RIENV402D Implement and monitor environmental policies

Release: 2

RIENV402D Implement and monitor environmental policies

Modification History

Release	Comment
1	This unit replaces RIENV402A Implement and monitor environmental policies
2	Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

Application

This unit describes a participant's skills and knowledge required to implement and monitor environmental policies in the Resources and Infrastructure Industries.

This unit is appropriate for those working in supervisory and technical specialist roles.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Elements and Performance Criteria

1 Provide information to the work team	<p>1.1 Access, interpret and apply environmental policy documentation and ensure the work activity is compliant</p> <p>1.2 Explain environmental and energy efficiency information to the work team in a clear and concise manner and ensure it is readily accessible to all</p> <p>1.3 Convey organisation's activities/performance in regard to environmental and energy efficiency management and business sustainability</p> <p>1.4 Explain links between environmental, energy consumption, financial, safety and other risk areas and how these are integrated in organisational policies and practices</p> <p>1.5 Provide information on environmental and energy efficiency systems and procedures and other risk areas within the area of management responsibility</p>
2 Implement and monitor operational procedures	<p>2.1 Identify and assess existing and potential environmental and energy efficiency risks and/or seek required expert advice</p> <p>2.2 Carry out prioritised recommendations from the assessments</p>

	<p>of operational procedures</p> <p>2.3 Implement organisational environmental and energy efficiency policies and procedures, including risk policies and procedures</p> <p>2.4 Allocate tasks and monitor outcomes, in accordance with organisational policies and targets</p> <p>2.5 Implement contingency plan promptly when incidents occur</p>
3 Implement and monitor change and continuous improvement	<p>3.1 Implement environmental and energy efficiency improvement plans for own work group and integrate with other operational activities</p> <p>3.2 Identify, implement and monitor best practice approaches to improving environmental and energy efficiency performance by reducing environmental and greenhouse risk and waste</p> <p>3.3 Seek suggestions and ideas about environmental energy efficiency management from the work team and act upon where approved</p> <p>3.4 Seek suggestions from supply chain at tender/contract stage for ways of improving environmental and energy consumption performance</p>
4 Implement and monitor recording procedures	<p>4.1 Identify and implement internal and external reporting procedures</p> <p>4.2 Maintain environmental and energy efficiency written records accurately and legibly, and store securely in a reportable format</p> <p>4.3 Monitor information/records, identify trends for continuous improvement of environmental and energy consumption performance</p>
5 Implement and monitor an environmental and energy efficiency management training program	<p>5.1 Identify environmental and energy efficiency training needs including knowledge gaps in policies and procedures</p> <p>5.2 Make arrangements for fulfilling training needs with relevant parties</p>

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit. Further information is available in the Resources and Infrastructure Industry Training Package Companion Volume.
