RII40515 Certificate IV in Resource Processing

Release 3

RII40515 Certificate IV in Resource Processing

Modification History

Release	Comments
1	This qualification replaces RII40513 Certificate IV in Resource Processing. Amended packaging rules wording. Added RIILAT402D- Provide supervision in the leadership of diverse work teams to Group C electives. Updated imported units. Added qualification mapping information.
2	This version was released with RII Resources and Infrastructure Training Package version 3.0.
3	Minor change to add the following units of competency to the elective list: RIISAM403E Commission/recommission plant RIIWS401E Supervise work in confined spaces

Qualification Description

This qualification reflects the role of employees such as a supervisor or team leader working in a metal or coal processing facility. They perform tasks involving a broad range of varied activities most of which are complex and non-routine. They are responsible for the quantity and quality of the output of others, contribute to the development of technical solutions to non-routine problems and apply safety management plans to the workplace.

Licensing, legislative, regulatory and certification requirements that apply to this qualification can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the qualification.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

The following provides the packaging rules for this qualification, followed by the list of relevant units of competency.

Total number of units = 12

4 core units plus

8 elective units, of which:

- one (1) must be chosen from Group A
- at least one (1) must be chosen from Group B

- no more than four (4) may be chosen from the Group C
- no more than two (2) units may come from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

All elective units selected from outside this qualification must reflect current occupational and learning outcomes of this AQF qualification level.

There are both licensed and non-licensed units of competency relating to high risk work in the Resources and Infrastructure Industry Training Package. To be appointed under any statutory requirements in related roles, units of competency should be selected to meet the state/territory licensing requirements.

There are prerequisites to imported units listed in this qualification. Where a unit is imported as an elective care must be taken to ensure that all prerequisites specified are complied with.

Core units of competency	
<i>Unit code</i>	<i>Unit title</i>
RIICOM301D	Communicate information
RIIERR401D	Apply and monitor surface operations emergency preparedness and response systems
RIIGOV401D	Apply, monitor and report on compliance systems
RIIWHS301D	Conduct safety and health investigations
Electives	
Group A	
<i>Unit code</i>	<i>Unit title</i>
RIIRIS301D	Apply risk management processes
RIIRIS402D	Carry out the risk management processes
Group B	
<i>Unit code</i>	<i>Unit title</i>
PMAOPS411	Manage plant shutdown and restart
RIIRAI401D	Apply and monitor mine services and infrastructure systems
RIIWMG402D	Monitor and coordinate waste and process water treatment
Group C	
<i>Unit code</i>	<i>Unit title</i>

BSBCUS401	Coordinate implementation of customer service strategies
BSBINM401	Implement workplace information system
BSBINN301	Promote innovation in a team environment
BSBLED401	Develop teams and individuals
