RII30615 Certificate III in Small Mining Operations

Modification History

Release	Comments
	Replaces RII30613. Wording of packaging rules amended. Elective Groups B and C combined. Added BSBDIV301 Work effectively with diversity to Group B electives. Updated coding of imported units. Added qualification mapping information.

Qualification Description

This qualification reflects the role of individuals working in an underground or open cut soft rock small mine, such as an opal mine. They perform tasks involving a broad range of skilled applications applied in a wide variety of contexts, which may involve application of some discretion and judgment in selecting equipment, services or contingency measures. Licensing, legislative, regulatory and certification requirements that apply to this qualification can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the qualification.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

The following provides the packaging rules for this qualification, followed by the list of relevant units of competency.

Total number of units = 15 3 core units plus

12 elective units, of which:

- at least five (5) must be chosen from Group A
- no more than seven (7) may be chosen from Group B
- no more than one (1) unit may come from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

All elective units selected from outside this qualification must reflect current occupational and learning outcomes of this AQF qualification level.

There are both licensed and non-licensed units of competency relating to high risk work in the Resources and Infrastructure Industry Training Package. To be appointed under any statutory requirements in related roles, units of competency should be selected to meet the state/territory licensing requirements.

There are prerequisites to imported units listed in this qualification. Where a unit is imported as an elective care must be taken to ensure that all prerequisites specified are complied with.

Core units of competency					
Unit code	Unit title				
RIICOM201D	Communicate in the workplace				
RIIRIS201D	Conduct local risk control				
RIIWHS201D	Work safely and follow WHS policies and procedures				
Electives					
Group A					
Unit code	Unit title				
AHCNAR201A	Carry out natural area restoration works				
AHCSAW201A	Conduct erosion and sediment control activities				
AHCNAR303A	Implement revegetation works				
AHCSAW301A	Construct conservation earthworks				
RIICAR302D	Rehabilitate small mine site				
RIIMEX201D	Suppress dust in open-cut environment				
RIIMEX203D	Break oversize rock				
RIIMEX302D	Assess ground conditions
