Assessment Requirements for RIICRM201E Escort mobile works

Release: 1

Assessment Requirements for RIICRM201E Escort mobile works

Modification History

| Release | Comment |
|---------|---|
| 1 | This unit replaces RIICRM201D Escort mobile road marking operations. Unit title changed from Escort mobile road marking operations. Editorial correction made to performance criteria 4.3, separating into 4.4 and 4.5. Corrected grammatical errors. |

Performance Evidence

Evidence is required to be collected that demonstrates a candidate's competency in this unit. Evidence must be relevant to the roles within this sector's work operations and satisfy all of the requirements of the performance criteria of this unit and include evidence that the candidate:

- locates and applies applicable documentation, policies and procedures
- implements requirements, procedures and techniques for the safe, effective and efficient escorting of mobile works including:
 - applying equipment/manual handling techniques
 - selecting and using relevant tools and equipment
 - applying job safety analyses / safe work method statements
- works effectively with others to undertake and complete the escorting of mobile works that meets all of the required outcomes including:
 - organising work activities to meet all task requirements
 - communicating clearly and concisely with others to receive and clarify work instructions
 - using a range of communication techniques to advise others clearly and concisely of work activity and exclusion zone
- demonstrates completion of escorting mobile works that safely, effectively and efficiently meets all of the required outcomes on more than one (1) occasion including:
 - identifying, reporting and recording hazards and risks
 - identifying safe locations for work convoy turns
 - applying signage requirements including at least three (3) of the following:
 - escort vehicle
 - vehicle mounted signage
 - highway traffic signs
 - site safety signage
 - temporary signage for the benefit of motorists and pedestrians
 - traffic conditions signage

Knowledge Evidence

The candidate must demonstrate knowledge of the following when escorting mobile works:

- organisation and site requirements and procedures for:
 - work, health and safety
 - equipment operation
 - operational, maintenance and basic diagnostics
 - mobile traffic control and general traffic control
 - job safety analyses / safe work method statements
 - housekeeping
- equipment types, characteristics, technical capabilities and limitations
- calculation of travel speed
- project quality requirements
- Civil construction terminology
- site isolation and traffic control responsibilities and authorities
- project traffic management plans

Assessment Conditions

- Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors; and industry regulations for certification and licensing; and,
- this unit must be assessed in the context of this sector's work environment; and,
- this unit must be assessed in compliance with relevant legislation/regulation and using policies, procedures, processes and operational manuals directly related to the industry sector for which it is being assessed; and,
- assessment may be conducted in conjunction with the assessment of other units of competency; and,
- assessment must confirm consistent performance can be applied in a range of relevant workplace circumstances; and,
- assessors must demonstrate the performance evidence, and knowledge evidence as outlined in this unit of competency, and through the minimum years of current* work experience specified below in an industry sector relevant to the outcomes of the unit; or,
- where the assessor does not meet experience requirements a co-assessment or partnership arrangement must exist between the qualified assessor and an industry subject matter expert. The industry subject matter expert should hold the unit being assessed (or an equivalent unit) and/or demonstrate equivalence of skills and knowledge at the unit level. An industry technical expert must also demonstrate skills and knowledge from the minimum years of current work experience specified below in the industry sector, including time spent in roles related to the unit being assessed; and,
- assessor and industry subject matter expert requirements differ depending on the Australian Qualifications Framework Level (AQF) of the qualification being assessed and/or industry sector as follows:

| Industry sector | AQF** Level | Required assessor or industry subject matter expert experience |
|--|---|--|
| Drilling, Metalliferous Mining, Coal Mining, Extractive (Quarrying) and Civil Construction | 1 | 1 Year |
| | 2 | 2 Years |
| Drilling, Coal Mining and Extractive (Quarrying) | 3-6 | 3 Years |
| Metalliferous Mining and Civil Construction | 3-6 | 5 Years |
| Other sectors | Where this unit is being assessed outside of the Resources and Infrastructure Sectors, assessor and/or industry subject matter expert experience should be in-line with industry standards for the sector in which it is being assessed and, where no industry standard is specified, should comply with any relevant regulation. | |

*Assessors can demonstrate current work experience through employment within industry in a role relevant to the outcomes of the unit; or, for external assessors this can be demonstrated through exposure to industry by conducting frequent site assessments across various locations.

**Where a unit is being delivered outside of a qualification the first numeric character in the unit code should be considered to indicate the AQF level.
