RIISRM302D Conduct stockpile reclaiming operations

Release: 2

RIISRM302D Conduct stockpile reclaiming operations

Modification History

Release	Comment
1	This unit replaces RIISRM302A Conduct stockpile reclaiming operations
2	Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

Application

This unit describes a participant's skills and knowledge required to conduct stockpile reclaiming operations in Coal and Metalliferous mining and Extractive.

This unit is appropriate for those working in operational or supervisory roles.

No licensing or certification requirements apply to this unit at the time of publication.

Unit Sector

Coal mining

Metalliferous mining

Extractive

Elements and Performance Criteria

1. Plan and prepare for conduct stockpile reclaiming operations	1.1 Access, interpret and apply conduct stockpile reclaiming operations documentation and ensure the work activity is compliant 1.2 Obtain, interpret and clarify/confirm work requirements 1.3 Access, interpret and apply geological and survey data required to complete the allocated work 1.4 Carry out worksite inspection and rectify or report hazards and/or other notifiable conditions 1.5 Select and wear personal protective equipment 1.6 Using site communication methods and systems communicate clearly and concisely work requirements to others 1.7 Access and apply safety information and procedures
---	---

	throughout the work, and ensure safety of others, plant and equipment
2. Operate plant and equipment	<p>2.1 Coordinate activities with others at the site prior to commencement of, during, and on completion of the work activity</p> <p>2.2 Carry out pre-start, start-up, park-up and shutdown procedures</p> <p>2.3 Determine the plant and equipment's operating capacity and limitations</p> <p>2.4 Operate plant and equipment controls to reclaim materials</p> <p>2.5 Act on and report issues with monitoring systems and alarms</p> <p>2.6 Load, sample and despatch specified materials</p> <p>2.7 Recognise and respond to hazardous and emergency situations</p> <p>2.8 Complete the work plan ensuring outcomes are achieved</p> <p>2.9 Carry out reporting, complete and process written documents</p>
3. Carry out operator maintenance	<p>3.1 Carry out plant and equipment inspections and fault-finding</p> <p>3.2 Carry out routine operational servicing, lubrication and housekeeping tasks</p> <p>3.3 Visually inspect structures and components for fault conditions, wear and need of repair or replacement</p>

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit. Further information is available in the Resources and Infrastructure Industry Training Package Companion Volume.
