RIICTB301E Undertake visual inspections

Release: 1

RIICTB301E Undertake visual inspections

Modification History

Release	Comments
Release 1	This version first released with RII Resources and Infrastructure Industry Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to undertake visual inspections in civil construction. This includes walking over, around and under a bridge to assess faults and deterioration and providing a report documenting findings and recommendations.

It applies to those working in operational roles. They generally work under minimal supervision to undertake a broad range of tasks in varied work contexts, using some discretion and judgement in selecting equipment, services or contingency measures.

Licensing, legislative and certification requirements that apply to this unit can vary between states, territories, and industry sectors. Users must check requirements with relevant body before applying the unit.

Unit Sector

Civil construction

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Plan and prepare to undertake visual inspection	1.1 Obtain, interpret, clarify and confirm work instructions 1.2 Access, interpret and apply documentation required to undertake visual inspections and confirm work activity is compliant 1.3 Obtain and interpret emergency procedures and identify steps required to respond to emergencies 1.4 Select and wear personal protective equipment according to site requirements 1.5 Confirm and identify requirements for complying with environmental protection, safety and traffic management signage requirements

ELEMENT	PERFORMANCE CRITERIA
	1.6 Identify, address and report environmental issues, potential hazards and risks 1.7 Select plant, tools and equipment required to carry out tasks and check for faults 1.8 Identify, confirm, and locate materials required for work application
2. Inspect bridge	2.1 Locate access devices in reach of areas for inspection according to job requirements 2.2 Assess faults, damage and deterioration by walking over, under and around the bridge 2.3 Observe bridge under the passage of vehicles to assess faults and deterioration 2.4 Complete reports on condition of bridge stating findings and methods of correction according to job requirements
3. Conduct clean-up activities	3.1 Clear work area and dispose of or recycle materials according to site requirements 3.2 Clean, check, perform maintenance on and store plant, tools and equipment according to manufacturer specifications and site requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Oral communication	- Identifies and interprets information from verbal instructions - Conveys information and instructions to others verbally
Self-management	Monitors and minimises own exposure to worksite risks and hazards during work activities
Writing	Communicates and documents information in written form

Unit Mapping Information

Supersedes and is equivalent to RIICTB301D Undertake visual inspection.
