.2 Determine treatment options and countermeasures to reduce the likelihood of occurrence or consequences of the risk. 1.3 Propose treatments which include continuity plans where appropriate. 1.4 Propose treatments which match the level and type of risk and importance of the function or resource. 1.5 Conduct a cost-benefit analysis to determine countermeasures. 1.6 Consult stakeholders on the cost-benefit analysis and determine and submit countermeasures for prioritising.
2. Develop security plan	2.1 Prepare a security plan containing explanatory information on the importance of security and the organisation's security objectives in achieving corporate and business objectives. 2.2 Summarise the threat assessments undertaken, current exposure and current protective security arrangements in the plan. 2.3 Outline security strategies for implementing, monitoring and evaluating countermeasures. 2.4 Include timeframes and security budget for implementing countermeasures including assigned responsibilities and methodologies to be used. 2.5 Submit security plan for approval and communicate to stakeholders.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Implement security plan	1.1 Implement countermeasures and treat security risks. 1.2 Follow and meet timeframes and budgetary requirements. 1.3 Comply with legal, government and organisational policy requirements. 1.4 Document and monitor residual risks.
2. Monitor the risk environment	2.1 Determine and document strategies to monitor the risk environment. 2.2 Monitor security risks, types and sources of threats to detect changing circumstances that may alter risk management priorities. 2.3 Conduct monitoring on a regular basis. 2.4 Monitor organisational changes to identify circumstances where re-examination of the security environment becomes necessary. 2.5 Document and act upon results of monitoring.
3. Evaluate security plan	3.1 Monitor risk treatments to gauge extent and effectiveness of implementation. 3.2 Evaluate treatments against the objectives of the security plan. 3.3 Obtain feedback from stakeholders on the adequacy and need for current security measures affecting their work area. 3.4 Identify and address weaknesses in the security plan. 3.5 Review the plan on an ongoing basis, to detect exceptional incidents, breaches, and changes in circumstances. 3.6 Update the plan to reflect current circumstances.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

Assessment Requirements for PSPSEC013 Implement and monitor security risk management plans

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying legislation, regulations and policies relating to security risk management
- auditing in the context of security risk management
- communicating with diverse stakeholders involving presentation, listening, questioning, paraphrasing, clarifying, summarising
- reading and analysing complex information in standards and security plans
- writing reports requiring formal language and structure
- representing numerical, graphical and statistical information in diverse formats

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Operational knowledge of:
  - public service Acts
  - Crimes Act 1914 and Criminal Code 1985
  - Freedom of Information Act 1982
  - Privacy Act 1988
  - fraud control policy
  - protective security policy
- Complex knowledge of:

PSPSEC014 Coordinate protective security

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC504A Coordinate protective security. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to perform an organisation's ongoing protective security function through implementing security procedures and systems. It includes providing advice and support to others, monitoring and coordinating security, and liaising with specialist security services.

This unit applies to those with day-to-day responsibility for an organisation's protective security function.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to security and privacy legislation and security standards when coordinating protective security.

Those undertaking this unit would work autonomously, occasionally accessing support from a range of sources, while performing complex tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Provide security advice and support	1.1 Assist management to analyse the security environment and plan to counter potential threats. 1.2 Advise management on physical and procedural security measures. 1.3 Assist in development of the organisation's security policy and procedures in consultation with management and staff. 1.4 Promote self as the first point of contact for security concerns and queries within the organisation. 1.5 Advise on security matters.
2. Coordinate and monitor security	2.1 Develop and implement protective security arrangements in conjunction with senior management to create and maintain a secure environment for official information and resources. 2.2 Coordinate devolved security measures to ensure organisational standards are maintained consistently and cost-effectively. 2.3 Monitor organisational security procedures and systems and audit as required by the organisation's security policy and plan. 2.4 Monitor the awareness of employees and contractors in terms of their security responsibilities and obligations, take action or make recommendation to address any gaps. 2.5 Review incident reports and assess implications for security risk, procedures and awareness training.
3. Access security specialists	3.1 Coordinate contact between the organisation and external security authorities/organisations. 3.2 Seek advice, technical assistance, learning and development from specialist security organisations to ensure compliance with jurisdictional and organisational security policies, procedures and standards. 3.3 Report or refer incidents and other security issues to government security authorities.

Assessment Requirements for PSPSEC014 Coordinate protective security

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying legislation, regulations and policies relating to the coordination of protective security
- reading and analysing complex documents
- researching and critically analysing the operational environment and drawing conclusions
- using communication with diverse stakeholders involving listening, questioning, paraphrasing, clarifying and summarising, to provide advice and support
- writing reports and recommendations requiring formal language and structure

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

Operational knowledge of:

- public service Acts
- Crimes Act 1914 and Criminal Code 1985
- Freedom of Information Act 1982
- Privacy Act 1988
- fraud control policy
- protective security policy
- the organisation's functions, assets and security environment

© Commonwealth of Australia, 2022 SkillsIQ

- Australian standards, quality assurance and certification requirements
- AS/NZS ISO 31000:2009 risk management – principles and guidelines
- equal employment opportunity, equity and diversity principles
- public sector legislation, including WHS and environment, in the context of coordinating protective security

Assessment Conditions

Assessment of this unit requires evidence gathered over time in a workplace environment or one that closely resembles normal work practice and replicates the diverse conditions likely to be encountered when coordinating protective security.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSEC015 Communicate security awareness

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC506A Communicate security awareness. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice • PC 2.3, 2.4 and 2.5 merged • PC 5.1 and 5.4 removed

Application

This unit describes the skills required to promote security issues to improve government security management. It includes planning and designing awareness-raising activities, promoting security management and developing and nurturing cooperative client relationships.

This unit applies to those whose roles include promoting and conducting security awareness activities and evaluating their success.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to ethical and security management standards, guidelines and codes of conduct when communicating security awareness.

Those undertaking this unit would normally work independently, initiating support from a range of established resources, while performing complex tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Security

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Plan security awareness activities	1.1 Determine need for activities and consult clients and staff to establish priorities in the organisation's security plan. 1.2 Initiate, gather and assess ideas for new or improved activities, taking into account the human, financial and physical resources required. 1.3 Obtain approval for security awareness activities.
2. Design security awareness activities	2.1 Establish formal and informal networks of targeted individuals and groups and use these as communication channels. 2.2 Incorporate precedents in security management into awareness activities. 2.3 Design and produce information presentations and support materials as required. 2.4 Create awareness activities based on the organisation's corporate objectives, core business, culture and an understanding of its client base.
3. Promote government security management	3.1 Prepare and disseminate information relating to incidents and effects of non-compliance. 3.2 Develop and present information to promote government security management and meet the needs of a diverse audience.
4. Develop and nurture cooperative client relationships	4.1 Establish and document expectations of clients and contractors. 4.2 Anticipate opportunities, in consultation with work colleagues and managers, for establishing contacts and networks with external and internal clients. 4.3 Monitor and inform clients of changes in organisational focus which may affect organisation–client relationships. 4.4 Obtain feedback on organisational activities and report outcomes. 4.5 Facilitate stakeholder understanding of organisation's security management philosophy, policy and procedures. 4.6 Advise clients when and how to modify their practices to meet

© Commonwealth of Australia, 2022 SkillsIQ

	organisational standards as required.
5. Conduct security management activities	5.1 Implement security management activities using adult learning methodologies and within existing resource and time constraints. 5.2 Identify intended outcomes based on expectations of the target audience. 5.3 Adapt and refine activities as indicated by audience engagement and responses.
6. Evaluate success of awareness raising activities	6.1 Evaluate security awareness activities against predetermined objectives. 6.2 Document results of evaluation and use as basis for planning future activities. 6.3 Identify and act upon opportunities for new security awareness activities as required. 6.4 Obtain evidence of status or changes in the type and level of security breaches as a result of activities.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5
Learning NA	Reading	Writing	Oral communication	Numeracy

Performance variables:

1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5
Support	Context	Text complexity	Task complexity

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Assessment Requirements for PSPSEC015 Communicate security awareness

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- designing security management activities
- developing and maintaining client relationships
- tailoring activity sessions to the needs of adult learners and a variety of audiences
- managing time effectively to plan and facilitate security management activities within existing resource and time constraints
- delivering oral presentations
- explaining complex concepts and formal documents, including legislation, standards and codes of conduct
- using communication styles to suit different audiences and purposes

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

Operational knowledge of:

- agency structure and core business activities
- security and how it relates to the specific functions and activities of the organisation, together with an understanding of ethical standards required by the organisation of its staff and contractors and suppliers
- national strategic objectives relating to government security management

© Commonwealth of Australia, 2022 SkillsIQ

- jurisdictional security requirements and strategic objectives
- cross-jurisdictional protocols
- international treaties and protocols
- the organisation's security risk management methodology
- security risk factors in the organisation
- identified instances of security breaches
- adult learning principles
- audience requirements
- anti-discrimination and diversity legislation
- legislation, policies and procedures relating to conduct of security management activities including WHS and environment

Assessment Conditions

Assessment of this unit requires evidence gathered over time in a workplace environment or one that closely resembles normal work practice and replicates the diverse conditions likely to be encountered when communicating security awareness.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSEC016 Define information systems framework

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC601A Define information systems framework. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to identify and establish the information system security framework for an organisation or a business unit at functional level. It includes determining the organisational context, determining principal areas of risk, determining system requirements and establishing the security framework.

This unit applies to those with organisation-wide responsibility for defining systems and procedures which impact on organisational security.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to defining information systems for security.

Those undertaking this unit would work autonomously while frequently accessing and evaluating support from a broad range of sources. They would perform sophisticated tasks in a broad range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Security

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Establish the organisational context	1.1 Identify and document legislative and regulatory requirements for the organisation. 1.2 Analyse legislation for any information management security implications and document outcomes. 1.3 Review organisational purpose and function for compliance requirements. 1.4 Analyse broad social context in which the organisation operates to determine community expectations.
2. Determine the principal areas of risk requiring information strategy	2.1 Review and update existing risk analyses. 2.2 Review and document regulatory requirements and legal liabilities for their impact on the information systems framework. 2.3 Determine and document risks and liabilities to be managed by information systems, informing the development of the framework.
3. Determine the information system requirements for each business function	3.1 Analyse risks, liabilities and regulatory requirements. 3.2 Document and communicate identified requirements as evidence to be captured as records. 3.3 Formulate information system specifications from the evidence requirements. 3.4 Determine information security requirements. 3.5 Determine specifications for information systems security measures.
4. Establish information systems framework for organisation	4.1 Develop and communicate an overview of responsibilities for information management within the organisation. 4.2 Define responsibilities and authorities in relation to regulatory requirements. 4.3 Define information management responsibilities and rights for each business function. 4.4 Integrate identified risks and liabilities managed by information systems. 4.5 Define, assign and document levels of accountability and

© Commonwealth of Australia, 2022 SkillsIQ

	responsibility within the framework. 4.6 Formulate and document security procedures for information systems.
5. Obtain approval for framework	5.1 Communicate completed and documented framework for review and endorsement. 5.2 Establish review process and assign appropriate persons with maintaining the currency of the organisation's information systems framework.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5
Learning	Reading	Writing	Oral communication	Numeracy

Performance variables:

1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5
Support	Context	Text complexity	Task complexity

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Assessment Requirements for PSPSEC016 Define information systems framework

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying legislation, regulations and policies relating to government information systems security
- analysing process functions and problems
- preparing, compiling and writing complex documents and reports
- communicating complex relationships and processes effectively to users and management
- documenting complex relationships and processes
- identifying and viewing component parts as integral elements of the whole system
- reading and interpreting mathematical concepts and values embedded in specifications and complex technical documentation
- analysing and interpreting legal, regulatory and security requirements and organisation policies and procedures
- analysing and synthesising documentation, verbally delivered information, and observed behaviours
- consulting with diverse stakeholders to elicit relevant information for analysis

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

Operational knowledge of:

© Commonwealth of Australia, 2022 SkillsIQ

- legislation, regulations, policies, procedures and guidelines relating to government information system security
- equal employment opportunity, equity and diversity principles
- public sector legislation in the context of government information systems security
- sources of information about jurisdictional requirements for information systems
- equal employment opportunity, equity and diversity principles
- public sector legislation, including WHS and environment, in the context of government information systems security
- requires comprehensive knowledge of functions and structures in the organisation
- policies and strategies that apply across the jurisdiction
- information management principles and processes
- information security requirements

Assessment Conditions

Assessment of this unit requires evidence gathered over time in a workplace environment or one that closely resembles normal work practice and replicates the diverse conditions likely to be encountered when defining information systems.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPSEC017 Manage security awareness

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPSEC602A Manage security awareness. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to promote and disseminate the organisation's approach to security management to internal and external clients and the broader community.

This unit applies to those whose roles include disseminating strategy and championing security awareness both inside and outside the organisation.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to managing security awareness.

Those undertaking this unit would work autonomously, frequently accessing and evaluating support from a broad range of sources. They would perform highly sophisticated tasks in a broad range of contexts with frequent specialisation in one or more contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Disseminate security policy	1.1 Raise the profile of security management to indicate its fundamental importance within the organisation. 1.2 Articulate security standards for the organisation in a manner suited to the level and experience of staff. 1.3 Explain ways in which the security policy and plan contribute to the achievement of organisational corporate goals. 1.4 Communicate roles and responsibilities of key people in the organisation regarding implementation of security measures. 1.5 Present and disseminate information to meet the needs of diverse audiences.
2. Champion security awareness	2.1 Lead and motivate others in promoting the role of security processes as integral to effective management practices. 2.2 Use methods to champion security awareness based on an in-depth understanding of the organisation's culture and structure and the nature of both internal and external clients. 2.3 Establish a positive tone within the organisation regarding security, by engendering trust and confidence in security measures. 2.4 Establish guidelines for the creation of formal and informal networks and to nurture cooperative and ethical client relationships.
3. Market security management inside and outside the organisation	3.1 Identify and assess potential activities to promote security and its importance to the overall objectives of the organisation in relation to the current security policy and plan. 3.2 Coordinate implementation of activities with management and key stakeholders. 3.3 Encourage shared ownership of security processes through ongoing consultation and information sharing. 3.4 Organise promotional activities to raise stakeholder awareness of both the ethical and financial aspects of security and to endorse the concept and practice of security management. 3.5 Monitor trends in order to ensure currency of the organisation's

Assessment Requirements for PSPSEC017 Manage security awareness

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying leadership
- synthesising and articulating broader policy issues
- using communication, negotiation and presentation styles to suit different audiences and purposes
- reading and interpreting mathematical concepts and values embedded in complex information
- monitoring trends and providing solutions

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Operational knowledge of:
  - organisational change practices
  - public sector legislation, policies and procedures including anti-discrimination and diversity legislation, WHS and environment in the context of security management
- Complex knowledge of:
  - corporate plan and strategic directions of the organisation
  - structure and core business activities of the organisation
  - organisation's security policy and plans
  - external expectations placed on the organisation by external stakeholders

© Commonwealth of Australia, 2022 SkillsIQ

- the incorporation of constraints imposed by the culture of the organisation and operational factors into security management issues and practices

Assessment Conditions

Assessment of this unit requires evidence gathered over time in a workplace environment or one that closely resembles normal work practice and replicates the diverse conditions likely to be encountered when managing security awareness

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS001 Apply codes and standards to ethical practice

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS503A Apply codes and standards to ethical practice. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice • PC 2.3 split into two PC • 2.1 moved to Element 3

Application

This unit describes the skills required to ensure that translators and interpreters apply current and relevant standards of professional and ethical behaviour in general settings. The unit requires knowledge of the industry's professional codes of ethics and their application to practice. It requires the ability to consider a range of ethical issues and to reflect on and continuously develop professional practice.

This unit applies to those working as translators and interpreters in a range of general settings.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures should be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing specific tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Assessment Requirements for PSPTIS001 Apply codes and standards to ethical practice

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- expressing and seeking advice on professional issues and dilemmas
- demonstrating confidence and assertiveness to apply protocols in work performance
- undertaking research to identify and use professional resources, associations and networks
- applying codes of ethics and conduct to situations involving:
  - potential conflicts of interest
  - conflict between client requirements and ethical standards
  - differences in expectations caused by cultural practices or customs
  - dilemmas caused by tensions between personal and professional standards of practice and values
  - maintaining knowledge of ethical and professional issues and requirements

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- industry standards of ethical behaviour relating to practice
- networks relevant to own professional practice
- professional techniques, strategies and responsibilities of translators and interpreters
- types and sources of professional resources
- situations posing dilemmas and their implications for decisions
- relevant professional codes of ethics and conduct

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Assessment of this unit of competency must include use of scenarios, case studies, experiences or relevant examples of interactions with colleagues and clients that demonstrate addressing problems related to ethical decision making.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS002 Build glossaries for translating and interpreting assignments

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to develop glossaries for translating and interpreting assignments. It includes the ability to identify and source suitable reference material, and to make efficient use of tools and equipment.

This unit applies to those working as translators and interpreters who are responsible for minimising risks associated with inadequate preparation, or collaborating with colleagues in translating and interpreting tasks.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures should be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required while performing specific tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse assignment information	1.1 Obtain and analyse assignment documentation and related background material. 1.2 Consider assignment requirements and need for glossary sharing to decide approach and format. 1.3 Select and obtain tools and equipment and identify up-to-date, relevant and comprehensive resources.
2. Establish familiarity with topic and context	2.1 Access and make critical use of sources of information and reference material. 2.2 Critically analyse terminology in context and record selections in assignment-specific glossary template. 2.3 Identify areas requiring further subject knowledge and seek additional information from client, specialist advisors, or colleagues.
3. Review and evaluate glossary	3.1 Review preparation to confirm it addresses assignment requirements and update glossary as necessary. 3.2 Consider and implement adjustments to improve process and outcomes of future preparation.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

Assessment Requirements for PSPTIS002 Build glossaries for translating and interpreting assignments

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Performance evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following in at least two assignments: for written languages one translating, one interpreting assignment; for languages without written form, two interpreting assignments.

- making efficient use of suitable print, electronic and human resources
- preparing, updating and managing glossaries
- reading and noting information sources for future reference
- setting up glossaries for shared use
- using internet search techniques to research precedents and inform target language choices
- using technology to create and use glossary templates

Knowledge Evidence

Knowledge evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- file and information management procedures, including processes for storing, retrieving and returning assignment material
- key sources of information to inform assignment preparation
- privacy and confidentiality requirements
- requirements for shared glossaries
- structure and function of interpreting and translation glossaries

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Evidence must include examples of glossaries developed for assignments.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS003 Prepare to translate and interpret

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to collect and assess information about the nature and conditions of translating and interpreting assignments and to keep work records. It includes skills required to reach a decision to accept or decline an assignment and to prepare effective work plans to maximise assignment outcomes and minimise risks from miscommunication.

This unit applies to those working as translators and interpreters in a range of contexts.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required while performing specific tasks in a range of contexts.

No licensing, legislative or certification requirements apply to the unit at the time of publication.

Competency Field

Translating and interpreting

essential outcomes	demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Assess ability to complete assignment	1.1 Receive assignment request and clarify scope and nature of work and conditions of engagement. 1.2 Identify performance expectations, limits and responsibilities and their implications for undertaking the assignment. 1.3 Consider personal availability and preparedness to satisfy assignment requirements. 1.4 Advise client or booking agency in a professional and timely manner of decision to accept or decline.
2. Respond to assignment	2.1 Record assignment details and review terms and conditions of engagement. 2.2 Resolve any queries and clarify procedures, including for payment. 2.3 Create and maintain records of assignment in accordance with good business practice.
3. Develop work plan	3.1 Identify factors that may affect assignment outcomes to determine planning needs. 3.2 Identify objectives and determine realistic time commitments and allocations. 3.3 Identify problems and seek assistance from client, specialist advisor, or peer network where necessary. 3.4 Organise activities within required timeframe and appropriate to type of assignment.
4. Review and evaluate work plan	4.1 Review preparation to confirm it addresses assignment requirements, and resolve outstanding issues. 4.2 Consider and implement adjustments to improve process and outcomes of future preparation.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

Assessment Requirements for PSPTIS003 Prepare to translate and interpret

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following for both a translation and an interpreting assignment for written languages, and for two interpreting assignments for spoken languages:

- analysing the demands of assignments
- confirming assignment requirements with clients and colleagues
- developing action and work plans
- using text, landline, mobile phone and email to establish and confirm assignment details

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- discourse mapping of interpreting assignments
- professional procedures and guidelines and business standards applicable to accepting, declining and planning for an assignment
- tools and equipment relevant to assignments, including commercial software used in assignments and office management
- WHS practices and procedures relevant to nature of assignment

Assessment Conditions

Evidence must include examples of work plans and discourse maps prepared for assignments.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS004 Conduct career planning

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to identify the scope and nature of work within the translating and interpreting sector. It describes the skills needed to identify work options, determine own skills and knowledge, establish professional connections or networks and develop a career plan.

The unit applies to emerging translators and interpreters seeking to plan their career.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing specific tasks in a range of contexts.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Competency Field

essential outcomes	demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify scope and nature of work context	1.1 Identify main participants in sector. 1.2 Determine nature of work, current and future trends and potential impacts. 1.3 Identify avenues for exploring work opportunities. 1.4 Clarify skill and knowledge requirements for specific fields. 1.5 Identify relevant ethical codes, quality standards and employment conditions.
2. Conduct self-assessment	2.1 List own knowledge, experience and current and potential abilities in relation to specific fields. 2.2 Explore personal values and work preferences. 2.3 Prepare a profile that identifies personal attributes relevant to chosen career.
3. Investigate career options	3.1 Identify own career options and select preferred options. 3.2 Determine gaps in own skills and knowledge. 3.3 Investigate formal and informal training opportunities and language or skill development for selected options.
4. Develop an individual career plan	4.1 Identify strategies to develop required skills and knowledge. 4.2 Develop a career plan to implement strategies. 4.3 Review career plan with established practitioners.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

Assessment Requirements for PSPTIS004 Conduct career planning

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least one occasion.

- analysing strengths, weaknesses, opportunities, threats (SWOT)
- developing strategies for the management of own career
- participating in relevant industry and professional development networks, events or activities

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- roles of bilingual workers, translators and interpreters
- legal and policy context of translating and interpreting, including relevant federal and state government policies
- personal and professional goals and objectives
- personal values and preferences
- qualifications and credentials in language, translating and interpreting
- strategic approaches to career planning
- sources of information for support and advice on work and training options
- workforce trends, changing demographics and workforce skill needs

Assessment Conditions

Assessment of this unit of competency must include use of written assignments, journals or diaries.

© Commonwealth of Australia, 2022 SkillsIQ

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS020 Analyse text types for translation of general purpose texts (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to analyse a general purpose source text in one language, identify the text type, and apply the analysis in translation to another language.

This unit applies to those working as translators of general purpose texts, where there are limited equivalence problems between source and target text and limited requirement for research on the subject beyond client resources. General purpose texts are written in plain language and the language and concepts expressed in the text are accessible to the general public.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing specific tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse source text	1.1 Assess structure and identify text type. 1.2 Identify devices and sequencing that achieve document objectives in the source text. 1.3 Review devices and sequencing in context of structure and content and confirm logic and correctness. 1.4 Identify culturally specific meaning.
2. Identify requirements of translation	2.1 Determine audience and purpose for translation. 2.2 Establish method and means of communication. 2.3 Determine requirements of target language text type documents. 2.4 Determine appropriate format and structure in target language.
3. Consider target text requirements	3.1 Consider translation options according to target text type document requirements and genre. 3.2 Identify appropriate language, considering suitability for audience, purpose, format and communication style. 3.3 Ensure content addresses cultural and social differences and idiolects. 3.4 Identify any problems with source document and seek advice from appropriate persons.
4. Apply analysis to translation	4.1 Apply requirements of the subject and cultural context to translation. 4.2 Apply recognised target language conventions, standards and formats to translation. 4.3 Produce written documents, applying basic design elements to text. 4.4 Ensure text type document objectives are achieved and requirements are met in target text.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

Assessment Requirements for PSPTIS020 Analyse text types for translation of general purpose texts (LOTE-English)

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following.

- comparing and contrasting features of specific text types in LOTE and English
- sequencing information appropriate to particular text types in LOTE and English
- analysing the following text types at least once each:
  - news articles
  - routine correspondence
  - general informative and expository texts
  - simple instructive texts
  - simple reports

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- characteristics, structure and format of specific text types in each of LOTE and English
- devices and techniques used to achieve objectives of specific text types in each of LOTE and English
- language, style and register of specific text types in each of LOTE and English
- purpose of particular text types and examples of each

Assessment Conditions

Assessment of this unit of competency must include demonstration in the context of translation.

© Commonwealth of Australia, 2022 SkillsIQ

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS021 Translate and certify non-narrative texts

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to translate non-narrative texts and certify translations of personal records and identifying information needed for legal purposes. Non-narrative texts are those that comprise lists of information, single answer data fields, or short factual sentences. Such texts may include menus, lists, personal records (birth, death, marriage), licences, educational and academic records, receipts, or medical reports.

This unit applies to those working as translators of general purpose texts.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using a range of support resources as required, while performing specific tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA

the essential outcomes	achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Produce draft translations	1.1 Receive and manage source texts according to principles of confidentiality and security and confirm text is legible, readable and complete. 1.2 Choose approach to translation suitable to purpose, including identifying information for extract translation as appropriate. 1.3 Critically apply resources to identify equivalence at level of word in the context of the nature of the source document. 1.4 Research and apply established translation precedents and information from resources to ensure consistent outcomes. 1.5 Produce draft translations of source texts that are accurate, coherent, factually correct, and appropriate for document end use and assignment requirements. 1.6 Record translation decisions and justification in glossaries.
2. Format and proofread translations	2.1 Develop template and use technology to format translated texts according to end use requirements. 2.2 Apply standard conventions to link source and target text. 2.3 Proofread formatted text closely, using standard methods to annotate proof corrections. 2.4 Submit draft translation to client for proofreading and approval and liaise to finalise translation.
3. Certify translations	3.1 Certify translation as required using standard methods. 3.2 Return final version of translated text and supporting documentation to client by deadline.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

Assessment Requirements for PSPTIS021 Translate and certify non-narrative texts

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- achieve factual correctness, including at the level of tense, gender and singular or plural and number
- interpret and apply style guides, glossaries and reference material
- use consistent, correct and current target language vocabulary, including foreign loan words
- use idiomatic target language
- use punctuation appropriate to target language
- use spelling appropriate to audience

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- basic principles of affidavits
- certification procedures, including underpinning legal and ethical principles
- purpose and implications of translation, including identification function of drivers licences
- standard conventions linking source and target text

Assessment Conditions

Assessment of this unit of competency must illustrate diverse skills and strategies for translating and certifying non-narrative texts.

© Commonwealth of Australia, 2022 SkillsIQ

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS022 Translate general purpose texts from English to LOTE

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS505A Translate general purpose texts from English to LOTE. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice • PC 1.2, 1.3, 1.4 and 1.6 removed • PC 2.3, 2.4 removed • PC added to Element 3 • PC 5.3, 5.5 removed

Application

This unit describes the skills required to translate general purpose texts from English to a language other than English (LOTE). It identifies the skills needed to convey the purpose and use of the source information in functionally equivalent translated texts for a limited and known audience.

This unit applies to those working as translators of general purpose texts. General purpose texts are those intended to convey information to a limited and known audience. The text is written in plain language, and the language and concepts expressed are accessible to the general public. There are limited equivalence problems between source and target text and limited requirement for research on the subject beyond client resources.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

© Commonwealth of Australia, 2022 SkillsIQ

Those undertaking this unit would work independently using support resources as required, while performing specific tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and Interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse English general purpose source texts	1.1 Receive and manage source texts according to client requirements and conditions and confirm they are complete and legible. 1.2 Analyse source texts to determine key elements and potential translation problems. 1.3 Choose approach to translation suitable to purpose and target audience.
2. Translate English source texts to draft texts in LOTE	2.1 Research and apply established translation precedents and information from resources to ensure consistent outcomes. 2.2 Analyse and adapt cultural and linguistic content of source texts as appropriate for document end use. 2.3 Produce draft translations of source texts that are accurate and coherent and appropriate for end use. 2.4 Record translation decisions and justification in glossary.
3. Check draft translations	3.1 Identify and correct errors, fidelity issues and unsupported translation decisions. 3.2 Check translations, correct errors and amend and improve target texts. 3.3 Critically evaluate consistency, accuracy and functional equivalence of translated text. 3.4 Submit draft translation and glossary to checking translator or subject advisor for review.
4. Revise translations	4.1 Assess and incorporate advice from checking translator and subject advisor. 4.2 Discuss and resolve outstanding issues with appropriate persons

© Commonwealth of Australia, 2022 SkillsIQ

	as necessary. 4.3 Undertake further revision until target text is functionally equivalent to source text.
5. Finalise and evaluate translations	5.1 Use technology to format translated texts according to agreed client specifications and end use requirements. 5.2 Proofread formatted texts using standard methods to annotate proof corrections. 5.3 Submit final version of translated text and supporting documentation to clients.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Learning					Reading					Writing					Oral communication					Numeracy NA					

Performance variables:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTIS505A Translate general purpose texts from English to LOTE.

Assessment Requirements for PSPTIS022 Translate general purpose texts from English to LOTE

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- using techniques to produce a functionally equivalent translation that is accurate and appropriate for the context, target audience and end use, including:
  - adaptation
  - contrastive analysis of meaning and language
  - equivalence at the level of discourse, pragmatics, syntax and word
  - grammatical function transposition
  - localisation
  - text manipulation to clarify meaning
- applying sound subject and context knowledge of the material being translated
- using relevant source language and research skills and the ability to critically apply resources, including glossaries, style guides and reference material
- using consistent register and style appropriate to end use
- using correct and idiomatic collocation, lexis and syntax
- using current and consistent vocabulary, including foreign loan words
- ensuring factual correctness, including at the level of tense, gender and singular or plural plain language
- using correct target language punctuation and paragraphing
- using spelling appropriate to audience
- using textual devices that create cohesion and coherence, including cohesive markers and substitution devices
- checking and correcting content and formatting of translated text for consistency and accuracy

© Commonwealth of Australia, 2022 SkillsIQ

- using word processing and document management technology
- meeting time and contractual requirements

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- purpose and implications of translation, including types of translation defined in international standards
- translating theories and techniques relevant to assignments, including principles of:
  - formal and dynamic translation
  - literal and free translation
  - form based and meaning-based translation
  - direct and oblique translation
  - equivalence and functional equivalence

Assessment Conditions

Assessment of this unit of competency must include use of translation source and target texts, examples of research and glossaries, assignment experiences and examples of interactions with colleagues and clients that demonstrate diverse skills and strategies for translating general purpose texts from English to LOTE.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS023 Translate general purpose texts from LOTE to English

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS513A Translate general purpose texts from LOTE to English. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice • PC 1.2, 1.3, 1.4, and 1.6 removed • PC 2.3 removed • PC 2.3 and 3.3 revised • All re-ordered • Added PC 3.4. PC 5.3, 5.4 • 5.5 removed

Application

This unit describes the skills required to translate general purpose texts from another language (LOTE) to English. It identifies the skills needed to convey the purpose and use of the source information in functionally equivalent translated texts for a limited and known audience.

This unit applies to those working as translators of general purpose texts. General purpose texts are those intended to convey information to a limited and known audience. The text is written in plain language, and the language and concepts expressed are accessible to the general public. There are limited equivalence problems between source and target text and limited requirement for research on the subject beyond client resources.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

© Commonwealth of Australia, 2022 SkillsIQ

Those undertaking this unit would work independently using a range of support resources as required, while performing complex tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse LOTE general purpose source texts	1.1 Receive and manage source texts according to client requirements and conditions and confirm that they are complete and legible. 1.2 Analyse source texts to determine key elements and potential translation problems. 1.3 Choose approach to translation suitable to target audience and purpose of translation.
2. Translate LOTE source texts to draft texts in English	2.1 Research and apply established translation precedents and information from resources to ensure consistent outcomes. 2.2 Analyse and adapt cultural and linguistic content of source texts as appropriate for document end use. 2.3 Produce draft translations of source texts that are accurate and coherent and appropriate for end use. 2.4 Record translation decisions and justification in glossary.
3. Check draft translations	3.1 Identify and correct errors, fidelity issues and unsupported translation decisions. 3.2 Check translations, correct errors and amend and improve target texts. 3.3 Critically evaluate consistency, accuracy and functional equivalence of translated text. 3.4 Submit draft translation and glossary to checking translator or subject advisor for review.

© Commonwealth of Australia, 2022 SkillsIQ

4. Revise translations	4.1 Assess and incorporate advice from checking translator and subject advisor. 4.2 Discuss and resolve outstanding issues with appropriate persons as necessary. 4.3 Undertake further revision until target text is functionally equivalent to source text.
5. Finalise and evaluate translations	5.1 Use technology to format translated texts according to agreed specifications and end use requirements. 5.2 Proofread formatted texts using standard methods to annotate proof corrections. 5.3 Submit final version of translated text and supporting documentation to clients.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

PSPTIS024 Read and analyse general purpose LOTE texts to be translated

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to read and analyse a written message in a general purpose LOTE text for the purpose of later transfer to English. It requires identifying the key linguistic, cultural, societal and situational elements to be conveyed in the future language transfer process.

General purpose texts are those intended to convey information to a limited and known audience. The text is written in plain language, and the language and concepts expressed are accessible to the general public. There are limited equivalence problems between source and target text and limited requirement for research on the subject beyond client resources.

This unit applies to those working as translators of texts in any language.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing specific tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify translating requirements and expectations of audience	1.1 Identify source, context and purpose of text, determining specific requirements and regional or specialist aspects. 1.2 Identify audience for translated text and confirm that translation requirements and expectations match those of client. 1.3 Identify social and cultural issues and plan solutions relevant to translation task.
2. Analyse language of source text	2.1 Identify source LOTE, including register and style. 2.2 Confirm and review resources to aid in understanding unfamiliar language. 2.3 Build, use and maintain assignment-specific glossary. 2.4 Recognise idiomatic and metaphorical expressions and foreign loan words in source language. 2.5 Analyse language and writing conventions, determining use of terminology and language.
3. Analyse grammar and cohesion of source text	3.1 Analyse function of source language punctuation and determine semantic and syntactic structure. 3.2 Apply subject and context knowledge to analysis, sourcing further assistance where required. 3.3 Paraphrase text to check plausibility of comprehension. 3.4 Restructure text as necessary to clarify meaning.
4. Resolve difficulties	4.1 Identify deficient source text and discuss with appropriate persons. 4.2 Suggest solutions and reformulate text as agreed for effective translation. 4.3 Use a range of techniques and resources to address and resolve difficulties identified.

PSPTIS026 Demonstrate routine written LOTE proficiency in different subjects and cultural contexts

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to read and write routine information in a language other than English (LOTE) to meet the written language and communication needs of translating general purpose texts. It covers reading of a range of documents and writing routine documents, including letters and brief reports.

General purpose texts are those intended to convey information to a limited and known audience. The text is written in plain language, and the language and concepts expressed are accessible to the general public. There are limited equivalence problems between source and target text and limited requirement for research on the subject beyond client resources.

This unit applies to those working as translators in a range of fields and contexts.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 3.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing specific tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Read and understand routine documents	1.1 Scan documents and confirm they are complete and legible. 1.2 Identify main ideas, key facts and requirements. 1.3 Interpret any accompanying visual information to support comprehension. 1.4 Identify document tone and purpose.
2. Write routine documents	2.1 Prepare routine documents using key words, phrases, simple sentences and visual aids as required. 2.2 Clearly and accurately convey main ideas, facts and details in written text. 2.3 Provide clear written directions and instructions in a logical order. 2.4 Support written communication with use of appropriately sequenced LOTE expressions and sentences. 2.5 Adhere to workplace and cultural conventions and protocols when preparing written documents. 2.6 Provide written responses to documents in an appropriate format and tone.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPTIS026 Demonstrate routine written LOTE proficiency in different subjects and cultural contexts

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- understanding meaning with reasonable accuracy when reading LOTE texts related to straightforward, everyday situations
- using LOTE writing skills to communicate meaning effectively in routine documents (some errors may occur in writing, provided facts are not distorted and meaning is clear), including:
  - providing factual information
  - responding to requests for general assistance

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- grammar, spelling and punctuation conventions
- features specific to the language, including vocabulary and sentence structure
- vocabulary required to support specific workplace activities

Assessment Conditions

Assessment of this unit of competency must require the candidate to read and write routine documents in a LOTE.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

© Commonwealth of Australia, 2022 SkillsIQ

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Read and understand routine documents	1.1 Scan documents and confirm they are complete and legible. 1.2 Identify main ideas, key facts and requirements. 1.3 Interpret any accompanying visual information to support comprehension. 1.4 Identify document tone and purpose.
2. Write routine documents	2.1 Prepare routine documents using key words, phrases, simple sentences and visual aids as required. 2.2 Clearly and accurately convey main ideas, facts and details in written text. 2.3 Provide clear written directions and instructions in a logical order. 2.4 Support written communication with use of appropriately sequenced English expressions and sentences. 2.5 Adhere to workplace and cultural conventions and protocols when preparing written documents. 2.6 Provide written responses to documents in an appropriate format and tone.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

No equivalent unit.

