PUADEFCA201B Operate indirect fire weapons

Revision Number: 1
PUADEFCA201B Operate indirect fire weapons

Modification History
Not applicable.

Unit Descriptor

This unit covers the competency required to safely handle, aim, fire, *manoeuvre* and maintain indirect fire weapons.

The operator must be thoroughly familiar with characteristics and capabilities of the weapon and competent in the application of fire in an operational environment.

The operator will work as part of a gun detachment team, be under direct supervision and receive orders that dictate all actions.

This unit is not intended for missile systems, rocket systems or for small arms.

Application of the Unit

The application of this unit in the workplace - the environments, complexities and situations involved - will be written during Phase II of the Review of the PUA00 Public Safety Training Package.

This text will be useful for the purposes of job descriptions, recruitment advice or job analysis; where possible, it will not be too job specific to allow other industries to import it into other Training Packages, where feasible.
Licensing/Regulatory Information
Not applicable.

Pre-Requisites
Prerequisite Unit/s Nil

Employability Skills Information
Employability Skills This unit contains employability skills.

Elements and Performance Criteria Pre-Content
Elements describe the essential outcomes of a Unit of Competency. Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the Required Skills and Knowledge and/or the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Maneuver the weapon | 1.1 Weapon is moved into position as directed  
1.2 Weapon is prepared for firing in accordance with **standard procedures**  
1.3 Weapon is prepared for movement in accordance with standard procedures  
1.4 Occupational health and safety (OH&S) requirements and recognised safety precautions are applied throughout the operation in accordance with standard procedures |
| 2. Aim the weapon | 2.1 **Ancillary equipment** is prepared for use and operated as required or directed  
2.2 Indirect fire weapon is aimed and adjusted as directed and in accordance with standard procedures  
2.3 Aiming calculations and recordings are maintained in accordance with standard procedures |
| 3. Fire the weapon | 3.1 **Ammunition** is handled under supervision and in accordance with standard procedures  
3.2 Ammunition is visually inspected, **defects** are reported to supervisor and defective ammunition is quarantined as directed  
3.3 Ammunition selected by the supervisor is prepared in accordance with **orders**  
3.4 Ammunition is loaded and unloaded as directed  
3.5 Gun is fired in accordance with orders  
3.6 Misfire drills are completed as directed and in accordance with standard procedures  
3.7 Ammunition residue is unloaded or removed after firing |
| 4. Maintain the serviceability of the weapon | 4.1 Defects are reported to supervisor  
4.2 **Operating maintenance** is conducted in accordance with standard procedures |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills
- hand eye coordination
- manual dexterity
- team work
- use communication equipment
- work in a stressful environment

Required Knowledge
- characteristics and technical capabilities of the system
- OH&S requirements
- safety precautions associated with the equipment

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to work as part of a gun detachment team; to use the ancillary equipment listed in the Range Statement; and to identify all ammunition defects listed in the Range Statement.

Consistency in performance

Competency should be demonstrated over a period of time either on operations or in simulated operational environments.

Context of assessment

Competency should be assessed in a simulated operational environment due to the high-risk nature of the activity. The simulation should replicate the live environment where stress and fatigue are key features. The individual must be assessed as part of a team carrying out each of the individual functions required to operate an indirect fire weapon.

Specific resources for assessment

Access to a live fire range, an indirect fire weapon and live ammunition.

Guidance information for assessment

Information that will assist or guide assessment will be written during Phase II of the Review of the PUA00 Public Safety Training Package.
## Range Statement

### RANGE STATEMENT

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. *Bold italicised* wording in the Performance Criteria is detailed below.

RANGE STATEMENT

Precision guided munitions
Smoke base eject/ all colours
And may be used with fuse types:
  • delay
  • proximity
  • super quick (point detonating/graze)
  • time

Defects must (for safety reasons) include

- Corrosion
- Cracks
- Damage packaging
- Dented cartridge cases
- Fluting of the cartridge case
- Incorrect fuse projectile combinations
- Incorrect propellants
- Proud or recessed primer
- Rust
- Weeping

Orders may be

- Transmitted electronically
- Verbal
- Written

Operating maintenance may include

- Cleaning
- Lubricating
