Assessment Requirements for RIIPEO205D Conduct ship loading operations

Release: 1

Assessment Requirements for RIIPEO205D Conduct ship loading operations

Modification History

Not applicable.

Performance Evidence

Evidence is required to be collected that demonstrates a candidate's competency in this unit. Evidence must be relevant to the roles within this sector's work operations and satisfy all of the requirements of the performance criteria of this unit and include evidence that the candidate:

- locates and applies relevant documentation, policies and procedures
- works effectively with others to undertake and complete ship loader operations that meet all of the required outcomes including:
 - using a range of communications techniques and equipment to convey information to others
 - maintaining written and verbal reporting requirements and procedures
 - communicating to confirm work requirements
- demonstrates consistent timely completion of ship loader operations that safely, effectively and efficiently meet the required outcomes on a minimum of three (3) separate occasions including:
 - operating and controlling ship loader controls functions
 - loading ore
 - complying with ship's hatch loading plan
 - conducting equipment hose down and chute cleaning
 - performing housekeeping activities
 -

Knowledge Evidence

The candidate must demonstrate knowledge in conducting ship loading operations through:

- data entry computer based system
- accessing, interpreting and applying technical information
- accurate record keeping
- relevant operational and maintenance procedures and associated documentation
- site and equipment safety requirements and procedures
- ore type and quality
- environmental requirements e.g. dust suppression and constraints related to ship-loading operations
- impact of ship-loader operations on customer quality requirements
- impact of ship-loader operations on vessel loading specifications
- layout of vessel and potential structural hazards
-

Assessment Conditions

- An assessor of this unit must satisfy the requirements of the NVR/AQTF or their successors; and Industry regulations for certification and licensing; and,
- this unit must be assessed in the context of this sector's work environment; and,
- this unit must be assessed using Resources and Infrastructure Industry sector specific policies, procedures, processes and operational manuals; and,

- an assessor must demonstrate the skills and knowledge of this unit through five (5) years of current and continuous work with the Industry sector and must hold the TAE Assessor Skill Set or equivalent.