Assessment Requirements for PSPTIS027 Demonstrate routine written English proficiency in different subjects and cultural contexts

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- understanding meaning with reasonable accuracy when reading English texts related to straightforward, everyday situations
- using English writing skills to communicate meaning effectively in routine documents (some errors may occur in writing, provided facts are not distorted and meaning is clear), including:
  - providing factual information
  - responding to requests for general assistance

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- grammar, spelling and punctuation conventions
- features specific to the language, including vocabulary and sentence structure
- vocabulary required to support specific workplace activities

Assessment Conditions

Assessment of this unit of competency must require the candidate to read and write routine documents in English.

© Commonwealth of Australia, 2022 SkillsIQ

Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS040 Interpret in general dialogue settings (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS506A Interpret in general dialogue settings (LOTE). • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice • Removed PC 1.2, 1.3, 1.4, and 1.6 • PC 2.3 removed, PC 2.3 revised • PC 3.3 revised • All re-ordered • Added PC 3.4. PC 5.3, 5.4 • 5.5 removed

Application

This unit describes the skills required to interpret from a source language to a target language in general dialogue settings, preserving the communicative intent of the source language. The unit requires the ability to use a range of techniques to assist in the message transfer process and to address problems in delivery.

An interpreter in the dialogue setting is required to interpret between two languages in both directions. General settings are those in which context is broad and routine, the content or complexity of the situation can usually be predicted and planned for, and there are opportunities for error correction. There are typically only two participants, to whom the interpreter has physical and visual access. The physical elements of the setting permit the interpreter to manage the discourse to ensure that utterances are suitable for retention and recall. Miscommunication or consequences of errors in communicative intent that may occur in this setting are readily managed through consultation and preparation.

This unit applies to those working as interpreters in consecutive and simultaneous (in the case of Auslan) modes, either alone, collaboratively, in tandem, or as part of a team.

© Commonwealth of Australia, 2022 SkillsIQ

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently while performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1 Receive and analyse source message	1.1 Establish dialogue protocols with participants to facilitate communication dynamics and outcomes, and seek or provide clarification where required. 1.2 Attend actively to source utterance, and identify and address factors affecting communication flow. 1.3 Identify relationships between structure, verbal and non-verbal language, and identify cultural and other factors affecting meaning. 1.4 Identify and address issues of understanding or recall in a manner that does not compromise effective delivery.
2 Transfer message to target language	2.1 Prepare to transfer communicative intent of utterance into target language using techniques to ensure impartial delivery. 2.2 Reproduce message, maintaining its logical sequence and communicative intent. 2.3 Identify and address issues in message transfer promptly and according to established techniques. 2.4 Maintain flow of communication and manage

© Commonwealth of Australia, 2022 SkillsIQ

	discourse. 2.5 Monitor interpreting process to identify when it is necessary to seek assistance or withdraw from assignment.
3 Evaluate interpreting performance	3.1 Evaluate performance in line with issues encountered, assignment requirements and code of ethics. 3.2 Determine personal impact of assignment and identify need for debriefing and counselling. 3.3 Document strategies to improve future work practices.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	**4**	5	1	2	3	4	5	1	2	**3**	4	5	1	2	3	**4**	5	1	2	3	4	5
Learning					Reading **NA**					Writing					Oral communication					Numeracy **NA**					

Performance variables:

1	2	**3**	4	5	1	2	**3**	4	5	1	2	3	**4**	5	1	2	3	**4**	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTIS506A Interpret in general dialogue settings (LOTE).

Assessment Requirements for PSPTIS040 Interpret in general dialogue settings (LOTE-English)

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- using interpreting skills to achieve competent message transfer, including:
  - managing equivalence in message transfer
  - including non-verbal clues in message transfer
  - reproducing factually and linguistically accurate content
  - adapting embedded cultural concepts for correct message transfer
  - using basic strategies to retain and recall messages
  - using technical, language and basic discourse management skills to ensure cohesive and faithful transfer of messages
- using language skills to achieve competent performance, including:
  - applying correct structures, grammar and syntax to achieve coherent delivery
  - using clear pronunciation
  - using correct common idiom, collocations and slang
  - recognising and using diverse general and context-specific registers
  - recognising common metaphors and similes and implied meaning
  - using vocabulary based on general knowledge and specific to context

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

© Commonwealth of Australia, 2022 SkillsIQ

- basic strategies to assist retention of information and recall of source messages
- concepts of meaning-based message transfer
- communication techniques that facilitate interpreting process
- cultural knowledge, including cross-cultural perspective of communication and behaviour to:
  - determine cultural concepts and cues embedded in language
  - transfer cultural concepts without compromising communicative intent of source

Assessment Conditions

Assessment of this unit of competency must include experiences and examples of interactions between interpreters and clients that demonstrate diverse skills and strategies for interpreting in general dialogue settings.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS041 Interpret in general monologue settings (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS509A Interpret in general monologue settings (LOTE). • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice • Element 1 PC 1.1 removed • All others revised • PC 2.2 split into two • Other PC re-ordered

Application

This unit describes the skills required to interpret from a source language to a target language in general monologue settings, preserving the communicative intent of the source language.

An interpreter in the general monologue setting is required to interpret in one language direction, from source to target language. General settings are those in which context is broad and routine, the content or complexity of the situation can usually be predicted and planned for, and there are opportunities for error correction. There are typically only a few participants, to whom the interpreter has physical and visual access. The physical elements of the setting permit the interpreter some ability to manage the discourse to ensure that utterances are suitable for retention and recall. Miscommunication or consequences of errors in communicative intent that may occur in this setting are readily managed through consultation and preparation.

This unit applies to those working as interpreters in consecutive and simultaneous (in the case of Auslan) modes, either alone, collaboratively, in tandem, or as part of a team.

Assessment Requirements for PSPTIS041 Interpret in general monologue settings (LOTE-English)

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- using effective rhetorical techniques and methods to reflect the intention of the source
- using interpreting skills to achieve competent message transfer, including:
  - adapting embedded cultural concepts for correct message transfer
  - including non-verbal cues in message transfer
  - managing equivalence in message transfer
  - reproducing factually and linguistically accurate content
  - using basic strategies to retain and recall messages
  - using technical, language, research and basic public speaking skills to ensure cohesive and faithful delivery of messages
- using language skills to achieve competent performance, including:
  - applying correct structures, grammar and syntax to achieve coherent delivery
  - clear pronunciation
  - use of correct common idiom, collocations and slang
  - recognition and use of diverse general and context-specific registers
  - recognition of common metaphors and similes and implied meaning
  - vocabulary based on general knowledge and specific to context

© Commonwealth of Australia, 2022 SkillsIQ

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- concepts of meaning-based message transfer
- communication techniques that facilitate interpreting process
- cultural knowledge, including cross-cultural perspective of communication and behaviour to:
  - determine cultural concepts and cues embedded in language
  - transfer cultural concepts without compromising communicative intent of source
- basic strategies to assist retention of information and recall of source messages

Assessment Conditions

Assessment of this unit of competency must include demonstration of interpreting in each language direction. Assessment must include experiences and examples of interactions between interpreters and clients that demonstrate diverse skills and strategies for interpreting in general monologue settings.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS042 Manage discourses in general settings

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS507A Manage discourses in general settings. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice • Element 1 revised and PC re-ordered • Element 2 revised • PC 2.2 revised • 2.3 removed • Element 3 PC re-ordered • Element 4 revised • PC 4.1-4.4 revised • 4.6 removed

Application

This unit describes the skills required to manage the physical setting and pace of discourses in general settings. It requires knowledge of the nature and structure of general interpersonal and institutional dynamics and the ability to recognise personal and professional limitations and seek assistance from appropriate persons.

This unit applies to those working as interpreters in a range of general settings for a variety of purposes. General settings are those in which the context is broad and routine, the content or complexity of the situation can usually be predicted and planned for, and there are opportunities for error correction. There are typically few, or only two, participants, to whom the interpreter has physical and visual access. The physical elements of the setting permit the interpreter opportunities to manage the discourse to ensure that utterances are suitable for retention and recall. Miscommunication or consequences of errors in communicative intent that may occur in this setting are readily managed through consultation and preparation.

© Commonwealth of Australia, 2022 SkillsIQ

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing specific tasks in a range of familiar and unfamiliar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Set up discourse	1.1 Establish assignment requirements with clients. 1.2 Identify factors that may compromise interpreter effectiveness. 1.3 Arrange work environment to assist performance and ensure interpreter safety, comfort and effectiveness.
2. Agree process	2.1 Confirm relationships between and with participants according to established interpreting protocols. 2.2 Explain the role of the interpreter and identify areas requiring further clarification.
3. Manage flow of communication	3.1 Assess participant attributes and use appropriate communication style. 3.2 Advise speakers on length, pace and mode of delivery in a professional and courteous manner. 3.3 Address problems affecting communication flow.
4. Monitor and maintain message transfer	4.1 Monitor and identify miscommunications 4.2 Seek and provide clarification where required. 4.3 Identify personal and professional limitations in managing discourses and take necessary steps to remediate these. 4.4 Seek assistance from appropriate persons in challenging situations to manage discourse breakdown and restore

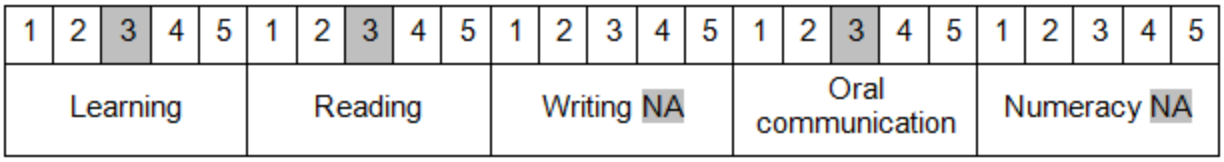
© Commonwealth of Australia, 2022 SkillsIQ

	communication.
5. Evaluate discourse management	5.1 Seek and analyse feedback on discourse and evaluate effectiveness of performance. 5.2 Take advice on issues and solutions and explore and develop strategies to improve practice.

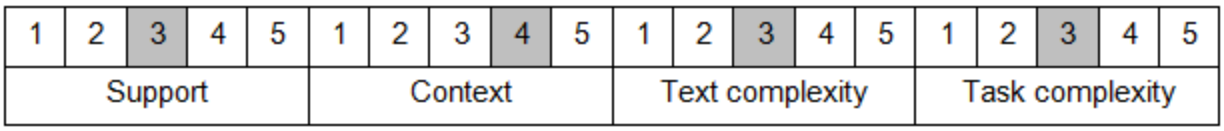
Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the English language performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:



Performance variables:



Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTIS507A Manage discourses in general settings.

Assessment Requirements for PSPTIS042 Manage discourses in general settings

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying code of conduct to work processes
- using problem solving skills to assess barriers to effective communication
- supporting parties to understand and reach agreement on the interpreting process
- deflecting pressure from other parties to perform duties other than interpreting
- seeking debriefing and support where required

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate

- factors that may impact interpreting in general settings, including barriers to communication
- communication techniques that facilitate communication flow and discourse management
- culture-specific knowledge to arrange work environment and confirm relationships between and with parties
- strategies and techniques for working with people with special communication needs
- relevant professional standards and codes
- limitations of work role, responsibility and professional abilities
- nature and structure of interpersonal and institutional dynamics
- WHS and risk management practices and procedures relevant to nature of assignment

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Assessment of this unit of competency must include use of scenarios, case studies, experiences and examples of interactions with colleagues and clients that demonstrate diverse skills and strategies for managing discourses in general settings.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS043 Use routine subject matter terminology in interpreting (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to understand and use terminology from specific subject areas in English and a LOTE sufficient to interpret between the two languages in general dialogue or monologue settings in those subject areas.

This unit applies to those working as interpreters in a range of contexts.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing specific tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used,

outcomes	further information is detailed in the range of conditions section.
1. Identify the context of the terminology	1.1 Identify key features of the subject area, including key people and institutions. 1.2 Identify standard procedures specific to communication in the subject area context. 1.3 Discuss the role and responsibility of interpreters and others in the subject area contexts. 1.4 Identify social, cultural and professional conventions of English and LOTE appropriate to the subject area contexts.
2. Develop understanding of the subject area	2.1 Research and develop knowledge of the subject area terminology in English and LOTE. 2.2 Pronounce general terminology from the subject area correctly.
3. Use appropriate oral or signed communication in interpreting	3.1 Receive and understand oral or signed communication using English and LOTE subject area terminology. 3.2 Seek advice from appropriate persons as necessary to clarify correct use and meaning of terms and associated processes. 3.3 Use general English and LOTE subject area terminology correctly in interpreting. 3.4 Use prosodic features, gestures and body language appropriate to the subject area context.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5
Learning NA	Reading	Writing NA	Oral communication	Numeracy NA

Performance variables:

1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5
Support	Context	Text complexity	Task complexity

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

© Commonwealth of Australia, 2022 SkillsIQ

Range of Conditions

Basic subject areas must include at least five of:	• government and elections • education • environment • immigration and settlement • money matters • social welfare • tourism and events

Assessment Requirements for PSPTIS043 Use routine subject matter terminology in interpreting (LOTE-English)

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using social, cultural and professional conventions applicable to the languages being used in subject area contexts, including:
  - customs, protocols and taboos
  - dialect, idiom, colloquialisms and language conventions
  - social conventions and consistent use of forms of address
- using terminology in at least five of the following subject areas:
  - government and elections
  - education
  - environment
  - immigration and settlement
  - money matters
  - social welfare
  - tourism and events

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- basic principles of the subject area
- information sources for increasing subject area knowledge and terminology
- WHS relevant to working in subject area contexts

PSPTIS044 Demonstrate routine LOTE proficiency in different subjects and cultural contexts

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to conduct predictable and non-routine, varied communications, transactions and interactions in a language other than English (LOTE), to meet the oral language and communication needs of interpreting in general settings. It involves conversing with others, providing detailed information and advice, responding to unpredictable situations and conducting negotiations at a functional level.

This unit applies to those working as interpreters in a range of fields or contexts.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Rating (ISLPR) 3.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing specific tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Converse with others	1.1 Use techniques to extend interactions with others. 1.2 Seek and offer additional information and assistance to support quality of communication and service. 1.3 Support communication with comments on topical familiar matters, workplace business and events. 1.4 Use non-verbal communication to convey an acceptance of and sensitivity towards others.
2. Provide detailed information and advice	2.1 Identify need for detailed information and advice. 2.2 Convey detailed information and advice using narrative and descriptive statements. 2.3 Repeat, paraphrase and clarify communications to avoid misunderstanding and to explain difficult points. 2.4 Use workplace documents, materials and other references to support explanations as required.
3. Respond to unpredictable situations and problems	3.1 Identify key facts of problems and facilitate solutions through open communication with relevant people. 3.2 Provide appropriate advice in response to requests, unpredictable situations and problems. 3.3 Convey appropriate apologies and expressions of regret as required.
4. Negotiate a simple agreement	4.1 Exchange key information and reach agreement on details. 4.2 Provide appropriate explanations about products and services. 4.3 Achieve mutual understanding and agreement.

Assessment Requirements for PSPTIS044 Demonstrate routine LOTE proficiency in different subjects and cultural contexts

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- using communication skills in a LOTE to:
  - establish rapport
  - interact positively and courteously in varied interactive workplace communications
  - question about needs and preferences
  - use diverse, effective non-verbal communication skills

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- aspects of verbal and non-verbal communication that support effective negotiation and interaction in the LOTE being assessed
- applications of social, business and cultural conventions specific to the LOTE being assessed, including:
  - consistent use of forms of address
  - customs, protocols and taboos
  - dialect, idiom, colloquialisms and language conventions

Assessment Conditions

Assessment of this unit of competency must require the candidate to participate in signed or spoken LOTE transactions.

© Commonwealth of Australia, 2022 SkillsIQ

Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS046 Use routine education terminology in interpreting (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to understand and use routine education terminology in English and LOTE sufficient to interpret between the two languages in general dialogue or monologue settings in educational contexts.

This unit applies to those working as interpreters in a range of educational, training and children's services contexts. The interpreter may be required to interact with students and their families, principals, teachers, administrators and pastoral care staff.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and the industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing routine tasks in a range of educational contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

PSPTIS047 Use routine health terminology in interpreting (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to understand and use routine health terminology in English and a LOTE sufficient to interpret between the two languages in general dialogue or monologue settings in general health and allied health contexts.

This unit applies to those working as interpreters in a range of general health and allied health contexts where health services are provided with direct patient contact involved, or general medical topics are discussed. The interpreter may be required to interact with patients, their families and the health professionals working with them.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing specific tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Assessment Requirements for PSPTIS048 Use routine legal terminology in interpreting (LOTE-English)

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- using social, cultural and professional conventions appropriate to the languages being used in legal and policing contexts, including:
  - customs, protocols and taboos
  - dialect, idiom, colloquialisms and language conventions
  - social conventions and consistent use of forms of address

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- areas of law
- lower court, civil and administrative tribunals and routine legal processes
- legal and financial consequences of incorrect interpreting
- hierarchy of courts and tribunals
- key documentation relevant to general policing, and routine legal and judicial processes
- legal privilege
- legal systems (common law, code law)
- information sources for increasing legal knowledge and terminology
- legal principles relating to the role of the interpreter, including the right of a defendant to be 'linguistically present'
- procedures for preparing affidavits
- relevant legislation, government policies and court guidelines
- WHS relevant to working in legal and policing contexts, including personal safety and fatigue

PSPTIS060 Analyse text types for translation of special purpose texts (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to analyse a special purpose source text in one language, identify the text type, and apply the analysis in translation to another language.

This unit applies to those working as translators of special purpose texts, where there are significant equivalence problems between source and target texts. There may also be a need to undertake extensive research and translate complex language and concepts. The purpose of special purpose texts is to convey information for a specific audience.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using a broad range of support resources as required, while performing sophisticated tasks in a range of specialised contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse source text	1.1 Assess structure and identify text type. 1.2 Identify devices and sequencing that achieve document objectives in the source text. 1.3 Review devices and sequencing in context of structure and content and confirm logic and correctness. 1.4 Identify culturally specific meaning.
2. Identify requirements of translation	2.1 Determine audience and purpose for translation. 2.2 Establish method and means of communication. 2.3 Determine requirements of target language text type documents. 2.4 Determine appropriate format and structure in target language.
3. Consider target text requirements	3.1 Consider translation options according to target text type document requirements and genre. 3.2 Identify appropriate language, considering suitability for audience, purpose, format and communication style. 3.3 Ensure content addresses cultural and social differences and idiolects. 3.4 Identify any problems with source document and seek advice from appropriate persons.
4. Apply analysis to translation	4.1 Apply requirements of the subject and cultural context to translation. 4.2 Apply recognised target language conventions, standards and formats to translation. 4.3 Produce written or word processed documents, applying basic design elements to text. 4.4 Ensure text type document objectives are achieved and requirements are met in target text.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

© Commonwealth of Australia, 2022 SkillsIQ

ACSF levels indicative of performance:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Learning					Reading					Writing					Oral communication					Numeracy NA					

Performance variables:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Range of Conditions

Special purpose text types must include at least five of:	• correspondence • essays • informative and expository texts • instructive texts • media statements and articles • narrative and descriptive texts • persuasive and marketing texts • reports • speeches

Unit Mapping Information

No equivalent unit.

Assessment Requirements for PSPTIS060 Analyse text types for translation of special purpose texts (LOTE-English)

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following.

- comparing and contrasting features of specific text types in LOTE and English
- sequencing information appropriate to particular text types in LOTE and English
- analysing at least five of the following text types at least once each:
  - correspondence
  - essays
  - informative and expository texts
  - instructive texts
  - media statements and articles
  - narrative and descriptive texts
  - persuasive and marketing texts
  - reports
  - speeches

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- characteristics, structure and format of specific text types in each of LOTE and English
- devices and techniques used to achieve objectives of specific text types in each of LOTE and English
- language, style and register of specific text types in each of LOTE and English
- purpose of particular text types and examples of each

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Assessment of this unit of competency must include demonstration in the context of translation.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS061 Quality assure translations

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS602A Quality assure translations. • PC 2.4 added from Element 3 • PC2.3 revised • PC 3.1 removed • 3.2 revised • 3.5 removed • 4.2 added from Element 3 • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to objectively check and proof the translated text of another translator. Quality assurance ensures that content is factually accurate, complete and correctly targeted to its intended end use, and does not alter the message of the source text. The unit requires high level language and analytical skills to identify translation difficulties and transfer errors, and the research skills to source information that will clarify content issues.

This unit applies to those working translators who undertake a range of quality assurance checks of a translated text for original translators, clients or commissioning service providers.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

© Commonwealth of Australia, 2022 SkillsIQ

Those undertaking this unit would work independently using a broad range of support resources as required, while performing sophisticated tasks in a range of specialised contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare to check translation	1.1 Identify and confirm work requirements, performance expectations and end use of text, and agree approach. 1.2 Obtain and review source and translated text files and associated glossary and documentation and determine personal competence and willingness to undertake assignment. 1.3 Select and prepare references and equipment.
2. Compare translated text to source text	2.1 Analyse source text and identify subject and key elements. 2.2 Check coherence of translation and identify translation problems and transfer errors. 2.3 Compare translated text to source text for completeness and factual and linguistic accuracy. 2.4 Evaluate translation fitness for purpose and identify relevant issues. 2.5 Undertake research and make critical use of references to address problems, errors and questions from the original translator. 2.6 Resolve translation problems and record findings and decisions in glossary, citing sources.
3. Propose amendments to translation	3.1 Make revisions to text using an agreed process and ensure amendments are visible and queries resolved. 3.2 Annotate text where necessary and give clear instructions to desktop publisher where required. 3.3 Provide objective advice in response to questions and propose corrections to text within level of expertise.
4. Submit quality assured	4.1 Provide checked translation to client or original translator in line with agreed arrangements and confirm that it meets client

© Commonwealth of Australia, 2022 SkillsIQ

translation	requirements. 4.2 Discuss proposed corrections to text with appropriate persons according to established procedures and code of ethics. 4.3 Retain copy of checked translation and associated documentation for future reference, according to privacy and business protocols. 4.4 Seek feedback from relevant persons and explore process improvement strategies.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels, indicated for successful attainment of the unit.

ACSF levels indicative of performance:

Assessment Requirements for PSPTIS061 Quality assure translations

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- comparing translated text to source text to arrive at an objective evaluation of the work of the original translator
- ensuring that translation is accurate, complete and correctly targeted to its intended end use
- providing and seeking advice in a sensitive manner and within level of personal expertise
- using technology for purposes of information, collaboration, recording, file management, version control and tracking

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- privacy and confidentiality requirements
- quality assurance parameters
  - factual and linguistic accuracy
  - functional equivalence
  - meaning in context
  - punctuation
  - register and style
  - semantic structure
  - terminology

© Commonwealth of Australia, 2022 SkillsIQ

- transfer errors
- transfer problems
- writing conventions

- relevant translating theories and techniques
- research methods to source information that will clarify content issues, including advanced bilingual internet search techniques

Assessment Conditions

Assessment of this unit of competency must include actual tasks that demonstrate diverse skills and strategies for quality assuring translations.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS062 Translate special purpose texts from English to LOTE

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS601A Translate special purpose texts from English to LOTE. • PC 1.2-1.4 and 1.6 removed • PC 2.3 removed • PC 3.2 and 3.4 added • All re-ordered • PC 5.3 revised • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to translate special purpose texts from English to a language other than English (LOTE). It identifies the skills needed to convey the purpose and use of the source information in functionally equivalent translated texts for a specific audience.

This unit applies to those working as translators of special purpose texts where there may be significant equivalence problems between source and target text and the subject of the text has its own specific terminology. There may also be a need to undertake extensive research and translate complex language and concepts.

It requires sound conceptual understanding of the material being translated and its context in order to produce translations that are accurate and appropriate for the context, target audience and end use. The language transfer process requires high level language skills and the ability to apply specialist resources and subject specific glossaries, including specialist bilingual glossaries.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse English special purpose source texts	1.1 Receive and manage source texts according to client requirements and conditions and confirm they are complete and legible. 1.2 Identify complex areas of content and language requiring additional research and gather reference material. 1.3 Analyse source texts and apply knowledge of subject and context and experiences in related texts to determine key elements and potential translation problems. 1.4 Choose approach to translation suitable to purpose and target audience.
2. Translate English source texts to draft texts in LOTE	2.1 Research and apply established translation precedents and information from resources to ensure consistent outcomes. 2.2 Analyse and adapt cultural and linguistic content of source texts as appropriate for document end use. 2.3 Produce draft translations of source texts that are accurate and coherent and appropriate for end use. 2.4 Record translation decisions and justification in glossary.
3. Check draft translations	3.1 Identify and correct errors, fidelity issues and unsupported translation decisions. 3.2 Refine and improve target texts.

© Commonwealth of Australia, 2022 SkillsIQ

	3.3 Evaluate subject-specific terminology and concepts, consistency, accuracy and functional equivalence of translated text. 3.4 Submit draft translation and glossary to checking translator or subject advisor for review.
4. Revise translations	4.1 Assess and incorporate advice from checking translator and subject advisor. 4.2 Discuss and resolve outstanding issues with appropriate persons as necessary. 4.3 Undertake further revision until target text is functionally equivalent to source text.
5. Finalise and evaluate translations	5.1 Use technology to format translated texts according to agreed specifications and end use requirements. 5.2 Proofread formatted texts using standard methods to annotate proof corrections. 5.3 Submit final version of translated text and supporting documentation to clients.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	**3**	4	5	1	2	3	4	**5**	1	2	**3**	4	5	1	2	**3**	4	5	1	2	3	4	5

Assessment Requirements for PSPTIS062 Translate special purpose texts from English to LOTE

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- using advanced techniques to produce a functionally equivalent translation that is accurate and appropriate for the context, target audience and end use, including:
  - adaptation
  - contrastive analysis of meaning and language
  - equivalence at the level of discourse, pragmatics, syntax and word
  - grammatical function transposition
  - localisation
  - text manipulation to clarify meaning
- applying sound conceptual understanding of the specialist material being translated and its context
- using advanced bilingual research skills and the ability to critically apply specialist resources, including style guides, subject-specific or specialist bilingual glossaries and reference material
- using a wide range of consistent registers and styles appropriate to end use
- using correct and idiomatic collocation, lexis and syntax
- using current and consistent specialist vocabulary, including foreign loan words
- ensuring factual correctness, including at the level of tense, gender and singular or plural complex language
- using correct target language punctuation and paragraphing
- using spelling appropriate to audience
- using textual devices that create cohesion and coherence including, cohesive markers and substitution devices

© Commonwealth of Australia, 2022 SkillsIQ

- checking and correcting content and formatting of translated text for consistency and accuracy
- using word processing and document management technology
- meeting time and contractual requirements

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- purpose and implications of translation of special purpose texts, including types of translation defined in international standards
- translating theories and techniques relevant to special purpose text assignments, including principles of:
  - formal and dynamic translation
  - literal and free translation
  - form based and meaning-based translation
  - direct and oblique translation
  - equivalence and functional equivalence

Assessment Conditions

Assessment of this unit of competency must include use of translation source and target texts, examples of research and glossaries, assignment experiences and examples of interactions with colleagues and clients that demonstrate diverse skills and strategies for translating special purpose texts from English to LOTE.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS064 Read and analyse special purpose English texts to be translated

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to read and analyse a written message in a special purpose English text for the purpose of later transfer to a language other than English (LOTE). It requires identifying the key linguistic, cultural, societal and situational elements to be conveyed in the future language transfer process.

This unit applies to those working as translators of special purpose texts in any language.

Special purpose texts are texts for which the purpose is to convey information for a specific audience. The text is written using specific terminology and there may be significant equivalence problems between source and target texts. There may also be a need to undertake extensive research and translate complex language and concepts.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using a broad range of support resources as required, while performing sophisticated tasks in a range of specialised contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify translating requirements and expectations of audience	1.1 Identify source, context and purpose of text, determining specific requirements and regional or specialist aspects. 1.2 Identify audience for translated text and confirm that translation requirements and expectations match those of client. 1.3 Identify social and cultural issues and plan solutions relevant to translation task.
2. Analyse language of source text	2.1 Identify source text register and style. 2.2 Identify complex areas of content and language requiring additional research. 2.3 Confirm and review resources to aid in understanding specialist or technical language. 2.4 Build, use and maintain assignment-specific glossary. 2.5 Recognise idiomatic and metaphorical expressions and foreign loan words in source text. 2.6 Analyse language and writing conventions, determining use of terminology and language.
3. Analyse grammar and cohesion of source text	3.1 Analyse function of English punctuation and determine semantic and syntactic structure. 3.2 Apply subject and context knowledge and experiences in related texts to determine key elements and potential translation problems. 3.3 Paraphrase text to check plausibility of comprehension. 3.4 Restructure text as necessary to clarify meaning.
4. Resolve difficulties	4.1 Identify deficient source text and discuss with appropriate persons. 4.2 Suggest solutions and reformulate text as agreed for effective translation. 4.3 Use a range of techniques and resources to address and resolve difficulties identified.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	**4**	5	1	2	3	4	**5**	1	2	3	**4**	5	1	2	3	**4**	5	1	2	3	4	5
Learning					Reading					Writing					Oral communication					Numeracy NA					

Performance variables:

1	2	3	4	**5**	1	2	3	**4**	5	1	2	3	4	**5**	1	2	3	4	**5**
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

No equivalent unit.

Assessment Requirements for PSPTIS064 Read and analyse special purpose English texts to be translated

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- identifying the key linguistic, cultural, societal and situational elements in the source text
- analysing source text language and writing conventions for meaning, including:
  - acronyms and eponyms
  - cause and effect relationships
  - cohesive and substitution devices
  - function of words and grammatical elements
  - idioms and idiomatic expressions
  - metaphor and simile
  - punctuation
  - register and style
  - terminology and jargon
- using advanced bilingual research skills and the ability to critically apply specialist resources, including style guides, subject-specific or specialist bilingual glossaries and reference material

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- discourse and complex source text analysis techniques
- cultural knowledge to identify inherent cultural and socio-cultural concepts
- language structure, metaphors and idioms in source language
- techniques to parse sentences
- subject specialist area and culture-specific knowledge relevant to topic of translation

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Assessment of this unit of competency must include use of translation source texts, examples of research and glossaries, and assignment experiences that illustrate diverse skills and strategies for analysing special purpose texts in English.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS066 Apply theories to translating and interpreting work practices

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS614A Apply theories to describe and review work assignments. • Element 1 revised • PC 1.1-1.4 revised • 2.2 added from Element 2 • Element 2 revised • All PC revised • PC 3.2 removed • Unit code updated • Unit title changed • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to research, analyse and apply a range of approaches to translating and interpreting based on the history, development and progress of relevant theories and their current application to work assignments and practice. The application of translating and interpreting theory is an essential component of interpreting and translating work assignments which require justification and critiquing of work undertaken.

This unit applies to those working as translators and interpreters in a range of professional settings.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

© Commonwealth of Australia, 2022 SkillsIQ

Those undertaking this unit would work independently using a broad range of support resources as required, while performing sophisticated tasks in a range of specialised contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify the role of the translator and interpreter	1.1 Analyse the cultural and political agenda of translation and interpreting. 1.2 Analyse the position and positionality of the translator and interpreter. 1.3 Analyse the impact of the new media, localisation and globalisation on translation and interpreting. 1.4 Identify new directions for translation and interpreting.
2. Identify the principle issues influencing practice	2.1 Analyse the concept of cross-lingual meaning transfer and its relevance to the study of translating and interpreting. 2.2 Research key developments, debates and influences in translating and interpreting theories. 2.3 Identify the impact and use of theories on current translating and interpreting practice. 2.4 Identify key issues in contemporary study and practice of translating and interpreting.
3. Critique translations and interpreting	3.1 Analyse translating and interpreting work assignments and identify the relevance and application of particular local and global theories. 3.2 Classify and explain optional methods and approaches to assignments. 3.3 Analyse, critique and constructively report on approaches, translations and interpreting.

© Commonwealth of Australia, 2022 SkillsIQ

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTIS614A Apply theories to describe and review work assignments.

Assessment Requirements for PSPTIS066 Apply theories to translating and interpreting work practices

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following for each of interpreting and translating on at least one occasion.

- analysing and reporting on examples of the translating and interpreting work of self and others
- researching principles, theories and studies applicable to analysing and justifying translation and interpreting

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- accent and intonation in interpreting
- communicative and functional approaches
- decision making in interpreting and translation
- effect
- effort models of interpreting
- hesitation and correction in interpreting
- equivalence and equivalent effect
- limitations of sight translation
- literal approaches
- pragmatics
- source-target correspondence

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Assessment of this unit of competency must include use of scenarios, case studies, experiences and examples of interactions with colleagues and clients that demonstrate diverse skills and strategies for applying theories to translating and interpreting work. Assessment of this unit must be based not only on knowledge of diverse theories, but on evidence of the applicability of a theory to particular work assignments, and the impact of theory on examples of practice.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS067 Demonstrate complex written LOTE proficiency in different subjects and cultural contexts

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to read and write in a language other than English (LOTE) fluently and accurately, to meet the written language and communication needs of translating special purpose texts. The language competence involves reading, analysing and summarising skills, which can be applied to a range of commercial, professional and literary documents.

This unit applies to those working as translators in a range of fields and contexts.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 4 to 4+.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing complex tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Read and analyse complex documents	1.1 Scan documents and confirm they are complete and legible. 1.2 Read documents and identify explicit and implicit information, ideas, technical information and writer intent. 1.3 Interpret any accompanying visual and graphics material. 1.4 Identify the culturally specific meaning contained in documents.
2. Provide summaries of complex written documents	2.1 Capture and convey information and nuances of meaning in summaries of complex written documents, taking into consideration cultural differences and idiolects. 2.2 Provide any additional explanation or comments to clarify meaning and culturally specific details.
3. Write professional and commercial documents	3.1 Produce written documents in a LOTE, according to recognised conventions, standards and formats. 3.2 Use standard communication and information management technology. 3.3 Ensure content of documents is appropriate to audience and purpose. 3.4 Develop ideas in appropriate depth to meet the requirements of the particular subject and cultural context. 3.5 Tailor language to meet requirements of the situation, observing written LOTE social and cultural conventions. 3.6 Draft and edit documents to minimise errors so that intended meaning is clearly conveyed.

Assessment Requirements for PSPTIS067 Demonstrate complex written LOTE proficiency in different subjects and cultural contexts

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- reading and writing documents required for purposes on various subjects and cultural contexts that include some complex ideas and concepts
- preparing written documents with clear and fluent expression of information and ideas that are appropriately structured and aligned to the audience and cultural context

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- standard formats and protocols for typical documents appropriate to the document purpose and particular language
- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - social, professional, literary and cultural conventions
  - technical vocabulary for specific subject areas and contexts
  - ways to convey nuances of meaning
  - register appropriate to purpose and audience

Assessment Conditions

Assessment of this unit of competency must require the candidate to read and write complex documents in a language other than English (LOTE).

© Commonwealth of Australia, 2022 SkillsIQ

Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS069 Maintain and enhance professional practice

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS504A Maintain and enhance professional practice. • Element 1 PC re-ordered • Element 3 PC revised • Element 4 revised • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to manage personal professional performance and to take responsibility for own professional development. It requires knowledge of the translation and interpreting industry and relevant professional development opportunities.

The unit applies to established translators and interpreters seeking to enhance their career and professional development.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing complex tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Model high standards of performance	1.1 Promote practitioner's role with clients, colleagues and the public. 1.2 Determine individual responsibilities and accountabilities to reflect the requirements of contracts and work plans. 1.3 Model professional techniques and strategies for effective performance.
2. Determine personal development needs	2.1 Assess personal skills and knowledge against industry competencies and other relevant benchmarks to determine development needs and priorities. 2.2 Use feedback from colleagues and clients to identify personal learning needs and areas for professional development. 2.3 Research future career options and career development pathways. 2.4 Seek advice on undertaking career development options.
3. Participate in professional development activities	3.1 Identify and pursue formal and informal development activities to support continuous learning. 3.2 Maintain currency of professional practice through participation in professional association and networking events and activities. 3.3 Maintain industry relationships through relevant networks, organisations and individuals.
4. Evaluate and improve professional practice	4.1 Research developments and trends impacting on professional practice and integrate these into work performance. 4.2 Identify and implement improvement strategies using feedback from colleagues and clients, and results of research. 4.3 Monitor own performance and apply innovative and responsive approaches for improving professional practice.

© Commonwealth of Australia, 2022 SkillsIQ

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	**4**	5	1	2	**3**	4	5	1	2	**3**	4	5	1	2	3	**4**	5	1	2	3	4	5
Learning					Reading					Writing					Oral communication					Numeracy NA					

Performance variables:

1	2	3	**4**	5	1	2	3	**4**	5	1	2	3	**4**	5	1	2	3	**4**	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTIS504A Maintain and enhance professional practice.

