RII31915 Certificate III in Drilling Oil & Gas (Off shore)

Release: 3

RII31915 Certificate III in Drilling Oil & Gas (Off shore)

Modification History

Release	Comments
1	This qualification replaces RII31913 Certificate III in Drilling Oil and Gas (Off shore). Packaging rules changed to clarify intent. BSBDIV301 Work effectively with diversity to elective Group B. Updated codes of imported units.
2	This version was released with RII Resources and Infrastructure Training Package version 3.0.
3	Minor change to add the following units of competency to the elective list: RIIOGF301E Monitor, operate and maintain mud pits and equipment RIIOGF302E Operate drilling fluids and mud pits

Qualification Description

This qualification reflects the role of an employee such as a derrickman on an offshore drill rig. They perform tasks involving a broad range of skilled applications applied in a wide variety of contexts, which may involve application of some discretion and judgement in selecting equipment, services or contingency measures.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

The following provides the packaging rules for this qualification, followed by the list of relevant units of competency.

Total number of units = 14

10 core units plus

4 elective units, of which:

- at least one (1) must be chosen from Group A
- no more than one (1) may be chosen from Group B
- no more than two (2) unit may be chosen from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

All elective units selected from outside this qualification must reflect current occupational and learning outcomes of this AQF qualification level.

There are both licensed and non-licensed units of competency relating to high risk work in the RII Resources and Infrastructure Industry Training Package. To be appointed under any statutory requirements in related roles, units of competency should be selected to meet the state/territory licensing requirements.

There are no prerequisites to imported units listed in this qualification. Where a unit is imported as an elective care must be taken to ensure that all prerequisites specified are complied with.
