Assessment Requirements for RIIMCU214D Conduct face ventilation operations

Release: 2

Assessment Requirements for RIIMCU214D Conduct face ventilation operations

Modification History

Not applicable.

Performance Evidence

Evidence is required to be collected that demonstrates a candidate's competency in this unit. Evidence must be relevant to the roles within this sector's work operations and satisfy all of the requirements of the performance criteria of this unit and include evidence that the candidate:

- locates and applies relevant documentation, policies and procedures
- implements the requirements, procedures and techniques for the safe, effective and efficient completion of conducting face ventilation operations including:
 - reading, interpreting, and applying technical information
 - identifying, addressing and reporting environmental issues, potential hazards and risks
 - applying equipment/manual handling techniques
 - selecting and using relevant tools and equipment
 - complying with environmental requirements
 - identifying work requirements
 - monitoring and identifying gas content
 - installing and extending ventilation equipment
 - reading and interpreting ventilation plans
 - applying isolation and tagging
- works effectively with others to undertake and complete conducting face ventilation operations in a way that meets all of the required outcomes including:
 - organising work activities to meet all task requirements
 - communicating clearly and concisely with others to receive and clarify work instructions
 - complying with written and verbal reporting requirements and procedures
 - resolving coordination requirements throughout work activities
- demonstrates consistent timely completion of conducting face ventilation operations that safely, effectively and efficiently meet all of the required outcomes on a minimum of three (3) separate occasions including:
 - completion of operations including at least two (2) of the following ;
 - auxiliary fan (forcing and extracting)
 - venturi blower
 - stoppings
 - brattice line
 -

Knowledge Evidence

The candidate must demonstrate knowledge of the following when conducting face ventilation operations through:

- equipment characteristics, technical capabilities and limitations
- gas characteristics
- causes and effects of static electricity
- auxiliary ventilation rules
- applying sequence plan
- being prepared for fire/accident/emergency

-

Assessment Conditions

- An assessor of this unit must satisfy the requirements of the NVR/AQTF or their successors; and Industry regulations for certification and licensing; and,
- this unit must be assessed in the context of this sector's work environment; and,
- this unit must be assessed using Resources and Infrastructure Industry sector specific policies, procedures, processes and operational manuals; and,
- an assessor must demonstrate the skills and knowledge of this unit through twelve (12) month work experience in an Industry relevant to the skills being assessed within the last three (3) years; and,
- where the assessor does not have current experience a co-assessment or partnership arrangement needs to exist between the qualified assessor and an Industry technical expert/ subject matter expert. The Industry technical expert/subject matter expert must demonstrate competency in the unit being assessed, and be currently working in the sector with a minimum of twelve (12) months' work experience within the last three (3) years.