Assessment Requirements for PSPTIS069 Maintain and enhance professional practice

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using networks to gain information and other support appropriate to workplace or work role
- identifying and prioritising individual professional development needs
- showing how feedback is used to identify areas for development
- using reflection strategies to identify new ways of improving performance
- identifying gaps in own skills or knowledge
- researching, analysing and identifying career options

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- qualifications, specialisations and credentials in language, translation and interpreting
- personal and professional goals and objectives
- range of continuous improvement techniques and processes and their application
- types and availability of professional development activities and opportunities
- nature of professionalism in translation and interpreting
- roles of bilingual workers, translators and interpreters
- legal and policy context of translation and interpreting, including relevant federal and state government policies
- current research in translation and interpreting

© Commonwealth of Australia, 2022 SkillsIQ

- techniques for obtaining feedback

Assessment Conditions

Assessment of this unit of competency must include use of scenarios, case studies, experiences or examples of interactions with colleagues and clients that demonstrate examples of activities undertaken to maintain standards of professional practice.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS070 Prepare translated transcripts

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS609A Prepare translated transcripts. • PC 2.2, 2.3 revised • PC 3.5 removed • PC 3.2 revised • PC 4.1 split into two • Element 6 removed • PC 6.1 moved to Element 5 • PC 6.2 removed • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to translate transcripts of audiovisual recordings from a source language into target language, ensuring they are accurate and appropriate for context and end use. It requires understanding of the purpose and potential use of the information and a high level of comprehension of spoken language and the context in which it is spoken. It requires the ability to translate into the same register and to work between speaking and writing. The translator may be required to collaborate with others involved in the process.

This unit applies to those working as translators who prepare transcripts and translations of transcripts for various purposes, particularly surveillance and investigations leading to legal proceedings. Those undertaking this work may be required to testify in court regarding the accuracy and fidelity of the translated transcript.

© Commonwealth of Australia, 2022 SkillsIQ

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and the overarching industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using a broad range of support resources as required, while performing sophisticated tasks in a range of specialised contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare for audiovisual transcription	1.1 Confirm client requirements including protocols and procedures and their implications for personal capacity to undertake the assignment. 1.2 Check resources and equipment and address problems through agreed processes. 1.3 Review source material to confirm context and identify and address issues arising.
2. Prepare transcripts of source material	2.1 Attend actively to source material to become familiar with speakers and context. 2.2 Record notes in target language and begin building a glossary to support the translation task. 2.3 Apply strategies to address problems of understanding, including identifying potentially hidden or implied meaning of utterances. 2.4 Prepare summaries of source material in the required language. 2.5 Collaborate with team members to discuss and clarify issues and identify sections of source material to be translated 2.6 Attend to source material and prepare source language transcripts, applying conventions, including time codes.
3. Draft translation of	3.1 Analyse and identify translation difficulties in source material, seeking assistance if required.

© Commonwealth of Australia, 2022 SkillsIQ

transcripts of source material	3.2 Refer to and update assignment-specific glossaries and make critical use of other reference material to identify meaning in context. 3.3 Identify areas requiring further research and seek required information or specialist advice. 3.4 Prepare draft translation of transcripts in the register of the source material, as appropriate for context and end use.
4. Check draft translations of transcripts	4.1 Check translation for consistency, accuracy and fitness for purpose 4.2 Identify and correct errors, fidelity issues and unsupported translation decisions. 4.3 Collaborate with appropriate advisers to obtain independent quality control and assess and incorporate changes to identified translation errors.
5. Finalise translation	5.1 Use technology to format translation according to agreed specifications and end use requirements. 5.2 Proofread translation and finalise according to assignment requirements. 5.3 Complete any necessary supporting documentation according to client requirements. 5.4 Return source material according to agreed procedures and timeframe. 5.5 Secure assignment related documentation. 5.6 Consider and implement adjustments to improve process and outcomes of future translations of transcripts.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTIS609A Prepare translated transcripts.

Assessment Requirements for PSPTIS070 Prepare translated transcripts

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- producing transcripts in the language of the source material that are faithful to the delivery of the original, including errors of grammar and syntax and prosodic features of speech
- noting duration of pauses and assigning time codes
- analysing spoken and coded language for meaning and identifying intonation and stress
- translating transcripts with reference to time codes
- applying client requirements relating to translated transcripts of audiovisual recordings, including style guides
- using office and other technology to prepare and format source language transcripts and target language translations

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- translating conventions and style rules related to translation of transcripts
- time code conventions
- transcription techniques and principles
- purpose and potential use of diverse transcript translations
- rules of evidence
- range of resources, tools and equipment appropriate to transcription and translation task
- specialist terminology related to the assignment context

© Commonwealth of Australia, 2022 SkillsIQ

- secure file management and record keeping

Assessment Conditions

Assessment of this unit must include use of an environment with access to suitable equipment and technology reflecting current practice. While the content and scenarios may be simulated, evidence must reflect the conditions of real assignments in preparing and translating transcripts diverse purposes.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS071 Translate multimedia source material

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS604A Translate multimedia source material. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to translate audio and audiovisual source language tapes and scripts into another language so that they may be narrated or re voiced in a target language, or be used as subtitles or captioning to a video source text. The unit requires a high level of comprehension of the audio visual source language, the ability to work between two different languages in spoken and written form, and the ability to reflect the register of the source in the target language. The translation assignment may also be for entertainment and dramatic material, where adaptation to audience may take precedence over fidelity to source.

This unit applies to those working on a range of translating assignments where target language translations will be used for media, promotion, and public information purposes requiring functional equivalence.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using a broad range of support resources as required, while performing highly complex tasks in a range of specialised contexts.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare to translate	1.1 Confirm assignment requirements and prepare suitable tools and equipment. 1.2 Attend to source content and identify topic and key elements. 1.3 Identify technical problems and mark up source script where relevant. 1.4 Analyse and address technical or transfer issues through negotiation with clients and technical advisers. 1.5 Develop and extend glossary and make critical use of other reference material to identify meaning in context. 1.6 Choose approach to translation suitable to target audience and purpose of the target text.
2. Draft translation	2.1 Research and apply established translation precedents, making critical use of reference material and additional resources and information as required. 2.2 Research facts and cultural and situational references and analyse and adapt cultural and linguistic content. 2.3 Produce draft translations of source texts that are accurate, coherent, and appropriate for context, target audience and end use. 2.4 Record translation decisions and justification in glossary.
3. Adapt draft translation to requirements	3.1 Review translation with reference to time code and vision, and match to timing. 3.2 Adapt to image and audio delivery, applying conventions to maintain narrative flow. 3.3 Ensure that translation is fit for purpose.
4. Check draft translation	4.1 Check accuracy and coherence of draft translation and identify and correct errors manually and with computer-based tools. 4.2 Confirm consistency of register, style and terminology of target

© Commonwealth of Australia, 2022 SkillsIQ

	translation and evaluate functional equivalence and fidelity as appropriate to target audience. 4.3 Collaborate with appropriate advisers to obtain independent quality control and incorporate recommended changes.
5. Finalise translation	5.1 Use technology to format translation according to agreed specifications and end use requirements. 5.2 Proofread translation and produce final version. 5.3 Discuss issues and solutions with relevant persons and explore process improvement strategies.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTIS604A Translate multimedia source material.

Assessment Requirements for PSPTIS071 Translate multimedia source material

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- confirming client and assignment requirements and issues associated with media sources and technology
- identifying purposes, end product, quality mechanisms, and expectations
- using high-level target language skills, including:
  - code switching between spoken and written language
  - translating into spoken register
  - adjusting syntax to match words to screen image
  - attending to natural semantic order
  - presenting information linearly
  - placing subject and verb in close proximity
  - re-casting relative clauses as separate sentences
  - using short sentences

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- censorship rules
- specialist equipment, resources and glossaries
- purpose and implications of translation for multimedia
- mark-up protocols

© Commonwealth of Australia, 2022 SkillsIQ

- narration and re-voicing techniques, limitations and protocols
- subtitling conventions
- techniques for adapting cultural and linguistic content
- techniques for matching translation to images or sound
- tools and equipment required to translate for audio tapes, broadcasting and subtitling

Assessment Conditions

Assessment of this unit must be conducted in an environment with access to suitable equipment and technology. While the content and scenarios may be simulated, evidence should reflect the conditions of real assignments in translating diverse multimedia source material for both scripts and sub-titles or captions.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS072 Use translation technology

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS612A Use translation technology. • PC 3.2 added • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to use commercial technologies designed to streamline and speed translation tasks. It requires sound understanding of the applications and limitations of the technology. It also requires the ability to reflect on the purpose and potential use of the source information in the translation and its implications for the technology.

This unit applies to those working as translators using computer programs and software specific to translation and document production.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using a broad range of support resources as required, while performing complex tasks in a range of specialised contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare to use translation technology	1.1 Check translation technology and confirm familiarity and useability and address issues and limitations. 1.2 Negotiate use of translation technology based on client's requirements and resources and the implications for the source text and assignment conditions. 1.3 Confirm currency and version of equipment and upgrade if required. 1.4 Consider and select client agreed applications of terminology and address special requirements. 1.5 Confirm shared access to glossary and supporting documentation with client.
2. Translate source text to draft target text using translation technology	2.1 Use translation technology appropriate to the translation task. 2.2 Manage the technology's translation assets, including memory, glossary and search functions to optimise productivity and efficiency. 2.3 Apply the benefits of consistent and rapid applications to achieve client purpose. 2.4 Produce a draft translation of source text that is factually accurate and appropriate for assignment requirements. 2.5 Use translation technology to respond to mismatches and gaps in vocabulary and expressions and monitor adjustments to glossary and translation memory.
3. Check draft translation manually	3.1 Evaluate translation of terminology and concepts critically. 3.2 Address translation difficulties and transfer errors associated with the use of translation technology. 3.3 Resolve outstanding difficulties with appropriate persons and undertake further applications if required.
4. Evaluate use of translation technology	4.1 Complete special requirements and supporting documentation according to available applications of technology. 4.2 Submit target text to relevant persons and retain copies of documentation and glossary for future reference. 4.3 Discuss issues concerning the use of technology and solutions

© Commonwealth of Australia, 2022 SkillsIQ

	and explore improvement strategies.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTIS612A Use translation technology.

Assessment Requirements for PSPTIS072 Use translation technology

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- analysing the benefits, suitability and limitations of translation technology for specific text and task
- adapting work practices to the timeframes and productivity benefits of translation technology
- optimising the efficiencies of program glossaries
- proofreading texts and checking formatting of translated text for accurate applications of translation technology

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- suitability and limitations of commercial software and applications for translating and editing
- electronic file and information management protocols and procedures
- awareness of skill needs and skill development opportunities
- WHS practices and procedures relevant to using translation technology
- computer research and search programs, editing tools, applications and methods
- tools and equipment relevant to assignments, including developing technologies, including, computer assisted translation software, and for Auslan/English translations, knowledge of appropriate translation technology

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Assessment of this unit must reflect use of current commercial technology used in translating and document production that is readily accessible to the candidate. Assessment must include assessment of the ability to use commercial translation technologies designed to streamline and speed translation tasks.

Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volume.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS080 Interpret in complex dialogue settings (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS605A Interpret in complex dialogue settings (LOTE). • PC 2.1 added • PC 2.2 revised • Unit code updated • Unit title changed • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to interpret from a source language to a target language in complex dialogue settings, preserving the communicative intent of the source language. The unit requires the ability to use a range of techniques to assist in the message transfer process and to address problems in delivery.

An interpreter in the dialogue setting is required to interpret between two languages in both directions. The physical elements of the setting, or the number of parties involved, limit the interpreter from managing the discourse. The interpreter may be required to switch modes in a challenging environment, where there is a range of participant interests and personal welfare and safety issues that need to be considered.

Interpreting in this setting typically requires high levels of accuracy and accountability and assignments involving formality, or participants with high status and accountability. The content may involve specialised subjects requiring a high level of subject knowledge, or intense assignment-specific preparation. The content of communication may not easily be predicted or planned for, and there are limited opportunities for error correction. The consequences of errors in communicative intent can have significant implications.

© Commonwealth of Australia, 2022 SkillsIQ

This unit applies to those working as interpreters working in consecutive and Auslan simultaneous modes, either alone, collaboratively in tandem, relay, or as part of a team.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using a broad range of support resources as required, while performing sophisticated tasks in a range of specialised contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Receive and analyse source message	1.1 Establish dialogue protocols with participants to facilitate communication dynamics and outcomes, and provide clarification where required. 1.2 Attend actively to source utterance, applying strategies to support retention and recall and adjusting physical position to optimise sound reception and visual cues. 1.3 Determine linguistic and non-linguistic elements of utterances and structure and complexities of discourse and analyse factors affecting meaning. 1.4 Identify and address issues of understanding or recall in a manner that does not compromise effective delivery.
2. Transfer message to target language	2.1 Use a range of advanced strategies to retain and recall messages, recalling information from notes or other mnemonic devices as appropriate to source language. 2.2 Use a range of strategies and techniques to effectively transfer communicative intent of utterance into target language and

© Commonwealth of Australia, 2022 SkillsIQ

	maintain impartiality. 2.3 Identify and address issues in message transfer promptly and according to established techniques. 2.4 Maintain flow of communication and manage discourse in a professional and culturally appropriate manner. 2.5 Identify circumstances requiring a switch in interpreting mode and manage mode switch. 2.6 Monitor interpreting process to identify when it is necessary to seek assistance or withdraw from assignment.
3. Evaluate interpreting performance	3.1 Evaluate performance in line with issues encountered, assignment requirements and code of ethics. 3.2 Determine personal impact of assignment and identify need for debriefing and counselling. 3.3 Implement strategies to improve future work practices.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Learning					Reading NA					Writing					Oral communication					Numeracy NA					

Performance variables:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTIS605A Interpret in complex dialogue settings (LOTE).

Assessment Requirements for PSPTIS080 Interpret in complex dialogue settings (LOTE-English)

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying educated native speaker language proficiency in the first and near native speaker language proficiency in the second language
- applying LOTE and English language skills required to achieve message transfer and performance in complex settings, including:
  - conceptualising and coherently expressing complex and specialised information in the target language using special and context-specific terminology as necessary
  - recognising and using a broad range of specialised and context-specific registers
  - reproducing complex language structure and implied meaning
  - using correct idioms and collocations
  - using colloquial language as appropriate to context and register of source utterance
- including non-verbal cues in message transfer
- reflecting voluntary and involuntary pragmatic and prosodic features of utterances
- reproducing factual and linguistic content with a high degree of accuracy
- solving complex problems of equivalence in message transfer
- transferring cultural concepts and cues embedded in utterances
- managing sociolinguistic issues in message transfer
- using interpersonal and communication skills to interpret in a professional manner appropriate to participants and under challenging conditions
- using advanced memory retention strategies, including producing decipherable records of key information for self, or others when team or tandem interpreting, when working in spoken languages

© Commonwealth of Australia, 2022 SkillsIQ

- managing the discourse assertively to identify and address complicated group dynamics and barriers to effective communication outcomes
- recognising and resolving transfer problems and transfer errors
- applying broad general subject and context knowledge, including:
  - community, business and diplomatic domains
  - systems and institutions in Australia, different language communities, countries and relevant terminology

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- cultural knowledge, including cross-cultural perspective of communication and behaviour
- modes of interpreting and techniques for managing mode switches
- source language regional differences, dialects and idioms
- theories that have influenced current interpreting practice, including:
  - effort model
  - form based and meaning based transfer

Assessment Conditions

Assessment of this unit must include use of simulations of complex dialogue settings, and consideration must be given to assessment in real interpreting settings. Evidence for assessment should be gathered to demonstrate experiences interpreting in complex dialogue settings in diverse sectors in the community, business and diplomatic domains.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS081 Interpret in complex monologue settings (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS606A Interpret in complex monologue settings (LOTE). • PC 1.4 and 1.7 removed • PC 2.3 and 2.4 added • All others re-ordered and revised • Unit code updated • Unit title changed • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to interpret from a source language to a target language in complex monologue settings, preserving the communicative intent of the source language. The unit requires the ability to use a range of techniques to assist the message transfer process and to address problems in delivery.

An interpreter in the monologue setting is required to interpret from source to target language in one direction. The physical elements of the complex setting will likely prevent the interpreter from managing the discourse.

Interpreting in this setting typically requires high levels of accuracy and accountability and assignments involving formality, or participants with high status and accountability. The content may involve specialised subjects requiring a high level of subject knowledge, or intense assignment-specific preparation. The content of communication may not easily be predicted or planned for, and there are unlikely to be opportunities for error correction. The consequences of errors in communicative intent can have significant implications. The audience in a complex monologue setting typically requires the interpreter to use public speaking or presentation skills.

© Commonwealth of Australia, 2022 SkillsIQ

This unit applies to those working as interpreters working in consecutive and Auslan simultaneous modes, either alone, collaboratively in tandem, relay or as part of a team.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently, using a broad range of support resources, while performing sophisticated tasks in a range of specialised contexts

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Receive and analyse source message	1.1 Confirm that setting, context, parties and expectations are consistent with client requirements, assignment agreement and interpreting protocols. 1.2 Attend actively to source utterance, applying strategies to support retention and recall and adjusting physical position to optimise sound reception and visual cues. 1.3 Identify key information and relationships between complex linguistic and non-linguistic elements and analyse factors affecting meaning. 1.4 Identify complexities, key concepts and explicit and embedded cultural concepts. 1.5 Apply detailed knowledge of specialised subject and context to anticipate purpose and intent of source and strategies used to develop ideas.
2. Transfer message to	2.1 Use a range of advanced strategies to retain and recall messages, recalling information from notes or other mnemonic devices as

© Commonwealth of Australia, 2022 SkillsIQ

target language	appropriate to source language. 2.2 Identify transfer issues and implement strategies to address problems of understanding or recall. 2.3 Use a range of strategies and techniques to transfer communicative intent of utterance into the target language and ensure impartial delivery. 2.4 Use advanced interpreting and language skills to ensure cohesive and faithful delivery of messages. 2.5 Use a range of advanced rhetorical and public speaking techniques to convey the presentation style of the source. 2.6 Monitor interpreting process to identify when it is necessary to seek assistance or withdraw from assignment.
3. Evaluate interpreting performance	3.1 Evaluate performance in line with issues encountered, assignment requirements and code of ethics. 3.2 Determine personal impact of assignment and identify need for debriefing. 3.3 Consider process improvement strategies.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	**4**	5	1	2	3	4	5	1	2	**3**	4	5	1	2	3	4	**5**	1	2	3	4	5
Learning					Reading **NA**					Writing					Oral communication					Numeracy **NA**				

Performance variables:

1	2	3	4	**5**	1	2	3	**4**	5	1	2	3	4	**5**	1	2	3	4	**5**
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Assessment Requirements for PSPTIS081 Interpret in complex monologue settings (LOTE-English)

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying educated native speaker language proficiency in the first or near native speaker language proficiency in the second language
- applying LOTE and English language skills required to achieve message transfer and performance in complex settings, including:
  - conceptualising and coherently expressing complex and specialised information in the target language using special and context-specific terminology as necessary
  - recognising and using a broad range of specialised and context-specific registers
  - reproducing complex language structure and implied meaning
  - using correct idioms and collocations
  - using colloquial language as appropriate to context and register of source utterance
- including non-verbal cues in message transfer
- reflecting voluntary and involuntary pragmatic and prosodic features of utterances
- reproducing factual and linguistic content with a high degree of accuracy
- solving complex problems of equivalence in message transfer
- transferring cultural concepts and cues embedded in utterances
- using interpersonal and communication and public speaking skills to interpret in a professional manner appropriate to speaker and audience
- using advanced memory retention strategies, including producing decipherable records of key information for self, or others when team or tandem interpreting, when working between spoken languages
- recognising and resolving transfer problems and transfer errors

PSPTIS082 Interpret through communication media

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS608A Interpret using communication media. • PC 3.1 removed • PC 3.2 added • PC 3.2 and 3.3 revised • PC 4.2 and 4.3 added • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to use technology to support interpreting in visual or physical isolation. The unit requires familiarity with the technology available for interpreting situations and the potential impact of the technology on the interpreting assignment and its outcomes. It outlines the management skills required to adjust delivery to take account of the constraints and advantages of the technology.

This unit applies to those working as interpreters in all consecutive and simultaneous modes in dialogue settings conducted through communication media and may have applications for interpreting for people in remote, interstate and international locations via telephone, video conferencing, call centres or conference calls, internet modes of delivery and TTY. The physical barrier of technology confirms this as a complex setting.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

© Commonwealth of Australia, 2022 SkillsIQ

Those undertaking this unit would work independently using a broad range of support resources as required, while performing sophisticated tasks in a range of specialised contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare environment and participants	1.1 Prepare resources appropriate to communication medium and make necessary adjustments to work environment. 1.2 Consult technical support staff to establish equipment conditions and gain access to become familiar with specific technology. 1.3 Manage technology and confirm the process and purpose of the assignment. 1.4 Seek information about the people and context and identify and address issues that may affect the process or outcome.
2. Adapt delivery to equipment	2.1 Conduct initial introductions and confirm process of interpreting by telephone or video link and relevant roles and conditions. 2.2 Adjust volume and position of equipment for audibility or visibility and adjust delivery accordingly. 2.3 Identify and use terms of address appropriate to the medium. 2.4 Identify physical challenges posed by the communication medium and make recommendations to address them. 2.5 Act assertively to address technological problems.
3. Manage discourse	3.1 Use overt strategies to manage communication flow in a culturally appropriate manner. 3.2 For spoken languages, take notes to support retention and recall and seek clarification or repetition when necessary. 3.3 Use a range of strategies to adjust and adapt to rapidly changing emotions, circumstances and technical challenges. 3.4 Use overt strategies to manage communication breakdown. 3.5 Monitor workplace health and safety issues arising from using communication equipment and take preventive action.

© Commonwealth of Australia, 2022 SkillsIQ

4. Evaluate delivery	4.1 Evaluate suitability of technology chosen and own adaptation of delivery to the technology. 4.2 Determine personal impact of assignment and identify need for debriefing and counselling. 4.3 Discuss issues and solutions and explore process improvement strategies.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Learning					Reading NA					Writing					Oral communication					Numeracy NA					

Performance variables:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Assessment Requirements for PSPTIS082 Interpret through communication media

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- collaborating with clients and technical experts to ensure effective use of the technology
- discussing and resolving WHS issues, including length of assignment, breaks and physical and vicarious trauma
- using diverse strategies and resources to facilitate communication flow and support retention

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- suitability and limitations of communications media and applications for interpreting
- WHS practices and procedures in relation to using communication equipment
- tools and equipment relevant to assignments using communications media

Assessment Conditions

Assessment of this unit of competency must include use of practical skills demonstration in a simulated interpreting situation and should demonstrate diverse experiences in interpreting using communication media. Assessment will make use of scenarios, case studies, experiences and examples of interactions with colleagues and clients that demonstrate diverse skills and strategies for using communication media to support interpreting.

© Commonwealth of Australia, 2022 SkillsIQ

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS083 Manage discourses in complex settings

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS610A Manage discourses in complex settings. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to manage the physical setting and communication dynamics of discourses in complex settings. It requires knowledge of the nature and structure of complex interpersonal, institutional and meeting dynamics and the ability to apply effective solutions to challenges that arise during the discourse. The unit includes planning and confirming the discourse process, managing the communication flow, and reviewing and evaluating the discourse management process.

This unit applies to those working as interpreters in a range of complex settings for a variety of purposes. Complex settings are those involving specialised subjects requiring a high level of subject knowledge, or intense assignment specific preparation. The physical elements of the setting, or the number of parties involved, limit the interpreter from managing the discourse. The interpreter may be required to switch modes in a challenging environment, where there is a range of participant interests and personal welfare and safety issues that need to be considered. Interpreting in this setting typically requires assignments involving formality, or participants with high status and accountability. There are limited opportunities for error correction and the consequences of errors in communicative intent can have significant implications.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

© Commonwealth of Australia, 2022 SkillsIQ

Those undertaking this unit would work autonomously, using a broad range of support resources as required, while performing sophisticated tasks in a range of specialised contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Plan and agree process	1.1 Establish assignment context and requirements with clients to plan to achieve desired outcomes. 1.2 Identify factors that may compromise interpreter effectiveness, and make adjustments where possible. 1.3 Confirm relationships between and with participants and participant expectations of discourse. 1.4 Negotiate mutual agreement on roles, purpose and process of discourse appropriate to situation and participants.
2. Manage flow of communication	2.1 Analyse discourse setting and attributes and communication preferences of participants. 2.2 Select appropriate communication styles effective in complex settings, including appropriate interpreting mode. 2.3 Adapt strategies to the requirements of equipment and technology where appropriate. 2.4 Identify and address problems in message transfer and factors affecting communication flow promptly and according to established techniques. 2.5 Identify and address communication challenges arising from cross-cultural settings and participant relationships and attributes. 2.6 Seek assistance where required to manage discourse breakdown and restore communication.
3. Evaluate discourse management	3.1 Seek and analyse feedback on discourse management from appropriate persons and evaluate effectiveness of performance to reflect code of conduct.

© Commonwealth of Australia, 2022 SkillsIQ

	3.2 Determine personal impact of assignment and identify need for debriefing and counselling. 3.3 Take advice on issues and solutions and consider and implement strategies to improve process and outcomes of future assignments.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	**4**	5	1	2	**3**	4	5	1	2	3	4	5	1	2	3	4	**5**	1	2	3	4	5

Assessment Requirements for PSPTIS083 Manage discourses in complex settings

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- supporting parties to understand and reach agreement on the interpreting process
- managing challenging situations, participants and personal responses while remaining assertive and culturally sensitive
- applying standards of professional and ethical conduct

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- factors that may impact interpreting in complex settings, including barriers to communication
- communication techniques that facilitate communication flow and discourse management in complex settings
- culture-specific knowledge to manage communication flow with diverse discourse participants, including those with a disability and special communication needs
- limitations of work role, responsibility and professional abilities
- modes of interpreting and their appropriateness and implications for complex settings
- nature and structure of complex interpersonal, institutional and meeting dynamics
- WHS and risk management practices and procedures relevant to nature of assignments

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Assessment of this unit must demonstrate diverse experiences in managing discourses in complex settings. Assessment may include scenarios, case studies and examples of negotiations with client and participant expectations. Assessment must include evidence of decision making, and examples of interactions with colleagues and clients that demonstrate diverse skills and strategies for managing discourses in complex settings.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS084 Sight translate (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS613A Sight translate (LOTE). • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice • PC1.5 removed

Application

This unit describes the skills required to produce a sight translation of a written source text in a different spoken or signed target language with a high degree of accuracy. Sight translation involves verbal or signed reproduction in a target language of a written source text in its entirety. It requires a high level of comprehension of written language and its structure, the ability to work between two languages in spoken or signed and written form, and the ability to reflect the register of the written source text in the target language.

This unit applies to interpreters who are required to sight translate texts as an adjunct to interpreting in any mode and complex setting, or to support consecutive or simultaneous interpreting.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using a broad range of support resources as required, while performing routine tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse text	1.1 Confirm purpose for which sight translation is required and advise on appropriateness of sight translation. 1.2 Determine key features of text in context and confirm ability to read and comprehend the text. 1.3 Identify and discuss potential translation problems and confirm ability to sight translate and required timeframe. 1.4 Identify information in context and establish overall comprehension, referring to available resources and seeking further assistance where required.
2. Translate source text into target language	2.1 Plan sight translation, marking up text where appropriate and identifying and solving translation problems. 2.2 Transfer semantic segments of source text to target language with attention to accuracy and coherence. 2.3 Scan text ahead while translating, avoiding rephrasing and ensuring delivery is consistent and appropriate for setting and mode of interpreting.
3. Evaluate sight translation	3.1 Analyse performance to reflect task purpose and requirements. 3.2 Identify strengths and weaknesses of process to inform subsequent work.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the English language performance levels indicated for successful attainment of the unit.

Assessment Requirements for PSPTIS084 Sight translate (LOTE-English)

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions in each language direction, except for Auslan, which only need be from English to Auslan.

- comprehending written language and its structure
- using strategies to clarify unknown terms and unclear expression and solve problems of equivalence
- reflecting the written register and context-specific terminology of the source text in delivery
- reproducing a factually and linguistically accurate spoken or signed translation of the content of the source text
- completing the sight translation task within agreed timeframe
- analysing accompanying visual and graphic material
- using strategies including skimming, reading aloud, highlighting key information and relationships in source text, identifying information at paragraph level and analysing punctuation, elements of grammar and sentence structure of source text

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- circumstances in which and texts for which sight translation is appropriate
- alternatives to sight translation and circumstances in which alternatives are appropriate
- clinical practice and informed consent
- creating legally binding documents

© Commonwealth of Australia, 2022 SkillsIQ

- limitations of work role, responsibility and professional abilities
- research methods to access and use reference material within the limitations imposed by settings in which sight translation may be required
- structure and nature of different types of text for different purposes
- techniques to identify information in context

Assessment Conditions

Assessment must include diverse experiences in sight translating a variety of texts in a LOTE other than Auslan, and English.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS085 Use complex subject area terminology in interpreting (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to understand and use terminology from specific subject areas in English and a LOTE sufficient to interpret between the two languages in complex dialogue or monologue settings in those subject areas.

This unit applies to those working as interpreters in a range of contexts.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered.

Those undertaking this unit would work independently using support resources as required, while performing complex tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of

© Commonwealth of Australia, 2022 SkillsIQ

outcomes	conditions section.
1. Identify the context of the terminology	1.1 Identify key features of the subject area, including key people and institutions. 1.2 Describe standard procedures specific to communication in the subject area context. 1.3 Outline the role and responsibility of interpreters and others in the subject area contexts. 1.4 Identify social, cultural and professional conventions of English and LOTE appropriate to the subject area contexts.
2. Extend understanding of the subject area	2.1 Research and increase knowledge of the subject area terminology in English and LOTE. 2.2 Spell and pronounce complex terminology from the subject area correctly.
3. Use appropriate oral or signed communication in interpreting	3.1 Receive and understand oral or signed communication using complex English and LOTE subject area terminology. 3.2 Seek clarification of correct use and meaning of terms and associated processes. 3.3 Use a range of complex English and LOTE subject area vocabulary and expressions correctly in interpreting. 3.4 Apply prosodic features, gestures and body language appropriate to the subject area context.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	**3**	4	5	1	2	**3**	4	5	1	2	**3**	4	5	1	2	**3**	4	5	1	2	3	4	5
Learning					Reading					Writing					Oral communication					Numeracy NA					

Performance variables:

1	2	3	**4**	5	1	2	3	**4**	5	1	2	**3**	4	5	1	2	3	**4**	5
Support					Context					Text complexity					Task complexity				

© Commonwealth of Australia, 2022 SkillsIQ

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Range of Conditions

Complex subject areas must include:	• commerce and trade • diplomatic relations • immigration and settlement (except for Auslan and indigenous languages) • industry and technology • science and environment

Unit Mapping Information

No equivalent unit.

Assessment Requirements for PSPTIS085 Use complex subject area terminology in interpreting (LOTE-English)

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using social, cultural and professional conventions applicable to the languages being used in subject area contexts, including:
  - customs, protocols and taboos
  - dialect, idiom, colloquialisms and language conventions
  - social conventions and consistent use of forms of address
- using terminology in all of the following subject areas:
  - commerce and trade
  - diplomatic relations
  - immigration and settlement (except for Auslan and indigenous languages)
  - industry and technology
  - science and environment

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- principles of the subject area
- information sources for increasing subject area knowledge and terminology
- WHS relevant to working in subject area contexts

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Assessment of this unit of competency must include use of scenarios, case studies and experiences. Practical assessment must take place in the context of real or simulated interpreting.

Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS086 Use chuchotage (whispered simultaneous) to interpret (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to interpret from a source language to a target language in basic simultaneous mode, preserving key information and the gist of the source message. It requires the ability to anticipate the intent of a source to assist the message transfer process.

An interpreter in simultaneous mode is required to interpret in one language direction, from source to target, at the same time as source utterances are delivered.

This unit applies to those working as interpreters in spoken simultaneous mode, either alone, collaboratively in tandem, or as part of a team.

Spoken basic simultaneous mode is applied in complex dialogue settings. Complex dialogue settings are those in which the physical elements of the setting, or the number of parties involved, limit the interpreter from managing the discourse. The interpreter may be required to switch modes in a challenging environment, where there is a range of participant interests and personal welfare and safety issues that need to be considered. The content of communication may not easily be predicted or planned for, and there are limited opportunities for error correction.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently, using a broad range of support resources, while performing sophisticated tasks in a range of specialised contexts.

© Commonwealth of Australia, 2022 SkillsIQ

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Receive and analyse source message	1.1 Attend actively to source utterance, adjusting physical position to optimise sound reception and visual cues. 1.2 Identify and record key information to support recall. 1.3 Identify key concepts, and explicit and embedded cultural concepts. 1.4 Identify linguistic and non-linguistic elements of utterances affecting meaning. 1.5 Apply knowledge of grammar, subject and context to anticipate purpose and intent of source and strategies used to develop ideas.
2. Transfer message to target language	2.1 Use a range of strategies and techniques to transfer communicative intent into the target language at the same time as the source utterance. 2.2 Use advanced interpreting and language skills to ensure cohesive and faithful delivery of key information and gist of source message. 2.3 Recognise and promptly resolve transfer problems and errors, correcting mistakes or misinterpretations without disruption of message or delivery. 2.4 Monitor elapsed time and interpreting performance to identify when it is necessary to rest or withdraw from assignment.
3. Evaluate interpreting performance	3.1 Evaluate performance in line with issues encountered, assignment requirements and code of ethics. 3.2 Determine impact of assignment on self and identify areas for improvement.

© Commonwealth of Australia, 2022 SkillsIQ

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Learning					Reading NA					Writing					Oral communication					Numeracy NA					

Performance variables:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

Assessment Requirements for PSPTIS086 Use chuchotage (whispered simultaneous) to interpret (LOTE-English)

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following in both language directions on at least two occasions.

- applying LOTE and English language skills required to achieve simultaneous message transfer:
  - conceptualising and coherently expressing key information in the target language using context-specific terminology as necessary
  - enunciating clearly
  - simplifying language structure to reproduce implied meaning for delivery at the same pace as the source
  - using correct collocations
  - using colloquial language as appropriate to context and register of source utterance
- reproducing factual and linguistic content
- solving problems of equivalence in message transfer
- transferring cultural concepts and cues embedded in utterances

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- cultural knowledge, including cross-cultural perspective of communication and behaviour
- techniques to identify source of utterances in multi-party discourse
- WHS and performance management issues, practices and procedures relevant to chuchotage
- interpreting theories that have influenced current interpreting practice, including:
  - effort model

© Commonwealth of Australia, 2022 SkillsIQ

- form based and meaning based transfer

Assessment Conditions

Assessment of this unit must include use of simulations in complex dialogue settings, and consideration must be given to assessment in real interpreting settings. Evidence for assessment should be gathered to demonstrate diverse experiences in interpreting in complex dialogue settings.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS087 Use note taking to recall and reproduce source messages (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS510A Analyse, recall and reproduce source messages. • Unit code updated • Unit title changed • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice • PC 1.1 revised • PC 1.4-1.5 re-ordered and revised • PC1.6 added • PC 2.5 re-ordered. PC 3.4 revised

Application

This unit describes the skills required to analyse the meaning of a source language message and to reproduce the message in the same language, applying note taking and other strategies to support retention and recall.

This unit applies to those working as interpreters in the consecutive mode who need to quickly and accurately analyse, remember and reproduce messages from a diverse range of sources, subjects and contexts.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently using support resources as required, while performing complex tasks in a range of sometimes unpredictable contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Analyse source messages	1.1 Attend to source utterances and make adjustments to assist concentration and comprehension. 1.2 Analyse discourse and speaker's strategies to predict discourse direction. 1.3 Determine key information and relationships between linguistic and non-linguistic elements in the utterances. 1.4 Identify structural elements of discourse. 1.5 Identify factors affecting the meaning of utterances.
2. Recall source messages	2.1 Use a range of encoding and other strategies to support, retain and ensure the accuracy of information. 2.2 Manage discourse to ensure the quality and reliability of recall. 2.3 Resolve problems of understanding and recall and seek clarification as required. 2.4 Review key information and relationships in source utterances. 2.5 Analyse notes for usefulness in recollection of messages.
3. Reproduce source messages	3.1 Retrieve message within appropriate timeframe. 3.2 Reproduce message, maintaining its logical sequence, register and communicative intent. 3.3 Use a range of techniques to track reproduced information. 3.4 Assess effectiveness of strategies used and consider improvements.

© Commonwealth of Australia, 2022 SkillsIQ

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit. Foundation skills levels relate to English language demands, not LOTE.

ACSF levels indicative of performance:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Learning					Reading NA					Writing NA					Oral communication					Numeracy NA				

Performance variables:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTIS510A Analyse, recall and reproduce source messages.

