RIIWSV404D Conduct fishing operations moved from Core to Group A elective units.</p> <p>RIIOGD304D Apply effective coal seam gas control practices added to Group A electives. RIICOM301D Communicate Information, RIILAT402D Provide supervision in the leadership of diverse work teams, RIIRIS402D Carry out the risk management process, RIIWHS301D Conduct Safety and Health Investigations, TAEASS401B Plan and organise assessment, TAEASS402B Assess competence, TAEASS403B Participate in assessment validation added to Group B electives. RIIOGD404D Coordinate air drilling operations removed from Group A electives. Updated codes of imported units.</p>

Qualification Description

This qualification reflects the role of employees such as a driller or operator working in a well servicing context. They perform tasks involving a broad range of varied activities most of which are complex and non-routine. They are responsible for the quantity and quality of the output of others and contribute to the development of technical solutions to non-routine problems.

Licensing, legislative, regulatory and certification requirements that apply to this qualification can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the qualification.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

The following provides the packaging rules for this qualification, followed by the list of relevant units of competency.

Total number of units = 14

7 core units plus

7 elective units, of which

- at least four (4) must be chosen from Group A
- at least one (1) must be chosen from Group B
- no more than two (2) may be chosen from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

All elective units selected from outside this qualification must reflect current occupational and learning outcomes of this AQF qualification level.

There are both licensed and non-licensed units of competency relating to high risk work in the RII Resources and Infrastructure Industry Training Package. To be appointed under any statutory requirements in related roles, units of competency should be selected to meet the state/territory licensing requirements.

There are prerequisites to imported units listed in this qualification. Where a unit is imported as an elective, care must be taken to ensure that all prerequisites specified are complied with.

Core units of competency	
<i>Unit code</i>	<i>Unit title</i>
