Qualification Description

This qualification reflects the role of a skilled operator working with Civil construction plant, who applies a broad range of skills in a varied work context, using some discretion and judgement and relevant theoretical knowledge. The individual may provide theoretical advice and support a team.

Licensing, legislative, regulatory and certification requirements that apply to this qualification can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the qualification.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

Requirements for completion of the qualification

The following provides the packaging rules for this qualification, followed by the list of relevant units of competency.

Successful completion of nineteen (19) units of competency made up of:

- fourteen (14) core units of competency, and
- five (5) elective units of which:
 - at least one (1) must be chosen from group A, and,
 - at least two (2) must be chosen from Group B, and,
 - up to two (2) may be chosen from Group C, and,
 - up to one (1) may be chosen from a Certificate II, Certificate III or Certificate IV level from this, or any other Training Package or accredited course

OR