Assessment Requirements for PSPTIS087 Use note taking to recall and reproduce source messages (LOTE-English)

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following in both language directions on at least two occasions.

- analysing general and specialist source utterances and determining important aspects of language, content, context and intention
- applying linguistic, semantic and pragmatic strategies to address structural elements of discourse
- maintaining information recall and reproduction
- overcoming problems in language, meaning and presentation
- reproducing diverse messages accurately and coherently
- developing and applying own note taking techniques to support retention and recall

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- characteristics of communication
- linguistic features, including register appropriate to setting, and forms and variations of language
- universal interpreter note taking techniques and conventions
- techniques to assist recall
- linguistic and non-linguistic elements of utterances

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Consideration must be given to assessment in real interpreting assignments, but this competency may also be effectively assessed in simulated settings using diverse content and contexts.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS088 Demonstrate complex LOTE proficiency in different subjects and cultural contexts

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to conduct complex, creative, routine and non-routine spoken or signed communication in a LOTE, to meet the oral language and communication needs of interpreting in complex settings. It involves applying proficient oral communication skills to conduct negotiations, present information and participate in social and cultural activities.

This unit applies to those working as interpreters in a range of fields or contexts.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Rating (ISLPR) 4 and 4+.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required. They would perform complex tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Participate in social and cultural activities	1.1 Use LOTE language and language functions appropriate to varied social and cultural activities. 1.2 Adapt and modify communication strategies and language functions according to the situation and participant requirements.
2. Deliver presentations in LOTE	2.1 Present information using sequencing and linguistic linking. 2.2 Deliver presentations in a style relevant to the purpose and objectives, audience characteristics, occasion and venue. 2.3 Support presentations with public speaking techniques.
3. Negotiate and persuade	3.1 Use appropriate courtesy protocols to establish rapport, identify common ground and observe social, cultural and business conventions of the LOTE. 3.2 Use a range of LOTE language functions to provide explanations, information, advice and supporting details. 3.3 Use a range of language functions for negotiations. 3.4 Use intonation, voice tone and signalling expressions. 3.5 Use prosodic features, gestures and body language. 3.6 Exchange and agree to information about the subject of negotiation.
4. Provide summaries of complex oral or signed communication	4.1 Make appropriate comments to check and clarify meaning. 4.2 Provide summaries of the purpose and meaning of the original utterance. 4.3 Use communication strategies and LOTE language functions that support immediate and unhindered communication.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPTIS088 Demonstrate complex LOTE proficiency in different subjects and cultural contexts

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- using extended communication skills including verbal skills and non-verbal skills
- using repetition, clarification and paraphrasing techniques to clarify requirements, address problems and conflict, and reassure others

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- technical LOTE vocabulary required to support specific context of communication
- standard procedures specific to communication in a particular context
- applications of social, business and cultural conventions specific to the LOTE being assessed, including:
  - consistent use of forms of address
  - customs, protocols and taboos
  - dialect, idiom, colloquialisms and language conventions

Assessment Conditions

This unit can be used for assessment of any LOTE proficiency. Assessment must include use of scenarios and examples of oral presentations that illustrate diverse skills and strategies for demonstrating proficiency in a LOTE.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

© Commonwealth of Australia, 2022 SkillsIQ

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment Requirements for PSPTIS089 Demonstrate complex English proficiency in different subjects and cultural contexts

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- using extended communication skills including verbal skills and non-verbal skills
- using repetition, clarification and paraphrasing techniques to clarify requirements, address problems and conflict, and reassure others

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- technical English vocabulary required to support specific context of communication
- standard procedures specific to communication in a particular context
- applications of social, business and cultural conventions specific to English, including:
  - consistent use of forms of address
  - customs, protocols and taboos
  - dialect, idiom, colloquialisms and language conventions

Assessment Conditions

Assessment must include use of scenarios and examples of oral or signed presentations and interactions that illustrate diverse skills and strategies for demonstrating proficiency in English.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

© Commonwealth of Australia, 2022 SkillsIQ

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS090 Interpret as part of a team

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS607A Interpret as part of a team. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice • PC 4.1 split into two

Application

This unit describes the skills required to interpret in collaboration with one or more other interpreters as part of an interpreting team or in relay, observing each other's work and providing practical support to achieve effective communication that satisfies professional and industry standards.

This unit applies to those working as interpreters in both consecutive and simultaneous modes, in dialogue or monologue settings and includes team, tandem and relay interpreting. The presence of multiple interpreters confirms this as a complex setting.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently and as part of a team, using a broad range of support resources as required, while performing sophisticated tasks in a range of specialised contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Clarify assignment requirements	1.1 Identify and confirm assignment requirements with client, including conditions of engagement, physical work environment and performance expectations. 1.2 Confirm attributes of team, physical work environment and performance expectations with other team members. 1.3 Negotiate agreed approach to achieve best quality and safest outcomes.
2. Prepare as a team	2.1 Consult as a team to obtain background materials and establish interpreting process. 2.2 Analyse physical work environment and collaborate on required adjustments. 2.3 Seek briefing to assess linguistic requirements and address technical concerns. 2.4 Introduce team to discourse participants and explain role and process of interpreting.
3. Undertake team assignment	3.1 Implement agreed interpreting process and monitor time. 3.2 Rotate interpreting according to industry standards and in line with situation and established techniques. 3.3 Provide support to other team members. 3.4 Monitor other team members' delivery, and prompt and feed to facilitate and enhance colleague and team performance. 3.5 Accept prompts and feeds in a manner that does not compromise delivery.
4. Evaluate team performance	4.1 Discuss performance with team members in a confidential setting. 4.2 Evaluate and note problems encountered and effectiveness of assignment in line with client requirements. 4.3 Consider and implement adjustments to improve future

Assessment Requirements for PSPTIS090 Interpret as part of a team

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying professional and industry standards for team interpreting
- maintaining work health and safety standards
- negotiating agreement on terms and conditions of assignment with team colleagues
- collaborating with team members on research, language requirements and actual work setting
- switching with team colleague in a manner that does not interrupt communication
- using constructive feedback in evaluation of team members' performance

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- professional techniques and protocols for team rotation
- communication techniques that facilitate interpreting process in a team
- team feedback and evaluation techniques
- limitations of work role, responsibility and professional abilities within team relationship and dynamics
- WHS and risk management principles and practices to ensure team physical safety and comfort
- research methods to collaboratively undertake intense assignment-specific preparation

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Assessment of this unit of competency must include use of case studies, or diverse real or simulated team interpreting assignments and questioning in real and scenario settings.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS091 Use complex education terminology in interpreting (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to understand and use advanced education terminology in English and LOTE sufficient to interpret between the two languages in complex dialogue or monologue settings in educational contexts.

This unit applies to those working as interpreters in a range of educational, training and children's services contexts. The interpreter may be required to interact with students and their families, principals, teachers, administrators and pastoral care staff.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and the industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing complex tasks in a range of educational contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

PSPTIS092 Use complex health terminology in interpreting (LOTE-English)

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to understand and use health terminology in English and a LOTE sufficient to interpret between the two languages in complex dialogue or monologue settings in specialist health and allied health contexts.

This unit applies to those working as interpreters in a range of specialist health and allied health contexts where health services are provided with direct patient contact involved, or specialist medical topics are discussed. The interpreter may be required to interact with patients, their families and the health professionals working with them.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing complex tasks in a range of health contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify the context of legal terminology	1.1 Identify key features of the legal and judicial system, including key people and structures. 1.2 Describe standard procedures specific to oral communication in formal legal and policing contexts. 1.3 Outline the role and responsibilities of interpreters and others in legal and policing contexts. 1.4 Identify social, cultural and professional conventions of English and LOTE appropriate to legal and judicial contexts. 1.5 Explain the consequences of oral rendition of fixed texts and use of incorrect legal terminology.
2. Extend understanding of legal terminology	2.1 Recognise and explain complex legal terminology and key legal concepts and processes in English and LOTE. 2.2 Establish standard translations for fixed text encountered in policing and judicial contexts that correctly reflect underlying common law principles. 2.3 Research and increase knowledge of complex legal terminology in English and LOTE. 2.4 Spell and pronounce complex legal terminology correctly.
3. Use appropriate oral or signed communication in legal contexts	3.1 Receive and understand oral or signed questions and answers using complex English and LOTE legal terminology. 3.2 Seek clarification of use and meaning of terms and associated processes. 3.3 Use a range of complex English and LOTE legal vocabulary and expressions in interpreting. 3.4 Use prosodic features, gestures and body language appropriate to the legal and policing context.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

© Commonwealth of Australia, 2022 SkillsIQ

ACSF levels indicative of performance:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Learning NA					Reading					Writing					Oral communication					Numeracy NA					

Performance variables:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Assessment Requirements for PSPTIS093 Use complex legal terminology in interpreting (LOTE-English)

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- using social, cultural and professional conventions applicable to the languages being used in legal and policing contexts, including:
  - customs, protocols and taboos
  - dialect, idiom, colloquialisms and language conventions
  - social conventions and consistent use of forms of address

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- areas of law
- upper court, review tribunals and complex legal processes
- legal and financial consequences of incorrect interpreting
- hierarchy of courts and tribunals
- key documentation relevant to policing, legal and judicial processes
- legal privilege
- legal systems, including common law and code law
- information sources for increasing legal knowledge and terminology
- legal principles relating to the role of the interpreter, including the right of a defendant to be 'linguistically present'
- procedures for preparing affidavits and other legal documentation and legal cases
- relevant legislation, government policies and court guidelines
- WHS relevant to working in legal and policing contexts, including personal safety and fatigue

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Assessment of this unit of competency must include interpreting in real or simulated complex dialogue or monologue settings in specialist legal and policing contexts.

Consideration must be given to holistic assessment for this unit. Refer to advice in the companion volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS100 Apply codes and standards to professional judgement

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS603A Apply codes and standards to professional judgement. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to apply current and relevant standards of professional and ethical behaviour by translators and interpreters in complex settings and interactions. The unit requires knowledge of professional codes of ethics and the development and maintenance of professional judgement. It requires the ability to consider a wide range of professional issues and to reflect on and continuously develop a highly informed approach to practice.

This unit applies to those working as translators and interpreters in a range of complex or specialised settings and contexts.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing complex tasks in a range of specialised contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Research ethical and professional issues	1.1 Maintain detailed knowledge of ethical and professional practice and issues using reliable sources of information. 1.2 Maintain productive professional relationships to facilitate awareness of current issues. 1.3 Monitor and analyse trends to anticipate developments and directions in the field. 1.4 Research industry discussion of professional ethical codes applied to the practitioner role.
2. Develop professional practices and knowledge	2.1 Analyse applicable codes of ethics and conduct and their relationship to work practices and the exercise of professional judgement. 2.2 Integrate developments and trends impacting on professional practice into work performance. 2.3 Identify innovative approaches for maintaining and improving professional judgement and development.
3. Apply professional standards, knowledge and judgment to practice	3.1 Reflect on and evaluate professional practices in work goals and plans. 3.2 Apply and promote ethical standards, codes and practices with clients, colleagues and others. 3.3 Identify and examine factors that impact on professional and ethical decision making and exercise professional judgement in choosing resolution strategies. 3.4 Collaborate in professional relationships to enhance own practice and the provision of peer support. 3.5 Apply standards of ethical practice when contributing to professional debates, forums and providing feedback to colleagues. 3.6 Evaluate quality and success of ongoing professional judgement in meeting planned, professional and career outcomes.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels, indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	**4**	5	1	2	**3**	4	5	1	2	**3**	4	5	1	2	**3**	4	5	1	2	3	4	5
Learning					Reading					Writing					Oral communication					Numeracy **NA**				

Performance variables:

1	2	3	**4**	5	1	2	3	**4**	5	1	2	3	**4**	5	1	2	3	**4**	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTIS603A Apply codes and standards to professional judgement.

Assessment Requirements for PSPTIS100 Apply codes and standards to professional judgement

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying critical professional judgement to achieve constructive ethical and strategic work outcomes
- applying ethical codes and standards to practice, including in situations where there are:
  - potential conflicts of interest
  - conflict between client requirements and industry standards
  - tensions between personal and client or colleague values
  - differences in expectations caused by cultural influences
  - dilemmas caused by tensions between personal and professional standards of practice and values
- reflecting on practice and justifying judgements and decisions

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- industry standards of professional behaviour and presentation relating to practice
- policy, cultural, technological and economic trends impacting on translating and interpreting
- networks relevant to own professional practice
- professional techniques, strategies and responsibilities of translators and interpreters
- types and sources of professional resources

© Commonwealth of Australia, 2022 SkillsIQ

- ethical issues and their implications for professional judgement and decision making
- relevant professional codes of ethics and conduct

Assessment Conditions

Assessment of this unit of competency must include use of scenarios, case studies, experiences and examples of interactions with colleagues and clients that illustrate issues of professional judgements and ethical decision making.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTIS101 Negotiate translating and interpreting assignments

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTIS501A Negotiate translating and interpreting assignments. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice • 1.3 moved to Element 3 • New PC: 2.2 and 3.2

Application

This unit describes the skills required to collect and assess information about the nature and conditions of translating and interpreting assignments, to review personal competence to undertake an assignment and to negotiate an agreed approach to assignments with clients and booking agencies.

This unit applies to those working as translators and/or interpreters in negotiating assignments.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and industry codes and standards for ethical translating and interpreting adhered to.

Those undertaking this unit would work independently using support resources as required, while performing complex tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Translating and interpreting

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Collect and assess assignment information	1.1 Clarify the scope of assignments with clients, including terms and conditions and any specific requirements. 1.2 Analyse background information for details of the nature and conditions of assignments. 1.3 Identify performance expectations and their implications for undertaking the assignment.
2. Assess ability to complete assignment	2.1 Identify and assess limits and responsibilities and their implications. 2.2 Undertake risk analysis and identify concerns. 2.3 Seek advice to inform decision-making process 2.4 Evaluate personal competence and preparedness to satisfy assignment requirements and areas for negotiation with clients.
3. Respond to assignment proposal	3.1 Provide information to clients or booking agency on terms, conditions and conventions to inform an agreed arrangement. 3.2 Negotiate approach and working and remuneration conditions with clients or booking agency 3.3 Advise client or booking agency of decision to accept or decline the assignment. 3.4 Review decision-making process and record outcomes and agreements for future reference.

Foundation Skills

Assessment Requirements for PSPTIS101 Negotiate translating and interpreting assignments

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit and consultation with industry

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the candidate must demonstrate evidence of performance of the following in undertaking at least two of the assignment types stated in the Range of Conditions.

- calculating chargeable time, direct and indirect costs and contract fees
- discussing translation or interpreting process, desired outcomes and potential difficulties
- identifying implications of working with people from diverse social, cultural and ethnic backgrounds and with diverse levels of communication
- informing clients of translating and interpreting protocols and expectations
- negotiating cross-cultural expectations
- undertaking personal competency mapping

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified, the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- financial, legal and personal risks to client from miscommunication
- personal safety and welfare issues related to specific assignments and potential risks
- professional procedures, ethical practices and business standards applicable to negotiating an assignment
- roles and responsibilities of translators and interpreters and their associated skills
- tools and equipment relevant to project

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Assessment must be gathered to demonstrate negotiated agreements with diverse different client requirements and conditions and with examples of both accepting and declining assignments.

Consideration must be given to holistic assessment for this unit. Refer to advice in the Companion Volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTRP001 Intercept vehicles and assess vehicle compliance

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to intercept vehicles and undertake vehicle compliance assessments.

This unit applies to those working in road transport regulatory roles who intercept and assess vehicles to determine their compliance with standards and legislative requirements.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, while performing routine tasks, in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Transport

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used,

outcomes	further information is detailed in the range of conditions section.
1. Check and use compliance equipment	1.1 Check equipment in accordance with manufacturers' specifications. 1.2 Calibrate equipment to meet legal requirements. 1.3 Operate equipment.
2. Intercept vehicles	2.1 Plan interceptions and procedures with co-workers. 2.2 Select safe locations for each interception. 2.3 Give clear and meaningful signals to drivers of target vehicles to stop their vehicles. 2.4 Comply with agency policy requirements for interception vehicles. 2.5 Prevent injury or damage.
3. Verify identity of drivers and/or responsible operators	3.1 Request drivers and/or responsible operators to identify themselves. 3.2 Record details of identification. 3.3 Verify details with relevant authorities.
4. Assess vehicle compliance with regulatory requirements	4.1 Verify regulatory details and/or records and interpret data. 4.2 Assess compliance with conditions of the authorisation and/or any exemptions and identify non-compliance. 4.3 Maintain operational safety and implement contingency management processes for unplanned events.
5. Act on vehicle non-compliance	5.1 Take action to achieve compliance. 5.2 Inform operators and/or responsible parties of the action, justification for it and any rights of appeal. 5.3 Complete records.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPTRP001 Intercept vehicles and assess vehicle compliance

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages.

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using effective communication including interviewing, listening and conflict resolution with a diverse range of people
- reading and interpreting legislation and regulations
- completing documentation, notices, reports and records
- applying public sector legislation, including work health and safety and environmental procedures, in the context of road transport compliance
- undertaking at least three actual or simulated vehicle assessments, on three separate occasions and for different vehicle configurations, where one may be an unladen vehicle
- maintaining operational safety
- enforcing legislation within the limits of the officer's authority

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- legislation, regulations and standards, including load restraint guides
- work health and safety in the context of assessing vehicle compliance
- sanctions and/or penalties
- enforcement powers
- offences
- cautions
- rules of evidence
- standards and specifications for all items requiring inspection
- contingency management processes for unplanned events

© Commonwealth of Australia, 2022 SkillsIQ

Assessment Conditions

Some components of this unit require assessment in a workplace environment (real or simulated) therefore the unit is not suitable for fully external or electronic based assessment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTRP002 Operate weighbridges

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTRAN405A Operate weighbridges. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to conduct weighbridge operations, including setting up for weighbridge operations, weighing loaded vehicles, weighing unloaded vehicles, measuring axles, finalising weighbridge operations, and completing required records.

This unit applies to those working as private weighbridge operators, public weighbridge operators and transport compliance officers who use weighbridges to determine the weight of vehicles and loads.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, while performing routine tasks, in a range of familiar contexts.

Successful completion of this unit allows the candidate to meet the legislative requirements that at least one person at any public weighbridge has a Statement of Attainment for the unit.

Competency Field

Transport

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Validate weighbridge operations	1.1 Check operational status of weighbridge, computer and recording systems. 1.2 Validate weighbridge accuracy. 1.3 Maintain inspection and testing records. 1.4 Identify faults and discrepancies in weighbridge operation and initiate corrective action. 1.5 Identify and correct environmental factors likely to affect weighing accuracy.
2. Weigh vehicles	2.1 Direct vehicles likely to exceed weighbridge capacity and dimensions away from weighbridge. 2.2 Set weighbridge to zero before commencing a weighing. 2.3 Direct vehicles onto weighbridge platform and determine weight. 2.4 Enter vehicle weight, vehicle registration and load description into organisational recording system. 2.5 Resolve areas of dispute or forward for further action.
3. Conduct axle measurements	3.1 Assess suitability of weighbridge and approach for axle measurements. 3.2 Complete axle measurements.
4. Complete weighbridge operations	4.1 Complete and issue weighbridge ticket. 4.2 Cancel incomplete weighbridge tickets. 4.3 Secure weighbridge systems, equipment, computer and recording arrangements, and ready them for next shift. 4.4 Maintain and file record of operations.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPTRP002 Operate weighbridges

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- communicating effectively and working collaboratively with others
- reading and interpreting operational instructions, procedures and information relating to weighbridge operations
- following operational instructions and prioritising work
- setting up and maintaining weighbridge equipment
- identifying, selecting and using weighbridge equipment
- monitoring performance of weighbridge equipment
- operating electronic communication equipment
- applying precautions and required action to minimise, control or eliminate hazards that may exist during the conduct of weighbridge operations
- modifying activities depending on differing operational contingencies, risk situations and environments
- operating and adapting to differences in equipment according to standard operating procedures
- reporting or rectifying identified problems, errors or malfunctions that may occur when conducting weighbridge operations
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment
- selecting and using required personal protective equipment
- determining the net weight from gross and tare measurements

© Commonwealth of Australia, 2022 SkillsIQ

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- regulations relevant to the operation of weighbridges, including national measurement legislation
- relevant WHS and environmental protection procedures and guidelines
- workplace policies and procedures for weighbridge operations
- problems that may occur when conducting weighbridge operations and appropriate action that can be taken to resolve the problems
- equipment applications, capacities, configurations, safety hazards and control mechanisms
- records and documentation requirements for weighbridge operations
- classification procedures
- despatch procedures
- calculation method in both metric and imperial systems for determining net mass, and end-and-end and axle measurements of a vehicle
- correct weighing procedures, including statutory and workplace requirements
- emergency response procedures
- site layout
- procedures for completing axle and end-and-end measurements

Assessment Conditions

Some components of this unit require assessment in a workplace environment (real or simulated) therefore the unit is not suitable for fully external or electronic based assessment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTRP003 Intercept vehicles and assess driver compliance

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTRAN407 Intercept vehicles and assess driver compliance. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to intercept vehicles and assess driver compliance with legislative requirements. It includes checking and using equipment, intercepting vehicles, assessing driver compliance and acting on any non-compliances found. Knowledge of driver compliance requirements, chain of responsibility legislation and offences under all applicable legislation must be applied. This includes communicating with drivers, dealing with conflict and maintaining operational safety at all times.

This unit applies to those working in road transport regulatory roles who are authorised under enabling legislation to intercept vehicles and assess driver compliance with regulatory requirements.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently, performing routine tasks in a range of familiar environments.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Assessment Requirements for PSPTRP003 Intercept vehicles and assess driver compliance

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- questioning and negotiating in sometimes difficult situations
- informing and explaining offences and penalties
- checking equipment
- reading complex legislation, regulations and standards
- completing required paperwork
- applying requirements from legislation, regulations, policies and standards to assess driver compliance
- intercepting vehicles and assessing driver compliance in actual or simulated circumstances on at least three separate occasions or in three different situations
- adhering to legal, ethical and organisational requirements relating to the interception of vehicles and assessment of driver compliance
- enforcing legislation within the limits of the officer's authority

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- organisational policies and procedures
- legislation and regulations
- operational safety in the context of assessing compliance
- enforcement powers

© Commonwealth of Australia, 2022 SkillsIQ

- sanctions and/or penalties
- offences
- cautions and/or warnings

Assessment Conditions

Some components of this unit require assessment in a workplace environment (real or simulated) therefore the unit is not suitable for fully external or electronic based assessment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTRP004 Conduct detailed vehicle inspections

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTRAN408 Conduct detailed vehicle inspections. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to conduct and document vehicle inspections undertaken at an authorised inspection location. It includes preparing for inspections, determining correct vehicle dimensions and configurations, recording, reviewing, reporting and acting on inspection findings.

This unit applies to those working in road transport regulatory roles who are authorised under enabling legislation to conduct detailed vehicle inspections at an authorised inspection location to confirm vehicle compliance and serviceability and/or roadworthiness.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently in consultation with others, performing routine task in a familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare for detailed inspections	1.1 Identify types of inspections. 1.2 Assess sites with regard to personal safety and the safety of others. 1.3 Identify and confirm scope and detailed requirements of each inspection with relevant personnel. 1.4 Check and confirm as operational materials and equipment required to conduct inspections. 1.5 Access and interpret information from relevant sources to enable inspections.
2. Conduct detailed inspections	2.1 Access and review motor vehicle documentation to establish key information on the vehicles under inspection. 2.2 Verify vehicle identity for each vehicle inspected. 2.3 Carry out vehicle inspections using approved methods and equipment, taking into consideration the specifications and tolerances relative to each vehicle. 2.4 Identify, examine, measure and test vehicle structure and components as necessary. 2.5 Observe work health and safety legislation, codes of practice, policies and procedures during the inspection. 2.6 Identify and record vehicle non-compliances.
3. Determine correct vehicle dimensions and/or configurations	3.1 Reference guidelines as necessary for comparison with inspection findings. 3.2 Interpret information and follow procedures.
4. Record and review inspection findings	4.1 Obtain, complete and keep required documentation and evidence. 4.2 Conduct, consultations with stakeholders to verify accuracy and validity of findings as required. 4.3 Assess findings for non-compliance.
5. Report and act on findings	5.1 Report inspection findings to relevant person/s. 5.2 Provide supporting information and explanations as

© Commonwealth of Australia, 2022 SkillsIQ

	required. 5.3 Prepare and file documentation and records. 5.4 Identify, report and act on issues arising from inspections which require further action.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTRAN408 Conduct detailed vehicle inspections.

Assessment Requirements for PSPTRP004 Conduct detailed vehicle inspections

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- consulting with stakeholders to verify findings
- reading complex legislation, guidelines and manufacturer's specifications
- interpreting information and procedures
- recording findings and preparing reports
- referencing guidelines when required
- using observation and analysis
- applying public sector legislation, including work health and safety and environmental procedures, in the context of conducting detailed vehicle examinations
- using compliance equipment and technology
- using detailed inspection methodologies, including safe work practices
- measuring and comparing with tolerances
- conducting at least three detailed vehicle inspections, on separate occasions or for three different situations at an actual or simulated authorised inspection location
- adhering to legal, ethical and organisational requirements relating to the conduct of detailed vehicle inspections

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- organisational policies and procedures

© Commonwealth of Australia, 2022 SkillsIQ

- National Transport Commission guidelines
- vehicle components and procedures
- legislation and regulations, including Australian Design Rules
- powers of transport inspector and/or authorised officer under jurisdictional legislation
- functions and roles of other professionals involved
- principles of risk management
- work health and safety in the context of conducting detailed vehicle examinations

Assessment Conditions

Some components of this unit require assessment in a workplace environment (real or simulated) therefore the unit is not suitable for fully external or electronic based assessment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTRP005 Pilot or escort oversize and/or over-mass vehicles

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTRAN409 Pilot or escort oversize and-or over-mass vehicles. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to undertake pilot or escort duties in the movement of oversize and/or over-mass vehicles. It includes preparing pilot and/or escort vehicles or operations, confirming pilot and escort requirements, using pilot and escort communication and maintaining records. Work is carried out in compliance with licence or permit requirements and state/territory regulations relating to piloting and escorting of oversize and/or over-mass vehicles.

This unit applies to those working in road transport regulatory roles who are authorised to pilot and escort oversize and/or over-mass vehicles.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit independently in consultation with others, performing routine tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Transport

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Prepare pilot and escort vehicles for operations	1.1 Identify maintenance needs of pilot and/or escort vehicles and associated equipment from maintenance schedules or reports of faults. 1.2 Carry out minor maintenance on vehicles in accordance with manufacturers' specifications. 1.3 Prepare pilot and/or escort vehicles and associated equipment for operations to manufacturers' specifications. 1.4 Complete post-maintenance inspections and tests. 1.5 Record identified faults, repairs and the outcomes of inspections.
2. Confirm pilot and escort requirements	2.1 Consult with transport companies whose vehicles are scheduled for escort to confirm requirements. 2.2 Confirm authorisation/s for pilot and escort operators as current. 2.3 Verify required permits for completeness and accuracy and inspect all vehicles and drivers to ensure compliance with permits. 2.4 Advise the permit holder of the results of the checks and address any non-compliance before operations begin. 2.5 Brief convoys and give instructions and directions on pilot or escort operations.
3. Conduct pilot and/or escort operation	3.1 Implement required vehicle positioning, traffic warning and directional signalling procedures to enable safe passage of the load. 3.2 Operate safety equipment and position roadside obstacles to ensure safe passage of the load. 3.3 Take precautions to ensure that convoy personnel are aware of road and other conditions that may impact on load and vehicle security. 3.4 Prepare contingency and emergency plans to enable unexpected events to be handled safely. 3.5 Undertake required liaison with authorities.
4. Use pilot and escort	4.1 Operate communications equipment and resources in accordance

© Commonwealth of Australia, 2022 SkillsIQ

communication	with manufacturers' specifications. 4.2 Transmit and receive messages. 4.3 Establish backup communication strategies and inform personnel involved of operating and coordination procedures. 4.4 Use alternative communication strategies to communicate messages in response to communications failures and problems.
5. Maintain records	5.1 Complete journey documentation. 5.2 Maintain records on oversize and over-mass vehicle movements. 5.3 Report damage and other incidents to authorities.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTRAN409 Pilot or escort oversize and-or over-mass vehicles.

Assessment Requirements for PSPTRP005 Pilot or escort oversize and/or over-mass vehicles

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- receiving and transmitting messages during operations
- using required communication protocols
- working collaboratively with others in the convoy when piloting or escorting vehicles
- addressing problems arising during pilot or escort operations
- implementing contingency plans for unexpected events during pilot or escort operations
- preparing vehicles for escort
- keeping to planned schedule of operations
- reading and interpreting permits, signs, procedures and manufacturers specifications
- completing documentation and records relating to the movement of oversize and over mass vehicles
- interpreting and following instructions
- minimising, controlling or eliminating hazards that may exist in pilot or escort operations
- modifying activities depending on operational contingencies, risk situations and environments
- complying with regulatory requirements, organisational policies and procedures
- operating electronic communication equipment
- operating communication signage and other communication resources required during pilot or escort operations
- piloting and escorting oversize and over-mass vehicles on at least three separate occasions or in three different situations (actual or simulated)

© Commonwealth of Australia, 2022 SkillsIQ

- communicating clearly and precisely using required protocols, including at least one instance where alternative strategies are required in response to communication failures and problems
- adhering to legal, ethical and organisational requirements relating to pilot and escort duties

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- road rules, regulations, permit and licence requirements of state/territory roads and traffic authorities pertaining to the piloting and escorting of oversize and over-mass loads
- safe, low-risk driving strategies
- situational awareness
- pre-departure checks required for vehicles, communication equipment and procedures, and signage
- factors which may cause traffic delays and diversions and related action that can be taken by a driver
- pre-departure planning for delays and diversions
- fatigue management
- procedures to be followed in the event of a driving and/or piloting and/or escort emergency
- documentation requirements for piloting and escorting oversize and or over-mass vehicles

Assessment Conditions

Some components of this unit require assessment in a workplace environment (real or simulated) therefore the unit is not suitable for fully external or electronic based assessment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTRP006 Undertake access assessments and approvals

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTRAN410 Undertake access assessments and approvals. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to undertake assessments of vehicles in relation to their access to the road network and to provide approvals and permits allowed under specific sections of legislation. It includes providing access to information, assessing and approving applications and issuing or refusing permits. Providing approvals, conditions and permits for individuals and transport companies to access certain routes.

This unit applies to those working in road transport regulatory roles requiring detailed knowledge of gazetted routes and vehicle compliance requirements to be able to assess access applications and provide information on the feasibility and requirements of proposed routes.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently in consultation with others, performing routine tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Provide access information	1.1 Use effective communication techniques to obtain client information about loads to be moved, intended origins and destinations, proposed restricted access vehicles to be used and proposed routes. 1.2 Source information on road network access, permit requirements and conditions relating to the proposed routes in relation to the intended vehicles and loads. 1.3 Provide information to clients on the feasibility and conditions of using proposed routes with reference to state and/or territory access conditions and restrictions for restricted access vehicles. 1.4 Suggest alternate routes if necessary to assist clients to achieve their objectives whilst complying with restrictions. 1.5 Manage communication difficulties or refer for assistance.
2. Assess and approve applications	2.1 Assess applications for network access in relation to the proposed restricted access vehicles, their loads and intended routes. 2.2 Assess other issues in relation to applications. 2.3 Undertake liaison with other authorities or sections using required protocols, if proposed routes have implications for their jurisdictions. 2.4 Refer applications for route surveys if assessment determines that this is required. 2.5 Approve applications for access that meet permit requirements for restricted access vehicles. 2.6 Process emergency approvals.
3. Issue or refuse permits	3.1 Identify correct permits for each approved application. 3.2 Confirm conditions with the applicant dependant on the type of permit to ensure understanding of all restrictions. 3.3 Complete documentation and issue valid permits to reflect approval decisions. 3.4 Refuse permits for applications that are not approved, provide reasons and suggest alternatives if feasible.

Assessment Requirements for PSPTRP006 Undertake access assessments and approvals

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- eliciting requirements
- providing and explaining information
- clarifying and confirming understanding
- explaining information that meets applicants' needs
- maintaining up-to-date knowledge of gazetted routes and network access requirements
- reading and understanding legislation, regulations, conditions and restrictions
- interpreting access requirements in relation to different categories of restricted access vehicles
- meeting organisational requirements in relation to timeliness of responding to permit applications and providing emergency approvals
- undertaking at least three actual or simulated network access assessments on three separate occasions or for three different situations
- undertaking at least one application that is not routine and requires alternatives to be suggested and/or refusal of a permit

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- state and territory legislation, policy, procedures and guidelines relating to road network access

© Commonwealth of Australia, 2022 SkillsIQ

- conditions and restrictions on vehicle configurations, dimensions and loads in relation to network access and vulnerable assets
- gazetted routes
- permits and notices
- client service standards
- political awareness regarding applications, approvals and permits
- community needs in relation to restricted access vehicles road use
- public sector legislation and codes of practice particularly those dealing with privacy, diversity, environmental and work health and safety requirements

Assessment Conditions

Some components of this unit require assessment in a workplace environment (real or simulated) therefore the unit is not suitable for fully external or electronic based assessment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTRP007 Provide information on vehicle configuration compliance

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTRAN411 Provide information on vehicle configuration compliance. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to provide compliance information on vehicle configurations to transport industry clients. It includes identifying client information requirements, providing detailed compliance information to clients and confirming client understanding. This requires knowledge of legislation, conditions and restrictions on vehicle configurations and loads and the requirements for inspections and permits for particular vehicle configurations.

This unit applies to those working in road transport regulatory roles who are required to explain the conditions and restrictions applying to vehicle configurations for the movement of loads.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently in consultation with others, performing routine tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Transport

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify client information requirements	1.1 Greet clients and establish any special client circumstances using communication suited to the particular client. 1.2 Obtain information from transport industry clients about the loads to be moved, the intended origins and destination, vehicles and routes. 1.3 Manage communication difficulties or refer for assistance.
2. Provide detailed compliance information to clients	2.1 Explain types of configurations and load requirements in relation to the loads being moved. 2.2 Detail conditions and restrictions for configurations, loads and dimensions in relation to the proposed loads and routes. 2.3 Provide information on any requirements for inspections, permits and notices in accordance with regulations of road traffic authorities. 2.4 Provide information in a form that suits the purpose and circumstances of the enquiry.
3. Confirm client understanding	3.1 Obtain confirmation that the client has received sufficient information to ensure compliance when determining vehicle configurations for particular loads. 3.2 Confirm client knowledge of inspection and permit requirements in relation to the loads being moved. 3.3 Maintain confidentiality.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTRAN411 Provide information on vehicle configuration compliance.

Assessment Requirements for PSPTRP007 Provide information on vehicle configuration compliance

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- building rapport
- eliciting requirements
- providing and explaining information
- clarifying and confirming understanding
- choosing the form, content and amount of information to meet enquirer's needs and ensure compliance
- maintaining up-to-date knowledge of compliance requirements
- reading and understanding complex legislation and regulations
- interpreting guidelines and design rules
- dealing with difficult situations
- accessing up-to-date information
- providing accurate compliance information on at least three actual or simulated occasions for three different situations including dealing with at least one difficult client and one complex information request
- adhering to legal, ethical and organisational requirements relating to the provision of compliance information

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

© Commonwealth of Australia, 2022 SkillsIQ

- types of vehicle configurations
- conditions and restrictions on configurations, dimensions, loads and network access
- requirements for inspections and permits
- conditions for Performance Based Standards (PBS) assessed vehicles
- client service standards
- public sector legislation and codes of practice particularly those dealing with privacy, diversity, environmental and work health and safety requirements

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPTRP008 Operate within the regulatory framework for road transport compliance

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTRAN502 Operate within the regulatory framework for road transport compliance. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to undertake road transport regulation in both operational and office environments. It includes maintaining up-to-date knowledge of the road transport industry and the regulatory framework for road transport compliance, in order to develop industry relationships and operate effectively within the industry on behalf of road transport regulator/s.

