RIIMPO333D Conduct underground load haul dump operations

Release: 3

RIIMPO333D Conduct underground load haul dump operations

Modification History

Release	Comment
1	This unit replaces RIIMPO333 Conduct underground load, haul and dump truck operations.
2	Changed "load, haul, dump truck" to "load haul dump"; removed repetition from Performance Criteria; amend terminology used; amend reference to Licensing requirements in Unit Application; editorial corrections.
3	Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

Application

This unit describes a participant's skills and knowledge required to Conduct underground load haul dump operations in the Metalliferous mining.

This unit is appropriate for those working in operational roles.

Licensing, legislative, regulatory and certification requirements that apply to this unit can vary between states, territories, and Industry sectors. Relevant information must be sourced prior to application of the unit.

Unit Sector

Metalliferous mining (Underground)

Elements and Performance Criteria

<p>1. Plan and prepare for underground load haul dump operations</p>	<p>1.1 Access, interpret and apply underground load haul dump operations documentation and ensure the work activity is compliant</p> <p>1.2 Obtain, read, interpret, clarify and confirm work requirements</p> <p>1.3 Identify and address risks, hazards and environmental issues and implement control measures</p> <p>1.4 Select and wear personal protective equipment appropriate for work activities</p> <p>1.5 Select, and check for faults, equipment and/or attachments for work activities</p> <p>1.6 Obtain and interpret emergency procedures, and be prepared for fire/accident/emergency</p> <p>1.7 Inspect and assess site conditions to determine if scaling is required and take action according to site requirements</p> <p>1.8 Use approved dust suppression and extraction methods</p> <p>1.9 Ensure work area is well ventilated before entry</p> <p>1.10 Identify need for, and apply signage and barricades during each stage of activities</p>
<p>2. Operate load haul dump plant</p>	<p>2.1 Carry out start-up, park, shutdown and secure equipment procedures</p> <p>2.2 Coordinate activities with others at the site prior to commencement of, and during, the work activity</p> <p>2.3 Drive and operate equipment safely within working environment, load limitations and road conditions</p> <p>2.4 Monitor and manage equipment performance using appropriate indicators and ensure efficiency of operations</p> <p>2.5 Continually monitor hazards and risks, and ensure safety of self, other personnel, plant and equipment</p> <p>2.6 Complete the work plan, within the operating capacities of the plant</p>
<p>3. Load material</p>	<p>3.1 Wash down surrounding area and wet material to suppress dust</p> <p>3.2 Scale down loose material</p> <p>3.3 Check job site and identify and manages possible misfires in accordance with site procedures</p> <p>3.4 Check, identify and remove contaminants</p> <p>3.5 Ensure all hoses and other auxiliary services are neatly stored</p>

	3.6 Bog to work plan removing required materials 3.7 Ensure road is kept clear during bogging
4. Haul material	4.1 Confirm type of material and haul to designated location 4.2 Lower bucket in recommended position 4.3 Identify and manage spillages on hauling surface 4.4 Maintain hauling efficiency by managing working environment conditions
5. Dump materials	5.1 Slow equipment to crawl when approaching dump site 5.2 Lift bucket to appropriate height in readiness for dumping, maintaining stability of loader 5.3 Dump material evenly distributing load or as required
6. Clean up job site	6.1 Scale down site ensuring loose materials are dislodged safely 6.2 Leave site and surrounding area clear, safe and accessible
7. Carry out operator maintenance	7.1 Prepare machine for maintenance 7.2 Conduct inspection and fault finding 7.3 Carry out scheduled maintenance tasks 7.4 Process written maintenance records
8. Carry out housekeeping activities	8.1 Clear work area and dispose of or recycle materials 8.2 Process records

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit. Further information is available in the Resources and Infrastructure Industry Training Package Companion Volume.
