# **Assessment Requirements for PUA FIR612 Undertake post incident analysis**

**Release: 2**

# Assessment Requirements for PUAFIR612 Undertake post incident analysis

## Modification History

**Release 2.** This is the second release of this unit of competency in the PUA Public Safety Training Package.

- Update imported pre-requisite unit code.
- Update assessment conditions.

**Release 1.** This is the first release of this unit of competency in the PUA Public Safety Training Package.

## Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- analysing collected data
- applying work health and safety (WHS)/occupational health and safety (OHS) requirements
- collecting data for analysis, including historical
- compiling post-incident analysis reports and recommendations
- completing organisational documentation
- conducting investigations using organisationally approved scientific methods
- developing recommendations
- operating with and in an analysis team
- participating in post-incident analysis with key stakeholders and organisations
- using communication media and information technology.

## Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- factors, barriers and complexities that can impact a post-incident analysis
- guidance materials
- hazard and risk mitigation measures
- internal and external sources of information and data, including historical
- key personnel, including stakeholders
- legislation, regulations, codes of practice and industry standards
- organisational documentation, policies and procedures
- resources and support personnel
- structure of analysis teams, including roles and responsibilities

- types of organisations and agencies involved in post-incident analysis
- WHS/OHS requirements, including risk mitigation.

## Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in industry approved simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, equipment, tools and personal protective equipment (PPE) currently used in industry
- applicable documentation, including organisational procedures, industry standards, equipment specifications, regulations, codes of practice and operation manuals.
