Assessment Requirements for RIIHAN202D Handle and store cargo

Release: 1

Assessment Requirements for RIIHAN202D Handle and store cargo

Modification History

Not applicable.

Performance Evidence

Evidence is required to be collected that demonstrates a candidate's competency in this unit. Evidence must be relevant to the roles within this sector's work operations and satisfy all of the requirements of the performance criteria of this unit and include evidence that the candidate:

- locates and applies relevant documentation, policies and procedures
- implements the requirements, procedures and techniques for the safe, effective and efficient completion of handling and securing cargo including:
 - planning and preparing equipment, handling and storing cargo, and handling and storing bulk cargo
 - implement safe working limits when handling and lifting cargo
 - assess, interpret and apply information including technical information
- works effectively with others to undertake and complete handling and securing cargo that meets all of the required outcomes including:
 - using a range of communication techniques and systems to convey information, coordination and meaning
- demonstrates consistent timely completion of handling and securing cargo that safely, effectively and efficiently meet all of the required outcomes on a minimum of three (3) separate occasions including:
 - identifies remedial action to be taken to deal with errors, omissions and shortages for handling and storing cargo demonstrating at least three (3) of the following processes to:
 - report
 - record
 - rectify
 - repair
 - adjust
 - replace
 - handle, check, move, store cargo and bulk cargo in at least (2) of the following cargo products:
 - fluids
 - powder
 - containers
 - restrained palletised
 - loose palletised
 - tubulars
 - communicating with the crane operator using appropriate signals to direct movement of loads
 -

Knowledge Evidence

The candidate must demonstrate knowledge of handling and storing cargo through:

- identifying and complying with WHS obligations
- complying with company and statutory guidelines, procedures and practices

- identifying crane operations and operator responsibilities
- identifying and complying safe lifting and handling techniques
- identifying and using slinging requirements
- identifying communication systems and techniques
- complying with permit to work system
- identifying and complying with operational requirements and principles of equipment
-

Assessment Conditions

- An assessor of this unit must satisfy the requirements of the NVR/AQTF or their successors; and Industry regulations for certification and licensing; and,
- this unit is best assessed in the context of this sector's work environment;
- where personal safety or environmental damage are limiting factors, assessment may occur in a simulated environment provided it is realistic and sufficiently rigorous to cover all aspects of this sector's workplace performance, including environment, task skills, task management skills, contingency management skills and job role environment skills; and,
- this unit must be assessed using Resources and Infrastructure Industry sector specific policies, procedures, processes and operational manuals; and,
- assessor requirements differ between sectors as follows:
 - when assessing this unit in the context of the **Drilling** sector:
 - an assessor must demonstrate the performance evidence, and knowledge evidence as outlined in this Unit of Competency, and through five (5) years of work in the Industry sector; or,
 - where a co-assessment or partnership arrangement exists between a qualified assessor and an Industry technical expert, the Industry technical expert can hold the unit being assessed, and/or demonstrate equivalency of skills and knowledge at the unit level. An Industry technical expert must also demonstrate a minimum of three (3) years of continuous work in the Industry sector, with the preceding one (1) year in the unit they are co-assessing; or,
 - when assessing this unit in the context of the **Metalliferous Mining** sector:
 - an assessor must demonstrate the skills and knowledge of this unit through five (5) years of current and continuous work with the Industry sector and must hold the TAE Assessor Skill Set or equivalent; or,
 - when assessing this unit in the context of the **Coal Mining** sector:
 - an assessor must demonstrate the skills and knowledge of this unit through twelve (12) month work experience in an Industry relevant to the skills being assessed within the last three (3) years; and,
 - where the assessor does not have current experience a co-assessment or partnership arrangement needs to exist between the qualified assessor and an Industry technical expert/ subject matter expert. The Industry technical expert/subject matter expert must demonstrate competency in the unit being assessed, and be currently working in the sector with a minimum of twelve (12) months' work experience within the last three (3) years; or,
 - when assessing this unit in the context of the **Extractive** sector
 - an assessor must demonstrate the skills and knowledge of this unit through five (5) years' work experience in the Industry sector; and,

- where the assessor does not have current experience a co-assessment or partnership arrangement needs to exist between the qualified assessor and an Industry technical expert/ subject matter expert. The Industry technical expert/subject matter expert must hold the unit being assessed and be currently working in the sector with a minimum of two (2) years' of current work experience; or,
- when assessing this unit in the context of the **Civil Construction** sector
 - an assessor must demonstrate the skills and knowledge of this unit through five (5) years' work experience in the Industry sector; and,
 - where the assessor does not have current experience a co-assessment or partnership arrangement needs to exist between the qualified assessor and an Industry technical expert/ subject matter expert. The Industry technical expert/subject matter expert must hold the unit being assessed and be currently working in the sector with a minimum of two (2) years' of current work experience.
