# **Assessment Requirements for RIIPGP204D Carry out bore-field operations**

**Release: 1**

# **Assessment Requirements for RIIPGP204D Carry out bore-field operations**

## **Modification History**

Not applicable.

## Performance Evidence

Evidence is required to be collected that demonstrates a candidate's competency in this unit. Evidence must be relevant to the roles within this sector's work operations and satisfy all of the requirements of the performance criteria of this unit and include evidence that the candidate:

- locates and applies applicable legislation, documentation, policies and procedures
- implements requirements, procedures and techniques for the safe, effective bore-field operations activities including:
  - performing pre-start checks
  - diagnosing faults, identifying and addressing hazards
  - selecting and using required tools and equipment
  - continuously inspect plant and pipelines to identify defects and potential problems
  - selecting and using lifting equipment (manual, cranes and loads)
  - applying breakdown procedures
  - applying bore / catchment/dam procedures
  - applying detoxification procedures
  - comply with emergency procedures
  - comply with environmental and heritage procedures
  - comply with isolation procedures
- works effectively with others to undertake and complete the bore-field operations activities that meets all of the required outcomes including:
  - using a range of communications techniques and equipment to convey information to others
  - maintaining written and verbal reporting requirements and procedures
  - clarifying and confirming work requirements
- demonstrates consistent timely completion of bore-field operations activities that safely, effectively and efficiently meet all of the required outcomes on a minimum of three (3) separate occasions including:
  - correctly operating and monitoring equipment including
  - planning and preparing for bore-field activities,
  - monitoring water,
  - monitoring bore-field equipment
  - taking and interpreting data from equipment indicator readings
  - adjusting flow to maintain dam/tank levels
  - adjusting equipment to approved operating parameters to optimise performance, maintain efficient water treatment systems and to meet water quality targets
- 

## Knowledge Evidence

### Assessment Conditions

- An assessor of this unit must satisfy the requirements of the NVR/AQTF or their successors; and Industry regulations for certification and licensing; and,
- this unit must be assessed in the context of this sector's work environment; and,

- this unit must be assessed using Resources and Infrastructure Industry sector specific policies, procedures, processes and operational manuals; and,
- an assessor must demonstrate the skills and knowledge of this unit through five (5) years of current and continuous work with the Industry sector and must hold the TAE Assessor Skill Set or equivalent.
-