This unit applies to those working in road transport regulatory roles who undertake a diverse range of duties that contribute to the enforcement of road transport legislation and related requirements.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently in consultation with others, performing complex tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Transport

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Explore the regulatory framework for road transport compliance	1.1 Identify and discuss key provisions of laws governing road transport regulation to ensure a common understanding with other enforcement officers. 1.2 Verify powers of authorised officers to ensure clear understanding and consistent application in the regulatory environment. 1.3 Exchange information with other road transport regulatory staff to ensure consistency within and across regulators. 1.4 Identify the purpose of enforcement activities. 1.5 Establish punitive and other measures available to authorised officers and determine the circumstances relating to their use. 1.6 Research the role and purpose of vehicle accreditation schemes, identify key commonalities and differences and determine their impact on the regulatory role.
2. Develop and maintain up-to-date knowledge of the road transport industry	2.1 Research and update information on the road transport industry, its operators and major stakeholders to remain current with industry issues affecting regulatory officer roles and responsibilities. 2.2 Identify parties in the transport chain and clarify their roles and responsibilities. 2.3 Monitor logistics trends and major changes in road transport operations and technology and discuss and confirm any regulatory implications. 2.4 Monitor changes in road transport regulatory arrangements and access available information, awareness sessions and training to maintain knowledge and skill base.
3. Work with other stakeholder agencies	3.1 Identify other agencies with overlapping responsibilities for road transport compliance and enforcement and establish and maintain relationships. 3.2 Develop strategies to share information with stakeholder agencies in accordance with level of authority, to reduce the incidence and extent of non-compliance in the industry. 3.3 Provide and receive assistance, information and referrals to and

© Commonwealth of Australia, 2022 SkillsIQ

	from other agencies in accordance with their regulatory powers and sphere of operation. 3.4 Develop and maintain effective partnerships and intelligence networks.
4. Establish and maintain industry relationships	4.1 Identify road transport industry organisations and establish and maintain formal and informal lines of communications. 4.2 Gain and maintain trust and confidence through high standards of ethical practice. 4.3 Provide information and assistance to the road transport industry and other key stakeholders to promote understanding of legislation, compliance standards, accreditation and access requirements. 4.4 Represent and promote interests and requirements of the regulator using strategies tailored to the particular industry organisation. 4.5 Seek and use feedback to improve services and regulatory outcomes.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance :

1	2	3	**4**	5	1	2	3	4	**5**	1	2	3	4	**5**	1	2	3	4	**5**	1	2	3	4	5
Learning					Reading					Writing					Oral communication					Numeracy NA					

Performance variables:

1	2	3	**4**	5	1	2	3	**4**	5	1	2	3	4	**5**	1	2	3	4	**5**
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

© Commonwealth of Australia, 2022 SkillsIQ

Unit Mapping Information

This unit supersedes and is equivalent to PSPTRAN502 Operate within the regulatory framework for road transport compliance.

Assessment Requirements for PSPTRP008 Operate within the regulatory framework for road transport compliance

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- networking and building relationships with other regulatory agencies and road transport organisations
- explaining information on compliance and enforcement matters
- using industry terminology
- accessing and using road transport regulatory information and standards
- reading and understanding complex legislation and standards
- working ethically and in accordance with legislation
- researching information, accessing legislation and standards and monitoring changes in industry information
- establishing relations and working with other regulatory agencies and industry organisations on at least three actual or simulated occasions or for three different situations
- adhering to legal, ethical and organisational requirements relating to working with other organisations and representing the regulator

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- overview of the road transport industry in Australia including future trends in logistics
- key participants and stakeholders in the road transport industry
- parties in the transport chain

PSPTRP009 Provide vehicle technical advice

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPTRAN504 Provide vehicle technical advice. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to provide vehicle technical advice in response to enquiries from police, other agencies and the general public or for court proceedings or coronial enquiries. It includes interpreting detailed vehicle inspection data and forming and providing an opinion based on the analysis of that data. Opinions and advice may be sought by and provided to the police, other agencies, coroners or the courts.

This unit applies to those working in road transport regulatory roles who have technical expertise.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously, consulting others as required, performing complex tasks in a range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Transport

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Obtain and interpret detailed inspection data	1.1 Gather, and record inspection data and other relevant information and confirm as valid and authentic. 1.2 Analyse and interpret information to assist in the identification of issue/s. 1.3 Handle information legally and ethically.
2. Undertake technical research	2.1 Identify and access standards and specifications related to the issues. 2.2 Undertake research on all the information gathered during detailed vehicle inspections. 2.3 Seek advice to clarify any unclear findings. 2.4 Report and present research findings in language, style and format to suit the intended audience. 2.5 Provide supporting information and explanations as required by the requesting party.
3. Form and provide opinions	3.1 Identify and evaluate options related to the provision of advice. 3.2 Form and document an opinion that is logical, reasoned and defensible. 3.3 Offer opinions on actions to be taken in response when required. 3.4 Provide a comprehensive report supporting opinions reached, to meet requesting agency requirements.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPTRAN504 Provide vehicle technical advice.

Assessment Requirements for PSPTRP009 Provide vehicle technical advice

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- gathering and presenting information
- tailoring information to suit the needs of diverse audiences
- researching, interpreting and analysing information and data
- reading and understanding complex legislation
- writing reports of varying complexity depending on the intended audience
- forming and providing expert opinions
- applying public sector legislation including work health and safety and environmental procedures in the context of providing vehicle technical advice
- assessing vehicle standards
- using diagnostic techniques
- using personal computer, internet, word processing and databases for research, analysis and interpretation
- providing vehicle technical advice relating to three actual or simulated situations on separate occasions or for three different vehicle situations
- undertake technical research directly related to the vehicle technical advice required
- forming opinions that are supported with detailed inspection data and research findings

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

© Commonwealth of Australia, 2022 SkillsIQ

- specialist technical knowledge of areas addressed
- state and territory and Commonwealth legislation and regulations
- Australian Design Rules (ADRs), Australian Vehicle Standards Rules (AVSR), modification codes, vehicle standards, manufacturers' standards, related international standards
- chain of evidence/rules of evidence provisions
- written off vehicle register (WOVR)
- work health and safety relating to the provision of specialist vehicle technical advice
- court requirements relating to the provision of vehicle technical advice

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPWPI001 Evaluate workplace legislative compliance

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPWPI501B Evaluate workplace legislative compliance. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to determine compliance, breaches and risks to workers or the work environment. This includes acting to minimise risks to workers, the public and/or the work environment and to record non-compliance. It includes identifying issues relevant to the organisation's jurisdiction, assessing workplaces for non-compliance, advising on control measures and implementing compliance activities.

This unit applies to those working to inspect and evaluate workplaces to ensure compliance with legislation.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Workplace inspection

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify issues relevant to the organisation's jurisdiction	1.1 Confirm jurisdictional boundaries and powers. 1.2 Carry out identification of defined areas. 1.3 Identify issues relating to workers, work environment and/or public.
2. Assess workplace for non-compliance	2.1 Assess and prioritise issues relating to workers, public and/or work environment against legislative requirements. 2.2 Identify, assess and record non-compliance and possible breaches. 2.3 Refer any issues beyond own level of competence to the appropriate sources for follow-up action.
3. Advise on control measures	3.1 Identify a range of control measures having regard to current standards. 3.2 Determine a practicable solution to achieve compliance.
4. Implement compliance activity	4.1 Implement compliance activity. 4.2 Evaluate effectiveness of selected compliance activity and report.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPWPI501B Evaluate workplace legislative compliance.

Assessment Requirements for PSPWPI001 Evaluate workplace legislative compliance

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- engaging in communication to provide advice on legislation relevant to compliance, using complex exchanges of oral information
- interpreting, analysing and explaining complex and formal documents, including legislation and its application to clients' situations
- using mediation and/or negotiation
- undertaking conflict resolution
- using analysis to interpret test results
- using equipment and technology
- evaluating workplace legislative compliance in 3 or more contexts or on 3 or more occasions

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- principal legislation, including work health and safety, workers compensation, injury management and workplace relations
- performance standard in the legislation
- impact of hazards and/or issues on persons
- strengths and weaknesses of possible control measures and the reasons for choosing practicable solution
- industry practices

© Commonwealth of Australia, 2022 SkillsIQ

- organisational policies and procedures related to compliance activities
- principles of risk management, including hierarchy of controls
- technical features associated with hazards and potential risks as these relate to jurisdictional issues

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPWPI003 Investigate possible breaches of workplace legislation

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPWPI503C Investigate possible breaches of workplace legislation. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to conduct investigations into a range of workplace contexts specifically relating to work health and safety (WHS), workers compensation, injury management and/or workplace relations legislation. It includes conducting an initial assessment of the situation, examining the available evidence, identifying potential witnesses, recording initial statements, assessing investigation material and information gathered, conducting formal interviews, and completing an investigation report.

This unit applies to those working as investigators conducting workplace investigations into possible breaches of a range of workplace legislation, which may arise as a result of complaints, incidents or targeted campaigns.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Workplace inspection

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Conduct initial assessment of situation	1.1 Identify type of investigation or situation. 1.2 Assess situations with regard to personal safety and the safety of others, and put safeguards in place. 1.3 Contact persons involved. 1.4 Establish and maintain integrity of situation.
2. Initiate and conduct investigations	2.1 Issue instructions to persons involved. 2.2 Identify and access resources required before conducting the investigation.
3. Examine the situation	3.1 Record details of the situation and all those involved in possible breach. 3.2 Locate, collect, package, record, label and store potential evidence to ensure preservation of integrity of evidence and for further examination in line with the rules of evidence. 3.3 Document the reasons and justification if no breach has occurred or no action is to be taken. 3.4 Recommend appropriate action if breach is confirmed, within the officer's discretion. 3.5 Maintain record of evidence.
4. Identify potential witnesses and record initial statements	4.1 Identify potential witnesses and record their details. 4.2 Take statements.
5. Assess investigation material and gathered information	5.1 Review information and evidence gathered against legislation and other relevant material. 5.2 Evaluate information and evidence relevance and strength of proof. 5.3 Identify, prioritise and schedule further proofs for action. 5.4 Obtain further evidence when required.
6. Conduct formal interviews	6.1 Conduct interview. 6.2 Review and clarify information to ensure its relevance and

© Commonwealth of Australia, 2022 SkillsIQ

	sufficiency prior to concluding the interview. 6.3 Complete a record of the interview.
7. Complete investigation report	7.1 Compile report. 7.2 Forward report to appropriate personnel for review and action. 7.3 Gather and compile additional information and evidence identified in report. 7.4 Forward final report through appropriate channels for processing.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Unit Mapping Information

This unit supersedes and is equivalent to PSPWPI503C Investigate possible breaches of workplace legislation.

Assessment Requirements for PSPWPI003 Investigate possible breaches of workplace legislation

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- undertaking legal research
- evaluating information in investigating breaches
- applying principles of natural justice and procedural fairness
- applying legislative requirements and organisational policies and procedures in all investigations
- applying risk management principles to investigative procedures, including personal safety
- negotiating
- dealing with conflicting information
- dealing with conflict
- interviewing and questioning
- ensuring due consideration of information and evidence
- planning and organising skills to ensure the coordinated and thorough investigation of possible breaches of workplace legislation
- decision-making to reflect deliberation of the evidence and the risk assessment
- undertaking comprehensive planning of investigative responses
- conducting detailed examination of potential or reported breaches
- preparing resources required to conduct investigations
- carrying out diverse information-gathering activities to substantiate recommendations

© Commonwealth of Australia, 2022 SkillsIQ

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- federal and state workplace legislative framework applying to workplace inspections, including legislation relating to work health and safety and workplace relations
- risk management principles relating to personal and workplace safety
- common law principles applying to inspection of workplaces
- powers of workplace inspectors under jurisdictional legislation
- functions and roles of other professionals and experts who may be called in to advise on possible breaches or to act as witnesses
- organisational investigation procedures
- rules of evidence and evidence management

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPWPI005 Investigate complex issues

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPWPI602B Investigate complex issues. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to research, plan and conduct investigations of workplace health and safety and/or workers compensation and/or injury management and/or workplace relations matters which may be complex and/or have potential to attract a high level of community interest. It includes researching the scope of the investigation, determining investigation issues, planning and conducting the investigation, analysing information gathered during the investigation and compiling a report.

This unit applies to those working as workplace inspectors conducting investigations into possible breaches of a range of workplace health and safety legislation, which has the potential to attract a high level of community interest.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Workplace inspection

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Research the scope of the investigation	1.1 Conduct research on industry or issue to determine initial degree of complexity and throughout the investigation. 1.2 Identify inter-organisation relationships to determine jurisdiction. 1.3 Determine the scope of the investigation in accordance with research data, and ensure that planning and implementation of the investigation are congruent with this scope.
2. Determine investigation issues	2.1 Identify major investigation issues and stakeholders. 2.2 Identify barriers to investigation and implement solutions. 2.3 Determine potential for external interest or involvement and deal with it.
3. Plan and conduct investigation	3.1 Determine the steps required to conduct the investigation. 3.2 Identify and obtain resources required. 3.3 Establish the investigation's timeframe and conduct the investigation.
4. Analyse information gathered during the investigation	4.1 Analyse information to identify relevant issues, inter-relationships, trends and potential impact on stakeholders and on similar industries. 4.2 Determine and document findings of the analysis.
5. Compile report	5.1 Report results of analysis of information. 5.2 Use the findings from analysing information to provide advice or develop policies or solutions which meet client needs or organisation requirements.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Assessment Requirements for PSPWPI005 Investigate complex issues

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- conducting investigations relating to legislative compliance
- comprehending complex written information
- writing reports and recommendations requiring precision of expression
- planning
- providing justification for scope and congruency decisions, and estimating impact on similar industries
- using communication and conflict resolution
- applying time management, planning, process mapping and decision making
- adapting to changing circumstances and making decisions
- investigating of complex issues in 3 or more contexts or on 3 or more occasions

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- principal legislation, including work health and safety, workers compensation, injury management and workplace relations
- performance standard in the legislation
- impact of hazards on persons
- industry practices
- organisational policies and procedures related to compliance activities and reporting

© Commonwealth of Australia, 2022 SkillsIQ

- principles of risk management including hierarchy of controls
- technical features associated with hazards and potential risks as these relate to jurisdictional issues
- investigation methodology techniques and management tools
- basic understanding of the Australian legal system
- aspects of civil, criminal, administrative law and jurisdictions
- powers and restrictions to investigate
- rules of evidence, types of evidence
- reporting procedures which provide a written and/or electronic audit trail
- confidentiality and privacy issues
- storage of evidence

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

PSPWPI006 Manage emerging issues

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPWPI603B Manage emerging issues. • Unit code updated • Content and formatting updated to comply with new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to identify, assess and respond to emerging issues that may impact on workplace health and safety and/or workers compensation and/or injury management and/or workplace relations.

This unit applies to those working as workplace inspectors investigating emerging issues in a range of workplace situations.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently while performing complex tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Identify issues	1.1 Monitor the environment to determine emerging issues. 1.2 Conduct formal and informal research to identify emerging issues. 1.3 Clarify and confirm issues with stakeholders.
2. Assess potential impact	2.1 Estimate and record the scope and magnitude of the impact. 2.2 Determine the nature and consequence of the potential impact and use to develop a response strategy.
3. Develop a response strategy	3.1 Identify and prioritise response options. 3.2 Choose a response strategy that best addresses the impact in consultation with industry stakeholders. 3.3 Establish performance measures to evaluate the effectiveness of the chosen response strategy. 3.4 Implement the chosen response strategy.
4. Evaluate effectiveness of the response	4.1 Develop and document an evaluation plan. 4.2 Evaluate the response strategy against the predetermined performance measures. 4.3 Modify the response strategy if required. 4.4 Communicate the results of the evaluation to relevant stakeholders.

Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency.	Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the Required Skills and Knowledge and/or the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. **Use communication systems and equipment**	1.1 Equipment is used and operated safely to support communications consistent with organisation's policies and procedures 1.2 ***Communication equipment*** and techniques are selected to best meet the task, context and needs of the situation 1.3 The ***communication system*** is correctly utilised to facilitate transmission and reception 1.4 Communication systems are operationally maintained according to organisation's policies and procedures
2. **Transmit and receive communications**	2.1 Information is transmitted concisely and clearly to facilitate accurate reception of the message in accordance with organisation's policy and procedures 2.2 Contact is acknowledged, communication is confirmed and action initiated 2.3 Communication faults and deficiencies are reported according to organisation's policy and procedures 2.4 Alternative communication strategies are employed according to organisational procedures to address identified faults and deficiencies in communication

© Commonwealth of Australia, 2022 SkillsIQ

ELEMENT	PERFORMANCE CRITERIA
	2.5 Communication is processed and recorded in accordance with organisation's policies and procedures
3. **Maintain communications equipment**	3.1 Fault finding techniques are applied and basic maintenance conducted according to organisational policies and procedures
	3.2 Faulty equipment is identified and noted for repair

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- clean and service communication equipment according to organisational procedures
- report communication faults and deficiencies according to organisational procedures
- use verbal communication procedures consistent with the organisation's communication system
- utilise the organisation's communication processes and systems

Required Knowledge

- organisational policy and procedures relevant to the operation of communication equipment
- range of communication equipment available to the organisation
- the organisation's communication system

PUAWER001B Identify, prevent and report potential workplace emergency situations

Modification History

Release	TP version	Comments
2	PUA12 V1	Layout adjusted. Application, PC and Required Skills revised.
1	PUA00 V8.1	First release in TGA.

Unit Descriptor

This unit covers the competency required to identify and prevent the development of workplace emergency situations, or to minimise their consequences, and to report if emergency protection systems, emergency control equipment and evacuation systems are compromised.

For this unit the term workplace is defined as the area encompassed by an individual's responsibilities. All aspects of the unit must be undertaken in line with legislative requirements, workplace policies and procedures, and accepted safe practices.

This unit:

- has been developed to cover the broad range of emergencies and workplaces as considered in Australian Standard 37452002
- covers the work required before the emergency services or specialist response team arrives
- does not cover the specific use of equipment to prevent workplace emergency situations

Application of the Unit

This unit applies to employees in the workplace within all industries and in all contexts.

This unit places responsibility on individual employees in the workplace to identify, prevent and report potential workplace emergency situations. This requirement is consistent with the legislative obligations of employees as prescribed in OHS legislation. The unit may also be used for planning for future operations in the workplace.

The knowledge and skills gained through the completion of this unit may be applied by all employees across all industries.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency.	Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Identify, monitor and report situations that could lead to workplace emergencies	1.1 Situations that could lead to workplace emergencies are identified. 1.2 Immediate work area is routinely checked for any situations that could lead to emergencies. 1.3 ***Hazardous work*** is monitored to ensure precautions and workplace procedures are followed.
2. Identify, report and correct situations that could prevent workplace emergencies from being safely handled	2.1 Principles of operation of relevant ***emergency protection systems*** are identified. 2.2 Principles of operation of relevant ***emergency control equipment*** are identified. 2.3 Evacuation systems are identified. 2.4 Immediate work area is routinely checked for any situations that could lead to emergency protection systems, emergency control equipment and evacuation systems being made inoperable. 2.5 Situations that could lead to emergency protection systems, emergency control equipment and

© Commonwealth of Australia, 2022 SkillsIQ

ELEMENT	PERFORMANCE CRITERIA
	evacuation systems being made inoperable are identified and corrected.
	2.6 Workplace procedures and accepted safe practices are regularly monitored and followed to ensure operability of emergency protection systems, emergency control equipment and evacuation systems.

Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- communicate effectively
- identify hazards in the workplace that reduce the effectiveness of emergency protection systems, emergency control equipment and evacuation systems
- monitor the work area to identify new and emerging risks on an on-going basis

Required Knowledge

- basic types, principles of operation and limitations of emergency protection systems and emergency control equipment typically installed in the workplace
- hazards in the workplace that reduce the effectiveness of emergency protection systems and emergency control equipment
- procedures for identifying, minimising or preventing, correcting and reporting situations within the organisation that may lead to workplace emergencies
- safe practices applicable to the workplace that help to prevent emergencies
- situations in the workplace that may lead to emergencies
- situations that may make emergency protection systems and emergency control equipment inoperable

Evidence Guide

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Assessment must confirm the ability to identify emergency protection systems, emergency control equipment and evacuation systems; to identify and report situations that may lead to or contribute to workplace incidents and/or emergencies.
	Consistency in performance

© Commonwealth of Australia, 2022 SkillsIQ

	Competency should be demonstrated in the workplace.
Context of and specific resources for assessment	**Context of assessment** Competency should be assessed in the workplace. **Specific resources for assessment** Access to: • scenarios that reflect a range of emergency situations that may be expected in the workplace • appropriate emergency protection systems and emergency control equipment • relevant standards and workplace procedures

Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the Performance Criteria is detailed below.

Hazardous work may include:	• handling dangerous goods and hazardous materials (including waste) • hot work • manufacturing • unsafe manual handling • using, mixing and/or moving chemicals • working at heights, in confined spaces, in poorly ventilated spaces or around noise • working around traffic • working with plant and machinery • working with unstable equipment or equipment that has deteriorated
Emergency protection systems may include:	• automatic fire/leak/spill/movement detectors • CCTV • communications systems • manual alarms • passive installations, fire/smoke doors, fire walls • security infrastructure • special hazard identification systems • spill/leak containment systems • sprinkler and deluge systems • warning systems
Emergency control	• communications equipment

© Commonwealth of Australia, 2022 SkillsIQ

equipment may include:	• escape equipment • fire/smoke detection, alarm, mitigation and suppression systems • first-aid kits • forcible entry tools • initial response firefighting equipment • isolation barriers • personal protection kits • shower and eyewash • spill control kits/equipment
Evacuation systems may include:	• access, egress • exits • procedures
Situations that could lead to emergency protection systems, emergency control equipment and evacuation systems being made inoperable may include:	• blocking egress • compromising security infrastructure or integrity • emergency lighting and/or exit lighting being damaged, missing or under service • locking or blocking exits • impairing exits and/or pathways to exits • interfering with alarm systems • not replacing or replenishing used emergency equipment • not reporting damage to emergency control equipment or facilities • propping open fire/smoke doors

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency.	Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Prepare for emergency situations	1.1 Current workplace emergency procedures to be used by employees and other workplace occupants are identified and followed. 1.2 Emergency resources in the workplace are identified and located. 1.3 ***Emergency response exercises*** are participated in according to workplace emergency procedures.
2. Report emergencies and potential emergencies	2.1 Emergencies and potential emergencies are identified and reported according to workplace emergency procedures. 2.2 People in any immediate danger from the emergency or potential emergency are alerted according to workplace emergency procedures.
3. Respond to emergency warnings and advice	3.1 ***Emergency warnings*** and advice are responded to according to workplace emergency procedures. 3.2 ***Instructions*** from emergency control response personnel are complied with during an emergency. 3.3 Sources of additional information are identified and information is sought from relevant people if the situation is not clear.
4. Evacuate from the work area	4.1 Need to evacuate from the work area is determined according to the level of immediate danger or instruction issued under the workplace emergency procedures. 4.2 Work area is prepared for evacuation according to workplace emergency procedures and the nature of

© Commonwealth of Australia, 2022 SkillsIQ

ELEMENT	PERFORMANCE CRITERIA
	the emergency. 4.3 Area of danger is evacuated according to workplace emergency procedures. 4.4 Where it is safe to do so, assistance is provided to ***people who may require assistance.*** 4.5 Evacuation procedures and instructions from emergency control organisation or ***emergency response personnel*** are followed. 4.6 Alternative pathways or methods of evacuation are identified, assessed and chosen according to workplace emergency procedures if usual means of evacuation are blocked or endangered. 4.7 Communication systems are used according to workplace procedures.

Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- communicate effectively in an emergency situation as outlined in the workplace emergency procedures
- identify an emergency/potential emergency
- adhere to documented workplace emergency procedures

Required Knowledge

- circumstances where evacuation may need to be modified
- emergency reporting systems and procedures used on site
- emergency warning system, signals and instructions used on site
- evacuation alarms and workplace emergency procedures used at the workplace
- location of assembly areas and post-evacuation actions
- location of emergency equipment in the workplace
- procedures for reporting emergencies
- roles, responsibilities and authority of emergency personnel, emergency control organisation and emergency response team
- types of emergencies, the hazards and the evacuation actions associated with each one

© Commonwealth of Australia, 2022 SkillsIQ

Evidence Guide

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to apply workplace procedures; to maintain own safety and the safety of others in emergency situations; and to follow workplace emergency procedures and the advice of emergency control organisation members.

Consistency in performance

Competency should be demonstrated over time with a range of emergencies that could be expected in the workplace including assisting people who may need assistance.

Context of and specific resources for assessment

Context of assessment

Competency should be assessed in the workplace or in a simulated workplace.

Specific resources for assessment

Access to:

- scenarios that reflect a range of emergency situations that may be expected in the workplace
- appropriate emergency resources
- range of communication equipment relevant to the workplace
- workplace emergency procedures and documentation

Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the Performance Criteria is detailed below.

Emergency response exercises may include

- briefings
- debriefings
- emergency exercises, simulations and reviews
- table/desk top exercises

Emergency warnings may include

- audible/visual alarms
- audible or vibrating pagers
- coded or uncoded public address announcements
- e-mail
- screen alerts
- stench alarms

© Commonwealth of Australia, 2022 SkillsIQ

	• verbal alert
People who may require assistance may include	• babies and children • people with a mobility, intellectual, visual, auditory or sensory impairment, either temporary or permanent, who require assistance during an emergency response • people from diverse cultural and linguistic backgrounds • people who are injured • people who are not able to comprehend the instructions given • pregnant women • the elderly
Emergency response personnel may include	• emergency control organisation members • counsellors • emergency response team members • police, fire and emergency services • peer support • recovery team

PUAWER005B Operate as part of an emergency control organisation

Modification History

Release	TP version	Comments
2	PUA12 V1	Layout adjusted. Application revised.
1	PUA00 V8.1	First release in TGA.

Unit Descriptor

This unit covers the competency required to implement the emergency response specified in the workplace emergency procedures or specified by a person at a higher level in the emergency control organisation.

People who undertake this work will be working within the command, control and coordinate structure of the emergency control organisation.

This unit has been developed to cover the broad range of emergencies and workplaces as considered in Australian Standard 3745-2010.

Application of the Unit

This unit applies to employees in the workplace within all industries and in all contexts.

This unit places responsibility on individual employees who are delegated responsibility as part of an emergency control organisation to participate in the preparation of workplace emergency procedures; alert and report potential workplace emergencies; evaluate the need to evacuate a work area; prepare for an evacuation; and assist people who may require assistance in accordance with workplace emergency procedures.

The knowledge and skills gained through the completion of this unit may be applied by employees across all industries.

Licensing/Regulatory Information

Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency.	Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Respond to emergency reports, signals and warnings	1.1 ***Emergency reports***, ***signals and warnings*** are identified and appropriate action is taken. 1.2 Emergency situations and possible further development are assessed and relevant action is taken according to workplace emergency procedures. 1.3 Arrangements are made for people who may require assistance. 1.4 ***Emergency stations*** are attended and operated according to workplace emergency procedures. 1.5 Suitable ***identification*** is worn according to workplace emergency procedures and relevant standards.
2. Initiate and control initial emergency response	2.1 ***Initial emergency response*** is initiated and carried out according to the workplace emergency procedures or authorised instruction. 2.2 Evacuated areas are checked according to workplace emergency procedures. 2.3 Results of the evacuation of an area are reported to the ***relevant person*** according to the workplace emergency procedures. 2.4 People are accounted for appropriately after the

© Commonwealth of Australia, 2022 SkillsIQ

ELEMENT	PERFORMANCE CRITERIA
	evacuation and the results are reported to the relevant person according to the workplace emergency procedures.
	2.5 Persons not accounted for are reported in accordance with workplace emergency procedures.
3. Anticipate the further development of emergencies	3.1 Emergency responses are based on the emergency management plan, taking into account the current situation and possible further development.
	3.2 Possible further development of emergency situations is continually assessed, reported to the relevant person and acted on according to workplace emergency procedures.
4. Assist with post initial response	4.1 Emergency evacuation or alternative action is completed before any ***post initial response activities*** are undertaken.
	4.2 Post initial response activities are conducted under the control of the relevant person and are consistent with the workplace emergency plan.

Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- ability to relate to a range of people from a range of cultural, linguistic, social and ethnic backgrounds, and a range of physical and intellectual abilities
- apply methods of accounting for people
- assist people who need assistance
- carry out a search pattern within an area
- communicate clearly by the means specified in the workplace emergency procedures
- contribute to emergency management planning
- exercise leadership within a workplace emergency context
- use equipment assigned to assist with implementing the workplace emergency procedures

Required Knowledge

- arrangements for evacuating people who need support
- assessing and anticipating the progress of emergencies that might reasonably be expected in the workplace
- command, control and coordinate function of the emergency control organisation

© Commonwealth of Australia, 2022 SkillsIQ

- context of own role within the workplace emergency procedures
- emergency assessment and reporting procedures
- emergency reporting signals, alarms, warnings and procedures
- emergency response and operating procedures
- members of the emergency control organisation and their roles and responsibilities
- evacuation priorities
- hazard identification
- precautions to be taken during emergencies and during an evacuation
- methods of accounting for people during and after emergencies
- methods of summoning first aid to occupants or visitor injured during an emergency evacuation
- need to keep the relevant person informed of the developing situation
- post initial response emergency activities
- responses to meet the various situations
- workplace procedures

Evidence Guide

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to respond to emergency reports, signals and warnings appropriately; to supply clear directions under emergency conditions; to make decisions appropriate to the situation; to keep others appropriately informed; to respond according to the workplace emergency procedures; and to take on a leadership role consistent with the emergency control organisation.

Consistency in performance

Competency should be demonstrated over time with a range of emergencies that could be expected in the workplace.

Context of and specific resources for assessment

Context of assessment

Competency should be assessed in the workplace or in a simulated workplace.

Specific resources for assessment

Access to scenarios that reflect a range of emergency situations that may be expected in the workplace.

Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the Performance Criteria is detailed below.

Emergency reports, signals and warnings may include:

- audible/visual alarms
- audible or vibrating pagers
- coded or uncoded public address announcements
- e-mail
- screen alerts
- stench alarms
- verbal alert

People who may require assistance may include:

- babies and children
- people with a mobility, intellectual, visual, auditory or sensory impairment, either temporary or permanent, who require assistance during an emergency response
- people from diverse cultural and linguistic backgrounds
- people who are injured
- people who are not able to comprehend the instructions given
- pregnant women
- the elderly

Emergency stations may include:

- assembly or marshalling points
- designated telephone or intercom
- designated muster points
- emergency control point
- master emergency control point
- warden's inter-communication point (WIP) phones

Identification may include:

- armbands
- helmets, caps, hats
- uniforms
- tabards, vests or other distinguishing/distinctive clothing

Initial emergency response may include:

- to evacuate
- not to evacuate
- to partially evacuate
- advice or requests for emergency services
- alternative evacuation
- lateral evacuation
- any guidance from emergency response team

© Commonwealth of Australia, 2022 SkillsIQ

	• designated assembly area • evacuation routes and destination • not to re-enter the evacuated area until directed by emergency personnel • shelter in place/lockdown • relocating or providing welfare services for evacuated persons • restricting entry to danger areas • searching floors or areas • supplying emergency equipment • use of response equipment
Relevant person may include:	• emergency control organisation members • emergency services personnel • people with overall evacuation control responsibility or a person delegated with this responsibility • police, fire and emergency services
Post initial response activities may include:	• assisting with recovery activities • assisting with authorised restoration of normal activity • participating in debriefing • providing advice • requests for emergency services or specialist response team • relocating or providing welfare services for evacuated persons • restricting entry to danger areas • security • supplying emergency equipment • checking the welfare of evacuees

PUAWER008B Confine small workplace emergencies

Modification History

Release	TP version	Comments
2	PUA12 V1	Layout adjusted. Application and Range Statement revised.
1	PUA00 V8.1	First release in TGA.

Unit Descriptor

This unit covers the competency required to confine small workplace emergencies.

Small workplace emergencies may include such incidents as a small fire that can be controlled using a nearby fire extinguisher; or a chemical spill that can be controlled using workplace personal protective clothing and equipment, and a small spill kit; or a workplace vehicle accident where there is no significant injury or damage.

All aspects of the unit must be undertaken in line with legislative requirements, workplace policies and procedures, and accepted safe practices.

This unit has been developed to cover the broad range of emergencies and workplaces as considered in Australian Standard 3745-2010.

This unit does not cover the competency required for first aid; there are other units that cover first aid competence such as PUAEME001B Provide emergency care..

Application of the Unit

This unit applies to employees in the workplace within all industries and in all contexts.

This unit places responsibility on individual employees in the workplace to identify, assess and safely confine workplace emergency situations. This requirement is consistent with the legislative obligations of employees as prescribed in OHS legislation. The unit may also be used for planning for future operations in the workplace.

The knowledge and skills gained through the completion of this unit may be applied by all employees across all industries.

Licensing/Regulatory Information

Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency.	Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Prepare for emergency situations	1.1 Possible workplace emergency situations and appropriate responses, within the range of current skills and relevant workplace emergency procedures, are identified. 1.2 Relevant ***emergency resources*** are identified and their location is ascertained in the work area. 1.3 Any problems with the serviceability of the emergency resources are identified and reported to relevant people in accordance with workplace procedures.
2. Identify and assess the emergency	2.1 Emergency situation or potential emergency situation and risks are identified and the likely effectiveness of initial response action is considered. 2.2 Advice in relation to emergency situation is sought according to workplace emergency procedures. 2.3 Where ***initial response actions*** are considered unsafe or inappropriate, action is taken according to workplace emergency procedures.
3. Safely confine emergencies where	3.1 Emergencies are confined to the immediate area according to workplace emergency procedures.

© Commonwealth of Australia, 2022 SkillsIQ

ELEMENT	PERFORMANCE CRITERIA
possible	3.2 Emergency resources are used within the individual's limitations imposed by current skills, relevant workplace procedures and relevant legislative requirements. 3.3 Emergency resources used to confine emergency situation are used in a manner that will promote and enhance safe work conditions.
4. Use initial response equipment	4.1 Initial response equipment is checked to ensure its serviceability prior to use. 4.2 Appropriate equipment is selected for use in emergency situations. 4.3 Initial response equipment is used according to accepted safe practices and training. 4.4 Use of equipment is coordinated with other emergency actions.
5. Report workplace emergency response	5.1 Emergency situation response is documented and reported in accordance with workplace procedures. 5.2 Use of initial response equipment is documented and reported according to workplace procedures. 5.3 Initial response equipment is marked or positioned after use and reported to relevant personnel or authority to indicate if it requires servicing or replacing.

Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- communicate in an effective manner
- give and follow instructions
- implement workplace procedures
- re-stow initial response equipment
- risk management
- use initial response equipment
- manage a small workplace emergency

Required Knowledge

- actions to be followed when initial response action is not safe
- appropriate initial response equipment

© Commonwealth of Australia, 2022 SkillsIQ

- facilities that may be used to confine emergencies
- hazards involved with initial response action
- implications of the incorrect use of equipment
- limitations of initial response equipment
- limitations of use of emergency control equipment or facilities
- methods of extinguishment
- safe use of initial response equipment
- situations that must not be responded to because of the risk
- types of emergencies
- workplace procedures

Evidence Guide

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Assessment must confirm the ability to correctly identify the type of emergency that has occurred; to identify and take action to avoid or control any associated hazards; to use initial response equipment and techniques to safely and effectively control or contain the emergency. **Consistency in performance** Competency should be demonstrated over time with a range of emergencies that could be expected in the workplace using initial response equipment.
Context of and specific resources for assessment	**Context of assessment** Competency should be assessed in a simulated environment under conditions that safely replicate workplace emergency situations. **Specific resources for assessment** Access to scenarios that reflect a range of emergency situations that may be expected in the workplace.

Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the Performance Criteria is detailed below.

Emergency resources may	• personal access bar codes/swipe cards • barricades

© Commonwealth of Australia, 2022 SkillsIQ

include:

- communication systems
- fire protection equipment
- first-aid kits
- mechanical ventilation and air handling equipment
- personal protective equipment
- spill control kits
- surveillance equipment
- warning signs

Initial response action may include:

- activation of response team
- activation of suppression systems
- alerting others
- containing the emergency
- evacuating the area
- removing people from danger
- removing the emergency
- rendering basic aid as required
- shut down procedures
- use of containment systems
- use of portable fire extinguishers, fire blankets or hose reels

PUAWER009B Participate as a member of a workplace emergency initial response team

Modification History

Release	TP version	Comments
2	PUA12 V1	Layout adjusted. Application, PC, Required Knowledge and Range Statement revised.
1	PUA00 V8.1	First release in TGA.

Unit Descriptor

This unit covers the competency required to participate as a member of a workplace emergency initial response team. This team works in conjunction with the emergency control organisation in the control of workplace emergencies in their early stages prior to the arrival of emergency services or specialist response teams.

This unit has been developed to cover the broad range of emergencies and workplaces as considered in Australian Standard 3745-2010.

This unit does not cover the competency required for crisis management, recovery or restoration.

Application of the Unit

This unit applies to employees in the workplace within all industries and in all contexts.

This unit places responsibility on individual employees who are delegated responsibility as part of an initial response team to participate in the preparation of workplace emergency procedures and respond to workplace emergencies. This expectation will be included in appropriate position descriptions and duty statements.

