Release: 1

PUAFIR602 Manage the implementation of community safety strategies

Modification History

Release 1. This is the first release of this unit of competency in the PUA Public Safety Training Package.

Application

This unit of competency involves the skills and knowledge required to establish and manage the implementation of a range of community safety intervention strategies that can be used to reduce risks.

The unit applies to personnel required to develop and implement community safety strategies for their area of responsibility, consistent with the organisation's policy for community safety.

The fire sector is those sections of government departments, statutory authorities or organisations that have responsibility under jurisdictional arrangements for the delivery of firefighting and fire management services.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

It is essential that the prerequisite units listed below are obtained prior to the issuance of this unit to individuals within the fire sector or the units contributing to the attainment of a fire qualification.
