**Assessment Requirements for
RHMPO309E Conduct wheeled dozer
operations**

Release: 1

Assessment Requirements for RIIMPO309E Conduct wheeled dozer operations

Modification History

Release	Comment
1	This unit replaces RIIMPO309D Conduct wheeled dozer operations. Performance evidence removal of specific sectors and irrelevant demonstration activities. Grammatical updates. Added mapping table.

Performance Evidence

Evidence is required to be collected that demonstrates a candidate's competency in this unit. Evidence must be relevant to the roles within this sector's work operations and satisfy all of the requirements of the performance criteria of this unit and include evidence that the candidate:

- locates and applies relevant documentation, policies and procedures
- implements the requirements, procedures and techniques for the safe, effective and efficient completion of wheeled dozer operations including:
 - conducting prestart checks prior to commencing operations and shutdown procedures on completion of operations
 - carrying out vehicle refuelling requirements and procedures
 - driving and operating the equipment to site conditions
 - applying safe work practices and identifying and reporting all potential hazards, risks and environmental issues
 - applying problem solving and troubleshooting techniques
 - carrying out towing and pushing of equipment and plant
 - selecting and using the required tools and equipment
 - working safely around other machines, infrastructure and personnel
- works effectively with others to undertake and complete wheeled dozer operations that meet all of the required outcomes including:
 - using a range of communications techniques and equipment to convey information to others
 - maintaining written and verbal reporting requirements and procedures
 - communicating clearly and concisely with others to receive and clarify work instructions
- demonstrates completion of wheeled dozer operations that safely, effectively and efficiently meets all of the required outcomes on more than one (1) occasion including:
 - completing a minimum of three (3) of the following wheeled dozer operations:

- manoeuvring dozer
- blade application
- ripper application
- towing and pushing
- pushing and preparing overburden
- bench and pad preparation
- trimming and cutting
- building and maintaining stockpiles
- supporting other vehicles
- creation of windrows
- dump establishment
- road works
- contours
- batters
- rehabilitation and drainage
- final landform and the interpretation of associated survey pegs
- sealing tailing dams
- working safely around:
 - overhead power lines
 - other machines and personnel

Knowledge Evidence

The candidate must demonstrate knowledge of the following when conducting wheeled dozer operations:

- isolation procedures
- equipment processes, technical capability and limitations
- interpretation of plans, reports, maps, specifications
- geological and technical data (basic)
- signs of operator fatigue and how it should be managed
- dozer operational procedures and techniques (including towing and pushing)
- operational, maintenance and basic diagnostics
- housekeeping activities

Assessment Conditions

- Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors; and industry regulations for certification and licensing; and,
- this unit must be assessed in the context of this sector's work environment; and,

- this unit must be assessed in compliance with relevant legislation/regulation and using policies, procedures, processes and operational manuals directly related to the industry sector for which it is being assessed; and,
- assessment may be conducted in conjunction with the assessment of other units of competency; and,
- assessment must confirm consistent performance can be applied in a range of relevant workplace circumstances; and,
- assessors must demonstrate the performance evidence, and knowledge evidence as outlined in this unit of competency, and through the minimum years of current* work experience specified below in an industry sector relevant to the outcomes of the unit; or,
- where the assessor does not meet experience requirements a co-assessment or partnership arrangement must exist between the qualified assessor and an industry subject matter expert. The industry subject matter expert should hold the unit being assessed (or an equivalent unit) and/or demonstrate equivalence of skills and knowledge at the unit level. An industry technical expert must also demonstrate skills and knowledge from the minimum years of current work experience specified below in the industry sector, including time spent in roles related to the unit being assessed; and,
- assessor and industry subject matter expert requirements differ depending on the Australian Qualifications Framework Level (AQF) of the qualification being assessed and/or industry sector as follows:

Industry sector	AQF** Level	Required assessor or industry subject matter expert experience
Drilling, Metalliferous Mining, Coal Mining, Extractive (Quarrying) and Civil Construction	1	1 Year
	2	2 Years
Drilling, Coal Mining and Extractive (Quarrying)	3-6	3 Years
Metalliferous Mining and Civil Construction	3-6	5 Years
Other sectors	Where this unit is being assessed outside of the Resources and Infrastructure Sectors, assessor and/or industry subject matter expert experience should be in-line with industry standards for the sector in which it is being assessed and, where no industry standard is specified, should comply with any relevant regulation.	

*Assessors can demonstrate current work experience through employment within industry in a role relevant to the outcomes of the unit; or, for external assessors this can be demonstrated through exposure to industry by conducting frequent site assessments across various locations.

**Where a unit is being delivered outside of a qualification the first numeric character in the unit code should be considered to indicate the AQF level.
