Assessment Requirements for PUAEMR038 Work within an emergency management context

Release: 1

Assessment Requirements for PUAEMR038 Work within an emergency management context

Modification History

Release 1.0 This is the first release of this unit of competency in the PUA Public Safety Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and includes

- applying emergency management concepts and principles
- confirming emergency management requirements
- contributing to entity awareness, preparedness and engagement with emergency management concepts and principles
- demonstrating decision making in emergency management
- following organisational policies and procedures
- locating and interpreting emergency management arrangements.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and includes knowledge of

- emergency management arrangements
- emergency management terminology, concepts and principles
- organisational documentation, policies and procedures
- risk assessment methodology.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in operational situations or in simulated operational training situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to

- a range of exercises and/or case studies
- appropriate materials and equipment currently used in industry including
  - emergency management legislation
  - organisational plans, policies and procedures
- applicable documentation including standards, equipment specifications, regulations, codes of practice and operational manuals.
