PSPGOV312A Use workplace communication strategies

Modification History
PSPGOV312A Release 1: Primary release.

Unit Descriptor
This unit covers the use of workplace communication strategies for interacting with internal and external clients. It includes responding to enquiries, receiving and giving directions, participating in meetings and making presentations in the workgroup. Though the prime focus of the unit is on speaking, listening and reading non-verbal cues, if reading, writing and visual literacy are intrinsic to the workplace communication these are included. Where reading and writing are the prime focus of the workplace function these are addressed in PSPGOV313A Compose workplace documents.

In practice, using communication strategies may overlap with other generalist or specialist public sector work activities such as acting ethically, complying with legislation, working effectively, working with diversity, organising information, addressing client needs, etc. This is one of 5 units of competency in the Working in Government Competency Field that deal with communication. Related units are:

- PSPGOV202B Use routine workplace communication techniques
- PSPGOV412A Use advanced workplace communication strategies
- PSPGOV512A Use complex workplace communication strategies
