PUA60119 Advanced Diploma of Public Safety (Emergency Management)

Release 1

PUA60119 Advanced Diploma of Public Safety (Emergency Management)

Modification History

Release 1. This is the first release of this qualification in the PUA Public Safety Training Package.

Qualification Description

The PUA60119 Advanced Diploma of Public Safety (Emergency Management) is designed for emergency service personnel undertaking senior emergency management responsibilities at an organisational level. This will include the management of community programs, stakeholder engagement and the negotiation of interagency memorandums of understanding.

Emergency management is the implementation of a range of measures to manage risks to communities and the environment. The role of emergency services personnel is to assist in the management and delivery of support services at an incident or disaster. Emergency services personnel undertaking senior management responsibilities may lead multiagency teams when responding to disasters or incidents.

This qualification includes the units of competency required by senior emergency service managers to perform a range of organisational activities such as working with the community and other key stakeholders prior to, during and after an emergency incident and developing and implementing strategic plans. It typically involves the planning for, and management of major risks.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

A total of 12 units of competency comprising

- **8 core units** listed below, plus
- **4 elective units** from the general elective units listed

Choose a minimum of 2 elective units from the general elective unit list below.

Choose the remaining 2 elective units from the elective unit list below or elsewhere within this training package or another endorsed training package or accredited course.

All elective units selected from outside this qualification must be from an equivalent

qualification level or higher.

Elective units selected must not duplicate content already covered by other units in this qualification.

Where imported units are selected, care must be taken to ensure that all prerequisite units specified are complied with.

Prerequisites attached to any of the units must be obtained and are additional to the number of units required for this qualification.

Where a prerequisite is attached to a unit it is identified by the symbol ∟.

By default, all prerequisites listed with ∟ become part of the core and elective units of this qualification.
