RIIHAN309E Conduct telescopic materials handler operations

Release: 1

RIIHAN309E Conduct telescopic materials handler operations

Modification History

Release	Comment
1	This unit replaces RIIHAN309D Conduct telescopic materials handler operations. Performance criteria 7.3 removed. Knowledge evidence amended to remove earthworks from basic calculations. Mapping table added.

Application

This unit describes a participant's skills and knowledge required to conduct telescopic materials handler operations in the Resources and Infrastructure Industries.

This unit is appropriate for those working in operational roles.

Licensing, legislative, regulatory and certification requirements that apply to this unit can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the unit.

Elements and Performance Criteria

1. Plan and prepare for telescopic materials handler operations	<p>1.1 Access, interpret and apply telescopic materials handler documentation and ensure the work activity is compliant</p> <p>1.2 Obtain, read, interpret, clarify and confirm work requirements</p> <p>1.3 Identify and address potential risks, hazards and environmental issues, and implement control measures</p> <p>1.4 Select and wear personal protective equipment appropriate for work activities</p> <p>1.5 Identify, obtain and apply signage requirements</p> <p>1.6 Select plant, tools and equipment, check for serviceability/faults and rectify or report verbally or in writing</p>
2. Conduct telescopic materials handler pre-operational checks	<p>2.1 Perform pre-start, start-up, park-up and shutdown procedures</p> <p>2.2 Check telescopic materials handler controls, brakes, attachments and other implements for manoeuvrability and serviceability and ensure faults are rectified or reported</p>
3. Operate telescopic materials handler	<p>3.1 Assess site and operating hazards and apply safe operating techniques</p>

	3.2 Operate telescopic materials handler
4. Attach, secure, lift, carry and place materials	<p>4.1 Use load handling communication methods with all parties</p> <p>4.2 Communicate with Dogman to establish the weight of the load</p> <p>4.3 Communicate with Dogman to ensure safe working load requirements have been assessed and appropriate slings and lifting gear has been selected, attached and secured</p> <p>4.4 Locate machinery and ensure stability</p> <p>4.5 Shift the load</p> <p>4.6 Use conventional hand and audible signals during the operation</p>
5. Select, remove and fit attachments	<p>5.1 Select attachment for the task</p> <p>5.2 Move and fit attachment</p> <p>5.3 Test and confirm correct fitting and operation</p> <p>5.4 Use attachment per manufacturer's recommendations and design limits</p> <p>5.5 Remove, clean and store attachment</p>
6. Relocate the telescopic materials handler	<p>6.1 Prepare machine and equipment for relocation</p> <p>6.2 Transport machine and equipment safely between worksites, observing relevant codes and traffic management requirements</p>
7. Carry out machine operator maintenance	<p>7.1 Park and prepare telescopic materials handler for maintenance and shut down</p> <p>7.2 Conduct inspection and fault finding</p> <p>7.3 Perform scheduled operator maintenance</p> <p>7.4 Process written records</p>
8. Conduct housekeeping activities	<p>8.1 Clean-up work area and dispose of or recycle materials</p> <p>8.2 Clean, check, maintain and store plant, tools and equipment</p>

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit. Further information is available in the Resources and Infrastructure Industry Training Package Companion Volume.

Unit Mapping Information

Code and title current version	Code and title previous version	Comments	Equivalence status
RIIHAN309E Conduct telescopic materials handler operations	RIIHAN309D Conduct telescopic materials handler operations	Performance criteria 7.3 removed. Knowledge evidence amended.	Equivalent
