Unit Descriptor

Unit descriptor
This unit of competency specifies the outcomes required to oversee and monitor trackwork and training operations and manage the job functions associated with checking the equipment used in trackwork and the eligibility of participants, including greyhounds and horses, and to conduct kennel or stable inspections. It requires strong verbal and written communication skills and the knowledge and skills associated with staff and animal welfare, animal treatment and medication, the security of kennels or stables, the conduct of licensed or registered personnel and updating reports, records and other relevant documentation.

This unit of competency operates in workplace environments of racing administration, kennels, stables, racecourses and public areas.

Greyhound, harness and thoroughbred racing is strictly regulated throughout Australia. All stewards are appointed under the rules of racing by the relevant racing controlling body. For this reason enrolment in this unit of competency is restricted to people currently employed as a stipendiary or cadet steward or those who have been approved by a State Principal Racing Authority to undertake this unit.

Application of the Unit

Application of the unit
This unit of competency supports a stipendiary or cadet steward to manage the job functions associated with non-race day duties.

Competencies attained in this unit apply to the greyhound, harness or thoroughbred code of the industry. Consequently when performance criteria are applied they will relate to the greyhound code or the harness code or the thoroughbred code, and statements of attainment for this unit will reflect this distinction.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.
Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- adhering to safe handling and work practices when working around greyhounds or horses
- assessing industry requirements associated with trackwork and training operations, including safety, security, licensing or registration, and staff and animal welfare
- communicating with other stewards, racing officials, licensed and registered personnel and others using assertive communication techniques to gather, interpret and relay information related to steward non-race day duties
REQUIRED SKILLS AND KNOWLEDGE

- completing duties in accordance with safe operating procedures and nominated time frame
- complying with organisational policies and procedures
- enforcing the rules of racing
- identifying different items of industry-approved greyhound and horse race gear and assessing their condition in terms of safe use and need for repair
- identifying individual animals by industry signalment and documents
- identifying signs of ill health, injury or pain in racing animals
- managing trackwork incidents and emergencies
- monitoring and maintaining OHS and environmental work procedures
- providing clear and concise reports on trackwork and training in verbal and written formats
- reading and interpreting workplace documentation, including rules of racing
- relating to people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities
- teamwork skills to ensure completion of job tasks
- using initiative, discretion and judgements to solve racing issues and problems
- written communication skills to complete workplace documentation and reports.

Required knowledge

- avenues and procedures for personnel to access grief counselling
- communication procedures for communicating with other stewards and industry personnel, including reporting lines within the workplace and wider racing industry
- ethical conduct standards of relevant racing principal authority
- greyhound or racehorse identification features
- hazards and potential hazards in the workplace and risk control procedures
- industry terminology related to steward non-race day duties, racing operations and wider racing industry
- OHS and environmental legislative requirements
- organisational policies and procedures
- principles of effective communication
- purpose of gear and reasons for identifying and reporting problems with condition, fit and safety
- racing industry animal welfare requirements
- relevant rules of racing
- reporting requirements for irregularities and problems
- roles and activities of licensed and non-licensed racing industry personnel
- symptoms of and ways of checking for common signs of injury, ill health or distress in racing animals.
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy all of the requirements of the performance criteria, required skills and knowledge and the range statement of this unit and include evidence of the following:

- knowledge of the requirements, procedures and instructions that are to apply when performing the non-race day duties of a stipendiary steward
- implementation of procedures and timely techniques for the safe, effective and efficient application of stipendiary steward non-race day duties
- working with others to undertake and complete the required procedures that meet required outcomes.

Evidence should be collected over a period of time in a range of racing kennels or stables, trackwork and training contexts and include dealings with an appropriate range of situations.

Context of and specific resources for assessment

Competency must be assessed in a racing workplace that provides access to the required resources. Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints. It is to comply with relevant regulatory requirements or Australian Standards requirements.

Assessment of the practical components of this unit will be by observation of relevant skills.

The following resources must be available:

- commercial kennel and stable establishments, racecourse trackwork and training activities, and related facilities
- materials and equipment relevant to assessing candidate's ability to perform the non-race day duties of a stipendiary steward
- work instructions and related documentation.

Method of assessment

Assessment methods must satisfy the endorsed Assessment Guidelines of the Racing Training Package.

The suggested strategies for the assessment of this unit...
EVIDENCE GUIDE

are:

- written and/or oral assessment of candidate's required knowledge
- observed, documented and firsthand testimonial evidence of candidate's application of practical tasks.