The knowledge and skills gained through the completion of this unit may be applied by employees across all industries.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency.	Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where ***bold italicised*** text is used, further information is detailed in the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Prepare for workplace emergencies	1.1 ***Emergency equipment*** assigned for use by the initial response team is stored and maintained in a safe, accessible and serviceable state. 1.2 Current workplace emergency procedures to be used by employees are identified and accessed. 1.3 Risk assessment of initial response team activities is undertaken according to workplace procedures. 1.4 Initial response team training activities are undertaken according to workplace emergency procedures and relevant legislation.
2. Respond to workplace emergencies	2.1 Emergency is responded to according to workplace emergency procedures. 2.2 Emergency situation is assessed for hazards and appropriate precautions against those ***hazards*** are implemented. 2.3 Identified hazards are reported to people in danger and the initial response team leader. 2.4 An appropriate level or response is determined according to the status of the emergency. 2.5 Instructions from the initial response team leader are confirmed and implemented safely and promptly.

© Commonwealth of Australia, 2022 SkillsIQ

ELEMENT	PERFORMANCE CRITERIA
	2.6 Appropriate equipment is selected and operated according to workplace emergency procedures.
	2.7 Situation is contained to the extent necessary to prevent an escalation of the emergency and to enable emergency services and specialist response team activity to be completed safely.
3. Communicate with and complement other personnel	3.1 Effective communication with initial response team members and initial response team leader is constantly maintained.
	3.2 Activities are consistent with the initial response team leader's plan of action and support the work of other initial response team members.
	3.3 Activities support the actions of ***other initial response teams.***
	3.4 Any injuries, accidents or near misses involving team members are reported to the team leader.
4. Assist with recovery from workplace emergencies	4.1 Evidence relating to the cause, origin and progress of the emergency is preserved and recorded as far as possible.
	4.2 Appropriate assistance is provided in accordance with the workplace emergency procedures.
	4.3 Emergency equipment is returned to a state of readiness as soon as is reasonably practicable.
	4.4 Debriefings are attended and participated in as appropriate.

Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- access and use protective clothing and equipment safely and effectively under emergency conditions
- communication skills during emergencies
- care for protective clothing and equipment
- interpret and respond to alarm systems
- re-stow initial response equipment

Required Knowledge

- alarm systems and associated equipment

© Commonwealth of Australia, 2022 SkillsIQ

- appropriate personal protective clothing and equipment
- concept of dynamic risk assessment
- equipment operating characteristics, limitations, hazards, precautions, procedures and general care
- general emergency priorities and strategies
- hazard analysis
- hierarchy of control
- hazards and the precautions necessary during control activities
- procedures for responding to alarms
- survival, rescue and recovery procedures
- tactics for safely handling specific emergencies
- workplace emergency procedures

Evidence Guide

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to be prepared for a safe and prompt response to a workplace emergency; to identify hazards and implement appropriate precautions; to use equipment safely and effectively; and to work as a team member safely and effectively under the direction of a workplace emergency initial response team leader.

Consistency in performance

Competency should be demonstrated over time with a range of emergencies that could be expected in the workplace, including dealing with plausible contingencies.

Context of and specific resources for assessment

Context of assessment

Competency should be assessed in a simulated environment under conditions that safely replicate workplace emergency situations.

Specific resources for assessment

Access to:

- scenarios that reflect a range of emergency situations that may be expected in the workplace
- material safety data sheets
- workplace register of hazardous substances

© Commonwealth of Australia, 2022 SkillsIQ

Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the Performance Criteria is detailed below.

Emergency equipment may include:

- emergency vehicles, trailers, trolleys or caches
- fire protection equipment
- forcible entry tools
- life support equipment
- monitors (or turrets)
- monitoring equipment
- personal protective clothing and equipment
- rescue equipment
- spill or leak control kits

Hazards may include:

- chemical, biological, radiological
- climatic
- electrical
- environmental
- explosive
- fire
- mechanical
- psychological (e.g. critical incident stress)
- noise related
- security related
- storm/flood
- structural
- thermal
- wildlife related

Other initial response teams may include:

- damage control
- emergency control organisation
- fire team
- first aid
- maintenance
- security

SITXLAN3101 Conduct oral communication in a language other than English (Arabic)

Modification History

Not applicable.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct both predictable and non-routine, varied communications, transactions and interactions in a language other than English.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 3.

Application of the Unit

This unit applies to all industry contexts and individuals working in at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3101 Conduct oral communication in a language other than English (Arabic).

SITXLAN3101	(Arabic)
SITXLAN3102	(Indonesian)
SITXLAN3103	(Cantonese)

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Converse with others.	1.1 Use ***techniques*** to extend interactions with others. 1.2 Seek and offer additional information and assistance to support quality of communication and service. 1.3 Support communication with comments on topical familiar matters, workplace business and events. 1.4 Use non-verbal communication to convey an acceptance of and sensitivity towards others.
2. Provide detailed information and advice.	2.1 Identify need for ***detailed information and advice***. 2.2 Convey detailed information and advice using narrative and descriptive statements. 2.3 Repeat, paraphrase and clarify communications to avoid misunderstanding and to explain difficult points. 2.4 Use ***workplace documents***, ***materials and other references*** to support explanations as required.
3. Respond to unpredictable situations and problems.	3.1 Provide appropriate advice in response to requests, ***unpredictable situations and problems***. 3.2 Identify need for and seek assistance from others to better respond to the situation or problem. 3.3 Identify key facts of problems and facilitate solutions through open communication with relevant people. 3.4 Provide explanations of problems and their cause, and elaborate on detail. 3.5 Respond to conflict and complaints with sensitivity, following appropriate social and cultural conventions. 3.6 Convey appropriate apologies and expressions of regret as

© Commonwealth of Australia, 2022 SkillsIQ

	required.
4. Conduct negotiations at a functional level.	4.1 Facilitate ***negotiations at a functional level*** through exchange of key information and agreement on details. 4.2 Provide appropriate explanations about products and services. 4.3 Achieve mutual understanding and agreement.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a Language other than English to:
  - interact positively and courteously in non-routine and varied interactive workplace communications
  - establish rapport
  - provide detailed information and advice
  - solve problems and conflicts
  - conduct negotiations at a functional level.

Required knowledge

- social and cultural conventions relevant to the language being assessed, including:
  - knowledge and some consistent use of forms of address
  - recognition and consideration of customs, protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support effective negotiation and interaction in the language being assessed.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

© Commonwealth of Australia, 2022 SkillsIQ

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- conduct workplace oral communication in a language other than English:
  - use narrative and descriptive statements
  - use repetition, clarification and paraphrasing techniques to clarify requirements, answer questions about products and services, solve problems and conflict and reassure others
  - provide detailed information and specialised assistance in area of work activity
  - conduct product and service transactions
  - use a range of effective non-verbal communication skills.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity for which communication in languages other than English is required
- other people with whom the individual can interact in the relevant language
- resources that support communication in languages other than English:
  - dictionaries and phrase books
  - language mats
  - industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- oral assessment of conversational language use
- direct observation of the individual communicating in a language other than English while undertaking typical workplace activities
- review of workplace documents prepared by the individual to assist verbal communication
- written or oral questioning to assess knowledge of language requirements, cultural conventions and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to

© Commonwealth of Australia, 2022 SkillsIQ

assessment	the industry sector, workplace and job role, for example: • SITHFAB309 Provide advice on food • SITTTSL303 Sell tourism products and services • SITTTSL305 Process reservations • SITXCOM401 Manage conflict.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Techniques may include:	• initiating conversations about topical matters • making offers of additional assistance • questioning about needs and preferences.
Detailed information and advice may relate to:	• external products and services • internal products and services • medical and emergency information.

Workplace documents, materials and other references may include:	• general information
	• product-specific information:
	  • booking conditions
	  • brochures
	  • menus
	  • price lists
	  • timetables.

Unpredictable situations and problems may relate to:	• complaints
	• emergency situations
	• cross-cultural misunderstandings
	• operational details:
	  • delays
	  • equipment malfunction
	  • lost luggage and stolen property
	  • lost people
	  • variations
	• safety issues.

Negotiations at a functional level may relate to	• accommodation

	required.
4. Conduct negotiations at a functional level.	4.1 Facilitate ***negotiations at a functional level*** through exchange of key information and agreement on details. 4.2 Provide appropriate explanations about products and services. 4.3 Achieve mutual understanding and agreement.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a Language other than English to:
  - interact positively and courteously in non-routine and varied interactive workplace communications
  - establish rapport
  - provide detailed information and advice
  - solve problems and conflicts
  - conduct negotiations at a functional level.

Required knowledge

- social and cultural conventions relevant to the language being assessed, including:
  - knowledge and some consistent use of forms of address
  - recognition and consideration of customs, protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support effective negotiation and interaction in the language being assessed.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

© Commonwealth of Australia, 2022 SkillsIQ

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- conduct workplace oral communication in a language other than English:
  - use narrative and descriptive statements
  - use repetition, clarification and paraphrasing techniques to clarify requirements, answer questions about products and services, solve problems and conflict and reassure others
  - provide detailed information and specialised assistance in area of work activity
  - conduct product and service transactions
  - use a range of effective non-verbal communication skills.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity for which communication in languages other than English is required
- other people with whom the individual can interact in the relevant language
- resources that support communication in languages other than English:
  - dictionaries and phrase books
  - language mats
  - industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- oral assessment of conversational language use
- direct observation of the individual communicating in a language other than English while undertaking typical workplace activities
- review of workplace documents prepared by the individual to assist verbal communication
- written or oral questioning to assess knowledge of language requirements, cultural conventions and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to

assessment	the industry sector, workplace and job role, for example: • SITHFAB309 Provide advice on food • SITTTSL303 Sell tourism products and services • SITTTSL305 Process reservations • SITXCOM401 Manage conflict.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Techniques may include:	• initiating conversations about topical matters • making offers of additional assistance • questioning about needs and preferences.
Detailed information and advice may relate to:	• external products and services • internal products and services • medical and emergency information.

Workplace documents, materials and other references may include:	• general information
	• product-specific information:
	  • booking conditions
	  • brochures
	  • menus
	  • price lists
	  • timetables.

Unpredictable situations and problems may relate to:	• complaints
	• emergency situations
	• cross-cultural misunderstandings
	• operational details:
	  • delays
	  • equipment malfunction
	  • lost luggage and stolen property
	  • lost people
	  • variations
	• safety issues.

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Converse with others.	1.1 Use ***techniques*** to extend interactions with others. 1.2 Seek and offer additional information and assistance to support quality of communication and service. 1.3 Support communication with comments on topical familiar matters, workplace business and events. 1.4 Use non-verbal communication to convey an acceptance of and sensitivity towards others.
2. Provide detailed information and advice.	2.1 Identify need for ***detailed information and advice***. 2.2 Convey detailed information and advice using narrative and descriptive statements. 2.3 Repeat, paraphrase and clarify communications to avoid misunderstanding and to explain difficult points. 2.4 Use ***workplace documents***, ***materials and other references*** to support explanations as required.
3. Respond to unpredictable situations and problems.	3.1 Provide appropriate advice in response to requests, ***unpredictable situations and problems***. 3.2 Identify need for and seek assistance from others to better respond to the situation or problem. 3.3 Identify key facts of problems and facilitate solutions through open communication with relevant people. 3.4 Provide explanations of problems and their cause, and elaborate on detail. 3.5 Respond to conflict and complaints with sensitivity, following appropriate social and cultural conventions. 3.6 Convey appropriate apologies and expressions of regret as

© Commonwealth of Australia, 2022 SkillsIQ

	required.
4. Conduct negotiations at a functional level.	4.1 Facilitate ***negotiations at a functional level*** through exchange of key information and agreement on details. 4.2 Provide appropriate explanations about products and services. 4.3 Achieve mutual understanding and agreement.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a Language other than English to:
  - interact positively and courteously in non-routine and varied interactive workplace communications
  - establish rapport
  - provide detailed information and advice
  - solve problems and conflicts
  - conduct negotiations at a functional level.

Required knowledge

- social and cultural conventions relevant to the language being assessed, including:
  - knowledge and some consistent use of forms of address
  - recognition and consideration of customs, protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support effective negotiation and interaction in the language being assessed.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

© Commonwealth of Australia, 2022 SkillsIQ

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• conduct workplace oral communication in a language other than English:
	  • use narrative and descriptive statements
	  • use repetition, clarification and paraphrasing techniques to clarify requirements, answer questions about products and services, solve problems and conflict and reassure others
	  • provide detailed information and specialised assistance in area of work activity
	  • conduct product and service transactions
	  • use a range of effective non-verbal communication skills.

Context of and specific resources for assessment	Assessment must ensure use of:
	• a real or simulated workplace activity for which communication in languages other than English is required
	• other people with whom the individual can interact in the relevant language
	• resources that support communication in languages other than English:
	  • dictionaries and phrase books
	  • language mats
	  • industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • oral assessment of conversational language use • direct observation of the individual communicating in a language other than English while undertaking typical workplace activities • review of workplace documents prepared by the individual to assist verbal communication • written or oral questioning to assess knowledge of language requirements, cultural conventions and cross-cultural communication considerations • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.
Guidance information for	The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to

assessment	the industry sector, workplace and job role, for example: • SITHFAB309 Provide advice on food • SITTTSL303 Sell tourism products and services • SITTTSL305 Process reservations • SITXCOM401 Manage conflict.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Techniques may include:	• initiating conversations about topical matters • making offers of additional assistance • questioning about needs and preferences.
Detailed information and advice may relate to:	• external products and services • internal products and services • medical and emergency information.

Workplace documents, materials and other references may include:	• general information
	• product-specific information:
	  • booking conditions
	  • brochures
	  • menus
	  • price lists
	  • timetables.

Unpredictable situations and problems may relate to:	• complaints
	• emergency situations
	• cross-cultural misunderstandings
	• operational details:
	  • delays
	  • equipment malfunction
	  • lost luggage and stolen property
	  • lost people
	  • variations
	• safety issues.

Negotiations at a functional level may relate to	• accommodation

assessment	the industry sector, workplace and job role, for example: • SITHFAB309 Provide advice on food • SITTTSL303 Sell tourism products and services • SITTTSL305 Process reservations • SITXCOM401 Manage conflict.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Techniques may include:	• initiating conversations about topical matters • making offers of additional assistance • questioning about needs and preferences.
Detailed information and advice may relate to:	• external products and services • internal products and services • medical and emergency information.

Workplace documents, materials and other references may include:	• general information
	• product-specific information:
	  • booking conditions
	  • brochures
	  • menus
	  • price lists
	  • timetables.

Unpredictable situations and problems may relate to:	• complaints
	• emergency situations
	• cross-cultural misunderstandings
	• operational details:
	  • delays
	  • equipment malfunction
	  • lost luggage and stolen property
	  • lost people
	  • variations
	• safety issues.

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Converse with others.	1.1 Use ***techniques*** to extend interactions with others. 1.2 Seek and offer additional information and assistance to support quality of communication and service. 1.3 Support communication with comments on topical familiar matters, workplace business and events. 1.4 Use non-verbal communication to convey an acceptance of and sensitivity towards others.
2. Provide detailed information and advice.	2.1 Identify need for ***detailed information and advice***. 2.2 Convey detailed information and advice using narrative and descriptive statements. 2.3 Repeat, paraphrase and clarify communications to avoid misunderstanding and to explain difficult points. 2.4 Use ***workplace documents***, ***materials and other references*** to support explanations as required.
3. Respond to unpredictable situations and problems.	3.1 Provide appropriate advice in response to requests, ***unpredictable situations and problems***. 3.2 Identify need for and seek assistance from others to better respond to the situation or problem. 3.3 Identify key facts of problems and facilitate solutions through open communication with relevant people. 3.4 Provide explanations of problems and their cause, and elaborate on detail. 3.5 Respond to conflict and complaints with sensitivity, following appropriate social and cultural conventions. 3.6 Convey appropriate apologies and expressions of regret as

© Commonwealth of Australia, 2022 SkillsIQ

	required.
4. Conduct negotiations at a functional level.	4.1 Facilitate ***negotiations at a functional level*** through exchange of key information and agreement on details. 4.2 Provide appropriate explanations about products and services. 4.3 Achieve mutual understanding and agreement.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a Language other than English to:
  - interact positively and courteously in non-routine and varied interactive workplace communications
  - establish rapport
  - provide detailed information and advice
  - solve problems and conflicts
  - conduct negotiations at a functional level.

Required knowledge

- social and cultural conventions relevant to the language being assessed, including:
  - knowledge and some consistent use of forms of address
  - recognition and consideration of customs, protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support effective negotiation and interaction in the language being assessed.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

© Commonwealth of Australia, 2022 SkillsIQ

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• conduct workplace oral communication in a language other than English:
	  • use narrative and descriptive statements
	  • use repetition, clarification and paraphrasing techniques to clarify requirements, answer questions about products and services, solve problems and conflict and reassure others
	  • provide detailed information and specialised assistance in area of work activity
	  • conduct product and service transactions
	  • use a range of effective non-verbal communication skills.

Context of and specific resources for assessment	Assessment must ensure use of:
	• a real or simulated workplace activity for which communication in languages other than English is required
	• other people with whom the individual can interact in the relevant language
	• resources that support communication in languages other than English:
	  • dictionaries and phrase books
	  • language mats
	  • industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • oral assessment of conversational language use • direct observation of the individual communicating in a language other than English while undertaking typical workplace activities • review of workplace documents prepared by the individual to assist verbal communication • written or oral questioning to assess knowledge of language requirements, cultural conventions and cross-cultural communication considerations • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

	required.
4. Conduct negotiations at a functional level.	4.1 Facilitate ***negotiations at a functional level*** through exchange of key information and agreement on details. 4.2 Provide appropriate explanations about products and services. 4.3 Achieve mutual understanding and agreement.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a Language other than English to:
  - interact positively and courteously in non-routine and varied interactive workplace communications
  - establish rapport
  - provide detailed information and advice
  - solve problems and conflicts
  - conduct negotiations at a functional level.

Required knowledge

- social and cultural conventions relevant to the language being assessed, including:
  - knowledge and some consistent use of forms of address
  - recognition and consideration of customs, protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support effective negotiation and interaction in the language being assessed.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

© Commonwealth of Australia, 2022 SkillsIQ

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- conduct workplace oral communication in a language other than English:
  - use narrative and descriptive statements
  - use repetition, clarification and paraphrasing techniques to clarify requirements, answer questions about products and services, solve problems and conflict and reassure others
  - provide detailed information and specialised assistance in area of work activity
  - conduct product and service transactions
  - use a range of effective non-verbal communication skills.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity for which communication in languages other than English is required
- other people with whom the individual can interact in the relevant language
- resources that support communication in languages other than English:
  - dictionaries and phrase books
  - language mats
  - industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- oral assessment of conversational language use
- direct observation of the individual communicating in a language other than English while undertaking typical workplace activities
- review of workplace documents prepared by the individual to assist verbal communication
- written or oral questioning to assess knowledge of language requirements, cultural conventions and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to

assessment	the industry sector, workplace and job role, for example: • SITHFAB309 Provide advice on food • SITTTSL303 Sell tourism products and services • SITTTSL305 Process reservations • SITXCOM401 Manage conflict.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Techniques may include:	• initiating conversations about topical matters • making offers of additional assistance • questioning about needs and preferences.
Detailed information and advice may relate to:	• external products and services • internal products and services • medical and emergency information.

Workplace documents, materials and other references may include:	• general information
	• product-specific information:
	  • booking conditions
	  • brochures
	  • menus
	  • price lists
	  • timetables.

Unpredictable situations and problems may relate to:	• complaints
	• emergency situations
	• cross-cultural misunderstandings
	• operational details:
	  • delays
	  • equipment malfunction
	  • lost luggage and stolen property
	  • lost people
	  • variations
	• safety issues.

Negotiations at a functional level may relate to	• accommodation

SITXLAN3114 Conduct oral communication in a language other than English (Malay)

Modification History

Not applicable.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct both predictable and non-routine, varied communications, transactions and interactions in a language other than English.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 3.

Application of the Unit

This unit applies to all industry contexts and individuals working in at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3101 Conduct oral communication in a language other than English (Arabic).

SITXLAN3101	(Arabic)
SITXLAN3102	(Indonesian)
SITXLAN3103	(Cantonese)

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct both predictable and non-routine, varied communications, transactions and interactions in a language other than English.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 3.

Application of the Unit

This unit applies to all industry contexts and individuals working in at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3101 Conduct oral communication in a language other than English (Arabic).

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Converse with others.	1.1 Use ***techniques*** to extend interactions with others. 1.2 Seek and offer additional information and assistance to support quality of communication and service. 1.3 Support communication with comments on topical familiar matters, workplace business and events. 1.4 Use non-verbal communication to convey an acceptance of and sensitivity towards others.
2. Provide detailed information and advice.	2.1 Identify need for ***detailed information and advice***. 2.2 Convey detailed information and advice using narrative and descriptive statements. 2.3 Repeat, paraphrase and clarify communications to avoid misunderstanding and to explain difficult points. 2.4 Use ***workplace documents***, ***materials and other references*** to support explanations as required.
3. Respond to unpredictable situations and problems.	3.1 Provide appropriate advice in response to requests, ***unpredictable situations and problems***. 3.2 Identify need for and seek assistance from others to better respond to the situation or problem. 3.3 Identify key facts of problems and facilitate solutions through open communication with relevant people. 3.4 Provide explanations of problems and their cause, and elaborate on detail. 3.5 Respond to conflict and complaints with sensitivity, following appropriate social and cultural conventions. 3.6 Convey appropriate apologies and expressions of regret as

© Commonwealth of Australia, 2022 SkillsIQ

	required.
4. Conduct negotiations at a functional level.	4.1 Facilitate ***negotiations at a functional level*** through exchange of key information and agreement on details. 4.2 Provide appropriate explanations about products and services. 4.3 Achieve mutual understanding and agreement.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a Language other than English to:
  - interact positively and courteously in non-routine and varied interactive workplace communications
  - establish rapport
  - provide detailed information and advice
  - solve problems and conflicts
  - conduct negotiations at a functional level.

Required knowledge

- social and cultural conventions relevant to the language being assessed, including:
  - knowledge and some consistent use of forms of address
  - recognition and consideration of customs, protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support effective negotiation and interaction in the language being assessed.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

© Commonwealth of Australia, 2022 SkillsIQ

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- conduct workplace oral communication in a language other than English:
  - use narrative and descriptive statements
  - use repetition, clarification and paraphrasing techniques to clarify requirements, answer questions about products and services, solve problems and conflict and reassure others
  - provide detailed information and specialised assistance in area of work activity
  - conduct product and service transactions
  - use a range of effective non-verbal communication skills.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity for which communication in languages other than English is required
- other people with whom the individual can interact in the relevant language
- resources that support communication in languages other than English:
  - dictionaries and phrase books
  - language mats
  - industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- oral assessment of conversational language use
- direct observation of the individual communicating in a language other than English while undertaking typical workplace activities
- review of workplace documents prepared by the individual to assist verbal communication
- written or oral questioning to assess knowledge of language requirements, cultural conventions and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to

assessment	the industry sector, workplace and job role, for example: • SITHFAB309 Provide advice on food • SITTTSL303 Sell tourism products and services • SITTTSL305 Process reservations • SITXCOM401 Manage conflict.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Techniques may include:	• initiating conversations about topical matters • making offers of additional assistance • questioning about needs and preferences.
Detailed information and advice may relate to:	• external products and services • internal products and services • medical and emergency information.

Workplace documents, materials and other references may include:	• general information
	• product-specific information:
	  • booking conditions
	  • brochures
	  • menus
	  • price lists
	  • timetables.

Unpredictable situations and problems may relate to:	• complaints
	• emergency situations
	• cross-cultural misunderstandings
	• operational details:
	  • delays
	  • equipment malfunction
	  • lost luggage and stolen property
	  • lost people
	  • variations
	• safety issues.

Negotiations at a functional level may relate to	• accommodation

Context of and specific resources for assessment	Assessment must ensure use of:
	• a real or simulated workplace activity for which communication in languages other than English is required
	• other people with whom the individual can interact in the relevant language
	• resources that support communication in languages other than English:
	  • dictionaries and phrase books
	  • language mats
	  • industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • oral assessment of conversational language use • direct observation of the individual communicating in a language other than English while undertaking typical workplace activities • review of workplace documents prepared by the individual to assist verbal communication • written or oral questioning to assess knowledge of language requirements, cultural conventions and cross-cultural communication considerations • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.
Guidance information for	The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to

assessment	the industry sector, workplace and job role, for example: • SITHFAB309 Provide advice on food • SITTTSL303 Sell tourism products and services • SITTTSL305 Process reservations • SITXCOM401 Manage conflict.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Techniques may include:	• initiating conversations about topical matters • making offers of additional assistance • questioning about needs and preferences.
Detailed information and advice may relate to:	• external products and services • internal products and services • medical and emergency information.

Workplace documents, materials and other references may include:	• general information
	• product-specific information:
	  • booking conditions
	  • brochures
	  • menus
	  • price lists
	  • timetables.

Unpredictable situations and problems may relate to:	• complaints
	• emergency situations
	• cross-cultural misunderstandings
	• operational details:
	  • delays
	  • equipment malfunction
	  • lost luggage and stolen property
	  • lost people
	  • variations
	• safety issues.

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Converse with others.	1.1 Use ***techniques*** to extend interactions with others. 1.2 Seek and offer additional information and assistance to support quality of communication and service. 1.3 Support communication with comments on topical familiar matters, workplace business and events. 1.4 Use non-verbal communication to convey an acceptance of and sensitivity towards others.
2. Provide detailed information and advice.	2.1 Identify need for ***detailed information and advice***. 2.2 Convey detailed information and advice using narrative and descriptive statements. 2.3 Repeat, paraphrase and clarify communications to avoid misunderstanding and to explain difficult points. 2.4 Use ***workplace documents***, ***materials and other references*** to support explanations as required.
3. Respond to unpredictable situations and problems.	3.1 Provide appropriate advice in response to requests, ***unpredictable situations and problems***. 3.2 Identify need for and seek assistance from others to better respond to the situation or problem. 3.3 Identify key facts of problems and facilitate solutions through open communication with relevant people. 3.4 Provide explanations of problems and their cause, and elaborate on detail. 3.5 Respond to conflict and complaints with sensitivity, following appropriate social and cultural conventions. 3.6 Convey appropriate apologies and expressions of regret as

© Commonwealth of Australia, 2022 SkillsIQ

	required.
4. Conduct negotiations at a functional level.	4.1 Facilitate ***negotiations at a functional level*** through exchange of key information and agreement on details. 4.2 Provide appropriate explanations about products and services. 4.3 Achieve mutual understanding and agreement.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a Language other than English to:
  - interact positively and courteously in non-routine and varied interactive workplace communications
  - establish rapport
  - provide detailed information and advice
  - solve problems and conflicts
  - conduct negotiations at a functional level.

Required knowledge

- social and cultural conventions relevant to the language being assessed, including:
  - knowledge and some consistent use of forms of address
  - recognition and consideration of customs, protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support effective negotiation and interaction in the language being assessed.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

© Commonwealth of Australia, 2022 SkillsIQ

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• conduct workplace oral communication in a language other than English:
	  • use narrative and descriptive statements
	  • use repetition, clarification and paraphrasing techniques to clarify requirements, answer questions about products and services, solve problems and conflict and reassure others
	  • provide detailed information and specialised assistance in area of work activity
	  • conduct product and service transactions
	  • use a range of effective non-verbal communication skills.

Context of and specific resources for assessment	Assessment must ensure use of:
	• a real or simulated workplace activity for which communication in languages other than English is required
	• other people with whom the individual can interact in the relevant language
	• resources that support communication in languages other than English:
	  • dictionaries and phrase books
	  • language mats
	  • industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • oral assessment of conversational language use • direct observation of the individual communicating in a language other than English while undertaking typical workplace activities • review of workplace documents prepared by the individual to assist verbal communication • written or oral questioning to assess knowledge of language requirements, cultural conventions and cross-cultural communication considerations • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

	required.
4. Conduct negotiations at a functional level.	4.1 Facilitate ***negotiations at a functional level*** through exchange of key information and agreement on details. 4.2 Provide appropriate explanations about products and services. 4.3 Achieve mutual understanding and agreement.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a Language other than English to:
  - interact positively and courteously in non-routine and varied interactive workplace communications
  - establish rapport
  - provide detailed information and advice
  - solve problems and conflicts
  - conduct negotiations at a functional level.

Required knowledge

- social and cultural conventions relevant to the language being assessed, including:
  - knowledge and some consistent use of forms of address
  - recognition and consideration of customs, protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support effective negotiation and interaction in the language being assessed.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

© Commonwealth of Australia, 2022 SkillsIQ

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• conduct workplace oral communication in a language other than English:
	  • use narrative and descriptive statements
	  • use repetition, clarification and paraphrasing techniques to clarify requirements, answer questions about products and services, solve problems and conflict and reassure others
	  • provide detailed information and specialised assistance in area of work activity
	  • conduct product and service transactions
	  • use a range of effective non-verbal communication skills.

Context of and specific resources for assessment	Assessment must ensure use of:
	• a real or simulated workplace activity for which communication in languages other than English is required
	• other people with whom the individual can interact in the relevant language
	• resources that support communication in languages other than English:
	  • dictionaries and phrase books
	  • language mats
	  • industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • oral assessment of conversational language use • direct observation of the individual communicating in a language other than English while undertaking typical workplace activities • review of workplace documents prepared by the individual to assist verbal communication • written or oral questioning to assess knowledge of language requirements, cultural conventions and cross-cultural communication considerations • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.
Guidance information for	The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to

assessment	the industry sector, workplace and job role, for example: • SITHFAB309 Provide advice on food • SITTTSL303 Sell tourism products and services • SITTTSL305 Process reservations • SITXCOM401 Manage conflict.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Techniques may include:	• initiating conversations about topical matters • making offers of additional assistance • questioning about needs and preferences.
Detailed information and advice may relate to:	• external products and services • internal products and services • medical and emergency information.

Workplace documents, materials and other references may include:	• general information
	• product-specific information:
	  • booking conditions
	  • brochures
	  • menus
	  • price lists
	  • timetables.

Unpredictable situations and problems may relate to:	• complaints
	• emergency situations
	• cross-cultural misunderstandings
	• operational details:
	  • delays
	  • equipment malfunction
	  • lost luggage and stolen property
	  • lost people
	  • variations
	• safety issues.

Negotiations at a functional level may relate to	• accommodation

Modification History

Not applicable.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct both predictable and non-routine, varied communications, transactions and interactions in a language other than English.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 3.

Application of the Unit

This unit applies to all industry contexts and individuals working in at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3101 Conduct oral communication in a language other than English (Arabic).

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct both predictable and non-routine, varied communications, transactions and interactions in a language other than English.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 3.

Application of the Unit

This unit applies to all industry contexts and individuals working in at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3101 Conduct oral communication in a language other than English (Arabic).

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Converse with others.	1.1 Use ***techniques*** to extend interactions with others. 1.2 Seek and offer additional information and assistance to support quality of communication and service. 1.3 Support communication with comments on topical familiar matters, workplace business and events. 1.4 Use non-verbal communication to convey an acceptance of and sensitivity towards others.
2. Provide detailed information and advice.	2.1 Identify need for ***detailed information and advice***. 2.2 Convey detailed information and advice using narrative and descriptive statements. 2.3 Repeat, paraphrase and clarify communications to avoid misunderstanding and to explain difficult points. 2.4 Use ***workplace documents***, ***materials and other references*** to support explanations as required.
3. Respond to unpredictable situations and problems.	3.1 Provide appropriate advice in response to requests, ***unpredictable situations and problems***. 3.2 Identify need for and seek assistance from others to better respond to the situation or problem. 3.3 Identify key facts of problems and facilitate solutions through open communication with relevant people. 3.4 Provide explanations of problems and their cause, and elaborate on detail. 3.5 Respond to conflict and complaints with sensitivity, following appropriate social and cultural conventions. 3.6 Convey appropriate apologies and expressions of regret as

	required.
4. Conduct negotiations at a functional level.	4.1 Facilitate ***negotiations at a functional level*** through exchange of key information and agreement on details. 4.2 Provide appropriate explanations about products and services. 4.3 Achieve mutual understanding and agreement.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a Language other than English to:
  - interact positively and courteously in non-routine and varied interactive workplace communications
  - establish rapport
  - provide detailed information and advice
  - solve problems and conflicts
  - conduct negotiations at a functional level.

Required knowledge

- social and cultural conventions relevant to the language being assessed, including:
  - knowledge and some consistent use of forms of address
  - recognition and consideration of customs, protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support effective negotiation and interaction in the language being assessed.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

© Commonwealth of Australia, 2022 SkillsIQ

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• conduct workplace oral communication in a language other than English:
	  • use narrative and descriptive statements
	  • use repetition, clarification and paraphrasing techniques to clarify requirements, answer questions about products and services, solve problems and conflict and reassure others
	  • provide detailed information and specialised assistance in area of work activity
	  • conduct product and service transactions
	  • use a range of effective non-verbal communication skills.

Context of and specific resources for assessment	Assessment must ensure use of:
	• a real or simulated workplace activity for which communication in languages other than English is required
	• other people with whom the individual can interact in the relevant language
	• resources that support communication in languages other than English:
	  • dictionaries and phrase books
	  • language mats
	  • industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • oral assessment of conversational language use • direct observation of the individual communicating in a language other than English while undertaking typical workplace activities • review of workplace documents prepared by the individual to assist verbal communication • written or oral questioning to assess knowledge of language requirements, cultural conventions and cross-cultural communication considerations • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.
Guidance information for	The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to

© Commonwealth of Australia, 2022 SkillsIQ

assessment	the industry sector, workplace and job role, for example: • SITHFAB309 Provide advice on food • SITTTSL303 Sell tourism products and services • SITTTSL305 Process reservations • SITXCOM401 Manage conflict.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Techniques may include:	• initiating conversations about topical matters • making offers of additional assistance • questioning about needs and preferences.
Detailed information and advice may relate to:	• external products and services • internal products and services • medical and emergency information.

Workplace documents, materials and other references may include:	• general information
	• product-specific information:
	  • booking conditions
	  • brochures
	  • menus
	  • price lists
	  • timetables.

Unpredictable situations and problems may relate to:	• complaints
	• emergency situations
	• cross-cultural misunderstandings
	• operational details:
	  • delays
	  • equipment malfunction
	  • lost luggage and stolen property
	  • lost people
	  • variations
	• safety issues.

Negotiations at a functional level may relate to	• accommodation

SITXLAN3201 Conduct complex oral communication in a language other than English (Arabic)

Modification History

Not applicable.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct complex, creative, routine and non-routine communication in a language other than English. This involves very fluent listening and speaking skills at a high level of complexity to conduct negotiations, make presentations, provide oral summaries in the workplace and participate in social and cultural activities.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 4 to 4+.

Application of the Unit

This unit applies to all industry contexts and individuals working in at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3212 Conduct complex oral communication in a language other than English (Japanese).

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Conduct negotiations.	1.1 Establish rapport by using appropriate courtesy protocols, establishing common ground and observing social, cultural and business conventions. 1.2 Provide explanations, information and supporting details relevant to negotiations. 1.3 Use an appropriate range of language functions for negotiations, including introducing formal talk, using turn taking skills, and agreeing and disagreeing tentatively. 1.4 Use appropriate intonation, voice tone and signalling expressions effectively. 1.5 Exchange and agree to information about the subject of the negotiation.
2. Deliver presentations.	2.1 Deliver ***presentations*** in a style that supports its objective and takes account of audience characteristics, occasion and venue. 2.2 Present information in a logical and concise manner using appropriate sequencing and linguistic linking. 2.3 Support presentations with relevant ***public speaking techniques***.
3. Participate in social and cultural	3.1 Use language and language functions appropriate to varied ***social and cultural activities***.

© Commonwealth of Australia, 2022 SkillsIQ

activities.	3.2 Adapt and modify communication strategies and language functions as required.
4. Provide summaries of oral communication.	4.1 Recognise situations when the services of a professional interpreter are required, and arrange for assistance. 4.2 Convey the purpose and meaning of the original utterance. 4.3 Make appropriate comments between parties to check and clarify meaning. 4.4 Use communication strategies and language functions that support immediate communication.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a language other than English to:
  - establish and maintain rapport
  - conduct negotiations
  - provide oral summaries that support immediate communication
  - make presentations and use public speaking techniques
  - participate effectively in social, cultural and workplace activities.

Required knowledge

- social, cultural and business conventions relevant to the language being assessed, including:
  - colloquialisms
  - customs
  - dialect
  - forms of address
  - idiom
  - language conventions
  - protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support fluent and unhindered communication in the language being assessed
- technical vocabulary required to support specific workplace activities.

© Commonwealth of Australia, 2022 SkillsIQ

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- conduct complex workplace oral communications in a language other than English (rare linguistic errors may occur):
  - establish and maintain rapport during extended interactions, including social activities
  - make presentations to groups of people
  - conduct business negotiations
  - use narrative and descriptive statements
  - use repetition, clarification and paraphrasing techniques to clarify requirements ,solve problems and conflict and reassure others
  - provide detailed information and advice in area of work activity
  - use extended non-verbal communication skills effectively.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity for which communication in languages other than English is required
- other people with whom the individual can interact in the relevant language
- resources that support communication in languages other than English:
  - dictionaries and phrase books
  - industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- oral assessment of conversational language use direct observation of the individual communicating in a language other than English
- use of role play activities that simulate simultaneous language use and customer service activity

© Commonwealth of Australia, 2022 SkillsIQ

- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- BSBCMM401A Make a presentation
- SITTGDE303 Lead tour groups
- SITTGDE304 Prepare and present tour commentaries or activities
- SITXMGT501 Establish and conduct business relationships.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Presentations may include:

- guiding or interpretive activities
- instructing and training
- presentations at conferences
- promotional activities
- providing complex information on products and services
- sales presentations.

