- participating in identifying specific hazards, presenting community safety information and risk mitigation activities and procedures
- presenting information
- undertaking mitigation activities
- using communication methods and techniques

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and includes knowledge of

- community organisations and members
- environments and the potential impact of fire and hazards
- hazard identification
- organisational documentation, policies and procedures including on those on confidentiality and privacy
- risk mitigation processes and activities
- techniques for collecting, recording and reporting feedback
- Work, Health and Safety (WHS)/Occupational Health and Safety (OHS) organisational requirements

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of

assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in industry approved simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, equipment, tools and personal protective clothing and equipment currently used in industry
- appropriate literature and equipment applicable documentation including organisational procedures, industry standards, equipment specifications, regulations, codes of practice and operation manuals.
