RIICAM401 Conduct a condition assessment of road pavements

Release: 1

RIICAM401 Conduct a condition assessment of road pavements

Modification History

Release	Comments
Release 1	This version first released with the RII Resources and Infrastructure Industry Training Package Version 8.0. Newly created unit.

Application

This unit describes the skills and knowledge required to plan, conduct and document road pavement condition assessments. This includes an understanding of road pavement functions and features.

The unit applies to those who work in a supervisory or paraplaning role. They generally perform a broad range of operational activities in their area of responsibility and are responsible for monitoring a safe work environment.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Civil Infrastructure Asset Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine the level of service required for the road pavement asset condition assessment	1.1 Obtain, interpret, clarify and confirm work requirements 1.2 Identify and comply with duty of care requirements according to legislation, standards, regulations, codes, guidelines and manuals 1.3 Evaluate community expectations of road pavement asset condition 1.4 Determine the organisational budget and resources available for the work requirements

	1.5 Identify key risk management strategies for road pavement asset
2. Plan for road pavement data collection	2.1 Identify key functions and features of road pavement assets 2.2 Plan and document types of road pavement data intended for collection according to organisational need 2.3 Develop road pavement data collection plan according to organisational policies and procedures 2.4 Communicate data collection activities to required personnel 2.5 Prepare and complete pre-inspection processes
3. Assess condition of road pavement and gather data points	3.1 Assess road pavement network and determine the percentages of different grades of pavement condition 3.2 Determine asset condition rating and risk score according to task requirements 3.3 Gather road pavement data points according to organisational and task requirements 3.4 Report immediate service deficiencies and identified faults to required personnel 3.5 Identify and document potential risks, hazards and environmental issues according to organisational policies and procedures
4. Finalise reporting activities and undertake data validation	4.1 Document condition assessment findings according to organisational policies and procedures 4.2 Determine completeness of data collection according to task requirements 4.3 Validate data according to organisational and task requirements 4.4 Organise data collected in a retrievable format according to organisational policies and procedures 4.5 Securely store data collected according to organisational procedures, legislative requirements, and industry practices 4.6 Submit report to required personnel on data collection activities and results according to task requirements 4.7 Seek and respond to feedback

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Numeracy	Calculates resourcing and budget requirements and performs mathematical calculations
Oral communication	Conveys information and requirements clearly and listens actively
Planning and organising	- Plans, organises and completes work according to defined requirements and schedules - Prioritises tasks and own workload for required outcomes
Technology	Uses required technological tools and software in collecting and documenting data
Writing	Prepares information that complies with requirements, using sector-specific vocabulary, grammatical structures and conventions

Unit Mapping Information

New unit.
