RIIEGS201D Operate in isolated and remote situations

Release: 2

RIIEGS201D Operate in isolated and remote situations

Modification History

Release	Comment
1	This unit replaces RIIEGS201A Operate in isolated and remote situations
2	Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

Application

This unit describes a participant's skills and knowledge required to operate in isolated and remote situations in Metalliferous mining.

This unit is appropriate for those working in operational roles. Licensing, legislative, regulatory and certification requirements that apply to this unit can vary between states, territories, and Industry sectors. Relevant information must be sourced prior to application of the unit.

Unit Sector

Metalliferous mining

Elements and Performance Criteria

1. Plan and prepare for operating in remote environments	1.1. Access, interpret and apply isolated and remote situations documentation and ensure the work activity is compliant
	1.2. Obtain, read, interpret, clarify and confirm work requirements
	1.3. Collate and record information relating to operating in the remote environment
	1.4. Establish detailed operating and travel plans, including a disaster plan and fallback position, in consultation with supervising staff
	1.5. Complete remote area survival training
	1.6. Notify appropriate authorities of the action plans and time schedules
	1.7. Identify and source relevant maps

	1.8. Identify and address potential risks, hazards and environmental issues, and implement control measures
	1.9. Select and wear personal protective equipment appropriate for work activities
	1.10. Obtain and interpret emergency procedures, and be prepared for fire/accident/emergency
2. Prepare for departure	2.1. Prepare personal needs for activities or travel in remote areas
	2.2 Prepare transportation and equipment for use in prescribed work location or along prescribed routes
	2.3. Obtain, study and interpret relevant maps prior to departure
	2.4. Report and record planned activities and itinerary prior to departure
3. Prepare for emergency situations	3.1. Check provisioning meets operational and emergency needs
	3.2. Check that initial planning and regular monitoring ensures structured use of available provisions and resources
	3.3. Include emergency management procedures as an integral part of operating plans
4. Operate in remote environments	4.1. Complete activities according to instructions and established time schedules
	4.2. Carry out all activities in remote situations in accordance with procedures
	4.3. Continually monitor hazards and risks , and ensure safety of self, other personnel, plant and equipment
	4.4. Follow established reporting procedures on completion of planned activities on return to base

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit. Further information is available in the Resources and Infrastructure Industry Training Package Companion Volume.
