RIIERR406 Provide support for rescue operations

Release: 1

RIIERR406 Provide support for rescue operations

Modification History

This unit replaces RIIERR310D Provide support for rescue operations. Minor endorseable amendments have been made to Elements, Performance Criteria, Foundation Skills, Performance Evidence and Knowledge Evidence to better reflect current industry practices and clarify training outcomes.

Application

This unit describes the skills and knowledge required to organise and allocate equipment and resources to support rescue operations in mining.

It applies to those who work in supervisory roles. They are generally responsible for the outcomes of others, contribute to the development of solutions to non-routine problems, and apply management plans in the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Elements describe the essential outcomes.	*Performance criteria describe the performance needed to demonstrate achievement of the element.*
1. Plan and prepare to provide support for rescue operations	1.1 Access, interpret and apply required documentation
	1.2 Obtain, interpret, clarify and confirm work requirements
	1.3 Identify and address potential risks, hazards and environmental issues and implement control measures
	1.4 Select and wear personal protective equipment appropriate for work activities
	1.5 Validate team members' current rescue competency status
	1.6 Identify and record rescue team membership
	1.7 Assess and monitor team members' readiness for rescue operation
	1.8 Allocate individual team preparation and assembly areas
	1.9 Maintain team's state of readiness and deploy when advised by Incident Control

ELEMENT	PERFORMANCE CRITERIA
	1.10 Communicate and coordinate activities with others 1.11 Regularly update team members on incident status
2. Organise team and equipment	2.1 Identify and engage support personnel 2.2 Identify and obtain incident response equipment 2.3 Test, repair and replace equipment, record and report data 2.4 Allocate equipment to team 2.5 Communicate with Incident Control on personnel and equipment status
3. Maintain supply of resources	3.1 Coordinate transport for teams entering the mine 3.2 Identify, locate and obtain ongoing resource requirements 3.3 Test, repair and replace equipment, record and report data 3.4 Report and record unavailability of vital equipment to Incident Control 3.5 Distribute ongoing resource requirements to teams and fresh air base 3.6 Ensure continuity of catering and supplies for team
4. Record and report resource allocation and usage	4.1 Maintain and collate written records and reports 4.2 Manage equipment allocation, record log in and log out information 4.3 Conduct handover briefings with oncoming personnel

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Writing	• Prepares specific information that complies with a range of regulatory requirements, using sector-specific terminology
Oral communication	• Conveys information and requirements clearly, and listens carefully

Skill	Description
Reading	• Identifies and interprets relevant information from workplace procedures, documentation, legislation and regulations

Unit Mapping Information

Supersedes and is equivalent to RIIERR310D Provide support for rescue operations.
