RIICWD523D Prepare asphalt mix design

Release: 2

RIICWD523D Prepare asphalt mix design

Modification History

Release	Comment
1	This unit replaces RIICWD523A Prepare asphalt mix design
2	Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

Application

This unit describes a participant's skills and knowledge required to prepare an asphalt mix design in Civil construction.

This unit is appropriate for those working in management role or technical specialist roles:

No licensing or certification requirements apply to this unit at the time of publication.

Unit Sector

Civil construction

Elements and Performance Criteria

1. Plan and prepare for the asphalt mix design	1.1 Access, interpret and apply asphalt mix design documentation and ensure the work activity is compliant 1.2 Obtain, read, interpret, clarify and confirm work requirements 1.3 Identify and confirm the asphalt mix project requirements and information 1.4 Prepare a design plan which makes best use of the available resources and meets the design requirements
2. Undertake the asphalt mix design	2.1 Interpret and analyse data and identify viable options 2.2 Interpret and analyse data and recommend the preferred option 2.3 Complete the design of the asphalt mix 2.4 Prepare a cost estimate for executing the designed asphalt mix 2.5 Participate in the review of the asphalt mix design with peers

	<p>and stakeholders</p> <p>2.6 Complete the documentation of the asphalt mix design</p> <p>2.7 Monitor and coordinate the progress of other team members involved in the design process</p> <p>2.8 Gain design approval</p>
3. Finalise design processes of asphalt mix design	<p>3.1 Ensure filing of design records is completed</p> <p>3.2 Complete and submit design cost and other reporting</p> <p>3.3 Participate in performance review of the design process</p> <p>3.4 Seek client feedback and contribute to the verification of the design</p> <p>3.5 Close out all systems</p>
4. Support and review the application of the asphalt mix design	<p>4.1 Provide clarification and advice to those applying the design</p> <p>4.2 Review the application of the design and recommend changes for continuous improvements</p> <p>4.3 Contribute to the validation of the design</p>

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit. Further information is available in the Resources and Infrastructure Industry Training Package Companion Volume.
