

# Assessment Requirements for RIIMPO317D Conduct roller operations

Release: 3

## **Assessment Requirements for RIIMPO317D Conduct roller operations**

### **Modification History**

Release	Comment
1	This unit replaces RIIMPO317A Conduct roller operations.
	Performance Criteria amended to include Manoeuvring, Driving and Parking Up; made requirements more explicit; introduced Housekeeping element.
2	Editorial corrections; Modification History added.
3	Removed repetition from Performance Criteria; amended Performance Evidence wording; editorial corrections.

Approved Page 2 of 4

#### **Performance Evidence**

Evidence is required to be collected that demonstrates a candidate's competency in this unit. Evidence must be relevant to the roles within this sector's work operations and satisfy all of the requirements of the performance criteria of this unit and include evidence that the candidate:

- locates and applies relevant documentation, policies and procedures
- implements the requirements, procedures and techniques for the safe, effective and efficient completion of roller operations in the civil construction Industry including:
  - conducting prestart checks prior to commencing operations and shutdown procedures on completion of operations
  - carrying out vehicle refuelling requirements and procedures
  - driving and operating the equipment to site conditions
  - applying safe work practices and identifying and reporting all potential hazards, risks and environmental issues
  - applying problem solving and troubleshooting techniques
  - applying operating techniques for leveling and compacting
  - selecting and using the required tools and equipment
  - working safely around other machines and personnel
  - safe parking and securing of equipment
- works effectively with others to undertake and complete roller operations in the civil construction industry that meet all of the required outcomes including:
  - using a range of communications techniques and equipment to convey information to others
  - maintaining written and verbal reporting requirements and procedures
  - organising work activities to meet all task requirements
  - communicating clearly and concisely with others to receive and clarify work instructions
- demonstrates consistent timely completion of roller operations in the civil construction Industry that safely, effectively and efficiently meet the required outcomes on a minimum of three (3) separate occasions including:
  - completion of operations using a variety of different material types and include the mandatory tasks of:
    - compacting materials to pattern and density
    - sealing and finishing
    - the removal and fitting of at least one attachment

Approved Page 3 of 4

#### **Knowledge Evidence**

The candidate must demonstrate knowledge of the following when conducting roller operations:

- identifying, interpreting ground conditions
- communicating and performing isolation procedures
- identifying equipment processes, technical capability and limitations
- being prepared for fire/accident/emergency
- identifying signs of operator fatigue and how it should be managed
- interpreting drawings and sketches
- identifying site isolation and traffic control responsibilities and authorities
- using civil construction terminology
- complying with project quality requirements
- applying basic principles of soil technology and soil compaction for civil works
- using basic earthworks calculations
- using civil construction activity sequences of road construction, earthworks and drainage
- applying operational, maintenance and basic diagnostics
- completing housekeeping activities

#### **Assessment Conditions**

- An assessor of this unit must satisfy the requirements of the NVR/AQTF or their successors; and Industry regulations for certification and licensing; and,
- this unit must be assessed in the context of this sector's work environment; and,
- this unit must be assessed using Resources and Infrastructure Industry sector specific policies, procedures, processes and operational manuals; and,
- an assessor must demonstrate the skills and knowledge of this unit through five (5) years' work experience in the Industry sector; and,
- where the assessor does not have current experience a co-assessment or partnership
  arrangement needs to exist between the qualified assessor and an Industry technical
  expert/ subject matter expert. The Industry technical expert/subject matter expert must
  hold the unit being assessed and be currently working in the sector with a minimum of
  two (2) years' of current work experience.
