</tbody>
</table>

Performance Evidence

Evidence is required to be collected that demonstrates a candidate’s competency in this unit. Evidence must be relevant to the roles within this sector’s work operations and satisfy all of the requirements of the performance criteria of this unit and include evidence that the candidate:

- locates and applies relevant legislation, documentation, policies and procedures
- implements the procedures and techniques for the safe, effective and efficient conduct of a feasibility study including:
  - preparing operating budgets and forecast trends to manage and control operating costs
  - analysing and reviewing production costs versus equipment/plant operating costs
  - evaluating new and used equipment using appropriate techniques
  - monitoring and maintaining plant and equipment
  - accessing and using appropriate technologies
- works effectively with others to undertake and complete the feasibility study including:
  - negotiating with internal/external customers, community and statutory/legal authorities
  - resolving or managing conflict throughout feasibility study activity
  - managing project and task allocations and all associated outcomes
- demonstrates completion of conducting feasibility studies that safely, effectively and efficiently meets all of the required outcomes on more than one (1) occasion including:
  - preparing a complete feasibility proposal
  - successfully conducting a feasibility study
  - preparing and presenting feasibility proposal to management
Knowledge Evidence

The candidate must demonstrate knowledge of conducting feasibility studies:

- applying legislative, organisation and site requirements and procedures for:
  - gaining statutory/legal approvals
  - tender specifications
  - negotiating and finalising contracts
  - implementing change
  - business planning
  - worksite operations
  - quality assurance principles
  - human resource policies and practices
  - industrial awards/enterprise agreements
  - business planning
  - establishing and maintaining organisational objectives
  - risk management principles, strategies and techniques
  - site products and services
  - customer/client relations
- site plant and equipment
- team management
- resource quantification
- financial models
- fundamentals of law and contract law
- organisational change and development
- environmental management
- work health and safety
- computer applications
- negotiation techniques

Assessment Conditions

- An assessor of this unit must satisfy the requirements of the NVR/AQTF or their successors; and Industry regulations for certification and licensing; and,
- this unit must be assessed in the context of this sector’s work environment; and,
- this unit must be assessed in compliance with relevant legislation/regulation and using policies, procedures, processes and operational manuals directly related to the industry sector for which it is being assessed; and,
- assessment may be conducted in conjunction with the assessment of other Units of Competency; and,
- assessment must confirm consistent performance can be applied in a range of relevant workplace circumstances; and,
• assessors must demonstrate the performance evidence, and knowledge evidence as outlined in this Unit of Competency, and through the minimum years of current* work experience specified below in an Industry sector relevant to the outcomes of the unit; or,

• where the assessor does not meet experience requirements a co-assessment or partnership arrangement must exist between the qualified assessor and an Industry subject matter expert. The Industry subject matter expert should hold the unit being assessed (or an equivalent unit) and/or demonstrate equivalence of skills and knowledge at the unit level. An Industry technical expert must also demonstrate skills and knowledge from the minimum years of current work experience specified below in the Industry sector, including time spent in roles related to the unit being assessed; and,

• assessor and Industry subject matter expert requirements differ depending on the Australian Qualifications Framework Level (AQF) of the qualification being assessed and/or Industry Sector as follows:

<table>
<thead>
<tr>
<th>Industry sector</th>
<th>AQF** Level</th>
<th>Required assessor or Industry subject matter expert experience</th>
</tr>
</thead>
<tbody>
<tr>
<td>Drilling, Metalliferous Mining, Coal Mining, Extractive (Quarrying) and Civil Construction</td>
<td>1</td>
<td>1 Year</td>
</tr>
<tr>
<td></td>
<td>2</td>
<td>2 Years</td>
</tr>
<tr>
<td>Drilling, Coal Mining and Extractive (Quarrying)</td>
<td>3-6</td>
<td>3 Years</td>
</tr>
<tr>
<td>Metalliferous Mining and Civil Construction</td>
<td>3-6</td>
<td>5 Years</td>
</tr>
<tr>
<td>Other sectors</td>
<td></td>
<td>Where this Unit is being assessed outside of the Resources and Infrastructure Sectors assessor and/or Industry subject matter expert experience should be in-line with industry standards for the sector in which it is being assessed and where no Industry standard is specified should comply with any relevant regulation.</td>
</tr>
</tbody>
</table>

*Assessors can demonstrate current work experience through employment within Industry in a role relevant to the outcomes of the Unit; or, for external assessors this can be demonstrated through exposure to Industry by conducting frequent site assessments across various locations.

**Where a unit is being delivered outside of a Qualification the first numeric character in the Unit code should be considered to indicate the AQF level.
