RII51013 Diploma of Well Servicing Operations

Modification History

Release	Comments
1	This is a new qualification.
2	Superseded imported units updated.
3	Corrected modification history.

Qualification Description

This qualification reflects the role of a Supervisor in a well servicing operation. The tasks performed by the supervisor in well servicing involve a high level of autonomy and require the application of significant judgement in planning and determining the selection of equipment/roles/techniques for themselves and others. They are required to demonstrate the application of a broad range of technical, managerial, coordination and planning skills. No licensing, legislative, regulatory and certification requirements apply to this qualification at the time of publication.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

Requirements for completion of the qualification

The following provides the packaging rules for this qualification, followed by the list of relevant units of competency.

Successful completion of sixteen (16) units of competency made up of:

- ten (10) core units, and