Public speaking techniques may include:

- audience participation
- demonstrations and visual aids
- humour
- non-verbal communication.

Social and cultural activities may include:

- accompanying people to dinner
- conference activities
- meetings
- professional development activities
- tours
- trade fairs.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity for which communication in languages other than English is required
- other people with whom the individual can interact in the relevant language
- resources that support communication in languages other than English:
  - dictionaries and phrase books
  - industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- oral assessment of conversational language use direct observation of the individual communicating in a language other than English
- use of role play activities that simulate simultaneous language use and customer service activity

© Commonwealth of Australia, 2022 SkillsIQ

- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- BSBCMM401A Make a presentation
- SITTGDE303 Lead tour groups
- SITTGDE304 Prepare and present tour commentaries or activities
- SITXMGT501 Establish and conduct business relationships.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Presentations may include:

- guiding or interpretive activities
- instructing and training
- presentations at conferences
- promotional activities
- providing complex information on products and services
- sales presentations.

Public speaking techniques may include:

- audience participation
- demonstrations and visual aids
- humour
- non-verbal communication.

Social and cultural activities may include:

- accompanying people to dinner
- conference activities
- meetings
- professional development activities
- tours
- trade fairs.

activities.	3.2 Adapt and modify communication strategies and language functions as required.
4. Provide summaries of oral communication.	4.1 Recognise situations when the services of a professional interpreter are required, and arrange for assistance. 4.2 Convey the purpose and meaning of the original utterance. 4.3 Make appropriate comments between parties to check and clarify meaning. 4.4 Use communication strategies and language functions that support immediate communication.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a language other than English to:
  - establish and maintain rapport
  - conduct negotiations
  - provide oral summaries that support immediate communication
  - make presentations and use public speaking techniques
  - participate effectively in social, cultural and workplace activities.

Required knowledge

- social, cultural and business conventions relevant to the language being assessed, including:
  - colloquialisms
  - customs
  - dialect
  - forms of address
  - idiom
  - language conventions
  - protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support fluent and unhindered communication in the language being assessed
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• conduct complex workplace oral communications in a language other than English (rare linguistic errors may occur):
	  • establish and maintain rapport during extended interactions, including social activities
	  • make presentations to groups of people
	  • conduct business negotiations
	  • use narrative and descriptive statements
	  • use repetition, clarification and paraphrasing techniques to clarify requirements ,solve problems and conflict and reassure others
	  • provide detailed information and advice in area of work activity
	  • use extended non-verbal communication skills effectively.

Context of and specific resources for assessment	Assessment must ensure use of:
	• a real or simulated workplace activity for which communication in languages other than English is required
	• other people with whom the individual can interact in the relevant language
	• resources that support communication in languages other than English:
	  • dictionaries and phrase books
	  • industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • oral assessment of conversational language use direct observation of the individual communicating in a language other than English • use of role play activities that simulate simultaneous language use and customer service activity

activities.	3.2 Adapt and modify communication strategies and language functions as required.
4. Provide summaries of oral communication.	4.1 Recognise situations when the services of a professional interpreter are required, and arrange for assistance. 4.2 Convey the purpose and meaning of the original utterance. 4.3 Make appropriate comments between parties to check and clarify meaning. 4.4 Use communication strategies and language functions that support immediate communication.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a language other than English to:
  - establish and maintain rapport
  - conduct negotiations
  - provide oral summaries that support immediate communication
  - make presentations and use public speaking techniques
  - participate effectively in social, cultural and workplace activities.

Required knowledge

- social, cultural and business conventions relevant to the language being assessed, including:
  - colloquialisms
  - customs
  - dialect
  - forms of address
  - idiom
  - language conventions
  - protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support fluent and unhindered communication in the language being assessed
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• conduct complex workplace oral communications in a language other than English (rare linguistic errors may occur):
	  • establish and maintain rapport during extended interactions, including social activities
	  • make presentations to groups of people
	  • conduct business negotiations
	  • use narrative and descriptive statements
	  • use repetition, clarification and paraphrasing techniques to clarify requirements ,solve problems and conflict and reassure others
	  • provide detailed information and advice in area of work activity
	  • use extended non-verbal communication skills effectively.

Context of and specific resources for assessment	Assessment must ensure use of:
	• a real or simulated workplace activity for which communication in languages other than English is required
	• other people with whom the individual can interact in the relevant language
	• resources that support communication in languages other than English:
	  • dictionaries and phrase books
	  • industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • oral assessment of conversational language use direct observation of the individual communicating in a language other than English • use of role play activities that simulate simultaneous language use and customer service activity

© Commonwealth of Australia, 2022 SkillsIQ

- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- BSBCMM401A Make a presentation
- SITTGDE303 Lead tour groups
- SITTGDE304 Prepare and present tour commentaries or activities
- SITXMGT501 Establish and conduct business relationships.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Presentations may include:

- guiding or interpretive activities
- instructing and training
- presentations at conferences
- promotional activities
- providing complex information on products and services
- sales presentations.

Public speaking techniques may include:

- audience participation
- demonstrations and visual aids
- humour
- non-verbal communication.

Social and cultural activities may include:

- accompanying people to dinner
- conference activities
- meetings
- professional development activities
- tours
- trade fairs.

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Conduct negotiations.	1.1 Establish rapport by using appropriate courtesy protocols, establishing common ground and observing social, cultural and business conventions. 1.2 Provide explanations, information and supporting details relevant to negotiations. 1.3 Use an appropriate range of language functions for negotiations, including introducing formal talk, using turn taking skills, and agreeing and disagreeing tentatively. 1.4 Use appropriate intonation, voice tone and signalling expressions effectively. 1.5 Exchange and agree to information about the subject of the negotiation.
2. Deliver presentations.	2.1 Deliver ***presentations*** in a style that supports its objective and takes account of audience characteristics, occasion and venue. 2.2 Present information in a logical and concise manner using appropriate sequencing and linguistic linking. 2.3 Support presentations with relevant ***public speaking techniques***.
3. Participate in social and cultural	3.1 Use language and language functions appropriate to varied ***social and cultural activities***.

© Commonwealth of Australia, 2022 SkillsIQ

activities.	3.2 Adapt and modify communication strategies and language functions as required.
4. Provide summaries of oral communication.	4.1 Recognise situations when the services of a professional interpreter are required, and arrange for assistance. 4.2 Convey the purpose and meaning of the original utterance. 4.3 Make appropriate comments between parties to check and clarify meaning. 4.4 Use communication strategies and language functions that support immediate communication.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a language other than English to:
  - establish and maintain rapport
  - conduct negotiations
  - provide oral summaries that support immediate communication
  - make presentations and use public speaking techniques
  - participate effectively in social, cultural and workplace activities.

Required knowledge

- social, cultural and business conventions relevant to the language being assessed, including:
  - colloquialisms
  - customs
  - dialect
  - forms of address
  - idiom
  - language conventions
  - protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support fluent and unhindered communication in the language being assessed
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• conduct complex workplace oral communications in a language other than English (rare linguistic errors may occur):
	  • establish and maintain rapport during extended interactions, including social activities
	  • make presentations to groups of people
	  • conduct business negotiations
	  • use narrative and descriptive statements
	  • use repetition, clarification and paraphrasing techniques to clarify requirements ,solve problems and conflict and reassure others
	  • provide detailed information and advice in area of work activity
	  • use extended non-verbal communication skills effectively.

Context of and specific resources for assessment	Assessment must ensure use of:
	• a real or simulated workplace activity for which communication in languages other than English is required
	• other people with whom the individual can interact in the relevant language
	• resources that support communication in languages other than English:
	  • dictionaries and phrase books
	  • industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • oral assessment of conversational language use direct observation of the individual communicating in a language other than English • use of role play activities that simulate simultaneous language use and customer service activity

© Commonwealth of Australia, 2022 SkillsIQ

- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- BSBCMM401A Make a presentation
- SITTGDE303 Lead tour groups
- SITTGDE304 Prepare and present tour commentaries or activities
- SITXMGT501 Establish and conduct business relationships.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Presentations may include:

- guiding or interpretive activities
- instructing and training
- presentations at conferences
- promotional activities
- providing complex information on products and services
- sales presentations.

Public speaking techniques may include:

- audience participation
- demonstrations and visual aids
- humour
- non-verbal communication.

Social and cultural activities may include:

- accompanying people to dinner
- conference activities
- meetings
- professional development activities
- tours
- trade fairs.

SITXLAN3211 Conduct complex oral communication in a language other than English (Italian)

Modification History

Not applicable.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct complex, creative, routine and non-routine communication in a language other than English. This involves very fluent listening and speaking skills at a high level of complexity to conduct negotiations, make presentations, provide oral summaries in the workplace and participate in social and cultural activities.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 4 to 4+.

Application of the Unit

This unit applies to all industry contexts and individuals working in at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3212 Conduct complex oral communication in a language other than English (Japanese).

SITXLAN3214 Conduct complex oral communication in a language other than English (Malay)

Modification History

Not applicable.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct complex, creative, routine and non-routine communication in a language other than English. This involves very fluent listening and speaking skills at a high level of complexity to conduct negotiations, make presentations, provide oral summaries in the workplace and participate in social and cultural activities.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 4 to 4+.

Application of the Unit

This unit applies to all industry contexts and individuals working in at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3212 Conduct complex oral communication in a language other than English (Japanese).

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Conduct negotiations.	1.1 Establish rapport by using appropriate courtesy protocols, establishing common ground and observing social, cultural and business conventions. 1.2 Provide explanations, information and supporting details relevant to negotiations. 1.3 Use an appropriate range of language functions for negotiations, including introducing formal talk, using turn taking skills, and agreeing and disagreeing tentatively. 1.4 Use appropriate intonation, voice tone and signalling expressions effectively. 1.5 Exchange and agree to information about the subject of the negotiation.
2. Deliver presentations.	2.1 Deliver ***presentations*** in a style that supports its objective and takes account of audience characteristics, occasion and venue. 2.2 Present information in a logical and concise manner using appropriate sequencing and linguistic linking. 2.3 Support presentations with relevant ***public speaking techniques***.
3. Participate in social and cultural	3.1 Use language and language functions appropriate to varied ***social and cultural activities***.

© Commonwealth of Australia, 2022 SkillsIQ

activities.	3.2 Adapt and modify communication strategies and language functions as required.
4. Provide summaries of oral communication.	4.1 Recognise situations when the services of a professional interpreter are required, and arrange for assistance. 4.2 Convey the purpose and meaning of the original utterance. 4.3 Make appropriate comments between parties to check and clarify meaning. 4.4 Use communication strategies and language functions that support immediate communication.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a language other than English to:
  - establish and maintain rapport
  - conduct negotiations
  - provide oral summaries that support immediate communication
  - make presentations and use public speaking techniques
  - participate effectively in social, cultural and workplace activities.

Required knowledge

- social, cultural and business conventions relevant to the language being assessed, including:
  - colloquialisms
  - customs
  - dialect
  - forms of address
  - idiom
  - language conventions
  - protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support fluent and unhindered communication in the language being assessed
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• conduct complex workplace oral communications in a language other than English (rare linguistic errors may occur):
	  • establish and maintain rapport during extended interactions, including social activities
	  • make presentations to groups of people
	  • conduct business negotiations
	  • use narrative and descriptive statements
	  • use repetition, clarification and paraphrasing techniques to clarify requirements ,solve problems and conflict and reassure others
	  • provide detailed information and advice in area of work activity
	  • use extended non-verbal communication skills effectively.

Context of and specific resources for assessment	Assessment must ensure use of:
	• a real or simulated workplace activity for which communication in languages other than English is required
	• other people with whom the individual can interact in the relevant language
	• resources that support communication in languages other than English:
	  • dictionaries and phrase books
	  • industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • oral assessment of conversational language use direct observation of the individual communicating in a language other than English • use of role play activities that simulate simultaneous language use and customer service activity

© Commonwealth of Australia, 2022 SkillsIQ

- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- BSBCMM401A Make a presentation
- SITTGDE303 Lead tour groups
- SITTGDE304 Prepare and present tour commentaries or activities
- SITXMGT501 Establish and conduct business relationships.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Presentations may include:

- guiding or interpretive activities
- instructing and training
- presentations at conferences
- promotional activities
- providing complex information on products and services
- sales presentations.

Public speaking techniques may include:

- audience participation
- demonstrations and visual aids
- humour
- non-verbal communication.

Social and cultural activities may include:

- accompanying people to dinner
- conference activities
- meetings
- professional development activities
- tours
- trade fairs.

- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- BSBCMM401A Make a presentation
- SITTGDE303 Lead tour groups
- SITTGDE304 Prepare and present tour commentaries or activities
- SITXMGT501 Establish and conduct business relationships.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Presentations may include:

- guiding or interpretive activities
- instructing and training
- presentations at conferences
- promotional activities
- providing complex information on products and services
- sales presentations.

Public speaking techniques may include:

- audience participation
- demonstrations and visual aids
- humour
- non-verbal communication.

Social and cultural activities may include:

- accompanying people to dinner
- conference activities
- meetings
- professional development activities
- tours
- trade fairs.

activities.	3.2 Adapt and modify communication strategies and language functions as required.
4. Provide summaries of oral communication.	4.1 Recognise situations when the services of a professional interpreter are required, and arrange for assistance. 4.2 Convey the purpose and meaning of the original utterance. 4.3 Make appropriate comments between parties to check and clarify meaning. 4.4 Use communication strategies and language functions that support immediate communication.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a language other than English to:
  - establish and maintain rapport
  - conduct negotiations
  - provide oral summaries that support immediate communication
  - make presentations and use public speaking techniques
  - participate effectively in social, cultural and workplace activities.

Required knowledge

- social, cultural and business conventions relevant to the language being assessed, including:
  - colloquialisms
  - customs
  - dialect
  - forms of address
  - idiom
  - language conventions
  - protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support fluent and unhindered communication in the language being assessed
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• conduct complex workplace oral communications in a language other than English (rare linguistic errors may occur):
	  • establish and maintain rapport during extended interactions, including social activities
	  • make presentations to groups of people
	  • conduct business negotiations
	  • use narrative and descriptive statements
	  • use repetition, clarification and paraphrasing techniques to clarify requirements ,solve problems and conflict and reassure others
	  • provide detailed information and advice in area of work activity
	  • use extended non-verbal communication skills effectively.

Context of and specific resources for assessment	Assessment must ensure use of:
	• a real or simulated workplace activity for which communication in languages other than English is required
	• other people with whom the individual can interact in the relevant language
	• resources that support communication in languages other than English:
	  • dictionaries and phrase books
	  • industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • oral assessment of conversational language use direct observation of the individual communicating in a language other than English • use of role play activities that simulate simultaneous language use and customer service activity

activities.	3.2 Adapt and modify communication strategies and language functions as required.
4. Provide summaries of oral communication.	4.1 Recognise situations when the services of a professional interpreter are required, and arrange for assistance. 4.2 Convey the purpose and meaning of the original utterance. 4.3 Make appropriate comments between parties to check and clarify meaning. 4.4 Use communication strategies and language functions that support immediate communication.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a language other than English to:
  - establish and maintain rapport
  - conduct negotiations
  - provide oral summaries that support immediate communication
  - make presentations and use public speaking techniques
  - participate effectively in social, cultural and workplace activities.

Required knowledge

- social, cultural and business conventions relevant to the language being assessed, including:
  - colloquialisms
  - customs
  - dialect
  - forms of address
  - idiom
  - language conventions
  - protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support fluent and unhindered communication in the language being assessed
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• conduct complex workplace oral communications in a language other than English (rare linguistic errors may occur):
	  • establish and maintain rapport during extended interactions, including social activities
	  • make presentations to groups of people
	  • conduct business negotiations
	  • use narrative and descriptive statements
	  • use repetition, clarification and paraphrasing techniques to clarify requirements ,solve problems and conflict and reassure others
	  • provide detailed information and advice in area of work activity
	  • use extended non-verbal communication skills effectively.

Context of and specific resources for assessment	Assessment must ensure use of:
	• a real or simulated workplace activity for which communication in languages other than English is required
	• other people with whom the individual can interact in the relevant language
	• resources that support communication in languages other than English:
	  • dictionaries and phrase books
	  • industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • oral assessment of conversational language use direct observation of the individual communicating in a language other than English • use of role play activities that simulate simultaneous language use and customer service activity

© Commonwealth of Australia, 2022 SkillsIQ

- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- BSBCMM401A Make a presentation
- SITTGDE303 Lead tour groups
- SITTGDE304 Prepare and present tour commentaries or activities
- SITXMGT501 Establish and conduct business relationships.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Presentations may include:

- guiding or interpretive activities
- instructing and training
- presentations at conferences
- promotional activities
- providing complex information on products and services
- sales presentations.

Public speaking techniques may include:

- audience participation
- demonstrations and visual aids
- humour
- non-verbal communication.

Social and cultural activities may include:

- accompanying people to dinner
- conference activities
- meetings
- professional development activities
- tours
- trade fairs.

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Conduct negotiations.	1.1 Establish rapport by using appropriate courtesy protocols, establishing common ground and observing social, cultural and business conventions. 1.2 Provide explanations, information and supporting details relevant to negotiations. 1.3 Use an appropriate range of language functions for negotiations, including introducing formal talk, using turn taking skills, and agreeing and disagreeing tentatively. 1.4 Use appropriate intonation, voice tone and signalling expressions effectively. 1.5 Exchange and agree to information about the subject of the negotiation.
2. Deliver presentations.	2.1 Deliver ***presentations*** in a style that supports its objective and takes account of audience characteristics, occasion and venue. 2.2 Present information in a logical and concise manner using appropriate sequencing and linguistic linking. 2.3 Support presentations with relevant ***public speaking techniques***.
3. Participate in social and cultural	3.1 Use language and language functions appropriate to varied ***social and cultural activities***.

© Commonwealth of Australia, 2022 SkillsIQ

activities.	3.2 Adapt and modify communication strategies and language functions as required.
4. Provide summaries of oral communication.	4.1 Recognise situations when the services of a professional interpreter are required, and arrange for assistance. 4.2 Convey the purpose and meaning of the original utterance. 4.3 Make appropriate comments between parties to check and clarify meaning. 4.4 Use communication strategies and language functions that support immediate communication.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a language other than English to:
  - establish and maintain rapport
  - conduct negotiations
  - provide oral summaries that support immediate communication
  - make presentations and use public speaking techniques
  - participate effectively in social, cultural and workplace activities.

Required knowledge

- social, cultural and business conventions relevant to the language being assessed, including:
  - colloquialisms
  - customs
  - dialect
  - forms of address
  - idiom
  - language conventions
  - protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support fluent and unhindered communication in the language being assessed
- technical vocabulary required to support specific workplace activities.

© Commonwealth of Australia, 2022 SkillsIQ

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- conduct complex workplace oral communications in a language other than English (rare linguistic errors may occur):
  - establish and maintain rapport during extended interactions, including social activities
  - make presentations to groups of people
  - conduct business negotiations
  - use narrative and descriptive statements
  - use repetition, clarification and paraphrasing techniques to clarify requirements ,solve problems and conflict and reassure others
  - provide detailed information and advice in area of work activity
  - use extended non-verbal communication skills effectively.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity for which communication in languages other than English is required
- other people with whom the individual can interact in the relevant language
- resources that support communication in languages other than English:
  - dictionaries and phrase books
  - industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- oral assessment of conversational language use direct observation of the individual communicating in a language other than English
- use of role play activities that simulate simultaneous language use and customer service activity

© Commonwealth of Australia, 2022 SkillsIQ

- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- BSBCMM401A Make a presentation
- SITTGDE303 Lead tour groups
- SITTGDE304 Prepare and present tour commentaries or activities
- SITXMGT501 Establish and conduct business relationships.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Presentations may include:

- guiding or interpretive activities
- instructing and training
- presentations at conferences
- promotional activities
- providing complex information on products and services
- sales presentations.

Public speaking techniques may include:

- audience participation
- demonstrations and visual aids
- humour
- non-verbal communication.

Social and cultural activities may include:

- accompanying people to dinner
- conference activities
- meetings
- professional development activities
- tours
- trade fairs.

SITXLAN3226 Conduct complex oral communication in a language other than English (Croatian)

Modification History

Not applicable.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct complex, creative, routine and non-routine communication in a language other than English. This involves very fluent listening and speaking skills at a high level of complexity to conduct negotiations, make presentations, provide oral summaries in the workplace and participate in social and cultural activities.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 4 to 4+.

Application of the Unit

This unit applies to all industry contexts and individuals working in at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3212 Conduct complex oral communication in a language other than English (Japanese).

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to conduct complex, creative, routine and non-routine communication in a language other than English. This involves very fluent listening and speaking skills at a high level of complexity to conduct negotiations, make presentations, provide oral summaries in the workplace and participate in social and cultural activities.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 4 to 4+.

Application of the Unit

This unit applies to all industry contexts and individuals working in at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3212 Conduct complex oral communication in a language other than English (Japanese).

Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Conduct negotiations.	1.1 Establish rapport by using appropriate courtesy protocols, establishing common ground and observing social, cultural and business conventions. 1.2 Provide explanations, information and supporting details relevant to negotiations. 1.3 Use an appropriate range of language functions for negotiations, including introducing formal talk, using turn taking skills, and agreeing and disagreeing tentatively. 1.4 Use appropriate intonation, voice tone and signalling expressions effectively. 1.5 Exchange and agree to information about the subject of the negotiation.
2. Deliver presentations.	2.1 Deliver ***presentations*** in a style that supports its objective and takes account of audience characteristics, occasion and venue. 2.2 Present information in a logical and concise manner using appropriate sequencing and linguistic linking. 2.3 Support presentations with relevant ***public speaking techniques***.
3. Participate in social and cultural	3.1 Use language and language functions appropriate to varied ***social and cultural activities***.

© Commonwealth of Australia, 2022 SkillsIQ

activities.	3.2 Adapt and modify communication strategies and language functions as required.
4. Provide summaries of oral communication.	4.1 Recognise situations when the services of a professional interpreter are required, and arrange for assistance. 4.2 Convey the purpose and meaning of the original utterance. 4.3 Make appropriate comments between parties to check and clarify meaning. 4.4 Use communication strategies and language functions that support immediate communication.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills in a language other than English to:
  - establish and maintain rapport
  - conduct negotiations
  - provide oral summaries that support immediate communication
  - make presentations and use public speaking techniques
  - participate effectively in social, cultural and workplace activities.

Required knowledge

- social, cultural and business conventions relevant to the language being assessed, including:
  - colloquialisms
  - customs
  - dialect
  - forms of address
  - idiom
  - language conventions
  - protocols and taboos
- cross-cultural communication challenges that may occur when negotiating and solving problems, and how these may be addressed
- aspects of verbal and non-verbal communication that support fluent and unhindered communication in the language being assessed
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• conduct complex workplace oral communications in a language other than English (rare linguistic errors may occur):
	  • establish and maintain rapport during extended interactions, including social activities
	  • make presentations to groups of people
	  • conduct business negotiations
	  • use narrative and descriptive statements
	  • use repetition, clarification and paraphrasing techniques to clarify requirements ,solve problems and conflict and reassure others
	  • provide detailed information and advice in area of work activity
	  • use extended non-verbal communication skills effectively.

Context of and specific resources for assessment	Assessment must ensure use of:
	• a real or simulated workplace activity for which communication in languages other than English is required
	• other people with whom the individual can interact in the relevant language
	• resources that support communication in languages other than English:
	  • dictionaries and phrase books
	  • industry materials, such as menus, timetables and brochures written in languages other than English.

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • oral assessment of conversational language use direct observation of the individual communicating in a language other than English • use of role play activities that simulate simultaneous language use and customer service activity

© Commonwealth of Australia, 2022 SkillsIQ

- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- BSBCMM401A Make a presentation
- SITTGDE303 Lead tour groups
- SITTGDE304 Prepare and present tour commentaries or activities
- SITXMGT501 Establish and conduct business relationships.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Presentations may include:

- guiding or interpretive activities
- instructing and training
- presentations at conferences
- promotional activities
- providing complex information on products and services
- sales presentations.

Public speaking techniques may include:

- audience participation
- demonstrations and visual aids
- humour
- non-verbal communication.

Social and cultural activities may include:

- accompanying people to dinner
- conference activities
- meetings
- professional development activities
- tours
- trade fairs.

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Read and understand workplace documents.	1.1 Read and understand ***routine and non routine workplace documents***. 1.2 Interpret accompanying ***visual information*** to support comprehension. 1.3 Identify main ideas, key facts and requirements. 1.4 Identify and take account of document tone and purpose. 1.5 Act on information and respond to requests, seeking assistance where required.
2. Write simple routine workplace documents.	2.1 Prepare accurate ***routine workplace documents*** using key words, phrases, simple sentences and visual aids as required. 2.2 Clearly and accurately convey main ideas, facts and details in written text. 2.3 Provide clear ***written directions and instructions*** in a correctly ordered sequence. 2.4 Support written communication with use of appropriately sequenced expressions and questions that help define or clarify the goal. 2.5 Write information in appropriate place on standard forms. 2.6 Adhere to workplace and cultural conventions and protocols when preparing written documents. 2.7 Provide written responses to documents in an appropriate form and tone.

© Commonwealth of Australia, 2022 SkillsIQ

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret documents to:
    - identify purpose, main ideas, key issues and facts, writer attitude and mood
    - determine type of response and action required
  - write routine workplace documents using appropriate language and cultural conventions.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - features specific to the language, including vocabulary and sentence structure
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- read and write workplace information in a language other than English:
  - understand and identify document purpose, main ideas, key issues, facts, attitude and tone of written texts (some use of a dictionary may be made but infrequently)
  - understand meaning with reasonable accuracy when reading texts related to straightforward everyday situations
  - use linguistic knowledge and skills to communicate meaning effectively in routine workplace documents (some errors may occur in writing, provided facts are not distorted and meaning is clear):
    - answering queries about products and services
    - conducting simple product and service transactions

© Commonwealth of Australia, 2022 SkillsIQ

- providing factual information
- responding to requests for general assistance and factual information.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity where written communication in languages other than English is required
- industry materials, such as routine reports, workplace documents and informational materials written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- review of written communications prepared by the individual
- written or oral questioning to assess the individual's ability to read and interpret workplace documents written in a language other than English
- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- SITTTSL304 Prepare quotations
- SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Routine and non-routine workplace documents required to be read and understood may include:

- brochures and promotional material
- conference programs
- correspondence:
  - emails

© Commonwealth of Australia, 2022 SkillsIQ

- faxes
- letters
- memos

- menus and wine lists
- reports
- reservations information
- schedules and itineraries.

Visual information may include:

- diagrams
- forms
- labels
- maps
- signs
- tickets.

Routine workplace documents may include:

- brief reports
- complaint responses
- correspondence:
  - emails
  - faxes
  - letters
- responses to requests for routine information
- thank you letters and invitations.

Written directions and instructions may include:

- general information on work health and safety rules
- how to use simple equipment.

SITXLAN3305 Read and write information in a language other than English (Finnish)

Modification History

Not applicable.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to read and write workplace information in a language other than English. It covers reading a range of documents and writing routine documents, such as letters and brief reports.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 3.

Application of the Unit

This unit applies to all industry contexts and individuals working at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3302 Read and write information in a language other than English (Indonesian).

SITXLAN3301	(Arabic)
SITXLAN3302	(Indonesian)
SITXLAN3303	(Cantonese)
SITXLAN3304	(Dutch)

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Read and understand workplace documents.	1.1 Read and understand ***routine and non routine workplace documents***. 1.2 Interpret accompanying ***visual information*** to support comprehension. 1.3 Identify main ideas, key facts and requirements. 1.4 Identify and take account of document tone and purpose. 1.5 Act on information and respond to requests, seeking assistance where required.
2. Write simple routine workplace documents.	2.1 Prepare accurate ***routine workplace documents*** using key words, phrases, simple sentences and visual aids as required. 2.2 Clearly and accurately convey main ideas, facts and details in written text. 2.3 Provide clear ***written directions and instructions*** in a correctly ordered sequence. 2.4 Support written communication with use of appropriately sequenced expressions and questions that help define or clarify the goal. 2.5 Write information in appropriate place on standard forms. 2.6 Adhere to workplace and cultural conventions and protocols when preparing written documents. 2.7 Provide written responses to documents in an appropriate form and tone.

© Commonwealth of Australia, 2022 SkillsIQ

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret documents to:
    - identify purpose, main ideas, key issues and facts, writer attitude and mood
    - determine type of response and action required
  - write routine workplace documents using appropriate language and cultural conventions.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - features specific to the language, including vocabulary and sentence structure
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- read and write workplace information in a language other than English:
  - understand and identify document purpose, main ideas, key issues, facts, attitude and tone of written texts (some use of a dictionary may be made but infrequently)
  - understand meaning with reasonable accuracy when reading texts related to straightforward everyday situations
  - use linguistic knowledge and skills to communicate meaning effectively in routine workplace documents (some errors may occur in writing, provided facts are not distorted and meaning is clear):
    - answering queries about products and services
    - conducting simple product and service transactions

© Commonwealth of Australia, 2022 SkillsIQ

- providing factual information
- responding to requests for general assistance and factual information.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity where written communication in languages other than English is required
- industry materials, such as routine reports, workplace documents and informational materials written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- review of written communications prepared by the individual
- written or oral questioning to assess the individual's ability to read and interpret workplace documents written in a language other than English
- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- SITTTSL304 Prepare quotations
- SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Routine and non-routine workplace documents required to be read and understood may include:

- brochures and promotional material
- conference programs
- correspondence:
  - emails

© Commonwealth of Australia, 2022 SkillsIQ

	• faxes • letters • memos • menus and wine lists • reports • reservations information • schedules and itineraries.
Visual information may include:	• diagrams • forms • labels • maps • signs • tickets.

Routine workplace documents may include:	• brief reports
	• complaint responses
	• correspondence:
	  • emails
	  • faxes
	  • letters
	• responses to requests for routine information
	• thank you letters and invitations.

Written directions and instructions may include:	• general information on work health and safety rules • how to use simple equipment.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to read and write workplace information in a language other than English. It covers reading a range of documents and writing routine documents, such as letters and brief reports.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 3.

Application of the Unit

This unit applies to all industry contexts and individuals working at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3302 Read and write information in a language other than English (Indonesian).

SITXLAN3301	(Arabic)
SITXLAN3302	(Indonesian)
SITXLAN3303	(Cantonese)

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Read and understand workplace documents.	1.1 Read and understand ***routine and non routine workplace documents***. 1.2 Interpret accompanying ***visual information*** to support comprehension. 1.3 Identify main ideas, key facts and requirements. 1.4 Identify and take account of document tone and purpose. 1.5 Act on information and respond to requests, seeking assistance where required.
2. Write simple routine workplace documents.	2.1 Prepare accurate ***routine workplace documents*** using key words, phrases, simple sentences and visual aids as required. 2.2 Clearly and accurately convey main ideas, facts and details in written text. 2.3 Provide clear ***written directions and instructions*** in a correctly ordered sequence. 2.4 Support written communication with use of appropriately sequenced expressions and questions that help define or clarify the goal. 2.5 Write information in appropriate place on standard forms. 2.6 Adhere to workplace and cultural conventions and protocols when preparing written documents. 2.7 Provide written responses to documents in an appropriate form and tone.

© Commonwealth of Australia, 2022 SkillsIQ

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret documents to:
    - identify purpose, main ideas, key issues and facts, writer attitude and mood
    - determine type of response and action required
  - write routine workplace documents using appropriate language and cultural conventions.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - features specific to the language, including vocabulary and sentence structure
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- read and write workplace information in a language other than English:
  - understand and identify document purpose, main ideas, key issues, facts, attitude and tone of written texts (some use of a dictionary may be made but infrequently)
  - understand meaning with reasonable accuracy when reading texts related to straightforward everyday situations
  - use linguistic knowledge and skills to communicate meaning effectively in routine workplace documents (some errors may occur in writing, provided facts are not distorted and meaning is clear):
    - answering queries about products and services
    - conducting simple product and service transactions

© Commonwealth of Australia, 2022 SkillsIQ

- providing factual information
- responding to requests for general assistance and factual information.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity where written communication in languages other than English is required
- industry materials, such as routine reports, workplace documents and informational materials written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- review of written communications prepared by the individual
- written or oral questioning to assess the individual's ability to read and interpret workplace documents written in a language other than English
- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- SITTTSL304 Prepare quotations
- SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Routine and non-routine workplace documents required to be read and understood may include:

- brochures and promotional material
- conference programs
- correspondence:
  - emails

© Commonwealth of Australia, 2022 SkillsIQ

	• faxes • letters • memos • menus and wine lists • reports • reservations information • schedules and itineraries.
Visual information may include:	• diagrams • forms • labels • maps • signs • tickets.

Routine workplace documents may include:	• brief reports
	• complaint responses
	• correspondence:
	  • emails
	  • faxes
	  • letters
	• responses to requests for routine information
	• thank you letters and invitations.

Written directions and instructions may include:	• general information on work health and safety rules • how to use simple equipment.

This unit applies to all industry contexts and individuals working at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3302 Read and write information in a language other than English (Indonesian).

SITXLAN3301	(Arabic)

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Read and understand workplace documents.	1.1 Read and understand ***routine and non routine workplace documents***. 1.2 Interpret accompanying ***visual information*** to support comprehension. 1.3 Identify main ideas, key facts and requirements. 1.4 Identify and take account of document tone and purpose. 1.5 Act on information and respond to requests, seeking assistance where required.
2. Write simple routine workplace documents.	2.1 Prepare accurate ***routine workplace documents*** using key words, phrases, simple sentences and visual aids as required. 2.2 Clearly and accurately convey main ideas, facts and details in written text. 2.3 Provide clear ***written directions and instructions*** in a correctly ordered sequence. 2.4 Support written communication with use of appropriately sequenced expressions and questions that help define or clarify the goal. 2.5 Write information in appropriate place on standard forms. 2.6 Adhere to workplace and cultural conventions and protocols when preparing written documents. 2.7 Provide written responses to documents in an appropriate form and tone.

© Commonwealth of Australia, 2022 SkillsIQ

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret documents to:
    - identify purpose, main ideas, key issues and facts, writer attitude and mood
    - determine type of response and action required
  - write routine workplace documents using appropriate language and cultural conventions.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - features specific to the language, including vocabulary and sentence structure
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- read and write workplace information in a language other than English:
  - understand and identify document purpose, main ideas, key issues, facts, attitude and tone of written texts (some use of a dictionary may be made but infrequently)
  - understand meaning with reasonable accuracy when reading texts related to straightforward everyday situations
  - use linguistic knowledge and skills to communicate meaning effectively in routine workplace documents (some errors may occur in writing, provided facts are not distorted and meaning is clear):
    - answering queries about products and services
    - conducting simple product and service transactions

© Commonwealth of Australia, 2022 SkillsIQ

- providing factual information
- responding to requests for general assistance and factual information.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity where written communication in languages other than English is required
- industry materials, such as routine reports, workplace documents and informational materials written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- review of written communications prepared by the individual
- written or oral questioning to assess the individual's ability to read and interpret workplace documents written in a language other than English
- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- SITTTSL304 Prepare quotations
- SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Routine and non-routine workplace documents required to be read and understood may include:

- brochures and promotional material
- conference programs
- correspondence:
  - emails

© Commonwealth of Australia, 2022 SkillsIQ

	• faxes • letters • memos • menus and wine lists • reports • reservations information • schedules and itineraries.
Visual information may include:	• diagrams • forms • labels • maps • signs • tickets.

Routine workplace documents may include:	• brief reports
	• complaint responses
	• correspondence:
	  • emails
	  • faxes
	  • letters
	• responses to requests for routine information
	• thank you letters and invitations.

Written directions and instructions may include:	• general information on work health and safety rules • how to use simple equipment.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to read and write workplace information in a language other than English. It covers reading a range of documents and writing routine documents, such as letters and brief reports.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 3.

Application of the Unit

This unit applies to all industry contexts and individuals working at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Read and understand workplace documents.	1.1 Read and understand ***routine and non routine workplace documents***. 1.2 Interpret accompanying ***visual information*** to support comprehension. 1.3 Identify main ideas, key facts and requirements. 1.4 Identify and take account of document tone and purpose. 1.5 Act on information and respond to requests, seeking assistance where required.
2. Write simple routine workplace documents.	2.1 Prepare accurate ***routine workplace documents*** using key words, phrases, simple sentences and visual aids as required. 2.2 Clearly and accurately convey main ideas, facts and details in written text. 2.3 Provide clear ***written directions and instructions*** in a correctly ordered sequence. 2.4 Support written communication with use of appropriately sequenced expressions and questions that help define or clarify the goal. 2.5 Write information in appropriate place on standard forms. 2.6 Adhere to workplace and cultural conventions and protocols when preparing written documents. 2.7 Provide written responses to documents in an appropriate form and tone.

