Unit Descriptor

Unit Descriptor

This unit covers the competency required to operate as a *team* member during the conduct of *defensive operations* in the Australian Defence Force (ADF).

Application of the Unit

Application of the Unit

The application of this unit in the workplace - the environments, complexities and situations involved - will be written during Phase II of the Review of the PUA00 Public Safety Training Package.

This text will be useful for the purposes of job descriptions, recruitment advice or job analysis; where possible, it will not be too job specific to allow other industries to import it into other Training Packages, where feasible.

Evidence Guide

EVIDENCE GUIDE

EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to work as part of a team by day and night in a simulated operational environment that replicates the extremes and stress of a threat environment.

Assessment must also confirm the ability to construct the following defences:

- shell scrapes
- weapon pits
- obstacles
- fire lanes
- weapon stakes.

Assessment must also confirm the ability to adhere to all defensive routines as detailed in the Range Statement.

Consistency in performance

Competency should be demonstrated over time and in a range of contexts that could be expected in the workplace.

Context of and specific resources for assessment

Context of assessment

Competency should be assessed in a simulated operational threat environment. The person should be exposed to the extremes of the operational environment under physical and mental stress. The context of assessment would usually be simulated due to the nature of this high-risk environment.

Specific resources for assessment

Access to a team; a simulated operational environment that replicates the extremes and stress of a threat environment; a rifle and ammunition; and a variety of equipment as listed in the Range Statement.

Guidance information for assessment

Information that will assist or guide assessment will be written during Phase II of the Review of the PUA00 Public Safety Training Package.
