RIIMCP202D Conduct rail dispatch operations

Release: 2

RIIMCP202D Conduct rail dispatch operations

Modification History

Release	Comments
1	This unit replaces RIIMCP202A Conduct rail dispatch operations.
2	Correct content inserted into unit. Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

Application

This unit describes a participant's skills and knowledge required to monitor plant operations for coal preparation in the Coal Mining.

This unit is appropriate for those working in operational roles. Licensing, legislative, regulatory and certification requirements that apply to this unit can vary between states, territories, and Industry sectors. Relevant information must be sourced prior to application of this unit.

Unit Sector

Coal mining

Elements and Performance Criteria

1. Plan and Prepare for rail dispatch operations	1.1 Access, interpret and apply rail dispatch documentation and ensure the work activity is compliant 1.2 Receive, interpret and confirm dispatch requirements 1.3 Inspect and test run rail dispatch systems components and ensure they are safe and functioning 1.4 Carry out pre-start and start up procedures 1.5 Coordinate issues with others involved in or affected by the operations 1.6 Transfer to or confirm as being present the required quantity and