© Commonwealth of Australia, 2022 SkillsIQ

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret documents to:
    - identify purpose, main ideas, key issues and facts, writer attitude and mood
    - determine type of response and action required
  - write routine workplace documents using appropriate language and cultural conventions.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - features specific to the language, including vocabulary and sentence structure
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- read and write workplace information in a language other than English:
  - understand and identify document purpose, main ideas, key issues, facts, attitude and tone of written texts (some use of a dictionary may be made but infrequently)
  - understand meaning with reasonable accuracy when reading texts related to straightforward everyday situations
  - use linguistic knowledge and skills to communicate meaning effectively in routine workplace documents (some errors may occur in writing, provided facts are not distorted and meaning is clear):
    - answering queries about products and services
    - conducting simple product and service transactions

© Commonwealth of Australia, 2022 SkillsIQ

- providing factual information
- responding to requests for general assistance and factual information.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity where written communication in languages other than English is required
- industry materials, such as routine reports, workplace documents and informational materials written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- review of written communications prepared by the individual
- written or oral questioning to assess the individual's ability to read and interpret workplace documents written in a language other than English
- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- SITTTSL304 Prepare quotations
- SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Routine and non-routine workplace documents required to be read and understood may include:

- brochures and promotional material
- conference programs
- correspondence:
  - emails

© Commonwealth of Australia, 2022 SkillsIQ

	• faxes • letters • memos
	• menus and wine lists • reports • reservations information • schedules and itineraries.
Visual information may include:	• diagrams • forms • labels • maps • signs • tickets.

Routine workplace documents may include:	• brief reports
	• complaint responses
	• correspondence:
	  • emails
	  • faxes
	  • letters
	• responses to requests for routine information
	• thank you letters and invitations.

Written directions and instructions may include:	• general information on work health and safety rules • how to use simple equipment.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to read and write workplace information in a language other than English. It covers reading a range of documents and writing routine documents, such as letters and brief reports.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 3.

Application of the Unit

This unit applies to all industry contexts and individuals working at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3302 Read and write information in a language other than English (Indonesian).

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Read and understand workplace documents.	1.1 Read and understand ***routine and non routine workplace documents***. 1.2 Interpret accompanying ***visual information*** to support comprehension. 1.3 Identify main ideas, key facts and requirements. 1.4 Identify and take account of document tone and purpose. 1.5 Act on information and respond to requests, seeking assistance where required.
2. Write simple routine workplace documents.	2.1 Prepare accurate ***routine workplace documents*** using key words, phrases, simple sentences and visual aids as required. 2.2 Clearly and accurately convey main ideas, facts and details in written text. 2.3 Provide clear ***written directions and instructions*** in a correctly ordered sequence. 2.4 Support written communication with use of appropriately sequenced expressions and questions that help define or clarify the goal. 2.5 Write information in appropriate place on standard forms. 2.6 Adhere to workplace and cultural conventions and protocols when preparing written documents. 2.7 Provide written responses to documents in an appropriate form and tone.

© Commonwealth of Australia, 2022 SkillsIQ

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret documents to:
    - identify purpose, main ideas, key issues and facts, writer attitude and mood
    - determine type of response and action required
  - write routine workplace documents using appropriate language and cultural conventions.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - features specific to the language, including vocabulary and sentence structure
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- read and write workplace information in a language other than English:
  - understand and identify document purpose, main ideas, key issues, facts, attitude and tone of written texts (some use of a dictionary may be made but infrequently)
  - understand meaning with reasonable accuracy when reading texts related to straightforward everyday situations
  - use linguistic knowledge and skills to communicate meaning effectively in routine workplace documents (some errors may occur in writing, provided facts are not distorted and meaning is clear):
    - answering queries about products and services
    - conducting simple product and service transactions

© Commonwealth of Australia, 2022 SkillsIQ

- providing factual information
- responding to requests for general assistance and factual information.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity where written communication in languages other than English is required
- industry materials, such as routine reports, workplace documents and informational materials written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- review of written communications prepared by the individual
- written or oral questioning to assess the individual's ability to read and interpret workplace documents written in a language other than English
- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- SITTTSL304 Prepare quotations
- SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Routine and non-routine workplace documents required to be read and understood may include:

- brochures and promotional material
- conference programs
- correspondence:
  - emails

© Commonwealth of Australia, 2022 SkillsIQ

	• faxes • letters • memos • menus and wine lists • reports • reservations information • schedules and itineraries.
Visual information may include:	• diagrams • forms • labels • maps • signs • tickets.

Routine workplace documents may include:	• brief reports
	• complaint responses
	• correspondence:
	  • emails
	  • faxes
	  • letters
	• responses to requests for routine information
	• thank you letters and invitations.

Written directions and instructions may include:	• general information on work health and safety rules • how to use simple equipment.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to read and write workplace information in a language other than English. It covers reading a range of documents and writing routine documents, such as letters and brief reports.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 3.

Application of the Unit

This unit applies to all industry contexts and individuals working at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3302 Read and write information in a language other than English (Indonesian).

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Read and understand workplace documents.	1.1 Read and understand ***routine and non routine workplace documents***. 1.2 Interpret accompanying ***visual information*** to support comprehension. 1.3 Identify main ideas, key facts and requirements. 1.4 Identify and take account of document tone and purpose. 1.5 Act on information and respond to requests, seeking assistance where required.
2. Write simple routine workplace documents.	2.1 Prepare accurate ***routine workplace documents*** using key words, phrases, simple sentences and visual aids as required. 2.2 Clearly and accurately convey main ideas, facts and details in written text. 2.3 Provide clear ***written directions and instructions*** in a correctly ordered sequence. 2.4 Support written communication with use of appropriately sequenced expressions and questions that help define or clarify the goal. 2.5 Write information in appropriate place on standard forms. 2.6 Adhere to workplace and cultural conventions and protocols when preparing written documents. 2.7 Provide written responses to documents in an appropriate form and tone.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret documents to:
    - identify purpose, main ideas, key issues and facts, writer attitude and mood
    - determine type of response and action required
  - write routine workplace documents using appropriate language and cultural conventions.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - features specific to the language, including vocabulary and sentence structure
- technical vocabulary required to support specific workplace activities.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- read and write workplace information in a language other than English:
  - understand and identify document purpose, main ideas, key issues, facts, attitude and tone of written texts (some use of a dictionary may be made but infrequently)
  - understand meaning with reasonable accuracy when reading texts related to straightforward everyday situations
  - use linguistic knowledge and skills to communicate meaning effectively in routine workplace documents (some errors may occur in writing, provided facts are not distorted and meaning is clear):
    - answering queries about products and services
    - conducting simple product and service transactions

© Commonwealth of Australia, 2022 SkillsIQ

- providing factual information
- responding to requests for general assistance and factual information.

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity where written communication in languages other than English is required
- industry materials, such as routine reports, workplace documents and informational materials written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- review of written communications prepared by the individual
- written or oral questioning to assess the individual's ability to read and interpret workplace documents written in a language other than English
- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- SITTTSL304 Prepare quotations
- SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Routine and non-routine workplace documents required to be read and understood may include:

- brochures and promotional material
- conference programs
- correspondence:
  - emails

© Commonwealth of Australia, 2022 SkillsIQ

	• faxes • letters • memos • menus and wine lists • reports • reservations information • schedules and itineraries.
Visual information may include:	• diagrams • forms • labels • maps • signs • tickets.

Routine workplace documents may include:	• brief reports
	• complaint responses
	• correspondence:
	  • emails
	  • faxes
	  • letters
	• responses to requests for routine information
	• thank you letters and invitations.

Written directions and instructions may include:	• general information on work health and safety rules • how to use simple equipment.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to read and write workplace information in a language other than English. It covers reading a range of documents and writing routine documents, such as letters and brief reports.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 3.

Application of the Unit

This unit applies to all industry contexts and individuals working at many different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3302 Read and write information in a language other than English (Indonesian).

Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Read workplace documents.	1.1 Read and understand ***workplace documents***, including explicit and implicit information, ideas, technical information and writer requirements. 1.2 Interpret accompanying visual and graphics material. 1.3 Understand the culturally specific meaning contained in documents.
2. Provide informal written translations.	2.1 Capture and convey information in written texts and summaries, taking account of cultural differences. 2.2 Provide explanation or comments to clarify meaning as required, especially about culturally specific details. 2.3 Recognise ***documents requiring professional translation*** and arrange for assistance as required.
3. Write workplace documents.	3.1 Produce ***written workplace documents*** according to recognised conventions, standards and formats. 3.2 Ensure content of written documents is appropriate to audience and purpose. 3.3 Develop ideas in appropriate depth to meet the requirements of the particular context. 3.4 Tailor language to meet requirements of the situation. 3.5 Observe social and cultural conventions when writing

© Commonwealth of Australia, 2022 SkillsIQ

workplace documents.

3.6 Write documents with minimal errors so that intended meaning is clearly conveyed to the reader.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret information and workplace documents that include some complex ideas and concepts
  - write documents that require clear and fluent expression of information and ideas
  - appropriately structure texts
  - use language tailored to the requirements of the situation.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - social, workplace and cultural conventions
  - ways to convey nuances of meaning
- technical vocabulary for specific workplace activities
- standard formats and protocols for a range of workplace documents relevant to the workplace.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- read and write workplace documents required to fulfil a given job role in a language other than English:
  - read and write a range of workplace documents
  - write documents with clear and fluent expression of information and ideas, correct structure and appropriate style and tone for the audience and

workplace situation (rare linguistic errors may occur).

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity where written communication in languages other than English is required
- industry documents, such as reports and promotional materials written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- review of written communications prepared by the individual
- written and oral questioning to assess the individual's ability to interpret workplace documents
- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- written or oral questioning to assess linguistic knowledge, generic structure and other specific language features, such as vocabulary and sentence structure
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- BSBWRT401A Write complex documents
- SITTTSL304 Prepare quotations
- SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Workplace documents to be read and informally interpreted may include:

- brochures and promotional material
- conference programs
- correspondence

© Commonwealth of Australia, 2022 SkillsIQ

- manuals
- menus and wine lists
- reports
- reservations information
- schedules and itineraries.

Documents requiring professional translation may include:

- complex contractual documents
- complex proposals, submissions and tenders.

Written workplace documents may include:

- correspondence
- menus and wine lists
- promotional material
- quotations
- reservations information
- schedules and itineraries
- simple manuals
- simple reports.

Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Read workplace documents.	1.1 Read and understand ***workplace documents***, including explicit and implicit information, ideas, technical information and writer requirements. 1.2 Interpret accompanying visual and graphics material. 1.3 Understand the culturally specific meaning contained in documents.
2. Provide informal written translations.	2.1 Capture and convey information in written texts and summaries, taking account of cultural differences. 2.2 Provide explanation or comments to clarify meaning as required, especially about culturally specific details. 2.3 Recognise ***documents requiring professional translation*** and arrange for assistance as required.
3. Write workplace documents.	3.1 Produce ***written workplace documents*** according to recognised conventions, standards and formats. 3.2 Ensure content of written documents is appropriate to audience and purpose. 3.3 Develop ideas in appropriate depth to meet the requirements of the particular context. 3.4 Tailor language to meet requirements of the situation. 3.5 Observe social and cultural conventions when writing

workplace documents.

3.6 Write documents with minimal errors so that intended meaning is clearly conveyed to the reader.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret information and workplace documents that include some complex ideas and concepts
  - write documents that require clear and fluent expression of information and ideas
  - appropriately structure texts
  - use language tailored to the requirements of the situation.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - social, workplace and cultural conventions
  - ways to convey nuances of meaning
- technical vocabulary for specific workplace activities
- standard formats and protocols for a range of workplace documents relevant to the workplace.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- read and write workplace documents required to fulfil a given job role in a language other than English:
  - read and write a range of workplace documents
  - write documents with clear and fluent expression of information and ideas, correct structure and appropriate style and tone for the audience and

	workplace situation (rare linguistic errors may occur).
Context of and specific resources for assessment	Assessment must ensure use of: • a real or simulated workplace activity where written communication in languages other than English is required • industry documents, such as reports and promotional materials written in languages other than English.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • review of written communications prepared by the individual • written and oral questioning to assess the individual's ability to interpret workplace documents • written or oral questioning to assess cultural knowledge and cross-cultural communication considerations • written or oral questioning to assess linguistic knowledge, generic structure and other specific language features, such as vocabulary and sentence structure • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.
Guidance information for assessment	The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example: • BSBWRT401A Write complex documents • SITTTSL304 Prepare quotations • SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Workplace documents to be read and informally interpreted may include:	• brochures and promotional material • conference programs • correspondence

© Commonwealth of Australia, 2022 SkillsIQ

- manuals
- menus and wine lists
- reports
- reservations information
- schedules and itineraries.

Documents requiring professional translation may include:

- complex contractual documents
- complex proposals, submissions and tenders.

Written workplace documents may include:

- correspondence
- menus and wine lists
- promotional material
- quotations
- reservations information
- schedules and itineraries
- simple manuals
- simple reports.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to read and write a range of workplace documents in a language other than English at a high level of complexity and fluency, including summarising texts, and reproducing information from texts in one language to prepare a text in another.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 4 to 4+.

Application of the Unit

This unit applies to all industry contexts and to individuals working at different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3403 Read and write documents in a language other than English (Cantonese).

workplace documents.

3.6 Write documents with minimal errors so that intended meaning is clearly conveyed to the reader.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret information and workplace documents that include some complex ideas and concepts
  - write documents that require clear and fluent expression of information and ideas
  - appropriately structure texts
  - use language tailored to the requirements of the situation.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - social, workplace and cultural conventions
  - ways to convey nuances of meaning
- technical vocabulary for specific workplace activities
- standard formats and protocols for a range of workplace documents relevant to the workplace.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- read and write workplace documents required to fulfil a given job role in a language other than English:
  - read and write a range of workplace documents
  - write documents with clear and fluent expression of information and ideas, correct structure and appropriate style and tone for the audience and

© Commonwealth of Australia, 2022 SkillsIQ

workplace situation (rare linguistic errors may occur).

Context of and specific resources for assessment

Assessment must ensure use of:

- a real or simulated workplace activity where written communication in languages other than English is required
- industry documents, such as reports and promotional materials written in languages other than English.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- review of written communications prepared by the individual
- written and oral questioning to assess the individual's ability to interpret workplace documents
- written or oral questioning to assess cultural knowledge and cross-cultural communication considerations
- written or oral questioning to assess linguistic knowledge, generic structure and other specific language features, such as vocabulary and sentence structure
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.

Guidance information for assessment

The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example:

- BSBWRT401A Write complex documents
- SITTTSL304 Prepare quotations
- SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Workplace documents to be read and informally interpreted may include:

- brochures and promotional material
- conference programs
- correspondence

© Commonwealth of Australia, 2022 SkillsIQ

- manuals
- menus and wine lists
- reports
- reservations information
- schedules and itineraries.

Documents requiring professional translation may include:

- complex contractual documents
- complex proposals, submissions and tenders.

Written workplace documents may include:

- correspondence
- menus and wine lists
- promotional material
- quotations
- reservations information
- schedules and itineraries
- simple manuals
- simple reports.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to read and write a range of workplace documents in a language other than English at a high level of complexity and fluency, including summarising texts, and reproducing information from texts in one language to prepare a text in another.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 4 to 4+.

Application of the Unit

This unit applies to all industry contexts and to individuals working at different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3403 Read and write documents in a language other than English (Cantonese).

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Read workplace documents.	1.1 Read and understand ***workplace documents***, including explicit and implicit information, ideas, technical information and writer requirements. 1.2 Interpret accompanying visual and graphics material. 1.3 Understand the culturally specific meaning contained in documents.
2. Provide informal written translations.	2.1 Capture and convey information in written texts and summaries, taking account of cultural differences. 2.2 Provide explanation or comments to clarify meaning as required, especially about culturally specific details. 2.3 Recognise ***documents requiring professional translation*** and arrange for assistance as required.
3. Write workplace documents.	3.1 Produce ***written workplace documents*** according to recognised conventions, standards and formats. 3.2 Ensure content of written documents is appropriate to audience and purpose. 3.3 Develop ideas in appropriate depth to meet the requirements of the particular context. 3.4 Tailor language to meet requirements of the situation. 3.5 Observe social and cultural conventions when writing

Context of and specific resources for assessment	Assessment must ensure use of: • a real or simulated workplace activity where written communication in languages other than English is required • industry documents, such as reports and promotional materials written in languages other than English.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • review of written communications prepared by the individual • written and oral questioning to assess the individual's ability to interpret workplace documents • written or oral questioning to assess cultural knowledge and cross-cultural communication considerations • written or oral questioning to assess linguistic knowledge, generic structure and other specific language features, such as vocabulary and sentence structure • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.
Guidance information for assessment	The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example: • BSBWRT401A Write complex documents • SITTTSL304 Prepare quotations • SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Workplace documents to be read and informally interpreted may include:	• brochures and promotional material • conference programs • correspondence

© Commonwealth of Australia, 2022 SkillsIQ

	• manuals • menus and wine lists • reports • reservations information • schedules and itineraries.
Documents requiring professional translation may include:	• complex contractual documents • complex proposals, submissions and tenders.
Written workplace documents may include:	• correspondence • menus and wine lists • promotional material • quotations • reservations information • schedules and itineraries • simple manuals • simple reports.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to read and write a range of workplace documents in a language other than English at a high level of complexity and fluency, including summarising texts, and reproducing information from texts in one language to prepare a text in another.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 4 to 4+.

Application of the Unit

This unit applies to all industry contexts and to individuals working at different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3403 Read and write documents in a language other than English (Cantonese).

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Read workplace documents.	1.1 Read and understand ***workplace documents***, including explicit and implicit information, ideas, technical information and writer requirements. 1.2 Interpret accompanying visual and graphics material. 1.3 Understand the culturally specific meaning contained in documents.
2. Provide informal written translations.	2.1 Capture and convey information in written texts and summaries, taking account of cultural differences. 2.2 Provide explanation or comments to clarify meaning as required, especially about culturally specific details. 2.3 Recognise ***documents requiring professional translation*** and arrange for assistance as required.
3. Write workplace documents.	3.1 Produce ***written workplace documents*** according to recognised conventions, standards and formats. 3.2 Ensure content of written documents is appropriate to audience and purpose. 3.3 Develop ideas in appropriate depth to meet the requirements of the particular context. 3.4 Tailor language to meet requirements of the situation. 3.5 Observe social and cultural conventions when writing

workplace documents.

3.6 Write documents with minimal errors so that intended meaning is clearly conveyed to the reader.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret information and workplace documents that include some complex ideas and concepts
  - write documents that require clear and fluent expression of information and ideas
  - appropriately structure texts
  - use language tailored to the requirements of the situation.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - social, workplace and cultural conventions
  - ways to convey nuances of meaning
- technical vocabulary for specific workplace activities
- standard formats and protocols for a range of workplace documents relevant to the workplace.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

SITXLAN3416 Read and write documents in a language other than English (Polish)

Modification History

Not applicable.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to read and write a range of workplace documents in a language other than English at a high level of complexity and fluency, including summarising texts, and reproducing information from texts in one language to prepare a text in another.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 4 to 4+.

Application of the Unit

This unit applies to all industry contexts and to individuals working at different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3403 Read and write documents in a language other than English (Cantonese).

SITXLAN3401	(Arabic)
SITXLAN3402	(Indonesian)
SITXLAN3403	(Cantonese)
SITXLAN3404	(Dutch)
SITXLAN3405	(Finnish)
SITXLAN3406	(French)

Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Read workplace documents.	1.1 Read and understand ***workplace documents***, including explicit and implicit information, ideas, technical information and writer requirements. 1.2 Interpret accompanying visual and graphics material. 1.3 Understand the culturally specific meaning contained in documents.
2. Provide informal written translations.	2.1 Capture and convey information in written texts and summaries, taking account of cultural differences. 2.2 Provide explanation or comments to clarify meaning as required, especially about culturally specific details. 2.3 Recognise ***documents requiring professional translation*** and arrange for assistance as required.
3. Write workplace documents.	3.1 Produce ***written workplace documents*** according to recognised conventions, standards and formats. 3.2 Ensure content of written documents is appropriate to audience and purpose. 3.3 Develop ideas in appropriate depth to meet the requirements of the particular context. 3.4 Tailor language to meet requirements of the situation. 3.5 Observe social and cultural conventions when writing

© Commonwealth of Australia, 2022 SkillsIQ

workplace documents.

3.6 Write documents with minimal errors so that intended meaning is clearly conveyed to the reader.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret information and workplace documents that include some complex ideas and concepts
  - write documents that require clear and fluent expression of information and ideas
  - appropriately structure texts
  - use language tailored to the requirements of the situation.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - social, workplace and cultural conventions
  - ways to convey nuances of meaning
- technical vocabulary for specific workplace activities
- standard formats and protocols for a range of workplace documents relevant to the workplace.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- read and write workplace documents required to fulfil a given job role in a language other than English:
  - read and write a range of workplace documents
  - write documents with clear and fluent expression of information and ideas, correct structure and appropriate style and tone for the audience and

© Commonwealth of Australia, 2022 SkillsIQ

workplace situation (rare linguistic errors may occur).

Context of and specific resources for assessment	Assessment must ensure use of: • a real or simulated workplace activity where written communication in languages other than English is required • industry documents, such as reports and promotional materials written in languages other than English.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • review of written communications prepared by the individual • written and oral questioning to assess the individual's ability to interpret workplace documents • written or oral questioning to assess cultural knowledge and cross-cultural communication considerations • written or oral questioning to assess linguistic knowledge, generic structure and other specific language features, such as vocabulary and sentence structure • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.
Guidance information for assessment	The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example: • BSBWRT401A Write complex documents • SITTTSL304 Prepare quotations • SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Workplace documents to be read and informally interpreted may include:	• brochures and promotional material • conference programs • correspondence

© Commonwealth of Australia, 2022 SkillsIQ

- manuals
- menus and wine lists
- reports
- reservations information
- schedules and itineraries.

Documents requiring professional translation may include:

- complex contractual documents
- complex proposals, submissions and tenders.

Written workplace documents may include:

- correspondence
- menus and wine lists
- promotional material
- quotations
- reservations information
- schedules and itineraries
- simple manuals
- simple reports.

Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
1. Read workplace documents.	1.1 Read and understand ***workplace documents***, including explicit and implicit information, ideas, technical information and writer requirements. 1.2 Interpret accompanying visual and graphics material. 1.3 Understand the culturally specific meaning contained in documents.
2. Provide informal written translations.	2.1 Capture and convey information in written texts and summaries, taking account of cultural differences. 2.2 Provide explanation or comments to clarify meaning as required, especially about culturally specific details. 2.3 Recognise ***documents requiring professional translation*** and arrange for assistance as required.
3. Write workplace documents.	3.1 Produce ***written workplace documents*** according to recognised conventions, standards and formats. 3.2 Ensure content of written documents is appropriate to audience and purpose. 3.3 Develop ideas in appropriate depth to meet the requirements of the particular context. 3.4 Tailor language to meet requirements of the situation. 3.5 Observe social and cultural conventions when writing

workplace documents.

3.6 Write documents with minimal errors so that intended meaning is clearly conveyed to the reader.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret information and workplace documents that include some complex ideas and concepts
  - write documents that require clear and fluent expression of information and ideas
  - appropriately structure texts
  - use language tailored to the requirements of the situation.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - social, workplace and cultural conventions
  - ways to convey nuances of meaning
- technical vocabulary for specific workplace activities
- standard formats and protocols for a range of workplace documents relevant to the workplace.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- read and write workplace documents required to fulfil a given job role in a language other than English:
  - read and write a range of workplace documents
  - write documents with clear and fluent expression of information and ideas, correct structure and appropriate style and tone for the audience and

	workplace situation (rare linguistic errors may occur).
Context of and specific resources for assessment	Assessment must ensure use of: • a real or simulated workplace activity where written communication in languages other than English is required • industry documents, such as reports and promotional materials written in languages other than English.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • review of written communications prepared by the individual • written and oral questioning to assess the individual's ability to interpret workplace documents • written or oral questioning to assess cultural knowledge and cross-cultural communication considerations • written or oral questioning to assess linguistic knowledge, generic structure and other specific language features, such as vocabulary and sentence structure • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.
Guidance information for assessment	The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example: • BSBWRT401A Write complex documents • SITTTSL304 Prepare quotations • SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Workplace documents to be read and informally interpreted may include:	• brochures and promotional material • conference programs • correspondence

© Commonwealth of Australia, 2022 SkillsIQ

- manuals
- menus and wine lists
- reports
- reservations information
- schedules and itineraries.

Documents requiring professional translation may include:

- complex contractual documents
- complex proposals, submissions and tenders.

Written workplace documents may include:

- correspondence
- menus and wine lists
- promotional material
- quotations
- reservations information
- schedules and itineraries
- simple manuals
- simple reports.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to read and write a range of workplace documents in a language other than English at a high level of complexity and fluency, including summarising texts, and reproducing information from texts in one language to prepare a text in another.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 4 to 4+.

Application of the Unit

This unit applies to all industry contexts and to individuals working at different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3403 Read and write documents in a language other than English (Cantonese).

Assessment of performance is to be consistent with the evidence guide.
1. Read workplace documents.	1.1 Read and understand ***workplace documents***, including explicit and implicit information, ideas, technical information and writer requirements. 1.2 Interpret accompanying visual and graphics material. 1.3 Understand the culturally specific meaning contained in documents.
2. Provide informal written translations.	2.1 Capture and convey information in written texts and summaries, taking account of cultural differences. 2.2 Provide explanation or comments to clarify meaning as required, especially about culturally specific details. 2.3 Recognise ***documents requiring professional translation*** and arrange for assistance as required.
3. Write workplace documents.	3.1 Produce ***written workplace documents*** according to recognised conventions, standards and formats. 3.2 Ensure content of written documents is appropriate to audience and purpose. 3.3 Develop ideas in appropriate depth to meet the requirements of the particular context. 3.4 Tailor language to meet requirements of the situation. 3.5 Observe social and cultural conventions when writing

workplace documents.

3.6 Write documents with minimal errors so that intended meaning is clearly conveyed to the reader.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills in a language other than English to:
  - read and interpret information and workplace documents that include some complex ideas and concepts
  - write documents that require clear and fluent expression of information and ideas
  - appropriately structure texts
  - use language tailored to the requirements of the situation.

Required knowledge

- linguistic knowledge and writing conventions for the language being assessed, including:
  - grammar, spelling and punctuation conventions
  - social, workplace and cultural conventions
  - ways to convey nuances of meaning
- technical vocabulary for specific workplace activities
- standard formats and protocols for a range of workplace documents relevant to the workplace.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- read and write workplace documents required to fulfil a given job role in a language other than English:
  - read and write a range of workplace documents
  - write documents with clear and fluent expression of information and ideas, correct structure and appropriate style and tone for the audience and

	workplace situation (rare linguistic errors may occur).
Context of and specific resources for assessment	Assessment must ensure use of: • a real or simulated workplace activity where written communication in languages other than English is required • industry documents, such as reports and promotional materials written in languages other than English.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • review of written communications prepared by the individual • written and oral questioning to assess the individual's ability to interpret workplace documents • written or oral questioning to assess cultural knowledge and cross-cultural communication considerations • written or oral questioning to assess linguistic knowledge, generic structure and other specific language features, such as vocabulary and sentence structure • review of portfolios of evidence and third-party workplace reports of on-the-job performance by the individual.
Guidance information for assessment	The assessor should design integrated assessment activities to holistically assess this unit with other units relevant to the industry sector, workplace and job role, for example: • BSBWRT401A Write complex documents • SITTTSL304 Prepare quotations • SITTTSL307 Process travel-related documentation.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Workplace documents to be read and informally interpreted may include:	• brochures and promotional material • conference programs • correspondence

© Commonwealth of Australia, 2022 SkillsIQ

- manuals
- menus and wine lists
- reports
- reservations information
- schedules and itineraries.

Documents requiring professional translation may include:

- complex contractual documents
- complex proposals, submissions and tenders.

Written workplace documents may include:

- correspondence
- menus and wine lists
- promotional material
- quotations
- reservations information
- schedules and itineraries
- simple manuals
- simple reports.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to read and write a range of workplace documents in a language other than English at a high level of complexity and fluency, including summarising texts, and reproducing information from texts in one language to prepare a text in another.

The unit does not cover interpreting and translating skills, which are described in units of competency in the PSP04 Public Sector Training Package.

There is no direct parity with any formal language proficiency ratings or assessment framework, but this unit broadly relates to International Second Language Proficiency Ratings (ISLPR) 4 to 4+.

Application of the Unit

This unit applies to all industry contexts and to individuals working at different levels of responsibility. This could include frontline, supervisory or management personnel.

This unit may be customised for training delivery and assessment of proficiency in any language. For reporting purposes, recognition is limited to those languages listed below which are of importance to the tourism industry. A specific code has been allocated for each of these languages. Each language must be indicated in brackets after the unit title.

For example: SITXLAN3403 Read and write documents in a language other than English (Cantonese).

PSPSS00039 Customer Service

Modification History

Release	Comments
1	This skill set was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. Supersedes and is equivalent to PSP12 Customer Service Skill Set. • PSP unit codes updated

Description

This skill set is for government workers who provide routine customer service to members of the public or answer internal or external queries.

Pathways Information

Completion of this skill set contributes towards PSP20116 Certificate II in Government and PSP30116 Certificate III in Government qualifications.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

Units	
PSPETH001	Uphold the values and principles of public service
PSPGEN002	Use routine workplace communication techniques
PSPGEN003	Deliver a service to clients
PSPGEN016	Address client needs

PSPSS00040 Government Investigations

Modification History

Release	Comments
1	This skill set was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. • New skill set composed of existing units.

Description

This skill set is for individuals working in a range of regulatory work environments involving gathering evidence and interviewing persons of interest. These competencies provide skills required to identify possible non-compliance and plan, initiate and report on a subsequent investigation.

Pathways Information

These units provide specialist skills to support public sector regulatory and compliance functions. Completion of this skill set provides credit towards PSP40416 Certificate IV in Government Investigations.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

Units	
PSPINV001	Plan and initiate an investigation
PSPINV002	Conduct an investigation
PSPINV003	Finalise an investigation

© Commonwealth of Australia, 2022 SkillsIQ

Target Group

Not applicable.

Suggested words for Statement of Attainment

These competencies meet the industry standard for public sector employees whose roles include conducting investigations.

PSPSS00046 Public Sector Manager

Modification History

Release	Comments
1	This skill set was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. Supersedes and is equivalent to PSP12 Public Sector Manager Skill Set. • PSP unit codes updated.

Description

This skill set is for those embarking on management roles within in the public sector. Units cover the essential skills and knowledge required of those public sector managers who are new to the role of managing people and/or resources in the public sector environment. These competencies provide an overview of the sector, an understanding of core public sector values, principles, diversity and legislation requirements, appropriate communication strategies, and expectations relating to promotion and adherence to those requirements.

Pathways Information

The competencies serve as a foundation for government qualifications, and as an introduction for managerial roles/lateral entrance into the sector. Completion of this skill set contributes to most Diploma level government generalist and specialist qualifications.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

Units	
PSPETH003	Promote the values and ethos of public service
PSPGEN047	Promote diversity

© Commonwealth of Australia, 2022 SkillsIQ

PSPGEN054	Use complex workplace communication strategies
PSPLEG003	Promote compliance within legislation in the public sector

Target Group

Not applicable.

Suggested words for Statement of Attainment

These competencies meet the industry standard for people working in the Public Sector environment.

PSPSS00047 Radiation Environment Safety

Modification History

Release	Comments
1	This skill set was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. Supersedes and is equivalent to PSP12 Radiation Environment Safety Skill Set. • PSP unit codes updated

Description

This skill set is for those who require radiation protection and site safety training in addition to induction training, prior to undertaking operational, technical, and/or maintenance tasks in a radiation environment.

Such personnel may work in mines, construction sites, hospitals and laboratories and may include:

- utility and site service personnel, including electricians, plumbers, fitters, and equipment service technicians
- site cleaners and maintenance workers
- operators of equipment that emits ionising radiation
- those who handle and/or transport radioactive material
- those who use radionuclides
- those who may work in areas of ionising radiation or equipment that emits ionising radiation

Pathways Information

This unit is introductory and serves as a foundation for those who may become more involved in radiation-related roles. Completion of this skill set contributes to PSP20116 Certificate II in Government.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

© Commonwealth of Australia, 2022 SkillsIQ

Skill Set Requirements

Unit	
PSPRAD001	Work safely in a radiation environment

Target Group

Not applicable.

Suggested words for Statement of Attainment

This competency meets the industry standard for workers in contact with radiation as part of other roles who may receive occupational exposures of greater than 1 millisievert per annum and who need to be competent and take action to avoid unacceptable exposure to radiation hazards, or to ensure that others are not unacceptably exposed to radiation hazards due to their work.

PSPSS00048 Radiation Sealed Sources Safety

Modification History

Release	Comments
1	This skill set was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. • New skill set composed of existing units.

Description

This skill set is for authorised personnel who work at geotechnical, construction, mining and manufacturing or analytical/research sites with any of the following sealed sources or equipment:

- industrial radiography equipment or gamma sources
- portable density/moisture gauges
- fixed source gauges (level, density, thickness and proximity)
- bore hole logging
- portable XRD and XRF instruments

Pathways Information

Completion of this skill set contributes to PSP30116 Certificate III in Government or the Radiation Technician Safety Skill Set.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

Units	
PSPRAD003	Perform basic radiation measurements
PSPRAD005	Handle and transport radioactive material
PSPRAD006	Work safely with radiation-sealed source equipment

© Commonwealth of Australia, 2022 SkillsIQ

Target Group

Not applicable.

Suggested words for Statement of Attainment

These competencies meet the industry standard for working with radiation-sealed source equipment under the authorisation of a responsible person and with the advice of a radiation safety professional (such as a radiation safety officer) and in accordance with radiation protection safety standards, codes and guidelines.

© Commonwealth of Australia, 2022 SkillsIQ

PSPSS00049 Radiation Unsealed Sources Safety

Modification History

Release	Comments
1	This skill set was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. • New skill set composed of existing units.

Description

- This skill set is for authorised personnel who work at university, hospital, medical, veterinary, mining, analytical and research sites and are required to undertake tasks using an unsealed radioactive source and/or radioactive substances: extracting, milling, processing and packing radioactive ores
- decontaminating and servicing equipment that has been in contact with radioactive material
- collecting, preparing and testing samples containing radioactive materials
- using radionuclides in a laboratory

Pathways Information

Completion of this skill set contributes to PSP30116 Certificate III in Government or the Radiation Technician Safety Skill Set.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

Units	
PSPRAD003	Perform basic radiation measurements
PSPRAD005	Handle and transport radioactive material
PSPRAD011	Work safely with radiation-unsealed source equipment

© Commonwealth of Australia, 2022 SkillsIQ

Target Group

Not applicable.

Suggested words for Statement of Attainment

These competencies meet the industry standard for working with radiation-unsealed source equipment under the authorisation of a responsible person and with the advice of a radiation safety professional (such as a radiation safety officer) and in accordance with radiation protection safety standards, codes and guidelines.

PSPSS00050 Radiation Technician Safety

Modification History

Release	Comments
1	This skill set was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. Supersedes and is equivalent to PSP12 Radiation Technician Safety Skills Set. • PSP unit codes updated • Imported unit updated

Description

This skill set is for authorised personnel who perform a radiation monitoring role, undertake local radiation protection and safety requirements to ensure the organisation/licensee's compliance with relevant radiation protection and safety legislation, standards, licenses or codes of practice, and who are trained to participate as a member of a workplace emergency initial response team, and who work:

- at a mine or plant that processes radioactive ore and/or minerals
- with instruments that emit ionising radiation at geotechnical, construction, mining and manufacturing sites or analytical/research facilities
- in a laboratory or licensed facility that handles radioactive materials
- in a nuclear facility

Pathways Information

Completion of this skill set contributes to PSP30116 Certificate III in Government. PSPRAD007 and PUAWER009B contribute to PSP80216 Graduate Certificate in Radiation Safety.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

© Commonwealth of Australia, 2022 SkillsIQ

Skill Set Requirements

Units	
PSPRAD003	Perform basic radiation measurements
PSPRAD005	Handle and transport radioactive material
PSPRAD006	Work safely with radiation-sealed source equipment
PSPRAD007	Monitor radiation
PUAWER009B	Participate as a member of a workplace emergency initial response team

Target Group

Not applicable.

Suggested words for Statement of Attainment

These competencies meet the industry standard for safely monitoring radiation and the exposure of people and environments during radiation-related work activities, those working as a local radiation safety coordinator or radiation safety officer under the authorisation of the responsible person and with the advice of a radiation safety professional and in accordance with radiation protection safety standards, codes and guidelines.
