RIIERR302E Respond to local emergencies and incidents

Release: 1

RIIERR302E Respond to local emergencies and incidents

Modification History

Release	Comments
Release 1	This version first released with RII Resources and Infrastructure Industry Training Package Version 3.0.

Application

This unit describes the skills and knowledge required to respond to a range of local emergencies and incidents. It includes implementing response plans, monitoring the situation, taking necessary precautionary measures, and supporting formal relief.

This unit applies to those working in site-based roles in the coal mining, metalliferous mining, drilling, extractive, and civil infrastructure environments.

Licensing, legislative, regulatory and certification requirements that apply to this unit can vary between States, Territories, and industry sectors, and must be sourced from state jurisdictions prior to applying the unit.

Unit Sector

Civil infrastructure

Coal mining

Drilling

Extractive

Metalliferous mining

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Elements describe the essential outcomes.	*Performance criteria describe the performance needed to demonstrate achievement of the element.*
1. Prepare to respond to local emergency or incident	1.1 Identify, clarify and confirm nature, scope and location of emergency or incident 1.2 Access, interpret and apply local emergency or incident documentation 1.3 Obtain, interpret, clarify and confirm work requirements

ELEMENT	PERFORMANCE CRITERIA
Elements describe the essential outcomes.	*Performance criteria describe the performance needed to demonstrate achievement of the element.*
	1.4 Assess emergency or incident, and determine appropriate course of action
	1.5 Notify required internal and external personnel of emergency or incident according to workplace procedures
	1.6 Identify hazards and environmental issues, assess risks, and implement control measures
