RIIENV401E Supervise dust and noise control

Release: 1

RIIENV401E Supervise dust and noise control

Modification History

Release	Comments
Release 1	This version first released with RII Resources and Infrastructure Industry Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to supervise dust and noise control in the resources and infrastructure industries.

It applies to those working in supervisory roles. They are generally responsible for the output of others, contribute to the development of technical solutions to non-routine problems and apply management plans to the workplace.

Licensing, legislative and certification requirements may apply to this unit and can vary between states, territories and industry sectors. Users must check requirements with relevant body before applying the unit.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Access and share requirements and procedures	1.1 Obtain, interpret and confirm work requirements 1.2 Access, interpret and apply documentation required to supervise dust and noise control 1.3 Communicate clearly to relevant personnel 1.4 Explain the health and environmental implications of non-conformance to all relevant personnel
2. Plan and implement site requirement	2.1 Plan control measures and work practices with colleagues to ensure compliance 2.2 Implement control measures and work practices to ensure compliance 2.3 Plan and implement dust and noise monitoring according to workplace procedures 2.4 Identify dust and noise control training needs and implement training as required
3. Monitor, adjust and	3.1 Identify, rectify and report actual/potential dust and noise problems

ELEMENT	PERFORMANCE CRITERIA
report	promptly and decisively to ensure compliance 3.2 Manage activities so that potential non-compliance issues are minimised 3.3 Submit recommendations on improvements in dust and noise control according to workplace procedures 3.4 Inform individuals/teams of the results of improvements in dust and noise control 3.5 Maintain systems, written records and reporting procedures according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	Identifies and interprets information from workplace procedures, policies, documentation and systems
Oral communication	- Presents information or assistance using industry specific vocabulary - Uses listening and questioning to clarify and confirm understanding
Problem solving	Identifies a range of factors that impact on a decision, including own values and principles, the needs, power, values, beliefs and assumptions of stakeholders

Unit Mapping Information

Supersedes and is equivalent to RIIENV401D Supervise dust and noise control.