Evidence is required to be demonstrated over a period of time, therefore where performance is not directly observed any evidence should be authenticated by supervisors or other appropriate persons, at least one of whom should be approved by the State Principal Racing Authority.

This unit may be assessed in a holistic way with other units of competency relevant to the industry sector, workplace and job role.

Guidance information for assessment

Assessment methods should reflect workplace demands (e.g. literacy and numeracy demands) and the needs of particular target groups (e.g. people with disabilities, Aboriginal and Torres Strait Islander people, women, people with a language background other than English, youth and people from low socioeconomic backgrounds).

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

The range statement provides details of how this competency can be used in the workplaces of the racing industry to perform steward's non-race day duties. Workplaces include greyhound kennels, harness and thoroughbred stables, racecourses, training tracks, administration buildings and public areas.

Stewards oversee the conduct of all racing-related activities within the responsibilities and powers described under the rules of racing. The conditions under which this unit is delivered and assessed must take into consideration these powers and responsibilities. These powers and responsibilities are further described in the rules of racing for the relevant racing code. It is strongly recommended that training facilitators and learners
RANGE STATEMENT

refer to these powers and responsibilities as part of the range of conditions for all units covered in the steward specialist area of the Training Package.

Trackwork and training operations monitoring may include:

- currency of kennelhand or stablehand, driver or rider registrations and trainer licenses
- greyhound or horse welfare
- personal protective equipment
- security and industry compliance
- staff welfare
- suitability and safety of gear and saddlery
- track conditions.

Staff welfare may include:

- effective supervision is provided at all times
- hazard identification, risk assessment and control measures are in place
- required safety equipment is maintained, including:
  - personal protective
  - first aid equipment
- stable evacuation procedure is clearly established and signed
- staff accommodation is clean, well maintained and affords privacy for male and female staff, such as apprentice jockeys
- staff are adequately trained in tasks carried out, including induction training.

Animal welfare may include:

- animals are exercised in a manner deemed proper and appropriate to the fitness of the greyhound or horse
- animals are maintained appropriately for the conditions, such as:
  - housed
  - rugged
- animals do not display obvious signs of ill health or distress
- boxes, kennels, runs and yards are clean and free of hazards
- clean and dust free bedding is evident
- feed and water containers are clean and free of sharp edges
- safe and industry-recognised gear and saddlery are used on animals.

Site security and safety may be

- ensuring availability of avenues for staff to
RANGE STATEMENT

evaluated by:

address harassment, bullying and discrimination

• checking available site security and safety measures, including:
  • visual deterrents, such as surveillance and signage are in place
  • designated first aid officer is on staff
  • employees are trained to deal with emergency and unexpected events
  • fire equipment is current and not obstructed
  • first aid kit is well maintained
  • emergency phone numbers are clearly displayed
  • evacuation procedures are clearly displayed, known and practised by staff

• reviewing available security measures for staff working on their own or those working in hours of darkness

• reviewing kennel or stable inspection checklists.

**Swab irregularities investigation**

may include:

• analysing options available to stewards and discussing follow-up action as required

• determining the penalty or punishment in regard to the rules of racing

• identifying relevant parties and communicating information appropriately

• interpreting documented results

• preparing reports in required format, and checking and filing documentation.

**Prohibited substances**

may include:

• substances listed in Australian and local rules of racing for the relevant racing code, which may include:
  • stimulants
  • sedatives, hormones and substances capable at any time of acting on one or more of the following mammalian body systems:
    • alimentary digestive system
    • cardiovascular system
    • central and peripheral nervous system
    • endocrine system
    • respiratory system
    • musculoskeletal system
    • urogenital system.
RANGE STATEMENT

**Industry participants** may include:
- agents and others
- licensed and registered persons
- officials
- owners.

**Obligations of licensed and registered persons, owners, agents and others** may include:
- Australian and local rules of racing related to:
  - conduct and behaviour, including:
    - race day procedures
    - staff and animal welfare
    - use of prohibited substances
    - nominations and acceptances
    - registration of greyhounds or horses
    - syndications
  - state and federal legislation and regulations related to:
    - animal welfare
    - anti-discrimination
    - equal employment opportunities
    - industrial awards
    - OHS
    - sexual harassment.

**Assistance following critical incidents** may include:
- advising persons involved or immediate witnesses of ways to access counselling
- identifying emergencies or accidents, and responding in accordance with race club procedures
- working within safe operating procedures.

**Assistance sought for personal recovery or debrief after critical incident** may include:
- accessing organisation counselling and debriefing avenues.
