RGRROP204 Assist with harness race starts

Release: 1

RGRROP204 Assist with harness race starts

Modification History

Release	Comments
Release 1	This version released with RGR Racing and Breeding Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to safely and efficiently assist in harness race starts during harness trials and race meetings. It involves handling horses safely in a high-pressure environment, working closely with other race meeting staff and following directions from the starter while adhering to safe work practices.

The unit applies to individuals with experience handling horses, and who are authorised to assist with harness race and trial starts in the horse racing industry. Working environments include racing stables, paddocks, yards, racecourses and public areas.

All work must be carried out to comply with workplace procedures, in accordance with applicable state/territory animal welfare and workplace health and safety legislative requirements.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit
